Letroduction of a Bill That Is More Than Presense in Part of Advocates.

As an object leason to the voters, Representative John Sharp Williams. As an object leason to the voters, Representative John Sharp Williams have been ended between all articles wherever in the aggregative with the would reduce the duties on all articles wherever in the aggregative wherever in the aggregative wherever will be a search of the John Sharp Williams and was a lunderstand it; he said, "puts his advocacy of protectionism upon the said to the said of the said the said of the said the said of the said the sai

Rounding Them Up.

All the "big interests," that is the trusts, the corporations and Wall street, are hotting their breath until they have "fixed things" with the Republican leaders and know that there will be no serious attempt at legislation that will upset their control of business. The annual round-up of congress is on to put the trust brand on the Republican steers and corral them until grass time comes again. The old and experienced leaders of the Republican steers and corral them until grass time comes again. The old and experienced leaders of the Republican steers and corral them until grass time comes again. The old and experienced leaders of the trust correal with head erect, they have been branded years ago, but some of "the kids"—the calves and yearings, fear the trust and corporation branding irog, but the corporation cowboys will round up the bunch they need, and let the balance run loose until the next seasion. When the necessary campaign funds has been prunised and the pledges of no drastic legislation given. Wall strength will resume the womed skearing of the annual crop of lambs.

of lambs.

The Usual Comprenies.

Railway rate legislation will result in a compromise as uswal. The house will pass a tairly good bill, because the tepoliticans must appear favorable to retorm, but the senate will climinate the clauses that will really control rates or make them harmless, as that the araended bill will give but sile will come when the amended bill is seen to the conference committee, and, as Speaker Cannon will appoint the house members, the majority of whom will be favorable to the compromise, and the majority of the aemate members are sure to be provalitied, the law will/not give the interstate commerce committee the power that is necessary in protect the public. The Republicans are past maters in the art of fooling the people.

—Secretary Shaw has been deliv-

ters in the art of fooling the people.

——Secretary Shaw has been delivering an address at Yale. Catching tem when they are young?—fodionapells, Journal.
——Shaw has quit making speeches and resigning from the cabinet. His presidential boom must be dead.—Memphis Commercial Appeal.
——There are said to be \$6 Republicans in the national house who favor a reduction of the tariff through teciprocal concessions. This, however, is far from constituting a majority of the party in the chamber. Much the larger number seem to agree with Mr. Daizell, of Pittsburg, that saybody who favora tariff reduction at this time ought to get out of the party. It is evidently to be a stand-pat compress.—Springfield Republican.

A GOOD HORSE STALL ment of Hay Rock and Man Which Is Improvement Over Old Style.

The features of the horse stall shown in out, are the hay rack and manger. The former is built outside the stall, and may be connected with second floor by a chute, says Fred O. Sibley, is Successful Farming. It should be made about three fee; wide and 18 inches deep, and the wood gratings be at least eight inches apart, so that the horse may easily pass in his head

AN IMPROVED HORSE STALL up to his eyes. Bottom should stant toward the manger, thus catching all litter, The horse grasping a mouthful of hay will hold it over the manger while eating where all loose particles will be caught. The uneaten portions remaining in the rack will not be mussed over.

A FEW SHEEP DON'TS.

What the Patient Animals Have
Say in Beference to
Their Comfort.

Their Comfort.

The editor of the Farm and Fireside has interviewed Sir Sheep and obtained the following pertinent protests as to his treatment:

Don't put us in a cold, bleak place to winter. We are very tender and need comfortable quarters.

Don't expect us to thrive without plenty of good water, Of course, we could eat snow for five or as insigle day and see how you enjoy the change. Don't feed us buckwheat and then wonder why we pull our wool.

Don't confine us to a small open shed for the winter, but give us also a good yard where we can enjoy the sunshine.

Don't look for a profit from us if

sunshine.

Don't look for a profit from us if
wintered on straw, or timothy hay, and
no grain, but feed so as to keep us in
a good, hearty condition. Then feed
for milk on a ration of clover hay,
oats, wheat bran, turnips, or any good
milk-producing food, as this is very
essential to our youkg, wherefrom all
your profit is derived.

Don't as I said before, keep us on

essential to our young, wherefrom all your profit is derived.

Don't, as I said before, keep us on timoth hay alone, for in case you find any of us cold and liceless, you will be telling your neighbors we died of grub in the head, when in reality it was a lack of grub in the stomach.

Don't turn us out on some old barren hillside in the spring as soon as you can discover a little green spot in the valley and then declare there is no profit in sheep.

Don't, if we have become weak and thin, and refuse to cwn our young, kick, club and misuse us, and use language entirely unfit for your Sabuath school class to hear, but tie the dog near by, and as we are no friend to the canine race our mother love soon turns to the innocent, helpless creature at our side and the trouble is over.

over.

Don't shear us the first of 'April,
then leave us out in the open air exposed to the cold and storm.

You would not tor'a moment think
of raising a good wheat or corn crop
without some labor and expense, and
it is the same with us. Just exercise
a little patience, kind treatment and
proper, care and food, and we will'amply repay you for your time and trouble.

Scaly Leg.

Scaly leg is not an hereditary disease, as some have supposed. It is the product of a minute insect, which gets ander the scales and burrows in the remotest crevices. The swelling resulting from the irritation causes the scales to lift up. This makes it possible to reach them with kerosene or other destructive Suid.

SHELTER FOR LIVESTOCK CHILDREN'S BILL OF FARE. CARCCES OF FAT TURKEYS An Important Matter for the Farmer to Consider During the Win-ter and Spring.

to Genetier During the Winter and Spring.

It is well for the farmer to consider whether he has made sufficient prising for the protein for th

the enimal requires for comfort even in the coldent weather.

A tight board fence to the sporth, or a dense hedge and windbreak, with sheds long enough and broad enough to allow cattle to take refuge from the rains of the spring, is all the protection that feeding cattle require. They do need protection from mud either by paving the feed lot with brick or by deep bedding. This puts the manure where it ought to be, and saves a vest amount of cost. The experience of all cattle feeders and experiment stations is, we think, that cattle under these conditions do better than when kept in close stables and tended with a greatly lacreased amount of labor.

The cattle that need better protection than this are the dairy cows, and for perfectly obvious reasons, says Wallace's Farmer. The dairy cow when properly fed is devoting her whole energies to the production of milk. She is therefore peculiarly sensitive to changes in the weather, especially cold-winds and reals.

The order in which cattle require protection is as follows: First, the

elaily cold winds and rain.

The order in which cattle require protection is as follows: First, the dairy cow; second, stock cattle; third, fattening cattle. Horses require least of all, and farmers who keep colts other than weanlings in the stable or barn the year around do them an unkindness rather than a kindness. A winter pasture either of second crop clover or of blue grass that has not been pastured closely in, the fail, with a hay stack to run to and a big straw stack to the cold of the control of the cold of

EMBDEN-TOULOUSE CROSS.

Characteristics of Goose Produces from Two Desirable Breeds of Birds.

Herewith we illustrate the kind of birds obtained by crossing an Emb-den gander on a Toulouse goose, says the Farmer's Review. The birds are plump and have the ability to make

THE FMBDEN-TOULOUSE CROSS.

rapid growth. For market purposes
the cross is a good one. Nothing,
however, would be gained by attempting to develop a breed from this cross.
The vigor obtained by the one cross
would not continue to manifest itself
in future generations, and the mixing
up of the characteristics of the two
breeds would give atmost endless variations. For market purposes it is
believed the result is to give greater
power of digestion and therefore of
growth.

Don't Shut Out the Sunlight.

It is easier to put an old board over a broken window than its to replace the window panes. But the boards shut out the aunlight. Without the good influence of the sunshine the fowls are not apt to be happy and thrifty. Hens will leave a dark house and seek the gouth side of a building, where they can bask in the sun's rays.

Silage.

Silage can be utilized to advantage in every section of the country on account of the variety of crops from which it can be made, and becayse it is an excellent substitute for grass in winter or summer feeding of farm live atock.

As fine a quality of sitage can be related from under the cows. Sione or cop, and there seems to be little difference between the feeding values of all cows lying on them frequently intract rhoumatism.

Curious Table Waich Was Furnished by Woman School Inspector of London

by Woman School Imspector of Louisian Control of Course of Louisian The decision of the board of education that children under five ought not sto be sent to school is on the sate ske, sithough much adverse criticism has been pourged upon it, says the Church Sclectic, /By way of answer to these critics the board has issued a volume containing a memorandum by their children who had been instructed to inquire into the whole matter. The chief inspector's aummary verifict is that "there is no intellectual advantage from school instruction under five," and "that unsuitable rather than insufficient feeding is responsible for sickly children." With reference to this latterpoint there is a curious table furnished by one of the women inspectors, giving the choice of "46 children who were asked what they would buy for dinner if provided with a penny and told to purchase it themselves. Thirteen chose flash and potatoes; five, fish only; five, potatoes only; two, peas and potatoes; fore, pudding; one, christman pudding; one, apple ple; one, jam colores; one, apples.

Pickies and even raw onlons figure largely in the diet of the slum children of London, and for this the ignorance of the mothers is clearly to blame.

At present many parents seem to need education far more even than the children.

ODD WEDDING SPEECHES.

A Number That Were Delivered in Dumb Show and Some That Were Sung.

Dumb Show and Some That Were Sung.

The recent wedding in New York at which the bridesmaids were representative of six nationalities, and each felicitated the bride in the language of her own country, was an odd affair, but probably not so well received as the speech of a young Englishman who was called upon to propose the toast, "The Bridesmaids," Apprised of his ordeal in advance he had devised an eacape, and with the single statement that silence was golden he brought from his pocket a set of gold bangles, which he bestowed upon the attendants of the brides. At a wedding feast at Dol, in Normandy, the demand for a speech resulted in the production of a guitar, upon which the speaker accompanied himself, while he chanted the praises of the bride. Had he stopped there all would have been well, but he changed to a praise of his store, and the guests threw him out of the house.

Doubtless a similar fate should have befallen the sharpshooter who wrote the name of the bride upon the wall with pistol builets, to the serious damage of the wall paper. Almost as odd was the performance of a German music hall performer, who, when called upon for entertainment, mounted the table upon lasses, cups and other furnishings.

"PLACE FOR BACHELORS.

They Would Get Their Just Deserts
Were They All Sent to
Korea.

"Korca's the place for bachelors, nit," said the sailor. "Bachelors in Korea is considered as children and has only children's privileges.
"Just ponder over what that there means.

children's privileges.

"Just ponder over what that there means.

"You, a Korean bachelor, get thirsty, You enter a rest house and call for palm wine. The pretty little amber-colored waltreas says:

"Married?"

"No,' says you,

"Heraus, then,' says she; and out you go, unslaked.

"You want to vote, but they won't let you vote if you ain't married.

"You apply for a job somewheres.
"How many children have you?" se the first question you're saked.
"And as soon as you say you're unmarried, they laugh in your face to thirk that you should presume to apply for work anywheres.
"Bachelors in civilized lands has all the hest of it. But in Korea they lead a dog's life."

Like It, But Different.
The capital of a western state had been relocated at a small county seat village where an old-time exhorter preached every Sunday with increasing enthusiasm as the building boom enlarged his congregation. He wanted a big revival, and urged all to join in the Christian work, saying vehemently:

In the Commentity:

"The Christian work is just like any other work, only it is very different."

—Magazine of Fun.

Most Unique Book.
In the possession of the family of
Prince de Ligne is a book which auZhoritles declare to be the most unique
publication in the world, because it is
reither-written nor-printed; he ledters are cut out of each follo, upon the
finest vellum, find are interleaved with
Diue paper, so that the text can be read
with perfect ease. Rudolf, of Germany,
in 1640 offered \$60,000 for the volume.

California growers are alarmed over the fact that Chilese in Asia have gone into the business of exporting pickled olives to the United States to compete with the California product. The import duty on olives in a jar of ten gallons or more is only 15 cents per gallon, according to the decision of the San Francisco collector.

Loaded from guards to the roof of the texas with crates of turkeys, geese, dacks and chickens until they resemble old Noah's ark, the steamers Keystone State, Greeniand and Kanawha are plowing their way np the Ohio, says the Fittsburg Dispatch of a recent date.

Shipments of from 600 to 800 crates of poultry are not an unuusual load for one boat to bring sato Pittsburg and packets have arrived with even the upper deck piled high with crates until the texas was hidden from sight and the pilot house peeped over a ragged bulwark of crates of clacking, gobbling fowls.

Starting from Ironton on Friday

Blarting from fronton on Friday morning the Keystone State headed up the river through the rain and fog. It was cold, of early and deserted along the river, but where a road cut through the willows indicating a landing a pile of crats stood waiting, and as the boat scraped the bank and the gangplank dropped, a lank native, who had evidently been there all night, crept out of a sheltef under the lee of the crates and said things about steamboats that always kept a fellow waiting. His freight was soon on board, and as the boat backed out he mounted his wagon back among the willows, cracked his whip over a mule and was lost in the fog.

Ashland produced more turkeys and chickens and before the boat reached Catlettsburg a landing was made where a cloud of smoke marked a campfire on the shore. A rather small boy with a very long double barreled shotgun stood guard over half a dozen crates of turkeys and a calf.

He had been left there on the previous afternoon to guard the shipment until the arrival of the boat. Making a shelter of willows and a fire of drift wood, he had passed a fairly comfortable night, cooked his breakfast of bacon and coffee in a tin can and as old frying pan in spite of the cold rain when started in early in the morning, and would have waited another day and night for the boat of mecessary. Catlettsburg produced a good blashpment from up the Big Sandy, and as the boat passed Huntington every Catlettsburg produced a good blashpment from up the Big Sandy, and as the boat passed Huntington every Catlettsburg produced a good blashpment from up the Big Sandy, and night for the boat if mecessary. Catlettsburg produced a good blashpment from up the Big Sandy, and as the boat passed Huntington every Catlettsburg produced a good blashpment from up the Big Sandy, and as the boat passed Huntington every Catlettsburg produced a good blashpment from up the Big Sandy, and as the boat passed Funtington every Catlettsburg produced a good blashpment from up the Big Sandy, and see feed up until by Thankagiving

No Risk.
"I understand your life Insurance company regarded you as an exceptionally good risk."
"No." answered the displeased policyholder. "I wosu'i any risk. I was a sure thing "—Washington Star.

Germany's Holden Metz.
Though Germany has neid Metz for
35 years, she is suri adding to the
strength of its decrease and has just
built three more great forts commanding the plateaus of Graveiotte and
Amanyillers.

The political storm center transferred from Louisville Frankfort, last Sunday, whithe fun is now on in earnest.

On another page will be found the annual report of Malckus Souther, Secretary of the Far-mers' Mutual Fire lusurance Co-of this county. It is full, well arranged and replete with valu-able information to the policy holders and the public.

One division of the Imperial Chinese Commission appointed by the Empress Dowager to study the governments of Japan, France America and other countries will shortly arrive in Washington. They will spend two months at the capital.

Carroll county has several statesmen who want to represent the Carroll-Trimble-Henry district in the State Senate in 1908, and four or five of them have already declared their intention of being candidates for the nomination when the time comes, Nothing like being the early bird in politics as well as in other matters.

Nothing like being the early bird in politics as well as in other matters.

Simon O'Donnell, a New York cattle buyer, purchased of John B. Kennedy, of Bourbon county, a herd of fifteen fancy beef catties aid to be the finest ever raised in the Blue Grass. The cattle averaged 1,750 pounds, and in the lot were two that tipped the scales at 1,950 and 2,000 pounds respectively. The price paid was \$5.40 per cwt. The cattle are to be shipped to New York and then to Liverpool and London.

B. J. K. Slaughter has just completed and applied for a patent on a heating appliance, which gives every assurance of being a great success. It can be attached to a stove pipe in the room where a stove is in use, or in a room up stairs, as the smoke pipe passes through it. On the inside of this contrivance are small air tight pipes crossed in such a manner that they immediately collect the heat which is then conveyed into the room through openings in the sides. The 1905 crop of tobaccoin Grant county is a big one and the quality, we understand, is very fine. Here's hoping the sturdy farmers will realize top prices for their crops.—Williamstown Courier.

C. W. GRINER.

Small crowd in town Monday.

The local merchants enjoyed and holiday trade.

Everybody was ready for the hol-lays, and the enjoyment was about miversal.

The employes of express compan-es, at least, are glad the holidays re passed.

Scott Wingate has his paper changed to Moores Hill, Indiana.

Callie Baldon and wife have entertained a young daughter at their home since Dec. 20th.

Several of Burlington's young people attended the ball at Peters burg, last Friday night.

People who came over dirt ro to attend court, last Monday, ported them pretty rough. Al Rogers, the Bellevue mer-chant, was transacting business in Burlington, last Saturday.

Frank Rouse, the local butchedressed a large number of nice tukeys for the holiday market.

Thanks to R. B. Huey, agent for the New England Mutual Life In-surance Co., for a splendid calendar.

The County Attorney, Sheriff and Assessor were the only new county officers installed at the beginning of 1909.

Attorney D. E. Castleman is now at home to his clients in his bozy new office on 'Washington street mear Union.

mear Union.

Besides considerable other work
the local insurance company had 30
new applications for policies to act
on last Monday.

All the Burlington pupils who are attending schools away from home came back to spend the holidays with their parents.

The Supervisors of tax, J. W. Conner, P. W. Cropper, J. D. Cloud, J. R. Johnson and J. L. Jones are going over the tax book at the Courthouse this week.

There will be a call meeting of the Hebron Fault Company, at Hebron, Saturday. January 13th, 1906, at 1 o'clock p. m. ELZA HARPER, President.

Joseph Chambers, one of the Re-conners's loyal supporters, writes: "Send my paper until further noti-fied to Punta Gords, Gorda Hotel, Punta Gords, Florida."

B. F. McClasson, President of the N. K. A. A., called in to see the RECORDER, last Monday. He has gone into winter quarters—has turned out his whiskers.

The person or persons who left two oil paintings in Foral Hall at the last Florence fair, can have same by calling on B. F. McGlasson, president, and proving property.

A couple of Burlington's young men rode several miles into the country to attend a dance, one night last week, and when they ar-rived the entire family had retired, never having heard of the dance.

V. W. Gaines employed Henry
Fry to go with him to H. D.
Brady's in the neighborhood of
Rabbit Hash, several days ago, to
haul back his share of the game
killed in a hunt of two days with
Mr. Brady. They brought a large
number of rabbits and coons back
with them.

with them.

Dr. J. F. Smith, who, many years ago, was the leading physician in this part of the county, died on the 30th ult, at his home in St. Louis, of general debility, in his 74th year. The remains were brought to Covington and interred, Monday, in the family lot in Linden Grove cemetery.

A Strong Bond.

A Strong Bond.

M. F. Wingste, the new Sheriff executed his four bonds—State Revenue, County Revenue, Road Tax and Official—on the 23d alt., with the following sureties: Geo. Pfalzgraf, Enoch White, Solon Early, Ben H. Berkshire, R. C. Gaines, W. A. Caines, Bert Gaines, Clinton Gaines, R. C. Gaines, Clinton Gaines, R. C. Gaines, V. W. Gnines. John Gropper, Edgar Cropper, J. J. Rice. This is the strongest personal bond that has been made by a Sheriff of this equuty in many years, and it is altogather doubtful if there was ever as strong a bond made by a Sheriff in Boone county from his personal friends. It is worth about \$200,000. W. D. Cropper will be his deputy.

**A Weary Willie.

A 'Weary Willie' of the most pronounced type struck the town a few evenings since. He was first discovered lying in the pike near Tr. Rouse's. Ward Coleman, colored, who was carrying a lantern came up on him unexpectedly and was badly frighted when the tramp raised his shaggy head and eyed Coleman as a wild animal would an article of prey. Coleman finally summoned courage enough to as sist the man to his feet, when he beat a hasty retreat. Not long thereafter, Mr. Hall, of this office found the stranger floundering around in his neighborhood. He brought him up in town, and after an ineflectual effort to get from the man any information, it was decided to give him a night's lodging in the jail, which was very satisfactory to the stranger. He was given something to eat, and Thursday he started on his journey again, but soon fell by the wayside and was brought back to the jail to recuperate. He remained in jail until Saturday morning, when he was given transportation to the city.

An Evening at the Club.

The principal holiday event at the clubroom was a combination rost—rabbite and coons—which was enjoyed by quite a number of persons, and the clubroom was a combination rost—rabbite and coons—which was enjoyed by quite a number of persons, and the clubroom was a combination rost—rabbite and coons—which was enjoyed by quite a number of persons, and the clubroom was a combination rost—rabbite and coons—which was enjoyed by quite a number of persons, and the clubroom was a combination rost—rabbite and coons—which was enjoyed by quite a number of persons, and the clubroom was a combination rost—rabbite and coons—which was larged to make opposite side, but fails at the predict of the control persons the control persons which the selection and got a severe shaking up. Starting for his home wood Maxwell spent the latter part of the night roaming over the Woodper hills, and it was about noon the next day when he came to the alley he at tempeted to jump across to the fence on the opposite side, but fails the part of the night roaming over the Woodper hills, and it was about noon the next day when was located in the house upon his arrivalat bome, Kirb Tanner went to the helpout, and found Kirb operating to deyour an old rooset, and it was with difficulty be was induced to desist. Few Days—The Movements of Government Officials.

The Russian Revolution.

The casualties during the fighting between revolutionaries and troops in the eireste of, Moscow is estimated at 5,000 killed and 14,000 wounded, with the fighting still proceeding. The driving force behind both the troops and the rebels is no longer that of enthusiasm or of any human impulse. It is the force of superhuman hate, and hence the deeds reported are not the acts of patriots, sodilers or otherwise, but the enormities of madmen.

Emperor Nicholas and Count Witterschived a report from Gen. Doubassoft, governor general of Moscow, salying that the revolt there had failed; that the military had the situation in hand and that whatever defection may have existed among the troops was overcome. D- attacks on them will bombs and revolvers to which they had teen subjected from the windows and roofs of housen and which had so enraged them that they could hard. If he revolutionists are now acting in three divisions and are keeping up the conflict with the troops with great energy at Moscow. Women among the insurrectionists are particularly andent in keeping up the struggle the canadales on the 25th was practically over and the strike will be called off. Comparative quiet prevailed. Gov. Gen. Doubassoff is acting with great energy and hundreds of members of the "Drujina" are aiready behind the bara. The strike with secretion are aiready behind the bara. The others and a dispatch received in St. Petersburg for the Caucasus with secretion orders and a dispatch received in St. Petersburg for the Caucasus with secretion orders and a dispatch received in St. Petersburg for the Caucasus with secretion orders and a dispatch received in St. Petersburg for the Caucasus with secretion orders and a dispatch received in St. Petersburg for the Caucasus with secretion orders and a dispatch received in St. Petersburg for the Caucasus with secretion orders and a dispatch received in St. Petersburg for the Caucasus with secretion orders and a dispatch receive

Miscellansous items.

Andrew C. Hamilton, in his report to the lavesdigating committee, admits that he may owe the New York Life money and that his account with the company is "open" because of his failure to render a statement heretofore of all the moneys he had received. He offers to make H good.

Andrew Hamilton, the legislative agent for the New York Life insurance. Co., who, according to testimony, has been entrusted with busineds of choices been entrusted with busineds of thousands of dollars by the company and has not accounted for 2255,000, has been heard from by the legislative law that the company had been entrusted with busineds of thousands of dollars by the company and has not accounted for 2256,000, has been heard from by the legislative low has declined to make an accounting.

District Attorney Jerome received a copy of all the evidence thus far submitted to the insurance investigation committee. A special grand jury probably will be emparable to the property of the company of the consider the testimony.

It is probable that indicates will be found against 50 insurance men in New York and they will have to face the grand jury. The best legal talent in New York and they will have to face the grand jury. The best legal talent in New York has been engaged by the various district of medals of the lusurance company!

CHARLES T. YERKES.

Noted Railway Financier Passed Away in New York City.

s. Yerkes, Who Had Been I ranged, When Notified Her Hus-band Was Dying, Relented and Went To His Bedalde.

New York, Dec. 30.—Charles T. Yerkes, the noted railway financier of Chicago and London, died in his apartments at the Waldorf-Astoria hotel, where he had been jill for more than aix weeks. Mr. Yorkes andfreed from a complication of diseases, gradient complication of diseases, gradient control of the complication of complication of diseases, gradient control of the control of th

ont of a severe cold which he contracted in London carly in the fall.
His condition had been critical for ten
days past.

Mrs. Yerkes, who had been estranged
from her husband for some time, was
notified that Mr. Yerkes was dying
and she releated and went to the hotel
and was present when he died. This
was the first time Mrs. Yerkes had
been at the hotel during her husband's
timess. The death was peaceful but
unexpected at the time.
Charles T. Yerkos was born at Philadelphia, June 25, 1837. He began his
business career as a circk in the grain
commission trade, in which he was
sungaged nuftl 1858. He was an exchange broker from 1858 to 1861, banker from 1851 to 1886 making a specialty of dealing in bonds; failed in
1871, and as he was in debt to the
city preference over other creditors,
he was convicted and imprisoned synthe was convicted and imprisoned for
misappropriation of public funds, but
afterward pardoned and the conviction was declared illegal.

Mr. Yorkes recuperated his fortune
at the time of the Jay Cooke fallure,
in 1873 and 74. He was prominer
in street railway operations in Philadelphia from 1800, and since 1885 in
Chicago, where he was long at the
head of the North and West Side and
several suburban and elevated railway
corporations.

He presented the University of Chicago with a telescope coeting about
\$400,000, which is said to be the largtake Geneva, Wis. Mr. Yerkes had
an office in Wall street, New York.

THE REDS CRUSHED.

THE REDS CRUSHED.

Believed They Can Not Quickly Re-cover From Their Defeat.

St. Petersburg, Dec. 30.—The sup-pression of the insurrection at Moscow and the certainty that aimilar pyris-ling clsewhere will be crushed mark the collapse of the first attempt of the "Reds" to overshrow the government, arms and administers a defeat from which it is not believed in government circles the revolutionaries can quickly resover.

circles the revolutionaries can quickly recover.

Now that the smoke of battle is clearing away the utter hopelessness of the conflict seems to be apparent. In desperation undoubtedly the revolutaries will again have recourse to acts of terror which they will spring at the most unexpected moment. The country has quieted down and the cabinet now hopes that the selections to the douma are assured and that the douma are assured and that the suppression of the revolt in the Battle provinces and more especially to the solution of the agrarian question.

UNION OF CHURCHES.

Northern and Cumberland Presbyter

Inner and Cumberland Presbyten lane To Amalgamate.

St. Louis, Dec. 30.—After a division of almost 100 years, steps were consumated in the joint season of general eliminates, which, when formally ratified will unite the Nothern Presbyterian, church, Jl. 5. A., and the Cumberland church, Jl. 5. A., and the Cumberland church. Almost two days have been consumed by sub-committees in arranging details for the union. Their reports were submitted to the general committees ranging details met in joint season and agreed upon a basis for the union of the two general committees hard met lin joint season and agreed upon a basis for the union of the two demonitational badies. This agreement will be reported to the general assembly of the Presbyterian church meeting in Decath, Ill., on the sume date for formal ratification by these two executive assemblies.

Anti-Pass Law is Legal.

Anti-Pase Law is Legal,
Grand Rapide, Wis., Dec. 30.—Judge
Webb has decided that the anti-pass
law is legal and denied a motion for
the arrest of judgment in the case
saguist on attorney for the Wisconnia
Central Railroad Co.

The Week's Business Failures.

New York, Dec. 30.—Business failures in the United States for the week ending December 28 number 212, as against 235 last work, 218 in the like week of 1904, 299 in 1990 and 202 in 1902. In Canada failures for the week-number 24 as against 28 last week.

EMBARRASSED BRIDEGROOM

He was embarrased, ill at once; she was calm, self-puseemed, relates the list-tunore Sun.

"If it were only over," he whispered, excitedly; "I know I'll do it wrong,"
"It won't take long, John, she anwered, consolingly. You haven't much

avered, consolingly. "You haven't mea-ter say."
The minister was speaking: "Kindly change places with the bride, temped—in-the toe of her slice, and raising his arise caucht his culbutton in her veil.
"The be careful," she implored.
"The became to be a superior of the consoling his property of the minister begin the ceremony. Juhn frew more embarrassed, and fumbled with his hand in his porket and pulled out his hand in this porket and pulled out his hand in his porket and pulled out his

The church was quiet save for the voice of the minister.

"If any person knows any just reason, he was saying why these two should not be joined together, let him now speak, or forever—"I will shouled John.

Just Wonderful,
Vestry, Miss., Jan. 1st (Special).—The
case of Mrs. C. W. Peurson, who resides
here, is a particularly interesting one.
Here is the story told by Mr. Pearson,
her husband, in his own words, He

line busined, in his corn words, like the busined, in his corn words, like a long fine. Last July she was taken terrible had with spasson. I sent for the doctor, and alter making a thirough examination of the like a lik

WASHINGTON LETTER

DR. MARY WALKER A FIGURE

Burkett of Iowa.

As H i NOTON.—
The, opening of congress attracts cranks from all over the country as the flame of the candle attracts. There are a number of these eccentric geniuses with all sorts of schemas they hope to impress up on congress, who through the halls about the capitol, but they are all of a mild type, as the police watch carefully that no one of dangerous character gets inside the big building.
There is one human prodigy who has been about the capitol for several represenses who is known to the guides and careles about with him bottles of a queer-looking, reddish mixture yhich he claims, if proparly saed, will prolong life. He also asserts that this same preparation will "classe bursts of oratory and return of youth and will produce a winning personality." This old fellow became so persistent in an anoying sensators last congress that he was put out of the capitol, He is back again, this year.

Some of the eccentric characters met with in the corridors are women. One of these is a national character, and has been looking after a bill in her own interest for several years. This is Dr. Mary Walker, who has achieved axional octoricty hy her persistency in dressing in male garments. She was a nurse during the-civil war and now in her old age, she wants Uncle Sam to grant her a pension for what she did. She looks like a little wear, end old man in a nusty black aut with long skirted coat, a standing colar and four-in-hand the and a somewast ancient alik hat on her head.

FROM ALL OVER THE STATE

She Was Shot Down at a Dance Sy a Rejected Suitor.

Mt. Sterling, Ky., Dec. 28.—The probable marder of a bride of a few months—wife of Henry Watson, a prominent attorney and manager of the Eastern Kensucky Telephone Co.—ly. John Flaherty, a rejected suitor. In the probable market of Henry Watson, a prominent attorney and manager of the Eastern Kensucky Telephone Co.—ly. John Flaherty, a rejected suitor. In the property of the Eastern Kensucky Telephone Co.—ly. John Flaherty, a rejected suitor has thrown this city into a freuzy. The affair occurred at a dance given by a Cathole society, Mr. and Mrs. Watson was gueste, and Flaherty, who seemed to be drinkleg, asked her to dance with him. At first she refused, but finally consented. She had only taken a fow stops when she rash back to ber husband, saying Flaherty and insulted her. He came in H a few minutes and asked Watson what his wife told him and reached for his pistol. Mrs. Watson was standing with his brother, James Flaherty, finally got his pistol, a 32-callber, from his pocket and fired over his brother's aboutder. The bullet struck Mrs. Watson under the right shoulder, penerating the lung, liver and stomach, and passing through her body. Flaherty escaped, but was captured by Officer Martin and Sheriff McCormick and lodged in jail.—Mrs. Watson was telen home and physicians prosumed her wound fatal.

Mt. Sterling, Ky., Dec. 29.—Fearing that an attempt would be made to take John Flaherty from jail and hang him for an alleged attempt to murder Mrs. Watson was telen home and physicians prosumed her wound fatal.

Mt. Sterling, Ky., Dec. 29.—Fearing that an attempt would be made to take John Flaherty from jail and hang him for an alleged attempt to murder Mrs. Watson was telen home and physicians prosumed her wound fatal.

Mt. Sterling, Ky., Dec. 29.—Fearing that an attempt would be made to take John Flaherty from jail and hang him for an alleged attempt to murder Mrs. Watson was telen home and physicians prosumed her wound fatal.

Mt. Sterling, Ky., Dec. 29.—Fe

His Prospective Mother-in-Law.

Louisville, Ky. Dec. 28, -James C. Cotham, a merchant of Clarksville, Tenn., called at the office of the county clerk to explain that in getting a ticense while the courthouse was affrabe had, as a result of excitement, taken a license to wed his prospective mother-in-law instead of her daugiter, to whom he had been engaged a long time. A new license was issued containing the name of Miss Clara M. Gaisser. In the first license the name of Alice R. Gaisser appeared. The mistake delayed the marriage 18 hours.

NEW JUDICIAL DISTRICT.

Barboursville, Ky., Dec. 29.—Judge Jsrvis. of the 28th judicial district; Judge Faulkner, of the 27th district, and Judge Moss, of the 28th district, with the commonwealth's attorneys, met here and prepared a bill to be presented to the next legislature for the creation of a new district out of parts of the present ones. Embaraced in the three districts are 17 Southeastern Kentucky counties and it is claimed the work has become too heavy for proper consideration.

The Republican Caucua.

The Republican Caucus.

The Republican Caucus.

Louisville, Ky., Dec. 28.—The republican members of the general assembly were notified by mail to caucus Tuesday morning, January 2, at 10:30 oclock, in the pariors of the Capitul hotel, at Frankfort. The caucus will likely name a candidate for United States senator.

To Succeed Dr. Pieck.
Frankfort. Ky., Dec. 27.—Gov. Beckham appointed R. R. Harting, of Lexington, a member of the state board of pharmacy, to succeed Dr. Pieck, of Covington, whose term has expired. Harting's appointment was recommended by the state board.

A Unique Collision.

Jackson, Ky., Dec. 27.—Frank Haney, of Cannel City, was killed by a train. Haney was coming toward Jackson on a railroad velocipede and coilided with the train on a grade. He was a deputy sheriff of Morgan county and in the service of a coal company.

GASBURG.

We have always heard that the size of muskrats houses is a sure indication of the kind of whiter we will have—the larger the house the colder the winter. If this is true we will have as are at least three times a large as we ever aw them. The hig pond below Petersburg is filled with them and gives the pond the appearance of a hay field with the hay in large doodles.

The RECOREER gave out recently that forceasts of the prospect for fruit in 1909 would be in order, and, as we grow considerable fruit and keep a tolerable sharp watch on the conditions during the winter and early apring, we make these observations: The bude-of all kinds of fruit went into winter

during the winter and early spring, we make these observations: The buds of all kinds of fruit went into winter quarters in the best of shape. The summer being moist and warm westher holding on late, caused the buds to mature thoroughly and are in the very best condition to withstand the cold. This refers to all stone fruits, peaches parlicularly. It is our observation that the condition in which the cold catches the peach buds has more to do with killing them than the Intensity the mercury droped to 19 degrees below zero and yet we had fine crops on both seasons On another season the mercury only fell to six below, yet the buds were entirely killed.

A professor in Northwestern univer-sty has laid it down as an imperative rule for the students in his classes that they shall read the newspapers every day and thus acquaint them-selves with current events. "I shall consider this," he told them, "fully as important as the daily lessons as-signed from the text-books."

The annual report of Herbert Putman, librarian of congress, shows that
the library contains 1,344,618 books,
\$2,744 maps and charts, 183,724 artistle prints and 410,352 pieces of muside. The manuscripts, which form avaluable collection, have not been enumerated pending their grouping into
volumes. Many of these are of great
interest and of permanent value.

The campaign for pure food

The campaign for pure food prod-cts has gained a powerful ally in the wholesale grocery interests, which are woposing to combine in the detection and prosecution of all manufacturers rulty of imposing unwholesome and obsonous adulterations upon the mar-tet. The wholesale grocerymen are a a position to do more effective serv-ce in this line than any other class.

tee in this line than any other class.

The principle of municipal ownership has been carried to an extreme
limit in London, where a Turkish bath,
the first to be established under municipal control, has just been opened
up. The charge of admission to the
bath, which is admirably fitted up, is
two shillings, and the superintendent;
declares that he expects to make a
good profit for the city. There is also
a Russian vapor bath, two large awimmulag-baths, warm baths for men and
women and a public washing-house.

The material of which imitation once are made is known as "strass." his is made according to different fedipes, but usually includes red lead, bek crystal, potassium carbonate, orax and white arsenic. The greater he amount of lead used in the production of the "paste" the greater will be be brilliancy and play of prismatic ploors in the finished stone, and at the tame time the higher will be its spefito gravity. On the other hand, the tone loses in hardness what it gains a brilliance.

By the treaty of Portsmouth Japan was virtually granted a free hand in Korsa, and she has taken advantage of this power by practically transferring the seat of Korea's government from Scoult to Tokio. Thus, a country which has had a thearetical or actual indenas had a thearetical or actual inde-emedence for pearly thirty centuries is stricken from the map of nations. Isaan's conquests, social or political, or both, which are permitted in Man-charla under the Portsmouth conven-ion, may turn out to be immeasurably sore important, for Manchuria is a lar richer country than Korea.

D. O. McCahey, well-known physi-an of St.-Louis, has discovered a seekanical process by which air can ectanical process by which air can ectanical from water beneath the surface. Not only can he, or any one see for that matter, extract the subs-usous air from the surrounding wa-key, but he can store it beneath the urface. The possibilities of the dis-overies are patent. In its applica-tory which is-entirely practical, it will obve the question of submarine navi-sition; that is, supply submarine octa with air without the trouble of the coming to the surface for it.

WARSHIPS COLLIDE

Starboard Side of the Kentucky Badly Damaged.

Vessel Struck a Giancing Blow By the Alabama as They Were Put-ting To Sea in the New York Harbor.

ting To Sea in the New York Harbor.

New York, Jan. S.—While the battleship squadron, under command of Rr. Adm. Robley D. Bwans, was proceeding to sea, the battleships Keansarge and Rentucky ran aground in the lower harbor of the west bank light. The Alabama and lilnois were could after their courselves the process of the season of the tange, and proceeded down the bay anchoring outside the bar with the fissphip Maine. The Alabama remained by to render assistance to the Kentucky and Kearsarge and wireless messages were sent to the Brooklyn navy yard for tugs.

At 2:45 o'clock the Kearsarge and Kentucky both were floated and started for sea, accompanied by the Alabama. The Kentucky, however, was ordered back and returned to Tompkinsville, where she anchored.

A wireless message was received at the Brooklyn navy yard from the Kentucky she was received at the Brooklyn navy yard from the Kentucky she was received at the Brooklyn navy yard from the Kentucky she was received at the Brooklyn navy yard from the Kentucky she was stated that the Kentucky will come up to the navy yard for repairs.

The squadron of battleships was bound for Hampton Roads where the several divisions of the North Atlantic ficet now in home waters are to be assembled under Rr. Adm. Eruns preparatory to salling for West Indian and South American waters for the annual winter maneuvers. The battleships had gathered in New York harbor after undergoing extensive repairs, some at the Botton and some at the Brooklyn mayy yard.

THE MOROCCO TROUBLE.

Public Sentiment in Paris Over Cor

Terence Undergoes improvement.

Paris, Jan. 8.—Public uneasiness over the Moroccan conference has undergone a distinct improvement. This is due mainly to the confident attitude of the officials of the foreign office who consider the election by the Italion government of Marquis Visconit Venosits to head its delegation as strengthening the position of France. It is evident that the officials hold the wiew that if France can secure the support of the great powers, having tangible control in the Mediterranean and in Morocco, it will be difficult for Germany to stand against the force of this moral influence. Therefore, Italy's choice of the Marquis Visconit Venosta, who was one of the earliest chyocates of the Franco-Italy entents, strengthens the government's especiation of the united support of the leading Mediterranean powers.

DISTINCT EARTHQUAKE SHOCKS.

DISTINCT EARTHQUAKE SHOCKS

Portions of Missouri, Kansas and Ne braska Were Shaken.

Lincoln, Neb., Jan. 8.—Sunday

Lincoln, Neh., Jan. 8.—Sunday exening residents of Lincoln felt an
earthquake shock that was severa
enough in several instances to shake
globes from the fastenings on chandeliers. No damage is reported to buildlings.
Kansas City, Mo., Jan. 8.—A slight
earthquake shock was felt in this city.
Sunday evening. No damage was
done, but the movement, which asppeared to be from north to south, lasted about 23 seconds and was strong
enough to shake chandeliers and rattle dishes. The shock was felt most
distinctly in the residence districts in
the northeastern, eastern and southern
portions of the city.

RUSSIAN CHRISTMAS

Prayers Were Said For the President and the Emperor of Russia.

New York, Jan. 8.—The Russian Christmas day was celebrated Sunday at St. Nicholas cathedral in this city when a solemn pontifical high mass was sung. Nearly 2,000 persons attended the morning services, Archolishop Tikeron Tikhon officiated, assisted by several priests, some of whom came from New York state, New England and several of the eastern and southern states. Prayers were said for the president of the United States and the emperor and royal family of Russia.

Morales Offers To Resign.

Washington, Jan. 8.—The state department has received news from Santo Domingo that ex-President Morales has offered to resign if he will be allowed to leave the country in safety. This proposition, it is understood, will be acceptable to the de facto government.

ment.

A Doubla Suicide.

Charlotte, N.º C, Jan, 8.—W. H.
Hood, 35, merchant of Raleigh, and a
woman, 22, committed suicide in a
rented room at Raleigh. Hood leaves
a wife and two children. He left an
insurance policy for his wife and a
ring and a locket for his children.

Quiet in Santo Domingo.

SMALL PILL. SMALL BOSE, SMALL PRICE

Learn how the other fellows do things first, and then find a newer and better way to accomplish the results. It's not the man who simply does things, but the man who does things better—for whom the world is seeking.

Ideas breed opportunity. Habit kills idea-producing power and exhausts the mentality. The force of cultom often paralyzes progress.

Quick work is not always good work. The hasty man is not always the lapid worker. Good work done quickly and easily is what is wanted. A good salesman, backed by another good aslesman who knows how to put his perusalweness on paper, holds a vinning hand in the game of business getting.

winning hand in the game of nuissess getting.

Do your work once, and when done let it be finished—don't leave it in a condition to be done all over again. Employers don't sdavaca employes who half do things.

If you advertise simply because you love the game and like to handle the cards, most any agreeable fellow will do to help—but if you play to win, you should choose a good partner.

People won't come to you to buybigh quality goods—if you don't tell them you've got them to sell. You can't decide whether there, is a demand for goods until you try to arouse it. Can you?

Biond Jews.
Of the 50,000 inhabitants of Jerusalem two-thirds are Jews; many of them have blond hair.

INCIPIENT CONSUMPTION.

How Food Hesded Off the Insidious

The happy wife of a good old-fashflossed Mich, farmer says;

"In the spring of 1902 I was takensick—a general, breaking down, as it
were. I was excessively nervous, could
not sleep well at night, my food
seemed to do me no good, and I wasso weak I could scarcely walk across
the toom.

"The doctor said my condition was
due to overwork and closs contement
and that he very much feared that
consumption would sat in. For seversi
months I took one kind of medicine
after another, but with me good effect—in fact, I seeped to grow worse.
"Then I determined to quit all medicines, give up coffee and see what
of the special county of the service o

OSTMASTER GENERAL

That Has Seen Long Service—
epresentative That Has Decided
Views on the Training
of Children.

Views on the Training of Children.

A 3 H I N GTON.—
Those who anticipated a, row between President Romesvelt and congress have been disappeared to the patent of the pate This does not mean that the president; as not insisting upon his ideas and policies, for he is most emphatically, but he is proving that he is a diplomate as well as a constituctive statesman. The president have learned in the past that congress is just as powerful as the executive, and the purposes and policies of the latter can be completely threated if the president works and consumers with congress. Mr. Honosevell has set out to accomplish certain things, and he recognises the accounties these purposes. This is accomplish the ball brought contained to his way of thinking by the influence of that sentiment, and how he and the majority in both houses are working harmoniously to the same end where two years ago there was accretly a corporale—guard—to once the present administration policy.

Spiendid Corps of Clerks.

GOVERNOR'S MESSAGE.

An Excellent Showing Was Made by the State.

Kentucky is Practically Out or Deu But Owing to the New Capitol and Other Exponses Incurred in-creased Revenue is Needed.

Frankfort, Ky., Jan. 3. Following a synuncies of Gov. Beckham's mes-

a Frankfort, Ky, Jan. 2.—Following is a symposing of Gor. Beckinst most by the state of Kentucky as set forth in the governor a increase was a unject of the control of the

"What do statistics show on this sub-ject?" asked the campaign manager. "That is for you to say, sir," an-swered the trained mathematician. "What do you want them to show?"— Washington Star.

UNSTABLE FINANCIERING.

blican System Offers No Pro-tection Against Rapacity of Banks.

As a rule the speculators and business men can protect their own interests in times of financial stress, and therefore advice to them is superflucius. But the farmers, storekeepers and workingmen have but a small chance of setting reliable information of the great affairs of the world that may lead to financial disaster in the country. From the trend of events there is danger of a world panic, at though now the times are what are adiled prosperous. The danger comes from our frensted financiers and the revolution in Russia. Property is being destroyed in Russia of millions of value, and the crops have in some provinces been poor and neglected. If order and good government was certain to-morrow, which is far from the case, the people of Russia would be unable to pay the tases necessary to support the government and pay interest on the public debt. The people will require time to recuperate from the devastation that they themselves have caused in their fury against their licentions rulers.

ings. It has long been claimed by the democrats on undisputable evidence that the great railroad magnates were backers of the Republican party, both state and national. The evidence in the life insurance investigation proves even more than that, for Mr. Harriman, the head of the great combination of railroads in the southwest, tacitly admits that in New York politics he is tue man behind the Republican boss.—Although about 6,000-bills have been introduced in congress thus far, the more knowing are comforted with the thought that the vast majority of them are merely for publication, and not as a guarantee, of good faith—indianapolis News (Ind.).

—"Web" Davis, who "got his" out of the Boers and desarted the Republican party, has formally announced his return to the g. o. p. "President Roosevit capaned the doors of the Republican party for my return," he dequares. Now, see what President Roosevit has gone and done.—Atlanta Constituions.

It Penetrated Through the Boy's Eye and Into His Brain.

and into His Brain.

Louisville, Ky., Jan. 4.—It cost Geo.

W. Bauer, aged 16, his life for looking
through a knot hole, and Robert Stark,
aged 14, will be tried for murder. The
victim died at the home of his parents,
2480 Duncan street, as the result of
having been struck in the eye with a
meat skewer, which Stark admits to
have hurled playfully November 20
last, when he saw a shining eye at a
knot hole in a stable door. Relatives
of Bauer say that Stark was actuated
by malice. The sktwer penetrated
Bauer's left eye and the steel point
entered his brain two and one-haif
lookes. Bauer underwent three surgical operations.

Platol Fell From Hia Scahbard, Kili-

ing the Marshal.

Scottsville, Kr., Jan. 6.—While working the prisoners on the culvert on Main street Marshal H. T. Kirby stooped over for some purpose, when his pistol slipped from its scabbard, striking a large stone covering the culvert, and was discharged, taking effect immediately over the heart. Kirby was re-elected as city marshal at the recent election, which would have been ten years, had be served his term out.

Skull Comba-

skull Crushed With a Stone, Glasgow, Kr., Jan. 8.—At Caral. Nat Nichols threw a gione at C Bailard and crushed his skull. alleged that Ballard was advancin, Nichols with an open knife, and the former was drunk. Nichols has been arrested. Ballard will die. Clyde It is ing on

bring his shotgun and meet York is a thicket near the old York home-stead. He overslept himself, and when he reached the appointed place, on account of being seen in the neighborhood by several acquaintances, became frightened and left before York arrived. He saw York that afternoon at the fair and he (York) told him that the work had been done and his brother Jim was no more. It is understood that when Bast goes on the stand he will repudlate the confession entirely.

stand he will repudlate the confession entirely.

Lawrenceburg, Ky., Jan. 6.—The teatlmony in the Bast marder case was closed and the court, gave its instractions to the jury. In the instructions the jury were told that they could not convict Bast of the mureer of Jan. R. York unless they believe, from the evidence, that Bast was actually present, aiding or abetting the crime, actually fired the shot which killed the victim. As all the testimony shows that Bast, though he may have been concerned in a plot to do the murder, was not present when it was committed, it is believed that he will be acquitted as soon as the jury gets the case.

tempted Sulcide.

Louisville, Ky, Jan. 5.—After Kiesing her hasband good-bye, Mrs. Sailfe Blancagniel Pollard shot and fatally wounded her three-year-oid son and then attempted suicide by shooting hérself in the head in the apartments of her brother, Dr. W. N. Blancagniel.

"I felt that I was loeing ny mind. I did not wish to become a burden on any one-else, and I could not beer the thought of leaving my child to others." Mrs. Pollard gave this reason for her deed. The child died at an infirmary. The mether is not expected to liva. The Blancagniel family, of which Mrs. Pollard is a member, is one of the most prominent in Louisville.

IN A GENERAL FIGHT.

Seriously Wounded.

Mt. Vernon, Ky., Jan. 6.—The reopre reached here that in a general Eght between the Nortens and Arnolds, near Sand Springs, four miles eouth of here, big Jim Arnold and his son were killed instantly, and Mrs. Arnold was shot through both arms. The parties were related by marriage, and badd been in town attending court, there being a suit pending to get control of a grandchild of Arnold, whose daughter had married a Norton. Trouble was anticipated before the parties left town. There were some 40 or 55 botts fired. All the county officers have gone to the accept.

Strangled To Death on Water,

Strangled To Death on Water,
Mt. Sterling, Ky., Jan. 4.—James
Bryant, 24. a farmer, littley near Plun,
this county, was found dead, face
downward, in a small stream, near his
home. It is supposed that he attempt
de to draik from the running water
while, intoxicated and strangled to
death. Bryant leaves an estate valued at \$60,000.

Noble Brothers on Trial, Jackson, Ky., Jan. 4.—The hearing of the Noble brothers, charged with killing Grant Holliday; was passed un-til Friday morning. The commos-wealth tried to have the evidence usken at a previous examination duced in this hearing, and the tion of the defendants was sus

After the insurance Men.

Mt. Sterling, Ky., Jan. 6.—State insurance Commissioner Prewitt will leave for Miwaukee to take depositions in the case of the common wearth against the Northwestern Mutual Life Assurance Co., to collect back taxes. If the state is successful in this ault others will be brought.

Died on Her 91st Birthday,
Died on Her 91st Birthday,
Springfield, Ky., Jan. 8.—Mrs. Mary
Jane Jones, one of the oldest persons
in Washington county, died of acute
indigestion on her 31st birthday at her
home here. Mrs. Jones was born in
Virginia and settled in this county to
years ago.

RELIABLE CLOTHIERS, Cor. Madison Ave., .. Tovinoton, Ky

tocal Mews.

rne mat term of the fiscal court was in session only half a day.

Miss Virginia Snyder is visiting her friend, Miss Mueller, of Belle-rue, Campbell county.

Some are predicting that real, enuine, howling winter will come ome time next month.

Mr. Will Creager and Miss Lillie Creager, of Loveland, Ohio, are vis-iting relatives in Burlington.

J. F. Blyth sold yesterday to the Rising Sun tobacco buyer about 14,000 lbs. at 8 cents around.

Remember James J.. Clore's sale at 12 m., on the 24th inst. Read his advertisement in another column.

Mrs. W. C. Goodridge is visiting her daughter, Mrs. Kirb Foster, who resides in Jacksonville, Florida

V. W. Gaines and family moved, last Saturday, to the farm of James A. Duncan near Bullittsburg church.

The quarterly statements of the banks of the county appear in this issue, and they all show a good business.

The Clerk of the Scott County Court issued 198 marriage license last year, December being the ban-ner month—28.

B. L. Rice, formerly of Union neighborhood, having moved to Er-langer directs his RECORDER change ed to that office.

Misses Kittie Caines and Edna Cowen left last Monday for Jack-sonville, Florida, where they will spend several months.

An examination for Common School Graduates will be held in Burlington on the last Friday and Saturday in this month.

John Baldon has been attending to business for about four weeks, on crutches and his foot and ankle en-cased in plaster of paris.

Burlington is losing another in-stallment of citizens. I'be old town is constantly supplying some part of the world with inhabitants.

The fellow who was out of fuel or had but a few hours supply on hand last Monday morning was in no condition to enjoy his breakfast.

W. T. Stott and Frank Smith, of Petersburg, were among the visitors to Burlington, last Friday. They report peace and plenty and a big river.

Not much food for stock has been necessary so far this winter, but there is no way of estimating what amount will be required before

The industrious farmers will have their plows tearing up ground for corn at every opportunity oftered from now on until the crop is planted.

There will be a call meeting of the Hebron Vault Company, at Hebron, Saturday, January 13th, 1906, at 1 o'clock p. m. ELZA HARPER, President.

There has been an unusual amount of windy weather in the last two mouths. It is hoped that March has concluded to be generous with her predecessors and divide her wind with them.

Everybody will endorse the fiscal court's action in increasing Judge Cason's salary. His services are certainly worth \$600 a year to the county, and the county is very able to pay him that amount.

So far this winter the weather has not been favorable to the small grain that was sowed last fall. The ground has been wet all the time, and the freezes, although light, are lifting the wheat out of the ground.

J. B. Johnson, the base ball en-thusiasts, spent last week in Bur-lington, and it is said he claimed that he has signed, for the coming season, all the best ball talent shout Burlington, to play ball at Walton this year.

thusissies, spent last week in Burlington, and it is said he claimed that he has signed, for the coming season, all the best ball talent about Burlington, to play ball at Walton this year.

The Burlington and Belleview Turnpike Company did some excevating, near kilohard White's, last week, in search of its road bed, which was concealed by a considerable depth of dirt, washed on to it by the heavy rains of the past year.

J. M. Craven, proprietor of Beeon Grove Stock Farm, breeder of American Hampshire or Thinrind swifte, in Limbalty usighborhood, began business in a business like memory.

Hon. J. C. Byland is a member of two of the Home contest countities in the legislature. The contests that will come before his com mittees are from Louisville, and he will have an opportunity to learn something of "dirty politics" that he never dreamed of at his home in the rural district where only honest election methods prevail.

The Supervisors of tax adjourned at 10 a.m., last Saturday to meet sgain next Saturday. They increased the valuation of only two lists in the county, and added to the tax list several pieces that had been omitted, while the valuations in several instances were lowered. Quite a number of dogs that had not been assessed were listed.

The wost snow storm of the season prevailed bereolast Sunday night the beautiful being about seven inches deep at daylight Monday morning, doors and sidewalks being blockaded, giving shovelers considerable work. Geo. Blyth came to their assistance with his horse and snow-plow, and the principal sidewalks and crossings were soon cleared.

Half The World Wonders.
how the other half lives. Those
who use Bucklen's Aroica Salve
never wonder if it will cure Cuts,
Wounds, Burns, Sores and all Skin
eruptions; they know it will. Mrs.
Grant Sby, 1130 E. Reynolds St.,
Springfield, Ill., says: "I regard it
one of the absolute necessities of
housekeeping." Guaranteed by all
druggists. 25c.

Owing to the very bad weather the sale of the personal estate of the late O. P. Conner advertised for late Wednesday, was postponed until the next day, Thursday, Quite a good crowd was present, and articless generally brought good prices. Corn brought 47 cents a bushel; shoats from 8 to 9 cents a pound; a milch cow, \$50; the stallion Maxledge, \$160, being bought by Robt. Nixon; the draft stallion was bid up to \$180.

Immediately upon retiring from the office of sheriff on the first of January, B. B. Allphin paid over to his successor every cent he owed the county on account of taxes with which he was chargable, the like of which had not been done by any of his predecessors in the memory of the living. Mr. Allphin made a good sheriff, and left the office with the best wishes of all, and later on the probability is he will be a considerable factor in the contest for the Democratic nomination for another county office, for which he is well qualified.

Some time since Geo. W. Hill &

which he is well qualified.

Some time since Geo. W. Hill & Go., or Covington, advertised that they would pay to the farmer who brought to them five of the heaviest cars of corn before January 1, 1906, a premium of \$5, the corn having been raised by the exhibitor. Quite a large number of farmers in Boone and Kenton counties sent in exhibits, and one day last week. James E. Smith, who lives near Burlington, received a letter from Geo. W. Hill & Co., informing him that he was the lucky exhibitor, and enclosing a-check for \$5. Of course Mr. Smith was pleased with his success.

success.

The German Coach stallion that was sold to a company of Boone county people did not fill the bill as to soundness, it was thought by some of the stockholders, and B. B. Allphin, A. C. Conner and Wallace Tanner, acting as agents for the company, went to LaFayette, Ind., last Friday, to select another horse, the company paying all their expenses. Three thousand dollars is a big price to pay for a horse and the purchasers want no question as to its soundness. The agents returned last Saturday, having selected a four year old animal which they consider worth considerable more than the one that has been here for several week.

County Court.

Following is the most important business transacted by the fiscal court at its last term:

R. L. Willis, J. S. Mason and Mrs. F. M. Howlett presented the county with their half interest in the iron bridge across Big Bone creek. The pauper practice in the county was let to the same physicians as last year and at the same price.

The report of the county infirmary shows that the inmates were kept for \$82.75 per person, last year.

The order made last year directing the purchase of a pair of blood-hounds, was cancelled.

The county's appropriation of \$700 towards the construction of the bridge across Williaghby creek, was ordered paid.

Chas. Herbstreib and Willis Rucker was each allowed \$2.50 for towing ashore two dead-bodies lound floating in the Ohio river.

A telephone was ordered put in the county infirmary, the county of the pay half the cost of same.

Dr. Hafer was allowed \$30 for holding post mortem on bodies of William Smith and John Warner.

The county judge reported the selling of a telephone franchies to the Hebron company for \$250; that being the only bid for same filed.

At the annual declamatory contest in the State College Chapel,

At the annual declamatory contest in the State College Chapel, Lexington, last Saturday evening, the handsome gold medal was won by Charles Cleveland Hedges, son of Mr. and Mrs. James Hedges, of Burlington. His subject was, "At the Open Door." The honor carries with it the distinction of representing the Union Literary Society, of which he is a member in the contest to be held this week, with the successful competitor from the Patterson Literary Society to choose a representative of the State College declamatory contest to be held among the various Kentucky Colleges on the 19th inst.

With favorable weather considerable activity is expected in the Big Bone oil field. The field manager was on the ground last week, and is anxious to begin putting down a well, the work of which will begin at the earliest possible moment.

Walton had a \$15,000 fire last Sunday night. See Walton news for particulars.

Hubert Gaines was the first to appear in the town this winter behind jingling sleigh bells.

Dr. J. G. Furnish, of Covingtor was here twice last week in consu-tation with Dr. Rouse.

Sarptore Arthority.—"And the child graw, and as he, (the mother brought bim unto Pharaon's daughter, and he became her son. And ash called his name Mosses; and she said. Because I drew him out of the water."—Ex. 22: Reserved in all the wisdom of the Egyptians, and was mighty in words and desds."—Acts 7:22.

"Would her courage fail her?" she saked herself as her eyes followed with intense yearning the sturdy boy husy with his play before the hut door.

The message from the palace that day directing her to bring the boy thither had come as a sharp stab at her heart. Egith years before when the precloss habe had been given back into her arms as from the desd, and she had heard the princess say: "Take this child away and nutre it to me," she knew that some day she would have to give him up. And as she had watched him grow from helpless infancy into the vigor and grace and beauty of perfect boyhood she had been ever paintuily conscious of the fact that he helonged to another and that some day he would issave paintuily conscious of the fact that he helonged to another and that some day he would issave him. "But is not that what you have been "But is not that what you have been

another and that some day he would issue her.

"But is not that what you have been training him for?" she asked herself sharply, the dark picture of the slavery of her people rising hefore her. "Is any sacrifice too great."

As she had watched over and trained her boy during these years it had been with the hope and prayer that he might become the leader and deliverer of her oppressed people, and in the present moment the memory of this made her brave in repressing the stirrings of the moment low which would have kept her boy under her wing.

"But he is exactedy more than a haby, even now." her heart cried out, the dread of losing him again gaining the mastery. Could she hope that her training and teaching during the few hirely years of his early life would withstand the strong influences and the education of the Egyptian court during the years to come?

Yes, she had tried—to be—faithful.

of the Egyptian court during the years to come?
Yes, she had tried—to be—faithful. With an intensity at times which almost made her fear that she would weary the boy, she had taught him of God and God's dealings with Abraham, Isaac and Jacob, and the pròmises given unto them. She had tried to burn into his tender, receptive heart the fact that he was a son of Abraham and that 'the promises of hiessing and deliverance were for him. She had told him over and over again the story of how God had spared his life, and each time had emphasized that he was asved for a purpose and must be loyal to the only true God, the God of Abraham and Isaac and Jacob.

God, the God of Abraham and Isaac and Jacob.

The memory of all this served in a ensure to calm her anxious spirit. She had testude God hefore. Could she not trust Him again in her hour of need? She had sent her her had earli'r on the Nile, trusting that He would care for the little life, and He had. Could she not send him forth to the palace and again trust God that He would preserve him for the great mission to her people? Could there he any uncertainty where—Could was reckoned as a factor? How strong and confident her heart became as her faith reached out and laid hold upon her God Who had never failed her. She could tell him now, and moving towards the door, she called with a voice vibrating with subdued intensity: "Joachim, Joachim." Come here, my son."

"Joschim. Joschim." Come here, my son.

The hoy at once left his play and came to his mother's side in eager expectancy. His how many face with its expression of earnest thoughtfulness far beyond his years; his high, broad fore-head and large, expressive eyes; the strong yet sweet lines about the mouth; the diguified poise of the head; the sturdy limbs and the self-contained carriage of the body as he walked made him a youth of striking attractiveness, who would not fall to draw attention anywhere. The warm clasp of his mother's hand as he placed his own upon her knee brought the love light to his eye, and, with an expressive smile, he asked; "What is it, mother?"

"See what the princess has sent you," the said, at the same time displaying the fine linen robes, the costly girdle and the dalnty sandals which had been provided for him to wear on the morrow when he was presented at the palace.

acc.

He looked inquiringly at his mother, and then at the rich robes, then back fato her face, while a troubled look crept over his countenance. His quick intuition told him what it mean!

"I don't want them, mother," he said, hair resentfully. "I would rather have these." Jooking down at his simple, homely garments—"and you."

"But think of the beautiful home you will have with the princess and".

"Will you be there, mother?" the boy hastly broke in.

"No."

i I don't want the fine clothes, want to leave you and live in see," and his voice indicated the sent which he feit, nother realized the mistake she de. Her boy was not to be won mere offer of fine clothes. He to be briled by the splendor

g eye was all the answer

home and mother."
As she said it she wondered if he
would understand. Was he old enough
to grasp the though? If the clothes
and the paiace could not attract him,
would the higher appeal win his consent?

would the higher appeal win his consent?

"Then I will go, mother," was the quiet, firm response.

"God hiess thee, my boy," was the mother's fervid enswer. "In the paiace thou shalt be trained in all the skill and learning of the Egyptians, and some day—some day—pechaps you can serve God's poor people who are now in bitter bondage," and the thought stirred her heart with peculiar power.

"And i will," exclaimed the boy, drawing himself up to his tull height and, quivering in every nerve with the Intensity of his purpose.

There was a subdued quiet in the home that night as the family taiked over Joachim's future.
"And won't we be able to play together any more?" anxiously inquired Aaron, his voice breaking into a sob as

over Johaniss saurie.

"And won't we be able to play together any more?" anxiously inquired Aaron, his voice breaking into a sob as he realized what his brother's going would mean to him.

"But think." spoke up Miriam, hrave-light as she brushed a tear from her eye, "how proud we will be of our brother. And some day you will come back to us, won't you, Joachim." she added, hesechingly, turning to the little boy standing so thoughtful and quies in the midst of the family circle and snatching him up in her strong young arms.

"Well, we ought to be thankful that he was spared to us, and that the princess has left him with us until how."

"Yea." Interposed the husky woice of the father, "and the same God who spared his life so long ago will continue such Him now." And bead him Left under how young on the father, and the same God who spared his life so long ago will continue and Him now." And bead him Left under how young out of, their home might be kept true to the God of his fathers, and that through him deliver, ance might be wought for the ensiaved people.

Arrayed in his splendid robes Joschim.

laers, and that anomalism is a special to the ensiaved people.

Arrayed in his splendid robes Joachim was taken to the palace next morning by his mother and presented to the princess, who, surrounded by her attendants, awaited their coming. The apartment was spacious and the vivid freecoes and paintings on the walls presented in its various phases the life and pleasures of the royal family. Rich draperies and hangings softened the bright color effects, and great ures and vases of palms and ferns and hooming flowers were tastefully arranged about the apartment, and here and there soft divans and roomy recesses sculptured in the massive waits invited to rest and repose, while hefore a great image in a vaulted alcove at one side the smoked incense lasily curied up from its brazen urn.

Had not the inner consciousness of

a vaulted accove at one sine the sunwaru
incense lazily curled up from its brazen
urn.

Had not the inner consciousness of
the Divise presence held them both,
mother and son, unused to the magnificence and inxury and formalities of
the palace, would have been abashed
in such regal presence, but so absorbed
were they in the thought of doing God's
will that they were swayed by a graceand self-possession which no art or culture could have given them. And so it
was that the princess, instead of seeing
as she expected an awkward, trembling,
confused Hebrew woman and a frightend, tearful youth, beheld a woman,
garbed to be sure in the common dress
of the Hebrew women slaves, but bearing herself with dignity and grace, and
by her side a handsome youth, with
frank and carrest countenance and manly step.

After the first slance at the mother.

In the same a manageme yout. With frank and carnest countenance and man-ly step. After the first glance at the mother, her eyes fixed themselves upon the boy, and she watched him with absorbed interest as he came towards her. There was an indefinable something about him which reminded her of the first time she had looked upon his baby face as he lay in the little ark in the river, a something which had gone straight to her heart then, and now she found the same feeling stealing over her. Her heart went out to him and in that moment she knew that her life and ambitions were to he linked with those of the boy.

bittons were to he linked with those of the boy.

"This is the boy," the mother axid, simply, after they had bowed low before the princess.

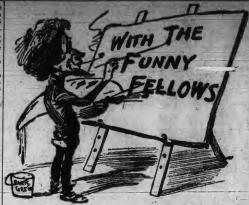

"My son," spake the princess (the mother started visibly at the words, No one but her God knew what it was costing her to give him up and give to another the right to cail him "my son"), "come hither."

Then noting the look of deep anguish on the face of the mother, she added, kindiy;

"Thou hast indeed been faithful, Here"—taking from her arm the massive jeweled bracelet and stepping towards the mother clasping it wards the mother clasping it was a fash the mother clasping the same a friend. But," she added, slowly and with emphasis, "the boy is mine." Quick as a fash the mother clasped him in her arms, planted a ferrid kins upon cheek and hrow and whispered in his ear:

"Thy God! Thy mission! Rememe!

her!"
And then was gone, leaving the brave
ititle lad alone in the great palace with
his foster mother. Alone? No, for
God was with him, and that last warm
kiss, that close embrace, those last
whisperds words were never forgotten
but served in times of weakness, and
doubt, and great temptation, to kee
him true to his divinely-appointed
course.

MANAGEMENT OF ROADS.

the Work May Be Syste nder a County Administra with Good Besults.

with Good Results.

In an address before the Missouri Dairymea's association, A. Nohnson, highway engineer, office of good roads of the department of harriculture, gave-tie following advice in regard to systematizing the road work under a county administration:

What I would auguest is that every county have a skilled road engineer constantly employed. (See chart.) He should be a man chosen for special qualifications in his pusiness. As a rule, think it is better that he should not be a native of the county in which he is to work.

"Secondly, you should see that an ef-

rule, I think it is better that he should not be a native of the county in which he is to work.

"Secondly, you should see that an efficient road law is enacted for each county of the state, as we all know that the successful conduct of a business depends upon the adoption and following out of a proper set of rules and regulations for the conduct of the road chusiness are the road laws that you adopt and enforce.

"All construction and repairs to the county roads should come directly under the supervision of the road engineer, and he should keep an account of all expenditures connected with the work and should-make an annual report of the same. The road engineer should study and the should be paid aniess approved by him.

"The county should be divided intercal districts; the roads in each district should be named, and so far as possible used. The road districts an observed on a county map on a scale large enough to enable each road and its name to be shown clearly. The road in each district should also be classified as first plass, second class, etc., according to the smouth of travel each receives. "The road district should should should be hid and so far as possible used. The road districts and he should give he shown clearly. The road in each county should also be classified as first plass, second class, etc., according to the smouth of travel each receives. "The road district should should should should be head on a county of a particular district, and the remaining one-third of the total amount of the road district should be allotted to road and bridge repairs in that district; and the remaining one-third of the road levy of a particular district; and the memaining one-third of the road levy of a particular district; and the memaining one-third of the road levy of a particular district in the memaining one-third of the road levy of a particular district should be met; and it may be allotted to road and bridge repairs in that district; and the memaining one-third of the road levy of a particular district sh

Get Spraying Apparatus Ready, in the fall and winter prepare for pring. The spraying apparatus must a ordered in the winter if it is to be

BLIGHT CANKERS.

sel, Cornell University.

The attention of the orchardist is usually first directed to the war-canker of apple tress only when the affected tree is nearly or quite dead. Badly diseased trees either fail to leaf out at all in the spring or as is more usually the case send out a sparse growth of mouse-care leaves, i.e., amall gray green leaves with margins rolled or recuryed. They do not have the dense, dark green foliage of healthy trees. At first this condition is not sufficiently contrasted with the healthy tree to attract notice, but as the season advances the healthy trees expand their leaves to normal size and the affected trees thus appear to suddenly cease growing. Frequently the

TREE BADLY AFFECTED BLIGHT CANKERS.

leaves turn brown and dry up on the trees. Sometimes affected trees will to leaf out the following spring. On making a closer examination of these drying trees, sunken spots in crotches, limbs or body are found. Further search in the orchard is almost certain to disclose similar cankers in otherwise apparently healthy trees.

The chief distinguishing character of this disease is the presence of these cankers. Along with this goes several other phenomena the relation of which to the disease has as yet not been entirely worked out. Among these secondary features perhaps the most constant is the bleeding or exudation of sap from the heart wood where it is exposed by pruning or canker wounds. Often frees in affected orchards which show no trace of recent cankers will exhibit the most profuse bleeding from prused stubs. There is another character which becomes quite evident, especially toward the latter part of the summer. The bark of badly affected trees often has a peculiar bronzed or light brown color. When cut into it is dry and pale with streaks of brown and does not have the sappy green color of healthy tissue. Such trees as if in anticipation of their early death, usually blossom abundantly and set a heavy crop. This was served this spring. A canker on onside of the body had involved the base of a large limb. The side of the tree formed by the branching of this limb was one solid mass of blossoms to the almost total exclusion of leaves, while the remainder of the tree was well-leaved and bore a normal per cent. of lowers. The fruit which sets on such diseased, trees and limbs matures abnormally early and is usually of very inferior quality or owing to the drain on the aiready weakened tree, it may never mature at sill, but wither and drop from the dying branches. These phenomena in leaves, bark and fruit re to be autifulated. It hink, directly to the cutting off of the sap supply by the cankers or the body and limbs. The treatment which at present appears most successful is to clean out the cankers, a content

chart showing plan, cankers, 2, pruned subt cankers, 4, could show the amounts speed on each road for labor and materials, respectively. "It is possible that the system of administration here outlined would be too expensive for these counties where road funds amount to only a few thousand collars annually. But this difficulty could be overcome if two or three neighboring counties should be formed into one large road district, and the total road taxes be administered under a system similar to that service the counties of the continuous continuou

A Trip for Winter Days.

Take a trip now and then out to the orchard and see that the snow is packed down well about the tree trunks. Mice often make terrible work burrowing under the spow and girdling the treet.

QUEER CORRESPONDENCE.

Bureau.

There bureau, Ike other departments of the government, is constantly in receipt of queer letters from all kinds of people who want to have the weather regulated to suit them. Not only do letters containing complaints against the weather come to the bureau, but the elephone is containing to the bureau, but the elephone is containing to the bureau, but the elephone is containing to the bureau, but the elephone is contained to the bureau, but the elephone is contained to have on a certain day, because, the questioner explaine, he wants a clear day at that time, because he is going out of town on a pient or an outing.

The inquiries generally are in regard to the weather, on a. data, two weeks ahead. Two weeks is the favored period, and many of the inquirers show very bad temper when they do not get an answer to suit them.

The most remarkable message, or rather, ridiculous one, ever received by the weather bureau, was one from a man who said he was a great friend of the cabinet officer under whose direction the weather bureau was. The man claimed that he had big influence with the secretary, and if the weather bureau would manufacture a beautiful day to roder for him he would send a crisp on; he day following.

He stated that the reason he wanted a rond day was because he was going.

on the day following.

He stated that the reason he wanted a good day was because he was going to take his mother-in-law and some visiting friends on a car ride to the Great Ialis, and did not want to get wet or have the lunch spoiled by having to postpone the trip.

The clerk who received the request wrote the man the following reply:

"There is only One who can grant your request, and He is too far away to be reached by mail or telephone."

Standing Order.

Newlin Haines, of the Atlantic City
Hotel Men's association, was talking
about the odd rules that prevail in
many of the cheaper restaurants and

about the odd rules that prevail in many of the cheaper restaurants and eafes. "For instance," he said, "I go in and order oysters, saiad, and dessert, and get a napkin, but the man next to me, because he has only ordered ple and milk, cau't have a napkin on any ac-

milk, can't have a napkin on any account.

"A guest here last summer gave me the best example of these absurd rulings and differentiations that I have heard yet.

"The man said that he entered a lunch cafe in London, an ornate place, with a counter where some of the patrons stood, and with a number of little tables where others sat.

"The man gave a small order, and took a seat at one of the tables.

"Thereupon a water hurried to him.
"Beg pardon, sir,' he said,' but puns (an't sit,' "—Chicago Inter Ocean.

Journalism by a Journalist.

There are two kinds of greatness in journalism—one that involves the editing of newspapers with distinction, the other the faculty of writing in a way that shall impress itself upon masses of men. The faculty of editing a newspaper with distinction has not always been associated with mere commercial success.—London Sphere.

Royal Motorist.

The king of Italy is not only one of the most enthuliastic of royal motorists, but, perhaps, the only one who has qualified by passing a severe practical examination. He is a clever mechanic and repairs his cars.

HIGH CLASS DRUGGISTS AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily tell. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by hillounness and constinction, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not healtate

A SIMPLE SOLUTION

"How fresh the air is here in the country! In the city it's intolerable!"
"Yes, sir; I've often wondered why they don't build the hig cities out in the country, where there's better air and more room!"—Lustige Blaetter.

An Exception,
"Misfortunes," growled the pessimist, "always come in pairs—"
"Oh, I don't know," remarked Jackson Trays, "I've won a number of
pretty good pots with pairs,"—Phila
delable Proce.

COST OF LIVING IS HIGH. coctive Tariff and Inflation the Causes—No Probable Relief Until 1909.

You who have small incomes, who have hitherto with strice economy had enough to live upon, are now suffering to make the live upon, are now suffering to the live upon the liv

so that banks are receiving par in currency for the honds they deposit with the United States treasury, instead of only 90 per cent. under the old

stead of only 90 per cent. under the old law.

Without taking space-to show the details of this enormous inflation of the currency, it is only necessary to say that whereas the average circulation per capita in 1896 was \$21.41, now it is \$31.40 and advancing at the rate of about one dollar per capita, or \$80.000,000 a year. How much further this inflation will go is an unsettled problem, but the output of gold is still increasing.

creasing.

The Democratic claim in 1896 of the quantitative theory—that the volume of money in circulation fixes prices for commodities—is justified by events, but that contention was not intended to be accompanied with trust extor-

summedites irculation fixes prices on the commodition of the window glass, but that contention was not intended to be accompanied with trust extortion.

The second reason for a still greater advance in prices is the organization of the window glass. The second reason for a still greater advance in prices is the organization of the window glass trust of the Disely tariff bill by the Republican is 1857, which greatly increased the protective duties on most articles the protective duties on most articles the protective duties on most articles of the import stated, is close to 50 per cent. That enormous tax and combines to an extent never intended the protective duties on most crust productions protects the trusts from much higher per cent. on most crust productions protects the trusts from much higher per cent on most crust productions protects the trust from much higher per cent on most crust productions of the provides of the surplus the trust from the power of the people to purchase. To dispose of this surplus the trust have produced, the total amount heigh peyond the power of the people to purchase. To dispose of this surplus the trust have produced, the total amount heigh peyond the power of the people to purchase. To dispose of this surplus the trust share protected the trusts in doing this and, of course, they are trust in doing this and, of course, they are the provided for reciprocity with foreign nations, and it was the protection be continued.

The Republican party has agreed to "stand pat"—that is, not revise the trust in doing this and, of course, they are the proposed discount. Such treates were negotiated by the results, here refered to ratify making mutual concessions of about 25 per cent to the price of the provided for reciprocity with foreign nations, and it was the president with the trust and provided for reciprocity with foreign nations, and it was the president by the results, have refered to ratify the provided for the proposed discount. Such treaties were negotiated by the results where th

it its senate then, which will still be Republican, refuses to pass a tariff revision bill, the fight will be carried into the presidential election of 1908. As one-third of the senate will be elected in 1906, it is possible, of course, to reform that body at that time, but so many of the states are controlled by the trusts and comparation that it. we many of the states are controlled by the freets—and-corporations that it will probably take two Senatorial elections for the tariff reformers to obtain a ma-jority of that hody. This is the situa-tion that those who are suffering from high prices must face and there is no easier or quicker solution.

REDUCTION OF WAGES.

The Window Glass Workers Discover
Protection Does Not
Protect.

There are nut few industries more highly protected than as as-making in an its branches, the tariff ranging from 40 to over 100 per cent. Window glass is taxed by the tariff from 1% cents a pound to 20 cents per square foot, according to size and quality. This cording to size and quality. This continuous hundering the consumer, for the president of the Amalgamated Window Glass Workers' association, in a special letter lately sent out to the distribution of the Amalgamated Window Glass Workers' association, in a special letter lately sent out to the accepted "in order to prevent disaster to all who are not interested in the machine-made product," says:

"After January 3 there is no power on earth that we can use to keep all the members employed unless we meet the situation by a reduction in wages for a time, at least."

The proposed cut in wages is one-third and the workmen will have to accept it or be idle.

But notwithstanding this great reduction in wages facing the glass workers, the protectionists still persist in protesting that no revision of the tariff law must be undertaken, or labor will suffer. The facts show that a large proportion of the window glass workers, the protectionists still persist in protesting that no revision of the tariff law must be undertaken, or labor will suffer. The facts show that a large proportion of the window glass trust with machines that do many men's work, has them at its mercy.

Meanwhile, the public are paying two prices for window glass, because the trust has no competition and the high wages of the workers wo manufacture glass by hand, secures the trust from foreign competition with its low-cost machine-made glass.

The congress, controlled by the Republicans, has heen organized to prevent carrier revision in any form and no relied to the people from the plury of the proper or the plury of the proper or the plury of trust high prices can only get relief hy electing a D

CONTRIBUTIONS OF BANKS.

Comptroller Ridgely, who is head of spectors are not aske to discover that the banking department of the government, reports to the senate that a few political contributions of 3200 fb 3200 are the only ones given by national banks in the last four political campaigns. Wh. Ridgely, being a good Republican partisan, does not indicate that these sums were all subscribed to the Republican committees, but it is a fact nevertheless. As the bank in doubt one save the country."

AN ARMORED MOTOR-CAR, Jan were the large the control of t

A tuile ruche and a tight little wreath of roses trim the mushroom hat.

Amethyst is a color that is seen more frequently as the season advances.

There is a new net inlet with borizontal stripes of face, which makes lovely evening rows.

The luxurious evening coat is lined throughout with ruffles of narrow valenciennes.

Blouses of satiny leather in white or colors are the modish shirt waists for motoring or driving.

When one wishes to appear particularly well, the becoming picture har remains the favorite.

Many women have their gowns made up with two skirts, one short and severe, the other long and trimmed.

Beits of gold braid are fetching and will brighten up the dark shirt-waist suit to be so much worn this winter. Such a pretty opera bag for the woman in black is of black Irish crochet over silk. The mounting is gun metal.

The streets will be a gay riot of color this winter if all the rainbow hued suits one sees in the shops are to find purchasers.

In one shop is shown a gown with little creatures like ermine sprawled all over it. It would make a lovely woman look like an awful barbarian. Velvet is quite the thing for a street gown this winter. The tailored gown of black velvet, made severely and worn with handsome fure, is first choice.

Children's coate are charmingly tricked on with a bit of fur at collar and wrists. Angors, caracul, ermine and Persian lamb are all used for this. White goatskin makes delightful entire coats for the youngsters. It looks like caracul, but Is much less expensive and cleans easily.—Chicago Daily News.

Sweet Petatoes a la Creole.

Ped five large sweet potatoes and cut in halves the long way. Put in a deep baking dish, over with milk, add half a teaspoon of salt and a tablespoon and the process of the salt of

The Invention of a German Goes Over Rough Fields and Climbs Hills.

rough field was quite within its possibilities.

In the tests recently made this automobile for casily made 25 miles an hour, cutting across fields from one road to another and demonstrating its ability to fight in a broken country. While in the experimental maneuvers the roads were used where possible, the machine was purposely driven across-country to make the test as severe as possible, but the era surmounted every obstacle with case.

The 40-horsepower motor is specially built, somewhat heavier in all its parts than a motor of similar power cesigned for a touring car, and came through the long and exhaustive trial without heating or any of its parts getting out of order.

Partly Right.

Partly Right.

Mrs. Naybur-l have heard your hushand spoken of as a pure food enthusiast.

Mrs. Crossway-He's a-food enthusiast, anyway. He can eat more than any two men 1 know of,—Chicago Tribuuc.

Foe of Cupid Punished.
Dismissed because he had married, a

HOW KINGS HAVE DIED.

SCIENTIFIC SPECIALS.

SCIENTIFIC SPECIALS.

Two German scientists announce the discovery of a new anaesthetic having all the virtues of occaine without the latter's secondary ill effects. The new substance is called "allypine." It deadens pain by local application, and does not contain poison.

The effect of ultra-violet rays of light on some kinds of glass is strikingly shown at high altitudes. At a mountain station of the Canadian Pacific railway-5,000 or 6,000 feet higheren glass telephone insulators have changed to brilliant purple.

Many observations have convinced Mabel S. Nelson, a British psychologist, that men hear better than women, and "that both men and women hear farther with the right than the left ear. Men are clearly superior in recognizing blue, and women are possibly superior in recognizing blue, and women are possibly superior in recognizing pillow.

The atmosphere contains a great quantity of solid matter, usually incomplete the series that a cubic meter of the air of Paris usually contains six to eight milligrammes of dust-sometime. 3 milligrammes—but away from citales there is less. Nearly a third of the city dust is organic matter containing living germs. The dust usually carries a few metals—sodium, calcium, magnesium, altendum, and especially liron, with nickel and cobalt, the last three being brought to the air in materior dust from space.

LOST EYESIGHT Through Coffee Drinking

Some people question the statements have been but few cases of its kind that confees hurts the delicate nerves of the body. Personal experience with ithousands proves the general statement rue and physicians have records the testimony.

The following is from the Rockford, Ill., Register-Gazette:

Dr. William Langhorst of Aurora has been treating one of the queerest the case of lost eyesight ever in history. The patient is 0. A. Leach of Beach county, and in the fast four months he had doctored with all of the specialists of the about the country and has at last returned home with the fact impressed on his mind that his case is incurable. The fact that about the country and has at last returned home with the fact impressed on his mind that his case is incurable. The fact that he had octored with all of the process of the specialist of the specialist on the subject of the specialist of the specialist

Points in the Governor's Message.

THROUGH THE WILDS OF KENTUCKY IN 1863,

After the Remains of a Warsa' Boy, one of Gen. Morgan's Men wwo was killed in Battle in the Mountains of Tenn

To the Editor of the Recorder

To the Editor of the Recorder:

Thrown upon our own resources with nothing to rely upon for protection more than our mission of mercy, courtesy, good behavior and possibly good looks (of the former Frank was all that, to perfection) having a bountiful supply on hand, being a polished, complacent gentleman, while of the latter—well, if left to his wife he might pass muster. As to myself I could afford to be deficient in the former by depending upon Frank's surplus, while of the latter I must confess that I was apprehensive of the stock on hand, less the supply might fall short of the demand. My dear old mother (as only a mother will) had told me in my early youth that I was an exceedingly pretty baby, but as I had not heard my beauty commented upon in a few years I had begun to suspect that I had possibly lost out with the gift of countenance and it would be as well for menow if I had been born homely as the way I was. I could perhaps have relied with a better degree of faith had mirrors not been invented.

and the second the final proper of the final p

what yous goin?" When I had gathered mybelf up and regained my bearing, I answered, "we are going out of the country if we how," came next. I replied, "he aded man," who killed him," he asked (for they didn't seem to understand how a man could die. By this time they had approache of the word and the fellow in the box died with the didn't seem to the paractory to getting in. With the didn't "replied, "he all did "replied his foot on the hub preparatory to getting in. With a man there has got the smallpox and the fellow in the box died with the didner of the country before we all die with it." But his foot had gone off of the wheel and they had not all the stood upon the order of going, but it has the with the country before, we all die with it." But his foot had gone off of the wheel and they had not all the stood upon the order of going, but it has the with the country before, we all died with it." But his foot had gone off of the wheel and they had not all the stood upon the order of going, but it has the with the country before, we all died with it." But his foot had gone off of the wheel and they had not all the stood upon the order of going, but it has the with the country before, we all died with it." But his foot had gone off of the wheel and they had readed disease. The mention of it carried with it a holy horror. This was not their first experience in the stood of the country. The was that loathsome and much dreaded disease. The mention of the country had so per the latter by a stood with the country had so per the latter by lowering his revolver, with a fiery distance had been distance he leveled his pistol. As a stood with the outcome he did not have to the country had so perfectly satisfied with the outcome he did not have to the country had so perfectly satisfied with the outcome he did not have to the country had so perfectly satisfied with the outcome he did not have to the country had so perfectly satisfied with the outcome he did not have to the lout the country had so perfectly satisfied with t

tell us the second time to git up and git.

It is getting late in the afternoon; the sun has gone to rest in its bed of cedars and mountains; a wild cat has just crossed the road on a leaning cedar, making the bark fly and uttering one of the most hair splitting and unearthly screams 1, ever heard, but we see a house in the distance.

[To be Continued]

The epidemic of matrimony which has raged so fiercely all fall and made such extensive inrail and made such extensive in roads upon this season's crep o bachelors has added to its lis another pair of victims, says the Middlesboro News. "Matrimon ialists," the paper says, "is not as dangerous as smallpox."

Mayfield Messenger says there are two things that Tennessed don't want—whisky and horseracing, and the fate of the latter seems to be "at stake."

Attorney J. G. Tomlin's loss by the recent fire in Walton was \$1000 above his insurance. The local K, of P, lodge is enjoy.

ing a prosperous season. Several members are being put through it this time. Those owning sleighs were given a splendid opportunity to use them last week, and right well did some put in the time.

Deputy Sheriff Cropper, made his first official swing, last week and in it called upon his superior in office at Petersburg.

Several of the young men, of this place, contemplate attending a Cincinnati Business College, entering within the next few days.

A Home Coming of Kentuckians is set for June 13:17 at Louisville. An extensive program has been prepared for the occasion.

If you desire to receive the Kentucky Post after February 1st you must make arrangments with O. J. Ryle.

J. L. CLORE.

In some neighborhoods considerable of the 1905 crop of tobacco has been sold, the highest price paid being \$10 for a crop in East Bend.

Leslie Nichols, who lives about a mile south of town, killed a rabbit, one day last week, that weighed 4½ pounds. Some say it was a Belgian hare.

No services at the Baptist church last Sunday night, on account of Rev. Early arranging for his wife to leave for Texas on Monday

Mud roads are getting very bad again. Plenty of rain in the summer and spring makes good crops, and in the fall and winter it makes bad roads.

Hubert Rouse, of Limaburg is "assembling" material for the pur-pose of building his new residence near his father's on the North Bend road between Hebron and Lima-burg.

For several years February has been the month that created the ice harvest, consequently those who have ice houses to fill are not yet getting uneasy for fear of a failure of the crops

Read the new advertisement of that old reliable clothing firm, Rolfs & Wach, of Covington, in this is-sue. They have acquired a good trade in this county by honest, square dealing with the people.

A fellow who says he knows whereof he speaks, made the state-ment that "the lid is on in Bur-lington, good and tight, for the first time in many years."

Burlington Lodge K. of P. No. 109 will confer the Knight rank on six candidates next Saturday night, January 20th, 1906. After the work all present will take part in-confering the Fourth Degree. Members of neighboring lodges are invited to be present.

Beats The Music Cure

"To keep the body in tune," writes Mrs. Mary Brown 20 Lafay-titles Dr. King's New Life Pills. They are the most reliable." Best for the Stomach, Livet and Bowels. Guaranteed by all druggists. 25c.

Dr. L. H. Orisler, spent last week in Covington, looking over the field with a view to locating there for the purpose of practicing his profession, that of veterinary. He has decided to move to that city so

was gad when the time came to bank the fire that evening.

The report reaches this office that Burlington's local fur dealer, had a very narrow escape from a tragic death on Monday of last week, the day that the mercury was doing business below zero. Early that morning he went to the country astride his lavorite Rosanta, to visit a number of prominent trappers, and purchase their stocks of furs, and while he whas attempting to cross Gunpowder creek, his horse slipped and fell, carrying the rider with it down into a pool of water of considerable depth, giving him a pretty through wetting. As soon as he and his horse got out of the water, he laid whip and rode at the top of the horse's speed to a country store about a mile from where he took the bath, and instead of furs, he purchased an out-fit of underwear which he substituted for the nether part of his diving suit, and stood close to a cherry red stove until his outward apparel was dried. It was an exciting experience—first escaping death by drowning, and then avoiding it by the freezing route.

authors possible and score and exciting expansion and the avoiding it by the freezing route.

in Covington, looking over the field with a view to locating there for the purpose of practicing his profession, that of veterinary. He has decided to move to that city so soon as he can secure a residence, which he says is not easily done just now.

The wind Monday afternoon tore up Jack at George Gordon's about a mile and a half north of Hebron. It destroyed three buildings for him. One was a tenant house which it tore all to pieces, carrying fragments several hundred yards. This house was vacated only a few days ago by Stant White, colored. Another was a log corn crib which it twenty from the foundation, carrying the logs considerable distance. The third was a small barn which was damaged so badly that it will have to be taken down. Mr. Gordon's damage is about \$300. In the Richwood neighborhood, as mall house or two were blown shown.

Nine Burlington Dames and four Misese pulled off a rabbit roast at the club rooms, last Thursday afternoon. Twenty-two nice, fat rabbits were roasted to suit a Queen's taste, while the enjoyment of veterans in the work. For tear some reader will wonder how thirteen women disposed of twenty-two are blotts, it is necessary to record, right here, the fact that after being more proposed in the control of the control bership church.

when the war between the States broke out Dr. Smith's Virginia blood asserted itself, and he espoused the cause of the Confederacy, and he left wife and dear ones to cast his lot with the South, where his professional ervices were needed at the army's front and where he soon found himself ministering to sick and wounded among those who, like himself, were willing to sacrifice their all for the principles in which they believed.

Late last Friday afternoon as Callie Baldon, who lives about two miles west of town, was putting some articles in his buggy at Clutterbuck Bro's store, the mare at tached to the buggy became frightened and started out the Florence pike at the top of ber speed. Near Colonel Crisler's shop the top was jerked off of the buggy, the mare continuing in the middle of the pike to near the toll gate, where some parties in a carriage saw her coming, and alighted from their vehicle and managed to stop her, the only damage done to the vehicle being the lors of the top. Mr. Baldon drove the mare home, she seeming not to be much excited after her escapade.

January has been very much like

January has been very much like the month of March, so far as wind is concerned.

The blow last Monday afternoon seems to have been general through the Ohio valley.

Bud Hammon, of Limaburg neighborhood, was among the call-ers at this office yesterday:

The wind Monday afternoon molished a chimney or two on E. Vest's residence near town.

The wind Monday afternoon played havoc with fodder shock and fencing in some places in this

New Jersey has enacted legislation olding automobiles for the amount of image they may do the public roads, the the pedestrian continuing to dige as best he may.

The German government has offered three prizes for the best field kitchens available for army use, and it is stipulated that every such outfit must be of a size making it possible to carry it on a horse, with epace left for the driver's luggage and forage for the borse.

In the more prosperous parts of London 80 mistresses of households out of every hundred have domestic help. In the East End only five families in each hundred can afford household assistance. In the provinces generally one family in every four has a servant for "help."

The shah of Persia never, under any circumstances, sleeps on a bedstead; and no matter where he has stayed, whether it be in royal palaces or hotels, he has either had the bedstead removed from the sleeping spartment or else has relegated it to some remote corner, so as to enable him to sleep in the exact center of the room on a couple of huge cushions or soft Oriental matresses stretched upon the floor.

The world's production of coal in 1800 was 379,009,000 tone, and the United States furnished 20 per cent. of the whole. In 1890 the share of this country was 28 per cent. of the world's total of 563,009,000 tons, and in 1900 it had risen to 52 per cent, of the product of 500,000,000 tons, For the present year the world's output will exceed 1,009,000,000 tons, of which this country will produce 39 per cent. The United States last year mined more coal than was produced in the world in 1880.

was produced in the world in 1880.

Former Judge William H. Moore, the weakknown financier of New-York and-Ohicago, has the distinction of wearing the most costly overcoat in the United States. It was made to order for him from selected-sable fur at a cost of \$19.00. Every sable akin forming the Haing to the coat is absolutely perfect, having been examined and passed upon by one of the most expert furriers in New York before it was permitted to become part of the \$19,000 overcoat.

At last the long looked-for and diffi-cult Northwest Passage has been dound. Since 1497, when John Cabot is said to have tried to pass through the Arctic ocean from the Atlantic to the Pacific, there have been many un-availing efforts to discover the North west Passage, and hundreds of men have perished in the attempt. But at last this passage has been successfully-savigated the control of oding: it hav-ing lately been won by Capt. Roald Amundsen, of Christianis, Norway.

Amundsen, of Christiania, Norway,

A Danish officer is pictured to us insking observations in regard to the deviation of rifle bullets. One day, when walking on the ramparts at Dupel, he saw a Prussian charpshooter taking aim at him. While the soldier placed himself against a tree, in order to take a steadier aim, the officer raised his glass to watch his movements. "This is all right," said he; "the musket is just on a line with my breast. We shall see." The trigger was pulled, and the Danish officer was pulled, and the Danish officer placed himself, and the deviation of a ball from a rifle musket is about one meter."

In the senate on the 10th about 80 hills were passed, leaving on the calendar only six or seven measures. Of the bills passed a large majority granted private pensions and many were bridge bills. One of the bills favorably acted upon was an appropriation of 3200,000 for the marking of the graves of confederate soldiers who died in northern prisons during the civil war. A voofferous speech in favor of the Philippine tariff bill by Mr. Daizell (Pa.) opened the proceedings in the house. It was followed by several others against the measure, the most notable of which was one by the veteran statesman, Mr. Keifer, (O.), an ex-speaker who returned to the house after a retirement of 20 years. Interest a retirement of 20 years. Interest was injected into the Philippine tariff debate in the house of representatives on the 12th by a Massachusetts "idea" of tariff exposition by Mr. McCall, of that state; by a character study of the Pillipino by Mr. Longworth (O.), and by a defense of President Roosevelt by Mr. Pou, a democrat, from North Carolina.

The house committee on labor discussed the Gardner resolution for an

democrat, from North Carolina.

The house committee on labor discussed the Gardner resolution for an investigation of child labor conditions throughout the United States by the department of commerce and labor.

Representative Dalzell introduced a joint resolution directing the selection of a site on government property in Washington for a bronze statue of Henry Wadsworth Longfellow.

The railroad property in Michiganas fixed hy the state tax commission is valued at \$207.08,000, an increase of \$11,000,000 over last year.

The main business block of Advance, Mo., which consisted of the post office, theater and eight stores, was completely destroyed by fire.

The president and Mrs. Roosevelt pare a dinner at the white house in homor of the diplomatic corps. The table was set in the state dining room and covers were laid for 59 persons.

Two services in memory of the late President William R. Harper, of the University of Chicago, were held—in New York, the more important being held at Columbia university, at which addresses were delivered by President Woodrew Wilson, of Princeton, and President Nicholas Murray Butler, of Columbia.

Business failures in the United States in the week ending January 11 number 286, against 290 the previous week, 285 in the like week of 1905, 315 in 1904 and 284 in 1805.

Dr. Thomas M. Owen, commanderinchief of the Sons of Confederate Veterans, announced that the reunion of the order will be held in New Orleans April 28, 28 and 27.

The International Cigaumakers'

AN INSURANCE BILL

It Provides For Federal Control

Defines Policies as instrumentall es of Commerce and Makes Pro-vision For a Controller—It Will Correct Many Evils.

will Correct Many Evils.

Will Correct Many Evils.

Washington, Jan. 15.—Senator Dryden has revised his bill contempiating government control of insurance and will reintroduce it in the senate. He has followed very close the investigation being conducted by the New York legislative committee and this has aided him in perfecting his measure until now he expresses the belief that it will correct practically all of the insurance evils exposed by the New York inquiry.

Publicity is the keynote of the bill and coupled with this are safeguards for the detection of wrong doing and the punishment of those so offending. It defines politics, or insurance-coltracts, as instrumentalities of commerce and provides for the regulation of the business through the medium of a controller of insurance and along lines similar to the control excelsed over national banks. The author says he believes this will go far toward meeting the objections of those who have questioned the constitutional is possibilities of federal regulation of insurance. The senator says the bill has the endorsement of the president, administration officials, eminent constitutional isowers in and cutof congress and others who are familiar with its general features as coming nearer to meeting the demands of the situation than any of the other numerous pending measures. Senator Dryden has long been a champion of federal regulation.

A Proposal For a Referendum in Arl-izona and New Mexico Rejected.

Washington, Jan. 15.—There have been some conferences among the statehood insurgents and one of their leaders insisted that there was no sign of weakening among them and expressed confidence of success. One suggestion of a compromise on this bill has been made to provide for the pressed confidence of success. One suggestion of a compromise on this bill has been made to provide for the referendum which would allow the voters of Arizona and New Mexico to decide whether or not there should be a joint statehood. This was rejected by the house leaders as untenshle and a radical departure from the position of the house in the last congress and the desire of a majority of the republican majority in the present house. The desire for a compromise as stated by a prominent republican member who has not been active on either side, either on the Philippine bill or the statehood bill, was because of the trianed relations between the republicans and the feeling which is becoming more hitter as the fight goes on. At the same time he did not see much hope of any compromise at the present time.

BATTLE IN SAN DOMINGO.

Either Kilied or Wounded.

Cape Haytien, Hayti, Jan. 15.—A sangulary and what probably will prove to be the final battle has taken place near Guayubin, hetween the troops of Gen. Caorres, the temporary president of Santo Domingo, and the lasurgents. The former were victorious. Several generals on both sides were killed or Wounded.

The gunboat independencia, which recently went over to the insurgents, intends on the advice of former President-Morales, to return to Santo Domingo and surrender if the government will guarantee the safety of its officers and crew.

FRENCH CHARGE RECALLED.

matic Relations Between Fra

Caracas, Thursday, Jan. 11, via Port of Spain, Trinidad, Jan. 15.—The Venezuelan government, having continued to abstain from renewing relations with France through M. Taigny, the French charge draftiers, Mr. Russell, the American minister yesterday (Wednesday) afternoon delivered a note to Venezuela on behalf of France severing relations hetween the two countries. The archives and interests of France remain in the hands of Mr. Russell.

Russell.

-M. Taigny has been recalled.

Communication by way of the recond Cable Co.'s line is prohibited and dispatches must be sent by way of the Island of Trinidad.

Marshall Fleid's Condition Worse. New York, Jan. 15.—The condition of Marshall Field, of Chicago, who has been ill for several days at a hotel in this city, is worse. The pneumonia is not yielding to treatment and the patient is greatly exhausted.

Three Children Cremated.
Winnipeg, Man., Jan. 15.—In a fire-which destroyed the farm residence of H. A. Brazil, in the Portage la Prairie district, three children were cremated and the parents narrowly escaped with their lives. The home was totally destroyed.

THE CALL OF THE CANADIAN WESTA

The Greatest Wheat Crop of the Continent.

The Greatest Wheat Crop of the Continent.

The year that has just closed has done a great deal towards showing the possibilities of Western Canada from an agricultural standpoint. The wheat crop has run very near to the 100,000,000 bushel limit that was looked upon as too sangulne an estimate only a short time sgo, and the area that has been broken to fall wheat for the coming harvest will go a long way towards enabling the farmers of the West to overlap on the 100,000,000 bushel estimate next year. And while the spring and winter wheat have been doing so well during the past few years, the other cereals have been keeping up with the procession. Rye and barley have made immense strides, and peas and fiax have been moving steadily along. Dairying, also, has been successfully carried on in the new provinces, and in every stage the farmer has been "striking it rich." To such an extent has the success of the West taken hold of outsiders that the rush of Americans to Saskatchewan and Aiberta, which was looked upon a marvelous last year, hids fair to be largely exceeded in 1906, and as there are still millions of acres of free homesteads available, which the building of the new rallways will render accessible to the markets, new wheat lands will be opened up ere long. Amongst the first to avail himself of the opportunity presented will be the American settler. In a large number of American cities Dominion Government Agents are located, who are able and willing to give the latest and heat information in regard to the new districts which the railways will open up, and there will he no ahatement of the rush to the Canadian prairies during the coping season. Some time since a poet in the columns of the Toronto "Star" had the follow-ling silring lines, which throb of the Western spirit:

re's to the land, the young giant of the lord, where the prairies are opening up?"

They come from the East and they come from the South-they come o'er the

deep rolling sen.
They come, for they know they will dwell
neath a flag that makes all men equal
and free.
Then, once more the toast, and let every

and free.

Then, once more the toast, and let every man rise, and cheer ere he slop from, the cup:

"Here's to the land, the young glant of the North, where the prairies are opening up?

STOLEN SMILES.

Mr. O'Rorke (who has been quar-reling with a visitor)—Now, romem-ber, Jane, the next time you let that man in you're to shut the door in his face!

Ardent Sultor—"I love your daugh-ter, and would willingly die for her." Old Man—"Ah! That's good; what is the amount of life insurance that you carry?"

Small Boy-"Gimme a grain o' qui-nine." Drugglat-"Only one grain? What ye goin' to do with one grain?" "Paw wants to put it in a gallon o' whisky he's get."

Reporter—"To what do you attrib-ute your longevity?" Oldest Inhabit-ant—"My what?" "Your longevity." "As far as I remember i never had no such compialnt."

Book Agent—"Lady, this book will tell you sil about the habits of sav-age animals." Mrs. Oldwed—"I know more about them than that hook could tell me I've been married 20 years."

Not in Danger.

Never mind worrying about the man
the rails you he is worked to death.

DID A WORLD OF GOOD

Dr. Williams' Pink Pills Gure Heart Pains, Dizzy Spells and Weakness.

Dr. Williams' Pink Pilla Gure Heart Pains, Dizzy Spella and Weakness.

Easy to get, hard to get rid of; that is what most sufferers think of dyspepsia. They are astouished when their stomach begins to trouble them seriously. They had been eating harriedly and irregularly for a long time, to be surposed their stomach squire used to tint.

Some people know that the strength which the weak stomach needs, and for the lack of which the whole body is surfering, can be found surely and elicibly in Dr. Williams' Pink Pills. It hundreds of instances these pills have succeeded where other remedies failed. "My indigestion," said Mr. J. R. Miller, of Dayton, Va., "came in the first place from the fact that a few years ago I worked a great deal at night, and at at any odd hour winesover the chance day I found uree very hurriedly. One strength of the strength of the work of the research of the reasons who had you was deep and only in the first place of the research of the reasons who had you would be so weak that twoild hardly take any food. I had very ancounfortable feelings about my cayes would be hadly blarred." I rand the statement of several persons who had got rid of obstunts stomach troubles by using Dr. Williams' Pink Pills. I bought some and they did me a world of good. They soted promply and did just what was claimed for them. I have to more disters and

STATE NEWS HAPPENINGS

IN THE LEGISLATURE.

tucky Solons Are After the Express Companies.

Express Companies.

Frankfort, Jan. 10.—Tuesday was certainly bill day in the legislature, for 148 house bills and 33 senate bills were dumped into the hopper. A large number of house and senate bills were each duplicates and introduced in both bodies in order to hasten their bodies in order to have a connect their wires with rival companies; extending the separate coach law to street cars and interurban roads; prohibiting betting by any one in any form on a horse race or order test of appeading the senation of the prockage or bottle, and an act requiring railroad companies to erect stations every four miles. All these bills will call forth much opposition and their passage will be fought to the end, The contest committee in H. H. Sims against Senator Montut from Louis. Frankfort Jan 11.—Senator Henry Henry Henry Lan 11.—Senator Henry Lan 11.—Senator Henry Lan 11.—Senator Henry Lan 11.—Senator Henry Lan 11.—Senat

sgainst Senator McNutt, from Louislile, decided in favor of McNutt
(dem.).

FEARED POSSIBLE VIDLENCE.

Wife Murder Charged Against the Man Spirited Away.

Leitchfield, Kr., Jan. 13.—Samuel Duvail was arrested and brought here by Constable C. J. Minton on the charge of shooting to death his wife, Janie Duvail. At the time she was killed the general belief was that she was the victim of an accident, bit itser developments led the authorities to believe that she was the victim of a murder piot. The people in the neighborhood where the couple lived are greatly wrought up over the tragedy, and to save the man from possible violence he was brought here. Fearing that some one might try to take Duvail from the officers the constable spirited him away during the night. Duvail, after pleading not guilty, was bound over to the grand jury, and will be kept in jail here for asfekeeping.

THREE HOBOES

Appropriated By Them.

Louisville, Ky., Jan. 13.—When Jas.
Cole, porter of the Pollman sleeper,
"Seminole," opened the car at Tenth
Street station early the other morning
the found three hoboes sleeping in upper bertha. They had disrobed and
said they had prepared for a trip to
the south. Private Detective Gabutt,
of the Louisville & Nashville road, arrested the trio. A Central Police siztion they registered as A. S. Romey,
J. S. Donovan and Dave Brown, and
said they came to Louisville from Covington. Each is about 18 years old.
Judge McCaum finet them \$10 apiece
and ordered their commitment for 50
days if they could, not furnish \$200
ball.

GETS LIFE SENTENCE.

William H, York Found Guilty of Kill-ing His Brother.

Lawrenceburg, Ky., Jan. 12.—William H. York, 68, was given a life sentence for the murder of his brother, James R., aged 75. James Bast was given a similar sentence for alleged complicity in the crime, several weeks ago. The Yorks are wealthy farmers and it is said-William was displeased over the giving away of money by his elder brother.

More Money For State Capitol.
Frankfort, Ky., Jan, 11.—By the report of the state capitol committee, fled with the two houses of the general assembly, it is recommended by Frank M. Andrews, architect, that an additional sum of \$1,028,125 is necessary to complete the building, for which the state has already appropriated \$1,000,000. To date there has been expended about \$70,000.

Charged With Burglary.
Richmond, Ky., Jan. 13.—Sam Smith,
of Waco, just discharged from the
United States army, and en route
home from the Philippines, was arrested here charged with burglary. While
waiting for a train, it is alleged, he
broke into the grocery of W. T. Edwards.

To Choke Off "Uncie Tom."

Louisville, Ky., Jan. 13.—The United Daughters of the Confederacy will present a memorial to the Kentucky legislature, insisting that a law be enacted preventing the presentation of the play of "Unice Tom" in all towns and cities within the state.

To Stop Gambling at Owensboro.
Owensboro, Ky, Jan. 11.—As a result of the raid on the gambling bouse
of the Tally-ho club, four of the 18
men arrested were fined and the others dismissed. The police say they
will stop svery game of chance in operation in Owensboro.

Brakeman Terribly Mangled,
Cynthians, Ky., Jan. 12.—Edward
Long, 22, unmarried, a brakeman on
an L. & N. Freight train, while switching cars' caught his foot in the frog of
a switch. Before he could remove it,
a train backed over him, cutting his
body lengthwise in two pleces and
cutting off his head and both legs.

Col. Nelson Not Reappointed.
Frankfort, Ky., Jan. 12.—Gov. Beck-ham, in sending recommendations to the senate, did not reappoint Col. R. W. Nelson, or Newport, a member of the board of State A. & M. college, placing C. B. Terrell, of Trimble county, in bis stead.

A New Judicial District.

London, Ky., Jan. 12.—The legislature will be asked to create a new
judicial district from the 26th, 27th
and 28th districts. The bill is indore-

For Slaying the Solon.

London, Jan. 13.—Creed Benge was convicted in McKee for complicity in the killing of Representative J.-J. C. Howard in Clay county last spring, and sentenced to serve four years. Edward Benge is on trial for the Lume crime.

THE NOONDAY MEAL

It Is Well Not to Eat a Meat Lu But Each Must Study Her Own Needs.

The girl who has only a small sum to spend each day for the noonday meal finds herself bestet by gastronomical temptations. In the old days at some or in school, when nickels and limes were handed out grudgingty, as a laway passed the bake shop of the andy store with yearning eyes. Now that she is mistress of her own small salary, she is apt to induige, a secretly harbored hunger for tarts and pastries overed with meringue. It will take all her will power to make the tart as of yore, an occasional treat, whils the li-cent aliowance for Junch goes to better ends.

There is no use taiking, girls, if we have small lunch allowances, we have to eat sensibly; not fancifully. If we don't, it means faded, complexions, duityes, drooping figures, pailed lips and whining-voices.

For the frugal girl, milk should form the foundation of the luncheon, but milk alone, or any other fluid, will not turnish sufficient nourishment. Solids and fluids must be mixed. Maited milk, sipped alowly, not gulped down at stremouns souts fountain, its extremely nourishing. Milk and raw egg, which can be secured at both drug stores and lunch rooms, cocea and chocolate are strengthening noon time drinks. Graham or oatmeal crackers, or graham and whole wheat bread may be taken with the milk, and his with truit will make 'an absolutely satisfying lunchify on have not accustomed your paltet on contines weeks. A nicely broiled chor, or hear of the contine weeks. The girl who can afford a more claborate lunch, including meat, should not ladings in too many made dishes, such readily, but will be better for the complexion, which has a hard enough time worrying along through a business career.

In the better class of restaurants, one portion of meat or salad will be everyed to two persons, and in this way, two girls, willing to pool lunch money can direct that they never eat meat at noon, but you will find these women using a great deal of spaghetti, macaroni, rice vegetables of various sorts, milk and and the factor of the midday meat, and the remove

ON TRAINING OF CHILD.

An Interesting Experiment of Hav-ing Children Live Simple Life Comes Over in England.

An Interesting Experiment of Having Comes Over in England.

New views of the child training problems are found in the foreign custom of providing separate playhouses, and sometimes separate living house, for children. An English woman who had two grandchildren living near her had a small empty cottage which she believed might be made useful to them in teaching them to help themselves.

The little house only had one room on the ground floor, and she furnished it as a living room for them, and put a store of coal and wood just outside, which they brought in when they wanted it, and with which they learned to light their own fire. With the help of the governess they did cooking for themselves, washed up their own whines, and were taught to keep everything in order, with some help and persuasion. They entertained their grandmother, and had other friends to tea, and sometimes they would get in provisions for their diquer and apend the whole day.

Convenient cupboards and places for putting everything were arranged in this cottage, and it was well equipped with pretty china of a size which was in happy medium between toy and utilitarian.

Other serious experiments have been made along the same line in England, one of the most prominent being that of the countess of Essex, who fitted up quite a sizable cottage on her country estate, and had her children and their governess live there a good part of the time. They had their own friends and servant, and took part in the house-keeping themselves, the object being in this case that they could live more simply here than they could at the hail.

A small, solid, well-built room, with one wall omitted, in which children can have helr little lunches are formany. Tables and chairs where children can have her little lunches are provided, and they act as hostesses to the elder part of the family at the hour for afternoon coffee or tea.—Chicago Tribune.

Rice Apple Pudding.

One-half cupful rice, three table-spoonfuls sugar, one-half tablespoonful ful butter, the juice of one-half ismon. One full half pint of thinly sliced apples, one-half pint of milk, and three eggs. Put the apples in a dish, four over them the eggs and sugar, and set aside. Place the rice in a saucepan, cover with cold water, and boil five minutes. Drain rice, rinse in cold water.

Tarnished Silver.

One of the simplest means of cleanline silver that has become blackened
by gas or time is to mix a teaspoonfel'
of ammonia with a cupful of water,
and use a little of this liquid to form
a paste with whitening. Polish the
article with the paste, using a soft
chamois to apply fr and another to

Moses the Prince of the Palace

OUR BIBLE STORY by the "Highway and Byway" Preacher

Scripture Authority:—"And the child grew, and she (the mother) krought him unto Pharcoin's daughter, and hee became her son. And she called his name Moses; and she said, Because I drew him out of "And Moses." Because I drew him out of "And Moses." Because I drew him out of down of the Egyptians, and san lighty in words and deeds."—Acts 7:22.

words and deeds."—Acts 7:22

"His name shall no longer be Joachir;, but Moses."

"Are clear voice of the princess
echoed throughout the vast corridors
of the great temple whither she had
gone with the boy the morning after
his advent at the palace. It was
his first glimpse of the interior
of the temple. His childles eyes
had often gazed in wonder at
the huge pile as it loomed up
against the aky, visible in the distance
from his humble home, and he had questioned his mother many times regarding it.

against the sky, visible in the distance from his humble home, and he had questioned his mother many times regarding it.

But the words "His name shall no longer be Joachim, but Mosees," arrested his attention, and be looked up quickly to find the eyes of both the princess and the priest fixed upon him. The color mounted his cheeks, and he felt confused and strange, but the smile of the princess reassured him, as she said: "Thou art Moses, now, for I drew these out of the water."

Why was it that he felt no resentment at the change? Why was he beginning so soon to yield nuquestioningly to her control? Was it because she unconsciously and he consciously was being led by the Divine Presence? Perhaps. Sure it was that he felt drawn toward her.

His reply to the princess' words was the shy placing of his hand into hers, as though he would say: "It is all right. You may call me Moses."

When the arrangements had been made for the education of the boy, the princess returned with him to the pairace. She was proud of the handsome boy as he walked by her side, and many-were the glances in his direction.

In the palace and among the courters of the realm the young protege.

In the palace and among the courtiers of the reaim the young protego of the king's daughter was also creating much talk and discussion. The daily visit to the temple soon accustomed the boy to the sight of Apis, the sacred bull, with his jeweled trappings, to the swinging censers before the stone images, to the incantations and the worship of the people. And not long after his advent at the palace the festival in honor of Apis, the most striking and imposing among all the religious ceremoales of the Egyptians, was held. The festivities lasted throughout seven days, and great multitudes of people focked to the temple to share in the worship and adoration of Apis, the sacred bull, the embodiment of Osiris, the great god of the Egyptians. Daily the processions passed through the streets carrying sometimes the sacred shrines on long staves, at others, the statues of the gods, or the arks on which rested the sacred bettle, overshadowed by the wings of the goddess of truth. The princess entered enthusiastically into the celebration, for she was naturally of a very devout disposition, and being anxious that Moses might share with her in he erreligious moods, she took every paing to have him see and hear all that was possible. It never occurred to her that the little boy at her side had formed religious spinions that would be hard for her to shake. She did not know then of the earnest training which his mother had given him. She did not know then of the earnest training which his mother had given him. She did not know then of the earnest training which his mother had given him. She did not know then of the earnest training which his mother had given him. She did not know then of the earnest training which his mother had given him. She did not know then of the earnest training which his mother had given him she can do not the sitter of herselitities, she misunderstood, and flattered herself that his spirit was worshiping with hers, and devouly paying tribute to the great god Osris. Her heart was and papyrus flowers they

on the altar as a special offering of thankegiving.

This done, she turned and bowed down before the sacred bull, and by the gentle pressure of her hand sought to have Mosea take a like posture. But the little frame was rigid.

At first she thought the boy, awed and confused by the great temple and its service, had misunderstood, and sought by whispered word and stronger pressure of her hand to have him bow with her.

But still he stood Frm and unyielding, sturdly resisting the stronger pressure of her hand.

There was no misunderstanding that rigid little body. The princess was astounded, and soon surprise gave place to anger, and as she lifted her eyes and looked into his quivering face, she saw fear and firm conviction struggling for the mastery.

Rieing impatiently and seiting him sharply by the arm, she started to leave the temple, knowing full well that within the sacred courts was no place to discipline the rebellious child, and as they proceeded homeward to the palsee no work was spoken, for

both were tusy with the inward

The princess found the first feelback of the princess found to the price of any of the princes of the princes of the princes and the bays as he taked its flates eached to the sharp' word of reproof wheth ashed." "Make its it, Moses?"
"Old is above; not there." "The princess studied the boy's face with a strange and heaviltal light as the princess trained the boy's face with new wonder and admiration, and pointed in the direction of the temperature of the princess studied the boy's face with new wonder and admiration, and pointed in the direction of the temperature of the princess studied the boy's face with new wonder and admiration, and pointed in the direction of the temperature of the princess studied the boy's face with new wonder and admiration, and pointed in the direction of the temperature of the share, and the pointed in the direction of the temperature of the share, and the princess and necessary." The wonder, and the princess was had pointed in the direction of the temperature of the share wonder and admiration, and pointed in the direction of the temperature of the share wonder and admiration, and pointed in the direction of the temperature of the share wonder and admiration, and pointed in the direction of the temperature of the share wonder and pointed in the direction of the temperature of the share wonder and the princess was had pointed in the direction of the temperature of the share wonder and the point of the princess was had pointed in the direction of the temperature of the share wonder the princess was had populated in the direction of the temperature of the share wonder the princess was hot proud and pointed the princess was hot proud and poin

ly face; he felt encouraged, but still hesitated.

"You could not understand. My—my —my God is not your God." he stammered, in confusion.

"But, Moses, if I should tell thee that thy God was my God?"

The young man leaped to his feet, the light of a great joy playing over his countenance. He searched her face agecty to see if his ears had served him true, and then down upon his knees he fell at the side of the mother true whom God had given him in the palace and told her all: told her gof his poor people; of the promises of God concerning them; of his ambitions to help them. And she listened thoughtfully and quietly until he had finished, and then said, with intense earnestness:

"And I will help thes."

Thomas Garfield, the only brother of the martyred president, lives on a little farm about five miles from Hudsonville, Mich. He is \$3 years of age, and a typical farmer.

Miss Ellen Pollock has the distinction of being the only woman political registration agent in the United Kingdom. She is secretary of the Strand Liberal and Radical, association and is agent for the party in the borough of Strand.

Former Vice President Levi P. Morton has given to Rhinecliff, N. T., near which his home, Ellersille, is situated, an industrial home and reading-room to cost \$50,000. The new building, will have a gymnasium baths, reading-room, library and assembly hall.

Judge Bond, of Brownsville, candidate for Democratic nonination, as governor of Tennessee, is an old-fash-loued citizen who refuses to wear either cryava or nerkite. Fashionable young men of the larger cities, it Tendessee are making some din over the judge's idiosyncrasy, but he pays no attention to the clamor.

How It Often Happens from Coffee.

"I had no idea," writes a Duluth man, "that it was the coffee I had been drinking all my life that was responsible for the headaches which were growing-upon me, for the dyspepsis that no medicines would relieve, and for the acute nervousness which unfitted me not only for work but also for the most ordinary social functions. "But at last the truth dawned upon me and I forthwith bade the harmful beverage a prompt farewell, ordered in some Postum, and began to use it. The good effects of the new tood drifthe were apparent within a very few days. My headaches grew less frequent, and decreased in violence my stomach grew strong and able to digsat my food without distress of any kind, my nervousness has goas, and I am able to enjoy life with my neighbors and sleep soundly enights. My physical strength and nerve power have increased so much that I can do double-the work I used to-do-double-the work I used to-do-double-the work I used to-do-double-the output figures. This improvement set in just as soon as the old coffee poison had so worked out of my system as to allow the food elements in the Postum toget a hold to build me up again, I cheerfully testify that It was Postum, and Postum atone that did all they for when I began to drink it I thew physic to the dogs. "Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the famous in page.

When To Sow Binegrass.

In response to a query on this subject from a subscriber, we would say that late winter is the favorite time for sowing this grass. Sowing upon the snow is often done, as the melting snow, and the alternate freezing and thawing in early spring are well suited to cover the seed nicely and grive it a good start. It will catch in such condition even on unbroken ground, and often gets a hold in an old pasture, and soon crowds out less hardy and beneficial grasses. Bluegrass, although hardy and a rapid grower, needs time to get a sure foothold, and should not be pastured in less than three or four years.

See that the seed is fresh and unmixed; old seed will not germinate well. Test the seed carefully if you have any doubt about its soundness. Use ten to twelve gounds to the acre; some of our best farmers use a bushel, 14 pounds, but much depends on the quality and texture of the soil. It is a crop of so much value and importance that it pays to have all conditions just right when swing.—Indiana Farmer.

HOGS ARE SKINNED NOW,

In Yates county, New York, farmers have found out that it is more profitable to skin their hogs than to crape them. This change in method, says the Associated Farm Press, was brought about by an enterprising butcher who found a market for hog skin. He began to skin hogs for farmers, taking the skins for pay, as they are worth from 50 cents to \$1 apiece. It is a pajing business, and from the standpoint of the owner of the hog it is a good thing, too. He is mot required to make any extensive preparations at butchering time as before. No scalding platform to build, no water to heat, no extra heip to employ.

Now the butcher drives into the yard, kills, skins and cleans the hogs. The loss in weight is slight, from five to 15 pounds, according to the size of the hog, and the butcher will pay half a cent a pound more for pork skin and to cut up on the block, and

and the butcher will pay half a cent a pound more for pork skinned to cut up on the block, and for home use it is much better.

This practice of skinning hogs is rapidly spreading over the state, and it is believed by progressive farmers that in a few years it will entirely take the place of the old methods of scrapling.

Europe has a population of about 335,000,000, or about one-fourth of that of the whole world. Belgium has the densest population.

It is estimated that for perfumery purposes each year 1,860 tons of or-ange flowers, 930 tons of roses, 150 tons each of violets and pasmine, 75 tons of tuberoses, 30-tons of cassia and 15 tons of jonquis are used.

A London dispatch says that the Exyptian government has resolved to construct a barrage at Esneh at a cost of \$12,000. Esneh is 100 miles below Assouan. When the new barrage is completed it is estimated that 244 miles more on either side of the Nilt will be brought under perennial Irrigation.

gation.

Residents of Buena Vista, Pa, on the Youghlogheny river, are puzzled by a bird captured by David McBeth. The bird appears to be a hybrid elementary of the other, and has a head and web feet like a duck. Its bill, however, is the shaped, and its color is steel gray.

The largest area of coal lands in the United States, 98,000 square miles, is that of the interior west, which covers nearly half of Missouri, extends north into lowa, south into Arkansas, Indiana Territory and Texas, and west into Kansas and Nebraska. What is called the central coal field, 47,000 square miles, is is Illinois, Indiana and Western Kentucky.

The Marquis of DeDion, who is quite a figure in Paris, socially, mechanically and commercially, has just built what he calls a "motor villa," which contains dining, drawing, bath and bedrooms, and a kitchen, the whole thing being operated by an electric moior which moves the "villa" along the highways at the rate of seven one half miles per hour.

the highways at the rate of the half miles per hour.

The suggestion has been made that a triple alliance to insure the peace of the world should be formed by Great Britain, France and the United States. This should prove a most effective combination. It would bring into unison one-third of the population of the globe, with a fighting force of 4,700,000 men and 1,056 battle-ships. Japan would doubtless co-operate with

the alliance, thus setting the strength.

The first statue of Queen Alexandra on English soil will be erected in the grounds of the London hospital, to commemorate the completion of the rebuilding operations, which have cost £45,000. The sculptor will be George Wade, and the statue, which will be of broize, will be of heroic size. It will cost £1,500, and of this sum £1,300 has been subscribed already by the committee, the staff and a few personal friends.

El 300 has been suby the committee, the staff and personal friends.

The determination of the president to enforce the Eikins statute, and the indictment by the federal courts of some of the orienting railroad officials. He was served with a charge of hazing the officials of all the Western roads, recently held at the Vestern roads, recently held at the Vestern roads, recently held at the Commerce commission. The very railroads that had been denouncing informers propose to turn informers themselves.

I was agreed thereafter to report every liegal set to the interstate commerce commission. The very railroads that had been denouncing informers propose to turn informers themselves.

I was agreed thereafter to report every liegal set, to the interstate commerce commission. The very railroad status spent most of the iong and vestily set of the 20th anniversary of the birth of the 20th anniversary of the 20th anniversary of the birth of the 20th anniversary of the birth of the 20th anniversary of the 20th anniversar

The four American Mormon settlemeelves.

The four American Mormon settlements situated in the State of Chihnabua are in a prosperous condition. An official report was recently made to the federal government by the chief official of these four colonies. The largest of these colonies is Colonia Dublan, which has a population of 980 persons, who own 37,000 acres of land. These colonists have established a large flour mill, and also operate a lumber mill, and also operate a lumber mill, at annery and an iron foundry. Most of their land is in a bigh safe of cultivation. The colonists are also extensive fruit growers.

An interesting young lady from Chima bids fair soon to be one of the most observed figures in the social world at Washington. She is miss Llang Cheng, daughter of Sir Chentung Liang-Cheng, the present Chinese mininster to the United States, who has become quite as popular in this country as was his predecessor, Mr. Wu Ting-Fang. Miss Llang-Cheng is to make her debut at the national capital this winter, and she will be the first high-born woman of her race to enter American society. Hitherto her life has been somewhat secluded.

life has been somewhat secluded.

The fibre paper on which currency notes are printed is sanufactured especially for the gover-ment by a Musachusetts concern. It costs 43 cents a pound. The short slik threads, which are its most distinguishing marks, are introduced at a certain point in a manner unknown outside the factory, this forming the greatest insurance against successful counterfetting. When shipped from the paper mill each sheet has been counted civics. Yet, upon their receipt at Washington, all the sheets are again counted twice and campled for flaws.

MONROE DOCTRINE

The United States Convinced of France's Loyalty to It.

French Government Will Be Gin a Free Hand in the Execution of the Solution of the Venezuelan Problem.

Washington, Jan. 22.—Convinced of the sincerity of the assurances received from France regarding her loyalty to the Monroe doctrine and all that it involves, the Washington government thas given the Parls government a free hand in the execution of the program for the solution of the Venezuelan problem. The conference on this phase of the question occurred some time ago and Mr. Jusserand, the French ambassador, has final assurance that the efforts of France to obtain diplomatic treatment for her charge d'affaire at Caracas will not be interrupted at Washington as in any way violative of the Monroe doctrine.

be interrupted at Washington as in any way violative of the Monroe dootrine.

The first move in the execution of the French program may be expected at any time, but on this point the French government is observing the strictest secrecy, the orders to the squadron going direct from Paris and not, through the embassy here. M. Talgny, the retiring French charge, whill come to this country on his way home and on his arrival at New York to will find an invitation from the French ambassador at Washington to spend several days here in conference in order that M. Jusserand, on whom the burden of an important phase of the Venezuelan negotiations naturally falls, may have the benefit of the facts about the situation.

The whereabouts of the French ships remain a mystery so far as the officials of the state department and French embassy are concerned, it is stated.

PANIC IN A CHURCH.

Eighteen Persons Killed and Probably Haif a Hundred Injured.

Philiadelphia, Jan. 22.—Bighteen persons were killed and probably half a hundred injured in a banic following the cry of "Bire" is St. Paula colored. Baptist church. The services were being held on the second floor of the building. A defective flue set fire to the chinney, causing smoke to issue through the crevices in the floor near the pulpit. The room was well filled with people at the time the cry of "Fire" and coupled with the sight of smoke threw the congregation into a panic.

smoke threw the congregation

THE LITTLE WIDOW.

A Mighty Good Sort of Neighbor to Have.

"A little widow, a neighbor of mine, persuaded me to try Grape-Nuts when my stomach was so weak that it would not retain food of any other kind," writes a grateful woman, from San Bernardino Co., Cal.

"I had been ill and confined to my bed with fever and nervous prostration for three long months after the blirth of my second boy. We were in despair until the little widow's advice brought relief.

of my second boy. We were in despair until the little widow's advice brought relief.

"I liked Grape-Nuts food from the beginning, and in an incredibly short time it gave me such strength that I was able to leave my, bed and enjoy my three good meals a day. In 2 months my weight increased from 95 to 113 pounds, my nerves had steadied down, and I felt ready for anything. My neighbors were amazed to see me gain so rapidly, and still more so when they heard that Grape-Nuts alone had brought the change.

"My 4-year-old boy had eccema, very bad, last spring, and loat his appetite entirely, which made him cross and peavish. I put him on a diet of Grape-Nuts, which he relished at once. He improved from the beginning, the eczema disappeared, and now he is fat and rony, with a delightfully soft, clear akin. The Grape-Nuts diet die it. I will willingly answer all inquiries."

WASHINGTON LETTER

FACTORY SMOKE THREATENS TO MAR THE CITY.

THE PEOPLE ARE INDIGNANT

Congress Slow to Grant Improvements
If Town Is to Become Manufacturing Place—Blunder
in Decoration.

As HIN GTON—Many good friends in Washington are alarmed by the fact that a big ma a ufactiring plant is to be located within the borders of the District of Columbia, and just across the Piest of Columbia, and just across the plant is to be located within the borders of the District of Columbia, and just across the river from the city itself. They friend the city itself. They friend the city itself the properties at the capital city which will mean the defacement of its beauty and its destruction as a desirable city of residence.

The Firth-Sterling Steel company, the furnishes the greater part of the helis and projectiles used in the navy, and whose works are now located in the murky atmosphere, of Pittsburg, has purchased 30 acres of land in the bistrict opposite Washington, and proposes to locate its shell factory there. The object is to be within easy reach of the Indian Head proving grounds of the navy department, located some 20 miles down the Potomac. The establishment of this factory in the District means the use of bituminous coal and consequent clouds of smoke which are certain to mar the beauty of Washington's great public buildings and fine residences.

One of Washington's greatest charms as a residence city and as a center

ton's great public buildings and fine residences.

One of Washington's greatest charms as a residence city and as a center where the wealthy, the literary, the scientific and artistic elements of American society could find the best atmosphere has been its clear air and, in winter, its beautiful Italian blue skies. These natural beauties have been guarded jealously by congress, and stringent laws have been passed forbidding the emission of black or gray soft coal smoke from chimneys, and President Roosevott has lent his great influence toward the enactment of these laws and toward their enforcement. It has been the purpose to keep the city clean and spotless.

Noble New Buildings.

Noble New Buildings.

OW that a big manufacturing plant is to be located in the District. Washington will no longer be known as the "spotless town." It is generally regarded as a mistake to encourage manufacturing near the capital city. Congressmen are up the capital city. Congress that body has been authorizing big public improvements and the erection of splendid governmental buildings with the object of beautifying Washington and eventually making it the finest seat of government in the world.

ings with the object of beaulifying Washington and eventually making it the finest seat of government in the world.

Mr. Babcock, of Wisconsin, who is chairman of the house committee on the District of Columbia; is very indignate the property of the prop

completion of this frieze. These gen themen are open to suggestions, and the most pertinent one that has yet been made is that the whole frieze be eliminated and the caricatures stuck up on the wall of the rotunds he wiped out and some really artistic decoration in a substituted.

No one seems to know exectly who initiated the idea of putting the freeco groups of figures supposed to represent important scenes in the history of the new world, but the idea was adopted and Brumlid, an Italian artist; was given the contract. He. "executed" several of these scenes, but in 1880 died, after having depicted in his style important ovents down to Penn's treaty with the Indiana. His work was then taken up by Costagging, another Italian, who brought the events down to the discovery of gold in California. This left two panels remaining to complete the furcle, and congress has never agreed as to subjects to fill this space. The figures in this freeco appear ridiculous as seen from the floor of the rotunda. There are impossible men in the jumble of figures. They do not appeal to that artistic sense of anyone and withe at a guidebook the subjects can only be guessed at. The freeco has cost to support the wide of the third with the fine oil paintings that decorate the wells of the rotunda near the floor this freeco is very muling.

A Miscepresentation.

ing a value approximating \$50,000,000Most of lihs is in the way of magnifsent public buildings. The two office
buildings for the house and senate will
be splended marble structures in keeping with the capitol and the new Union
railroad station will be of white granits. In addition to these, there is the
beautiful war college, just opposite to
where this factory is to be located, the
new agricultural buildings in the
world whose beauty will be sadly
marred by the smoke of factories.

WALL STREET BEFRIENDED. | OBJECT LESSON SHOWS.

retary Shaw Breaking the Law for the Benefit of Frenzied

dams the New Yorker who buys stocks a guidebook this subjects can only be guessed at. The freeco has cost a pretty sum, and the only objection to wiping the whole picture out is the fact that it has cost however, it is the fact that it has cost however, it is the fact that it has cost however, it is the fact that it has cost however, it is the fact that it has cost however, it is the fact that it has cost however, it is the fact that it has cost however, it is the fact that it has cost however, it is the fact that it has cost however, it is the fact that it has cost however, it is seems that Representative Bourke Cochran knows as much about finance of the Equitable Life Assurance Society of the United States, left in the United States, left in the Common of the sum to the Cochran knows as much about finance in the United States, left in the Common of the sum to the Cochran knows as much about finance in the United States in the Cochran knows as much about finance in the United States in the Cochran knows as much about finance in the United States in the Cochran knows as much about finance in the United States in the Cochran knows as much about finance in the United States in the Cochran knows as much about finance in the United States in the Cochran knows as much about finance in the United States in the Cochran knows as much about finance in the United States in the State in the Cochran knows as much about finance in the United States in the State i

For the Benefit of FremXed
Financiers.

What Secretary Shaw terms as a "national epidemic to loan money" last
summer is the cause of the late money
squeeze in Wall street, where the rate
of interest mounted to 100 per cent. on
the last days of the old year. "Now from
all over the country," says Secretary
Shaw, "these peopile "accelling for their
money," He seems to hold a grudge
against "these peopile "tecause they are
now asking the Wall street bankers to
repay this money which has been on de
posit with them for months and on
which they only received one or two per
cent. Interest.

Secretary Shaw treats the banks much
batter than "these psople" do, for he has
deposited all the available money of the
people that has been paid as tariff and
internal revenus taxes, with the nation
al bankers without charging them one
cent of interest and is evidently sorry
the people have not been more faxed so
that he could further relieve the neces
stites of the stock gamblers. For he
further says: "The Kansas farmer
damns the New Yorker who buys stocks
and the Kansas banker curses at the
Wall street financier who does not return his money the moment it is called
for."

It seems that Representative Bourke
Cochran witchede the tree sury departurn his money the moment it is called
for, "Secretary Shaw, a quoted to Secretary Shaw,
who wrathfully replisd:
"Bourke Cochran hows as much
about that as he does about 2250 other
things on which he is continually talk
ing. He knows as much about finance
as he does about running a steamship,
i supposs if the sum total of human
knowledge ware biotted out to-alight

Wm. Vandaisen Hanged in Louisville For the Murder of His Mistress.

Col. Armstrong in Lexington, Ky.

Lexington, Ky., Jan. 19.—Depositions in the suit of Barbness Caroline Yon Roques, of Germany, against Col. David W. Armstrong, of New York, were taken here Thursday. The deponents were Judge Matt Waiton, Charles H. Stoll and Arthur Cary, president of the Lexington & Eastern railroad. The suit is to recover money claimed to be due her from Col. Armstrong, who represented her in disposing of some lands in this state. Baroness Von Roques is the mother of Mrs. Florence Maybrick.

MELANCHOLIA AND BAD HEALTH

A Prominent Young Man of Lauisville Committed Suicide.

Louisville, Ky., Jan. 18.—Ernest W. Norton, one of the most promfaent young men of Louisville, committed at an infirmary where Mr. Norton had been under treatment for some time for stomach trouble, Melancholia caused by bad health is supposed to have prompted the suicide. Mr. Norton was connected by birth and mariage with three of the oldest and wealthlest families in Louisville.

A CASE OF SUICIDE.

J. B. Nixon Found Dead With a Bullet Hole Through His Heart,

Henderson, Ky., Jan. 19.—The body of J. B. Nixon, with a builet hole through the heart, was found in a bottle here. It is believed to have been a case of suicide. In his satchel were found life and accident policies caling for \$31,000, and ellipping from the New Orleans Picayune giving a story of the robbing and burning of a store in Pensaco'a, Fla. last December.

A Peculiar Acoldent.

her.

A Peculiar Acoldent.

Lexington, Ky., Jan. 20.—Mike
Dowd, night watchman at the Fayette
county courthouse, fell down the steps
while entering the engine room, fracturing his skull. Severa: matches in
his pocket ignited and set his clothing
on fire, and when found by Engineer
Toilliver he was a mass of fiames. By
turning a hose on the fire it was extinguished and Dowd was sent to the
hospital, where a trephining operation
was necessary.

Tohacco Barn Burned.

Tobacco Barn Burned.

Hawesville, Ky., Jan. 18.—A large barn, belonging to John Henry Clemens, containing 10,000 pounds of fine tobacco, two mules, a horse, several cows, ten barrels of molasses and a large quantity of hay and corn, was destroyed by fire. The barn is supposed to have been set on fire by an incendiary.

Patents For Kentuckians.

Meaning the Mentuckians, Washington, Jan. 18.—The following Kentucky patents have been Issued: John F. Chester, Louisville, mail bag catcher; Edmond E. Horine, Nicholesville, ther seutcher; Samuel Q. Mocquen, grub puller; George W. Thomas, Yosemite, combined post and wire puller.

puller.

Fund For Foster Statue.

Louisville, Ky., Jan. 18.—Work of counting the contributions to the "Foster Memorial Fund." to be used in the erection of a statue to Stephen Collins Foster, was completed and it was found that \$473.03 was offered by the pupils in the Louisville schools.

pupils in the Louisville schools.

Lincoin's Birthday.
Frankfort, Ky., Jan. 20.—The general assembly of Krutucky will declare February 12, next, the birthday of President Lincoin, a holiday and appropriately observe same. Denny, Wayne county, offered a resolution te this effect in the house.

On Lee's Birthday

on Lee's Birthday,
Cynthiana, Ky., Jan. 20.—Thomas H.

GEO. C. GOODE,

The Cincinnati Enquirer has just saused a New Valuable up to date Wall Chart of three Sheets (six pages) each 28 inches wide, 36 inches long. The first page shows an entirety New Map of Ohio; the most beautiful and exact ever printed. In bringing this Map up to date, all new towns are located, all Electric and Traction Railroads are shown, all Rural Mail Routes, and portraits of all the Governors.

On other pages of this Magnificent Chart are Maps of the United States with portraits of all the Presidents.

Map of Panama showing Canal zone, with data relative to the great Ship Canal, now being built by the United States, ever attempted.

A topographical Map of the Russia Japanese War district with data and details of the two great Armies and Navies, battle fields, etc., including the last Naval battle in the straits of Korea.

A map of the World, with Names of Rulers. Coats of Arms. Flare of

the last Naval battle in the straits of Korea.

A map of the World, with Names of Rulers. Coats of Arms. Flags of all Nations. Steamship Routes, with data and Statistics of great worth.

Other maps are the Philippine Islands, Hawaii, Alaska and Porto Rico, in all nine distinct maps.

An index will locate any point desired and is so simple a child can understand it. The Chart is new, correct and up to date, making it an invaluable educator, indespensable for the Home, School, Library, or College.

for the Home, School, Library, or College.

The selling price is \$2,50, yet its worth is many times greater. The Enquirer Company is giving this chart. Free 'to subscribers of the weekly Enquirer who remit one dollar for a years-subscription or for a renewal of old subscription. Agents car reap a rich harvest soliciting orders for this grand offer. Address,

was \$5.52, and the farmers of the borse out and hitch the barse op well, and hitch the barse op well, and have a great big fluorent from I imaburg to Coustance. The party is going to hell?

The party is going to hell?

The party is going to hell?

The farmers of Clifton township, the township of \$10,000 every year, on account of imperfect seed and the morning until in the aft township of \$10,000 every year, on account of imperfect seed corn were planted by hear of his good luck, his appointment was made because of the seed for mere planted by Mr. Gurney's ability, and it is conceded on all hands that he will statement, but it may not be fire of Mr. Gurney's ability, and it is conceded on all hands that he will make the road a valuable agent. He will take charge at ones and will have his office in the Gare w Building, Cincinnat. Mr. Gurney is only 35 years of age, but has been in the railroad business since 183.

Congressman Rhinook has sent to the RECORDER a sack of seeds which he desired statibuted among persons who did not receive seeds from him in the general distribution is for Republicant as well as for the Democratis who were overlooked. There will be a guested more of our townships to thou. He has endeavored to send a package to every Democrat in person. This supplemental distribution of instructive Covernment pamphliets late on, but the mean time he will be only too glad to secure any publication within he send for any individual whowilt take the rouble to write for it.

The cold wave that was advertised to seed the write for it.

The send for many formation of the control of

With 280 lbs of this a gain of 100 lbs was made at a cost of \$3.22 per cwt.

The fourth lot, fed oats and ground oil cake, or oil meal, made 100 lbs of gain on 322 lbs of feed at a cost of \$8.70 per cwt. This feed is objectionable unless the husks are removed from oats or the oats are finely ground.

The fifth lot was fed on a combination of oil cake, shorts and oats mixed and to this were added equal parts of skim-mitk. These hogs gained at a cost of \$2.90 per cwt.

These pigs were kept inside with protection from the coil weather. In another series of experiments the same feeds were fed to pigs without shelter and the pigs did very well.

Where mixture of meals and skim-milk were fed they made gain at the rate of \$3.82, or nearly double what outside feeding cost with the same ration. Where shorts and oilmeal were fed the cost of 100 lbs. gain was \$5.52, and the rate of gain per day was less than those fed inside.

"So they wouldn't mistake you for the fatted calf?"—Boston Globe.

The Prima Donna's Story.

"It was at one of the concerts given on the ship on the way over. I had just completed my song and the audience was recalling me, when suddenly a heavy squall struck the ship. I—"

"What did you do?"

"I dropped the encore, and we, were saved!"

"Oh, fudge!"—Cleveland Leader.

The Winter of His Discontent.
American Bank Official (shivering)—Fleeing to Canada was the mistake of my life—the mistake of my life.
Canadian Hotel Keeper (consoling-ly)—Here you have freedom.
Bank Official (with teeth chattering)—Ab, but you don't know how nice and warm our American prisons are.—N.
Y. Weekly.

A Brilliant Success.

First Actor (on the Risito)—Why, ow de do, Buskin? Where have you

been?
Second Actor—On a western tour.
First Actor—Was it a success?
Second Actor—Glorious! Immense!
Brilliant success! Why, sir, we came
back by rail.—N. Y. Weekly.

A Suggestion.

This cry the naval boys might raise as they go on their devious ways:
"Through our academy careers
"We'; nover, never cease to haze."
-Chicago Sun.

THE REASON.

Hopeful.

"I don't suppose I'll get a chance to make a speech for a long time," said the new member of congress."

"Maybe it's all for the best," answered his eminently practical wife.

"Many a man's chances for reflection have been improved by silence."

Washington Star. Guest (at country hotel)—On my bill you charge \$6 for a rabbit. Landford—I know, en li's worth it. Latrained my back and swore myself out of the church catching that rabbit.—Chicago Journal. An Extraordinary Cow.

"When we go to live in the country,
James, we must buy an extraordinary cow."

"An extraordinary cow? What for?"

"The doctor says that baby mustn't be fed on ordinary cow's milk."—
Juege.

Struck It Right,
Cholly Newit-Diye know, Miss Cutter, though I've only just met you,
there seems to be a-er-sort of intellectual sympathy belween us. You
know Just how to appeal to my tastes,
you know. Are you a literary woman?
Dolly Cutter-No, I'm'a kindergarten teacher.—Cleveland Leader.

TEACHING BUTTER MAKING.

ege Course That Is Popular with Young Women of the Central West.

Secres of young women, married and single, are taking alvantage of the instruction offered by the agricultural colleges in the art of butter making, reports the Chicago Tribuna.

During this fail-chasses are being taught at the illinoig College at Urbana, and at Pupdue, in Indiana. At one time there was a class of ten women. Nino were married women of middle age, one was single. The agricultural colleges of the central west are making butter on a large scale. In other years they operated ministure plants in which only a small quantay of butter would be made. In Illinois the college receives about 600 pounds of cream daily. The Indianar institution in two churnings a week turns out 2,500 pounds of fine butter. Both institutions hase their reputation on the brand of their product.

In Indiana the college virtually has

reputation on the brand of their product.

In Indiana the college virtusily has
two schools, one in which it teaches
two schools, one in which it teaches
two schools, one in which it teaches
the creameries how to make good butter, and in the other lessons are silven
to the individuals, farmers' wives said
daughters. All of the butter that is
made is disposed of in the towns in
which the institutions are located at
the highest market price, and in the
case of the indiana institution the
farmers share in the proceeds.
Students in butter making are taught
a great deal about taking care of the
machinery that now is employed in
the work. There are a score or more
separators. A student is taught how
to take either of the ones most used
apart, clean and oil them, and put
them together again. The 2 sho are
a great variety of churns and butter.
workers.

The lesson begins at the door, where

a great variety of churns and butter workers.

The lesson begins at the door, where the cream is received and weighed, heated, pasteurlzed, cooled and converted into butter. After it is worked it is condensed into bricks or prints, wrapped in paraffined paper, and then enclosed in a paraffined paper box, when it is ready to be sold.

Men or women who want to go into the creamery business are taught how to produce butter on a large scale by actually doing the work. That is the reason that the colleges go into butter making so extensively, for the process cannot be illustrated unless they do so. The use of all of the most modern machinery of the cream-cries is laught from the beginning to the cud.

the cut.

A great deal of careful instruction is imparted in the matter of putting the product into prints or brieks. Bricks sales are steadily increasing. It is believed that there is an advantage in buying a pound brick over the purchase of either a pound or half pound of tub butter. It is claimed that a pound of print will go more thau twice as far as two half pounds. There are many ingenious contrivances for moulding the product into prints and for wrapping it.

Violence.
"it was a violent collision, I am to understand?"

understand?"
"Violent? Well, I should say it was violent. Everybody in the ear, including the porter, was rendered unconscious by the shock, except, of course, the couple who were on their wedding our, and even they seemed to be rather less conscious than they were Lefore it happened."—Puck.

Too Much of a Shock.
Ftzzy-What would you do if somebody were to offer you a million dollars to chause your mind?
Wuxzy-Oh, it would be just my linck
to lose my head before I could make
the exchange!-Defroit Free Press.

one Mar's Wisdom.

"But," she que'el later en, "how lid you know i wouldn't object to being kissed?"

"Because," he explained warm't anyone

"Eccause," he explained, "there wasn't anyono in sight,"—Chicago Daily News.

PANAMA CANAL PUBLICITY

ASHINGTON. — If every rumor were to be helleved that one hears about the capitol, President Roo ac ve it would he left without a corporal's guard of statesmen supporting him before the end of this congress. His independent, patriotic course

His independent, patriotic course has been extremely distasteful to many congressmen whose ideas of statesmanship seldom go heyond the matter of patronage. Men who, like Senator Scott, of West Virginia, play politics shi the time and whose first question regarding, a public messure, is, what will its effect be upon the party, do not

and the time and the resure is what will its effect be upon the party, do not like Rooseville. The president's enemies are making a great deal, of noise just now and his friends are keeping comparatively quiet, knowing that the noise will do so harm and all the criticism of the president will be fully answered by the latter's actions. When the time comes the president's champions in both house and senate will see to it that he great all the defense that is needed. The president, however, has a way of meet, and the results of the results of

Mr. Burkett is an enthusiast on the base. He hasn't played the game very much in recent years, but when he was a young man at college and even after the graduated he was one of the best basehall catchers there was west of the Missistiph. He was a member of a celebrated hall team of Council Bluffs, i.e., which went up against some of the strongest sinces in the country. Burkett was catcher for his team and was considered one of its strong men. In the days when this team was in its glory the Union Pacific raitrond used to bring big professional aggregations from all over the country to play with the Council Bluffs, nine, usually at Ornaha or some place in Nebraska where large crowds would be attracted and the railroads reap a benefit from carrying them. The celebrated Athietics of Philadelphia was one of the clubs imported several times.

The junior senator from Nebraska greup baseoball when his team wisited Fremont, Neb., and every member of it, with the exception of Burkett, feli under the influence of Nebraska firewater. After that young Burkett concluded that he would davote himself to law and politics. He finally made the latter a specialty and became a candidate for congress. He declared that he would make a profession of politics, as it is just as clean and honorable as any other profession.

Changes in the Senata.

HERE have been many ravages in the senate and several historic changes have been made during the past few years. In that brief time the following distinction of the upper house have passed away: Hear, of Massa chustill, Hanna, of Ohio; Quay, of Pennsylvania; Hawley and Platt, of Connecticutt; Bate, of Tennessee, and Mitchell, of Oregon. Senator Fairbanks went from the floor of the senate as view president of the United States. Senators Bard, of California; Ball, of Delaware; McOomas, of Maryland; Cockrell, of Missouri; Stewart, of Nevada; Gibson, of Montana; Dietrich, of Nehraska, and Quarles, of Wisconsin, who were here two years ago, were not re-elected.

A number of very prominent men

hrasks, and Quaries, of Wisconsin, who were here two years ago, were not reelected.

A number of very prominent men
have been elected in the place of those
who died or failed of reslection. Mr.
Carter, a former senator of Montana,
comes again from that state. He is
one of the best debaters in the senate
and will do much to uphold the reputation of the northwest. Rayner, who
succeeds McComms from Maryland, was
formerly a member of the house and is
known as one of the most eloquent men
in public life. He has already made
his maiden speech in the senate and
charmed every one who heard him with
his beautiful diction and his eloquent
tongue. Mr. Crane, who succeeds Mr.
Hoar of Massachusetts, is a very quiet
gentleman, but a man of great force.
He is bound to take high rank in the
national councils of the Republican
party and he is said to be gifted with
a political acumen not inferior to that
of the late Mark Hanna.

"Junior" and "Senior." ward the construction of the Panasa hazard The verdict of the people on this report is what will affect the Julied States sprate.

The Lobbyist.
The Lobbyist.
The Mobiyist. The popular Idea of the house and is great congress for the lobbyist. The popular Idea of the individual is men with pockets attiffed on a cacurate one. Stories have been witten about smooth-tongued in dividuals, men with pockets attiffed with \$100 and \$1,000 tillis and beautiful, engaging women, filling the corridors of the house and sensor and the person of the house and sensor and the popular of the house and the house of the house o

The Silent One Heard From.

"And you say you did not give this interview which appears in to-ddy's paper to my reporter?" asked the newspaper man.

"That is precisely what I say," replied the indignant caller.

"Why, my reporter said he called at your office and talked for four hours with somebody."

"Oh, that was my allent partner."—

VACILLATING PRESIDENT.

Away back in the 70's Horace Austha was governor of Minnesota. He was an honest man and had been an upright judge before he was elected governor. He believed in the atate supervising the railroad, and the railroad men determined to defeat him for a renomination. They set up the pins and thought the Republican political machine, which was all powarful and controlled by the railroads, would accomplish the defeat of Gov. Anatin without he knowing what hit him. But the governor had a tings of the wisdom of the serpent, and without consulting friend or foe made a publio speech in which he said that if reslected he would "shake the railroads over hell," and the people believed he would do it and reslected him. He virtually if not literally fulfilled his promise to the people by using his influence for the creation of a railroad commission with power to declare a rate unreasonable and make a reasonable rate in place of the rate declared unreasonable in consequence of this hep people of Minnesota have not been, burdened with extremely unreasonables rates and control the railroad so this fay.

If President Roosevelt, instead of listening to Senstor Knox and others, who are at heart railroad attorneys, would shake the railroads a bit and stand fast on his repeated declaration to give the loteratate commerce commission power to fix a reasonable rate in lieu of a rate it has decided was unreasonable, congress would pass such a bill. Knox and the railroad lobby, with its firm hold on the majority—the great majority—of the Republican senators, hopes to so mix things up and delay action that the appropriation bills will begin to be sent over from the house and railroad legislation will be sidetracked for the session.

If President Roosevelt would do altitle shaking, like old Gov. Austindid, and stand firm, instead of shilly shallying from one programme to content.

OIL TRUST IS DEFIANT.

Monopolists Who Hold the Repub-lican Administration in Contempt.

Attorney General Hadley of Missouri la trying to unravel, the tangled skein of the Standard Oil Company of New Jersey and for that purpose had lienry H. Rogers, vice president and director of that corporation, on the stand to try and discover whether it owns the controlling interest in the Standard Oil Company of Indiana, the Waters-Pierce Oil Company of Missouri and the Republic Oil company. M. Rogers, who Tom Lawson shows is the real master of the Standard Oil trust, refused to answer the questions that would shed any light on the subject. Mr. Hadley declares that he will take all these questions to the supreme court of New York Istate to secure an order for Mr. Rogers, when the standard Oil trust and no doubt has the evidence to convict its officers of the crimes they are accurated of, so why does the administration that sid the sate of Missouri by producing this evidence? The Standard Oil officials, it is claimed, have threatened the administration that if they are molested there will be trouble and the extraordinary statement is made that it controls a majority of the members of the present Republican congress.

The Republicans will have to tackle Standard Oil or virtually admit that it controls a majority of the members of the present Republican congress.

The Republicans will have to tackle Standard Oil or virtually admit that it controls a majority or prevent them from plundering the people? In other words, are the trusts or the people running the government of the United States? A few mouths in fall may change the tone of this arrogant trust magnate.

OFFICER HOGAN'S CAPTURE

ed a Double Identity G the Credulous Hold-Up

The electric ser was not far from haifway between Pulman and South Chicago and was pounding along monotonously with a fiat wheel and five or six tred
and sleep passengers, relates the Ohicago Tribune.
It stopped at a lonely crossing to take
on another passenger—a man of enormous size, nuffied up to the ears in a
heavy overcoat.
No sooner had the newcomer atepped
inside than he pulled a huge revolver
from his coat pockst and and in a low
but determined tone that was heard distinctly through the car:
"Hands up, everybody!"
Every hand went up.
With his deadly weapon held ready forinstant action the bandth began on the
first passenger.
"I'll just releive you, my friend," he
said, "of—"
"I guess you won't." Interrupted the
other, with an amused smile. "If you
make another motion you're a dead
man, Right behind you is Officer Dick
Hogan, in plain clothes, and he's got the
drop on you. Ferhaps you didn't notice
him when you came in."
The robber seemed to be up against a
new game.

drop on you. Ferhaps you didn't notice him when you came in."

The robber seemed to be up against a new game.

He healtated. It might be true, and it might be a bluff.

If he went ahead with the hold-up he might be pinked by the officer behind him and if he turned his head to see if any officer was there he exposed himself to a possible shot from the man in front of him.

"Wing him, Hogan," said the man, "if he moves a muscle unless I tell him to move it. Now, my friend, I'll trouble you to lower that shooting iron. Watch him, Dick! That's right, ir. Now hand me your gun with the butt end forsmost. Let him have it. Dick, if he heatitate as second longer! Ab, thanks."

The passenger with the bandit's gun in his hand stood up.

"Now, you infernal secundrel," he said, leveling the weapon at his head, "go and sit down in that corner!" The robber obeyed.

Then, for the first time, he looked for the officer.

"Well, pard," he growled, "you played it on me all right. I don't see no Officer Hogan."

"I'm Officer, Hogan," said the other, snapping the handcuffs on him, "and I'm feeling a blt strenked for letting you have the advantage of me for about five seconde."

(Note.—This is submitted as the rough first, for a delective story that could be

esconds."
(Note.—This is submitted as the rough draft of a detective story that could be easily padded out to 4,000 words or more by any aspiring young writer, and some discriminating publisher might be glad to accept it and pay \$15 for it—on publication.)

Imposing Title.

The official title of King Carlos, of Portugal, is not a little imposing. He is "King of Portugal and the Algarves, within and beyond the seas; in Africa, Lord of Guinea and of the navigation and commerce of Ethlopia, Arabia, Persia and of the West Indies," and he is equally well dowered in the matter of Christian names—Carlos Ferdinand Louise Maril Victor Michael Raphael Gabriel Gonzague Xaries Francois-d'Assisse Josephe Simon. This, however, is by he means the longest list of names in the Portuguese royal family, for the King's eldest son is the proud possessor of seventeen, while his majesty's younger brother has twenty-two.

Exceptions to the Bule.
"In spite of the proverbs, like does not always produce like."
"Well, name-your exceptions."
"Haven' you heard of such a thing as rich food producing poor health?"—
Ballimore American.

French automobiles at about \$6,000,000 have been exported to the British Isles this year. In that branch of manufactures France is far ahead of the United Kingdom.

BREEDING CRATE.

ctions Given by Government Pub-lication for Construction of Good One.

Several requests have been made for description of a breeding crate for swine. The illustration and de-scription are taken from Farmers'

BREEDING CRATE.

Bulletin No. 205. The best size is 6 ft. long, 2 ft. 4 in. wide, and 2½ ft. high. It is made of 2x4 inch scanling, closed in front, open behind. On each side nail a 2x4 strip reaching from the bottom at the rear end to a point about 14 or 16 inches from the top at front end, for the boar to rest his feet on. The holes in the side cleats are for an iron rod to run through just behind the sow's hock joints. The cut shows bottom boards put in lengthwise. If put in crosswise the board will not ellp so much; light slate nailed crosswise will answer the purpose.

FEEDING OF DAIRY COWS.

Two Mistakes Which Ars Commonly

Made and Which Cut Off
the Profits.

Made and Which Cut Off
the Profits.

There are two common mistakes.

made in feeding cows; first, not feeding fiberally enough; second, feeding a ration not properly balanced, says C. H. Eckler, of Missouri, in the Prairie Farmer. It has been found by experiments that about 60 per cent. of what a cow can eat is necessary to marely maintain her without producing any milk or gaining in weight. This being true, it is evident that it is not economy to feed only a little more than this 60 per cent. needed to keep up the cow's body.

Below are given balanced rations that will furnish the materials necessary to produce milk in about the right proportion. By the term "rations" is meant the feed for 24 hours. If a cow will not give a good flow of milk in the early part of the milking period, when fed a liberal amount of was of these rations, it indicates that he is not adapted by nature to be a dairy animal and she should be disposed of. The amounts given are considered about right for a cow giving from 20 to 25 pounds of milk per day. For, heavy milkers these rations are to be increased, and reduced for light from 20 to 25 pounds; corn and sob. meal, 8 to 19 pounds; gutten or cottonseed meal, 20 pounds; corn and sob. meal, 8 to 19 pounds; corn and branced meal, 2 pounds; cor

HEN CACKLES.

The pullet is the winter layer. Olens seldom lay in winter when egg

hens seldom lay in winter when eggs are sparce. The farmer's hen competes for prec-sonce with wheat, poultry products aggregating half a billion dollars in value.

A combination of tree fruits, poultry and bees in the hands of a capable person, beats the band as a money-

and bees in the hands of a capable person, beats the band as a money-maker.

For bowl trouble give fowls copperas water, and for awelled heads, quintee pills. One two-grain quintee pills. One two-grain quintee pill quintee pills, the most profitable year in the life of the .em. With good care a pullet will lay 150 eggs the first year, 100 the second and but 50 the third.

Drenching Plants.

The little aguirts every few minutes are warse than useless. They wet only a small part of the soil and the remainder often becomes actually dry. When the pot will make a ringing sound if struck with knuckle is the time to soak them. Then do it thoroughly and stop. Why, you drink only when you are thirsty, not all the time.—Orange Judd Farmer.

Prises for Corn Growing.
It is reported that a number of farmers in Illinois have each put up \$50 and agree to plant 20 acres of corn. The money is put into a bank, and at the end of the season the corn is measured and the money divided into five prizes.

PROFITS IN APICULTURE.

Ars Sure and Large Wheroper Attention Is Given to the Business.

the Bushaseh when we say that there is no other field so promising to a young man on the farm as tha field of appliculture? We believe this to be true, but we are well aware of the fact that there are many who fail, a greater per cent. than in most any other field. We can scarcely agree that it should be counted as a part of the farm work, but it should be a speciality, if one vishes to make it a success, declares the Ohio Farmer. Success can only be attained by a person who is a lover of the bee and is willing to "learn the trade," and does not fear a few stings. Try yourself and see whether you can catch a bee and make it sing you on the back of your hand without fwelling a little bit nervous. If you can you surely are all right as far as fear is concerned.

The experience of agother year has shown is that it is useless to keep a great number of bees in "any old" hive that they may happen to be in. We have a salo learned again that the people as a rule can scarcely believe that a maa who claims to get nearly 200 pounds of honey per colony per year is doing it honesity, but they seem to believe that feeding is resorted to, that sugar is bought by the barrel and fed to the bees to make them do so well.

We approached a man the past spring who had 31 or 32 colonles of bees, offering to furnish the supers and combs for his bees, and to divide the honey taken during the season equally between us, assuring him that should there be a good boney flow each colony out yeld; 100 pounds or more. He is free to tell us now that he thought, and came very near telling us, that we would bave to haul several barrels or cheers with whom the result is nearly the same. These men, at least, have advocate eight frames as the best. With this spacing the filled combs will be as heavy as can be easily handled. The cight frames will all your fourly the same. These men, at least, have done to the surface the surface of the same as be best. With this spacing the filled combs will be as heavy as can be easily handled. The olight frames wi

pers on a strong colony you can take about 106 pounds of houey at each extracting.

Honey should not be extracted until well ripened in the hive, and nearly all capped over; though, if you have a good house for ripening honey, where you can have it as warm as 100 degrees F. nearly every day for a week or more after extracting, then we do not wait for it all to be capped by the bees, but extract as soon as the ombs are about one-half capped over.

We are more and more convinced that there is no other can as handy as the common milk cab, hodding about 120 pounds of honey, for hauling honey from "out aplaries." These cans are strongly made, may be handled by one man and easily and quickly emptied into any tank you may have. White-clover honey should be kept, separate from other flavors as it is more salable, is higher in price, and no lover of honey will ever tire of its use. The first season has given us from 100 colonies of bees, about 16,000 pounds of bones, about 16,000 pounds of bones in the better than appliculture?

HOME-MADE COAL HOD.

HOME-MADE COAL HOD.

How a Grocery Box May Be Made to Do as Good Service as a Store Hod.

with a noop handle, and two sloping inside partitions, which will give great satisfaction as a coal hod, since the sloping sides permit the shovet can always be run under the coal along the sloping boards.—Farm Journal.

Hogs and Tuberculosis.
The attention of Wisconsin dairymen has been called to the fact that it is possible for bogs to contract tuberculosis from drinking aktimilk or buttermilk after cows affected with this diesase. For this reason it is very important tas, every creamery put in an apparatus for pasteurising buttermilk. This will give the disease a heavy seback and prevent its spread in many cases.

The Great Antiseptic

Dr. EARL S. SLOAN,

Swift & Company

This total is realized from the sale of fresh meats (beef, mutton and pdrk), provisions, produce (poultry, butter and eggs), soaps, glues, eils, bones, fertilizers, feathers, casings, hides, wools, pelts and other by prod-ucts derived from cattle, sheep, hogs

The industry is operated on a margin of less than 2 conts to each dollar of sales. Swift & Co. do not sell at retail. Their entire output is sold at wholesale to many thousands of dealers in various parts of the world. There are hundred of local slaughterest throughout the United States who ers throughout the United States, who by their live stock is competition with the packer doing an international business. Likewiss the packer must sell in competition with the local slaughterers. There are no secret processes in the industry, n complicated and expensive factorles complicated and expensive factories, and as live stock can be purchased in almost every bamlet and city, and the preparation of meats is simple in the extreme, local singularing will long remain a factor in the production of fresh meats and provisions.

The large packing houses will, however, always have these advantages.
Locations at the chief live stock cen ters, with the opportunity to buy the best live stock; manufacturing in large quantities, at the minimum of Stock Like Them, Too.

We all like to have as many vegetables to eat in the winter as we can; we test better for the fresh food. The stock are just like us in this respect. They miss the fresh, juley grass of the pastures. Let's do our best to give them roots along with the dry hay, like them roots along with the dry hay, like the pastures and brand of the packers and butter.—Farm Journal,

They will pay us back in good milk and butter.—Farm Journal,

The badding in.

Farchasing Live Stock.

Louis. St. Joseph. St. Paul and Fort Worth. The same methods of purchasing cattle, sheep and hogs prevail at all cities. At Chicago, which is the largest market, there are about two hundred and fitty buyers, representing packers, local slaughterers in various cities, and exporters Of this number. It is a commission firm at the Union Stock Yards, who sees that they are unloaded and put in pens. Then the buyers inspect, them, make their offers to the commission dealer, who accepts or rejects as this judgment dictates. All buying must to be finished at 2 o'clock each day, and the buyer must pay spot cash. If the commission man has no satisfactory offers, he can hold his stock over to the next day. He gets his commission from the farmer, and naturally strives. the next day. . He gets his commission from the farmer, and naturally strives to get the highest possible price for his client.

A wholesale distributing house is a giant refrigerator, but instead of shelves there are trolley rails, from which are suspended hooks to hang the carcasses. Some of the houses cost as much as a hundred thousand doilars to build and equip. As a rule they are of pressed brick, the insides they are of pressed prict, the insides being lined-floor, walls and ceiling— with highly polished hardwood. The floors are covered daily with fresh saw-dust and all are kept spotlessly clean. There are over three bundred of these wholesale houses in various cities of the United States, and the public is always welcome to visit them.

Packing Plants.

All the Swift & Company plants are located at the great live steck markets, in the beaut of the great agricultural sections, where can be purchased the them roots along with the dry hay. Similar development in the products the product of the produc

Sasiation and Hygene.
The housewife makes no greater effort to keep her kitchen clean than we do to keep in sanitary and bygenic condition our abattoirs. They are theroughly scrubbed at the close of each day's operations, and automatiappliances are used wherever possible in order to eliminate the personal han-dling of meats. Rigid rules governing these points are strictly enforced; lax-ity means dismissal.

Visitors Always Welcome.
No other industry in the world gives
such a cordial welcome to visitors as
Swift & Co. We keep ogen house the
year around, and maintain a corps of
specially trained guides, with bpecial
elevators and rest rooms. In one year we have entertained over a quarter of a million of men and women; in one a million of men and women; in one day—Grand Army Day, 1901—we en-tertained 23,000. Among our visitors have been ambassadors from foreign governments, princes, noblemen and distinguished citizens from all lands and emisset folis from every State in the Union. We wish to familiarian the public with our mithods, and the best way to do that is to let the public see for itself. We have no secret proc-esses or methods in any department.

Swift's Premium Hams and Bacon.
Swift's Premium Hams and Bacon are more widely and favorably known than any other brand. Their popular-

ity is due to the uniform quality and flavor of the meat, and to their fine navor of the meat, and to their ime appearance when received from the dealer. Each piece is branded on the rind, "Swift's Premium U. S. Inapect-ed," and wrapped in cheesecioth and white parchment paper.

Look for the brand, "Swift's Prem-lum," when buying hams and bacon.

Swift's Silver Leaf Lard

Is a strictly pure lard, kettle ren-dered, and put up in 3, 5 and 10-pound sealed pails. It is America's Standard Lard, and enjoys a high reputation and an enormous sale.

An interesting feature of a trip through the Chicago plant is a visit to the soap factory, one of the largest and most complete in this country. There we manufacture numerous toilet and laundry soaps, and washing pow-

necessary for each particular purpose, we will remove the portions so far as possible with the pruming knife, using the saw only as a last resort—large limbs should not be removed where it is possible to avoid it. Parts which are to be removed should be cut off as close to the main limb or body of tree as possible so no knots-will be left to decay and make a place for fungus diseasesto get in and spread to other parts. The wounds thus made will need two coats of paint—common white lead is best.

In a word then prune the orchard primarily to remove dead and diseased parts, cut close to the main limb or body of the tree and cover the wounds with two coats of white lead and oil.—J. C. Whitten, Horticulturist, University of Missouri.

On every hand we hear con-

C. Whitten, Horticulturist, University of Missouri.

On every hand we hear congratulations on account of the prosperity prevailing in the United States. The current report of Secretary Wilson of the Department of Agriculture contains the facts which very fully answers the question at the head of this article. Neither individual nor national prosperity prevails when the one or the other buys more than they sell. Look at this matter in its practical application from the official records so far as the nation is concerned. The Secretary calls attention to the fact that in the last 16 years with all we sold and exported abroad of manufactured goods and other products, except those of agriculture, would have left a balance of trade against this nation of \$343,000,000. But in that series of years we sold and exported agricultural products of the value of \$12,000,000,000. This turned the tide, and has given us a balance on the credit side of the national account of \$5,092,000,000. There is where prosperity has come from to the United States. It is due to our great agricultural resources and productions.

Mrs. C. C. Roberts is with her mother, Mrs. W. M. Rogers, of Walton, who is yet quite ill.

Miss Lizzie Rogers returned, last Sunday afternoon, and resumed her school, Monday morning.

Lost between Hebron and Water loo a 4lb. weight belonging to beam scale. Hubert Conner.

Quite a good crowd attended James L. Clore's sale last Wednes-day, and good prices prevailed.

Miss Clara Craig, of Aurora, Ind., has been the guest of her sister, Mrs. John Baldon, for several days.

Juvenile sheep are now to be seen in many pastures. So far the weather has been just to the liking of flock owners.

B. A. Floyd, the Recorder's faithful Gunpowder news gather, made the office a pleasant call, last Friday.

Friday.

Miss Alethia Bronner, of Crittenden, was the guest of her uncle and aunt, Mr. and Mrs. J. R. Case, several days last week.

Mesdames Laura and M. L. Riddell dined quite a number of their lady friends, last Thursday. Several from the country were present.

Grover and Cleveland Snyder sold their tobacco. about 2,000 pounds, to the American Tobacco Company at \$8 per 100 around last week.

week.

John Mannin, superintendent of
the Hebron Telephone Company's
lines, came over one day last week,
and put a 'phone in Marce Riddell's

John L. Conner, of Idlewild neighborhood, was among the visit-ors to Burlington, Monday. Mr. Conner called on the printers while in town.

Misses Artie Hughes, Nellie Mar-tin and Hettie Riddell after spend-ing the weeks' end with Mrs. B. B. Allphin, of Walton, returned home Monday.

The preparation for plant beds for the 1906 crop of tobacco has begun, and there is no indication of a reduction of the weed in this county-this year.

Onnie Rouse and wife gave a big party last Saturday night. A blank-et invitation was extended and a very large crowd was the result. All had a good time.

lines.

The mild weather this month has kept the boys talking base ball, and on one or two coassions they could scarcely refrain from taking ball and bats and hiering to the dia-

The Hopeful shurch congrega-tion is looking torward to the cele-bration of that church's centen-nial, some time this summer. The church was organized on January 6th, 1806. The celebration will be one of the caunty's leading events for the year 1906.

Sheriff M. F. Wingate showed up at his official headquarters at the court house for the first time, last. Thursday. He found that he deputy, W. D. Cropper, had official business in a good shape, consequently he did not remain long before turning his steps towards. Petersburg.

eraburg.

Eleven pupils were examined last Friday and Saturday for common school graduation. Six of them passed. Superintendent Snyder says it was the hardest examination for several years, and that the applicants who failed last Saturday will be examined in May free of charge if they desire.

Charge it they desire.

Hear that James E. Smith, who lives near Burlington, and who never raised a crop of tobacco in his life, will cultivate from 2 to 3 acres on his farm this year. The good prices that some have been realizing for the weed has encouraged Mr. Smyth to make this departure in farming.

Jestie Jackson is stocking up with a view to engaging in the poultry business, believing that there is considerable money in it when properly conducted. He will have more than one breed in his yards, and the one that proves the most profitable will be that upon which he will finally settle, and turn his attention.

Juvenile sheep are now to be seen in many pastures. So far the weather has been just to the liking of flock-owners.

If you desire to receive the Kentucky Post after February 1st you must make arrangements with O. J. Ryle.

B. A. Floyd, the Reconder's faithful Gunpowder news gather, and the combination is proving a great money getter. Belgian hares and Barred Plymouth Rock chickens are his favorite strains.

Rock chickens are his favorite strains.

The company finally closed the deal for the German Coach stallion last week, and the prospects for a hig season with him are as flattering as the owners of the horse could ask. He is of a class of horses badly needed in this county, and it is hoped the people will show their appreciation of the company's efforts to improve the stock, by a liberal patronage.

The Owen County Democrat is booming its subscription list with the big yellow pumpkin, while the News-Herald is trying to book enough new subscribers to be able to send someone of Owen county's handsome ladies to Yellow Stone Park, and pay all her expenses. Excitement is running high in "Swet Owen," and the publishers claim that new subscribers are coming in in flucks and droves.

Owen Tanner, a progressive farmer who lives about a mile from Burlington, out on the Florence pike, says there is no need of a box or a tub in which to scald hogs when butchered. He has done away with that incumberance entirely, and when he kills he lets the hog lie on the ground and pours the hot water on it, removing the hair with a coraper as the water is applied. Mr. Tanner catches on to all the short cuts when it comes to work.

Onnie Rouse and wife gave a big party last Saturday night. A blanket invitation was extended and a very large crowd was the result. All had a good time.

Don't forget the sale of realestate to be made at public auction at Walton, on Feb. 3d, as executor of J. A. Sanders, deceased. See advertisement in another column.

B. B. Allphin, of Walton, was in Burlington, last Friday. He reported everybody in his town, and especially Owen S. Watta as doing well—the latter along matrimonial lines.

The mild weather this month has kept the boys talking base ball, and on one or two coossions they.

The Burlington a person can get.

has kept the boys talking base ball; and on one or two occasions they could scarcely refrain from taking ball and bats and hieing to the diamond.

Joe Revill Furnish came out from Covington, last Friday afterneon, to spend Saturday and Sunday with his grandparents and look after some business for his father, Dr. J. G. Furnish.

W. T. Stott, of Petersburg, was in Burlington, one day last week. He has the appearance of wintering well, and it is opined that Billie is in charge of a first-class superincendent of a culinary department.

Mrs. Lucy G. Beemon and daughter, Miss Maud, made the Reconsular to Consolidate his proposed for the country of the country. By steepping across the street to Clutterbuck Bros., you can use the Waterloo and Burlington and Burlington

Under the head, "No Help in Sight," the Owen County Democrat has this to say of Owen county roads:

"The condition of the public roads of Owen county at the present time is a disgrace to a big and westly county and it would seem that there is no immediate prepect of bettering the condition that prevail. The Sparta 'pike, the main artery of trade, and travel running from Owenton to Sparta, a distance of thirteen miles is possibly in the worst condition of all. Literally in many places the bottom has dropped out of it. Of course all of the heavy travel and freighting teams between the two points peas over this road and in many places it is no better than a'mud road. What is true of the Sparta road is true in a lesser degree of every road in the county. Its there no remedy? Must the people of this county set by with their hands folded, and see gr. 10 wreek and ruin, the turnpike roads that have cost them in the days gone by almost a million of dollare? On the Sparta road in a condition to get his freighting teams over it. In Owen county as every where clee where it has been forced to do this to have the road in a condition to get his freighting teams over it. In Owen county as werey where clee where it has been freed to do this to have the road in a condition to get his freighting teams over it. In Owen county could go back the turnpike roads has been demonstrated to be a failure. It produces practically no results. We have confidence that the new Fiscal court under the advisement of Judge W. P. Yancy, will do all in its power to correct these conditions and restore the roads. But the conditions are against them and they will be handicapped by a lack of money and means to carry their projects to a successful—conclusion. If Owen county could go back to the old time condition, but that is an impossibility. With a county debt of \$200,000 and a tax rate above the limit it is a bard proposition any way you look at it and the Fiscal court will certainly have their hands tult in dealing with it intelligently."

ligently."

Prophet Marsh, of Cincinnati, crowds considerable bad weather in February, and gives out the following forecast for Cincinnati and vicinity:

Between January 31 and February 2—Cold, rain to snow; Between 3 and 5—Generally tair, cold; Between 6 and 9—Cold wave, sleet and snow; Between 10 and 12—Unsettled, stormy; between 13 and 16—Rain to sleet and snow; between 17 and 18—Clenerally fair; Between 20 and 24—Severe storms, high wind and rain; Between 25 and 27—Generally fair; February 28—unsettled.

Call at Ed Corbin's Florage 4.

HENRY QUICK, Agent,

The world's consumption of tea outside of the countries in which it is grown may be taken to be about 500,000,000 pounds per annum.

D00,000 pounds per annum.

The prune crop of California in 1905 is estimated by the California Fruit Grower at 54,500,000 pounds, as against 155,000,000 pounds in 1904.

The production of wine in France in 1905, as recently estimated by the French ministry of Agriculture, amounted to the enormous quantity of, roundly, 1,500,000,000 gailons, and showed a decrease from the yield of the previous year of over 300,000,000 gallons.

The American people are the most chrifty and saving in the world. With \$3,000,000,000 in savings banks and \$5,000,000 depositors, there is an average of \$350 for each American who has a savings account. Canada is second with \$289 for each depositor, and Hungary is third with an average of \$251.

with \$239 for each depositor, and Hungary is third with an average of \$251.

Living in Delaware county, New York, are three sisters, believed thereabouts to be the oldest in the United States. They are Mrs. Harvey Scott, 94 years old; Miss Angeline Blair, 91, and Mise Arvilla Blair, 89, the combined ages being 274 years. The three sisters live within 12 miles of each other, are all in good health and are as bright as ever.

Another revelation comes from Texma. Ten million tons of suiphur have been found in the Transpecce region, the suiphur fields extending over about 10,000 acres, with a thickness averaging 9½ feet. With 10,000,000 cons of 40 per cent. native ore suiphur to hand certain manufacturing processes, it is expected, will he reduced 20 per cent. and the present rate of Importing will be offset for 20 years.

The gold mines on the Ameridan side of the line in the far Northwest were last year, for the first time, producing much larger quantities of the preclous metal than are being found in British territory. The yield for 1305 at Nome and in the surrounding district is estimated by experts at approximately \$10,000,000, and the Tanana valley has cleaned up \$1,000,000. Last year the total gold production for all. Alaska was \$3,050,000, or nearly \$1,000,000 less than this year's cleaning at Nome alone.

Funeral services for Cassie Carter, the giantess of South Blue Hill, Me, and the fattest woman in Maine, were held the other day at the home of Daniel Carter, her grandfather, Miss Carter was only 8 feet 4 inches tail, but because of her tremendous weight, 400 pounds, no ordinary comin or hearse was adequate. The undertaker had a special comin constructed, and an opening in the side of the house had to be made to get it in and out. This was done by removing a window with its sash and frame. Six of the biggest men in the district were selected as palthearers.

Andrew Carnegic has no son and only one daughter, so his hundreds of millions will start no line of Carnegic kings. Russell Sage has neither son nor daughter and his fortune will be scattered among strangers. Leland Stanford had only one son and he died. C. P. Huntington had no children. Frederick Vanderblit has no children. Ferdy Belmont has no children. Frederick Vanderblit has no children. For the supplementation of the control of the section of the

In the old line companies alone there were, a year ago 21,082,552 outstanding policies, for \$12,523,693,754, or a sum greater than the actual value of all the stam railroads in the United States. The assets are more than three times the aggregate capital of all the 5,331 national banks in the United States, and the income of these insurance companies is greater than the total revenue of the United States government. The numberless assessment companies and fraternal benefit societies also provide life insurance.

Miss Bella Conro. of New York City, is employed by the New York City, is employed by the New York State Dental association to run down the many uniference dentities. In doing this she has the distinction of having had her teeth examined more times than any other woman in the world. She visits an average of three dental offices daily, has her teeth cleaned at least three times a week and carries a small fortune of gold in her mouth which may be removed to-morrow and replaced the next day. Miss Conro is 35 years old and three years ago managed a dental office of her own.

The insurance investigation at New York came to an end with the close if the past year, the committee's powers having hene terminated by the extration of the legislative term. The committee will make a report and the low legislature, now in session, will lecke wheter the investigation shall continue. The committee's conclutous are likely to form the basis of the state of the stat

The Faith That Conquered

STORY OF THE CRISIS IN MOSES*
LIFE
By the "Highway and Byway" Prescher

before the close of the feward."—Heb. U.MST. two years had gone by and Moses still lingered in Ethlopia. Before the close of the first year he hear put down the rebellion and had by his wise and patient states and patient for his return only that he might bestow upon him the bonors and distinction which he felt he had won.

But to Thermutis, the Princess' Moth-

compense of the review. The bear of the contract to the contra

mace. God has not forgotten
His people. The time is at
hand."
"You may well believe I was thrilled
and excited by what I had read and
lost no time in further questioning
the man before me, as to the present
whereabouts of Ammihud, and how
he came to he in Ethiopia. To the
first question he pointed to the southwest and said: 'Far, far,' and in reply to the second he told me that
Ammihud had been brought by his
master from Egypt some 30 years hefore and had continued failbful inhis service, having been given the
promise that some day he would be
allowed to return.
"The impulse to go at once in search
of Ammihud was well-nigh irresistible,
hut I must needs return and hring
order out of the chaos and reestahish Egypt's rule over the country.
But I did not neglect to dispatch the
prisoner with a message to Ammihud
telling him that if his master would
allow-his return to me, he, the master, should receive pardon at my
hands. That was montha ago. I have
heard nothing and, now that the affairs
of state will permit, I go in search of
this Ammihud. When I left Egypt
under commission from the king i
thought I was terminating until my

the promise of the information I seed adjeu."

The princess read and reread the letter. She hardly knew whether she was glad or sorry for the information it consined. She still increased the thought of Mosey as king and his people as free under his rule, and the possibility of something transpiring to turn Moses aside. From the goal she coveted for him made her uneasy and ill-humored. But the mossage came from him until at last came the word that he and his army were on their way home, and she and the king were busy with their preparations for the journey to Thebes, the southern capital of the kingdom, where Moses was to be received with all the honors of the returned conqueror.

Moses to continue his story, but his eyes were gazing out across the water and he showed no inclination to say more.

"Weil?" at last she expostulated, unahle to keep still longer.

"That is ail," Moses responded with quiet seriousness, "save that Ammihud declares the time of deliverance is at hand, as the records in Joseph's tomb will show."

"And what does this all mean to you?" she demanded, abrupily.

"I hardly know how to answer, mother," he said, slowly, "save that I am eager to know God's plans for His people, and an trying to he willing to follow Him, cost what It may."

"But admitting the truth of all that Ammihud has revealed, what is there that need be so disconcerting to thes? Need It change one whit your plans or your hopes as an Egyptian prince? As king may it not be that thou art to lead thy armies to the conquest of Cansan? and may it not be thy pleasure to settle there thy delivered people? and was it not to be expected that Joseph should choose final resting place with Abraham, and lease and Jacoh in Cansan? and is the time heigh near at hand, do we not know that the king is growing old and feeble and that r. no distant day thy opportunity will come?"

Thermutle spoke with intense earnestness, and Moses felt her eyes upon him, but he dared not look up. He did not feel that he could trust himself to enter into her plans for him then. Her plea was certainly plausible, and the temptation was strong to follow her brilliant scheme, but he was conscious that it was God rather than his mother he must foilow.

"We must wait," he said at last with effort. "God will lead the way."

"And during the symandery of the long trip so further raference was made to the subject, but each was husy with the tunnult of thought what has he hid in traced?"

FACIAL PARALYSIS

attack may be the forerunner of a severe disorder. No nervous sufferer should neglect the warning symptoms, but should see that the starved nerves are usurished before the injury to the delicate organism has goue to an extent that renders a cure a difficult matter. The nerves receive their normals.—ant through "Debood, the same as every other part of the body, and the best nerve tonic and food is Dr. Williams' Pink Pills. The experience of Mr. Harry Bomis, of Truthville, Washington county, N. Y., substantiates this.

took by: Y. Mr. Harry Bomis, at Trethrine, Washington county, N. Y., unbetentiates this.

"I had been feeling badly for a long time," said Mr Bemis, "903, I was compelled to quit work on account of my ill health. My trophle was at first extreme nervousness, then my sight between the country and the said part of the said from paralysis. Ho treated me for some time, but I got no beutif I tried another doctor and again failed to obtain any relief. My uervonauses increased. Mediterranean have shown that over a large surface of water the temperature and the rapidity of air movements decline steadily in proportion to the slittude.

Frof. Nichols, the astronomer, made a delicate instrument some time ago to measure very faint heat-wares. It is only a few short years since the impression prevailed that a large per so sensitive to heat that it registers the warmth that emanates from a man's cae 2,000 feet, or more than a third of a mile, away.

The furnace as a means of ventilation is said to be more economical in deep mines than in shallow ones, as it acts by heating a column of air; the higher that column the greater will be the difference in the weight of air in the upcast and downcast shafts, and consequently the greater the motive power.

Carrying out experiments in psychic phenomena, some scientists at Ruvo produced some striking results. A liver-old hoy was put in a trance, and to this condition answered questions put the sound that the industry have been been been been been dead of Rutherford's inferences are true. Radium breaks up into helium and lead, if Rutherford's inferences are true. Radium has an atomic weight of 225, and if each of the side alpha particles given off is an atom of helium of mass 4, the readium must be a subject of 205, about that of lead. This metal, moreover, is present in all radio-active minerals.

One day a football player appeared in the classroom during the football season. The students were deeply shocked, yet they managed to preserve the outward forms of respect. But when, presently, it turned out that the fellow knew his lesson, there was noon to poor to do him reverence. "Ife's gone stale!" was the sneering whisper which ran from lip to lip.

Congressional Briefs.

Two votes in the house on the 24th showed that Speaker Camon and his organisation—were in complete conviol and the joint statehood program of the administration has been depicted, forty-theps republican—"insurgents" went down to defeat, having voted vainly with the democrats to gain control of the rule, the terms of which are to govern the statehood bill in its passage through the house. The vote on the adoption of the rule was carried by a majority of 30.

The house passed the statehood bill according to schedule. The republican opposition to the measure had spent its entire force and no effort was made to defeat the bill on its final passage, but 33 of the "insurents" voting against the measure. The bill passed by the vote of 194 to 150.

The senate committee on territories authorized a favorable report on the joint statehood bill passed by the house.

The treaty under which the United

the joint statehood bill passed by the house.

The treaty under which the United States retinquished to Cuba all claim or tills to the list of Pines, which has been pehding since November 11, 1903, was ordered reported by a majority of the senate committee on foreign relations.

The senate committee on the Philippines voted to report favorably the mominations of Henry Clay Ide*to be governor general and John W. Smith to be vice governor of the Philippine islands.

The first attempt at all the contract of the principles of the philippine islands.

to be vice governor of the Philippine islands.

The first attempt at fillbustering at this seesion occurred in the house on the 27th in a democratic endeavor to defeat the provision of the urgent dendered the provision of the urgent dendered the region and the provision of the urgent dendered the provision of the urgent dendered the provision of the urgent dendered the urgent dendere

bers of the interstate and foreign commerce commission.

In a session of two hours the house passed the urgent deficiency appro-priation bill, carrying \$12,516,103, in-corporated in which-is a provision that the elight-hour law shall not apply, to alten laborers on the Panama canal. Senator Fulton presented a resolu-tion in the senate authorizing the pay-ment of funeral expenses amounting to \$547 of the late Senator Mitchell.

ment of funeral expenses amounting to \$547 of the late Senator Mitchell.

Miscellaneous Items.

The confidential exchanges now going on among the representatives of the powers in the Moroccan conference discloses the extreme difficulty of arranging an agreement that both France and Germany would accept. By the will of Marshall Field filed in the probate court the city of Chicago is made beaeficiary of \$8,000,000, which is to be used for the endowment and maintenance of the Field Columbian museum mow attusted in Jackson park. In addition to the sum left for the museum various bequests aggregating \$17,668,000 are made to relatives and friends of the testator. With these exceptions, the entire estate is to be kept intact until one of the two sons of Marshall Field, Jr., grandsons of the testator, shall have reached the age of 50 years. The grandsone are now 9 and 12 years old. Marshall Field, Jr., died on November 27, 1905, of a bullet wound accidentaly inflicted while handling a revolver China's imperial commission, sent to the United States to study American conditions, social, educational and industrial, was received formally by President Roosevelt at the white house.

WRAPPED IN FLAGS IC

The Remains of Gen. Wheeler Taken to Washington.

Were Held.

New York, Jan. 29.—An imposing military pageant passing across Brooking bright of the process of the thomas Episcopal church in Fifth avenue and an escort across the North river ferry to Jersey City, where the body was pinced on a train to be taken to Washington for interment in the national cemetary at Arington, marked the funeral in this city Sunday of Brig. Gen. Jos. Wheeler, cavalry leader of the Confederacy, and later one of the most prominent figures among the generals of the Spanish-American war. The body of the dead soldler was wrapped in the flags under which had served with almost equal vigor and distinction—the stears and bars of the Confederate, states and the stars and stripes. Veterans of the content and porthern armice mingled in paying tribute to Gen. Wheeler with the younger veterans of the Cuban and Philippine campaigns of 1898 and 1899. The route of the funeral cortege was lined with great crowds, most of whom stood with bared heads as the procession passed.

The funeral took place from the home of Gen. Wheeler's stater, Mrs. Sierling Smith, in Brooklyn, where Gen. Wheeler died on Thursday of pneumonia.

Gen. Wheeler died on Thursday of pneumonia, A riderless horse with boots reversed in the stirrups and a cavelry sword dangling from the saddle was led just behind the exisses.

The church edifice was thronged. The funeral serives were simple and brief. The attar of the church was almost hidden beneath the floral offerings, one among them, a greeg wreath sent by President Roosevert.

THE INDICTED PACKERS.

Inal Prosecution Must Be Tried.

Chicago, Jan. 23.—That the queetion of the Indicted packers' immunity from prosecution must be tried on the facts. became a practical certainty. Sunday when the last entry to the opposing stroneys to reach an agreement by which the matter might he expedited failed. The hearing that now becomes necessary will involve the taking of a large volume of testimony and will last for perhaps three weeks. Had an agreement been reached, a pies for the defendant packers would have been made to which the government would have filed a demurrer. On this demurrer the attorners would have snycule ofore Judge Humphrey with no testimony and without jury.

FOR MUNICIPAL OWNERSHIP:

FOR MUNICIPAL OWNERSHIP:

Mayor Dunne, of Chicago, Signed the So-Called \$75,000,000 Ordinance.

So-Galied \$75,000,000 Ordinance.

Chicago, Jan. 29.—'I have appended my signature to the municipal ownership measure recently passed by the city council and am resting content in the belief that my plans for the municipilization of the Chicago street car lines will be realized before my present term of office ended."

Mayor Dunne made the foregoing announcement. He said he had signature the said he had signature that the belief that it was necessary for him to sign the ordinance within ten days from the date of passage in order that they might become legal under the provisions of the city charter.

That legal obstacles will be placed in the way of the consummation of his plans is anticipated by Mayor Dunne.

A SUBWAY SYSTEM.

A SUBWAY SYSTEM.

Application Will Be Made To the Chi-cago Council For a Franchise.

Chicago, Jan. 29.—Application will be made to the city council by the Chicago Central Subsaliroad Oo, for a 50 year franchise for tenmile subway system for passenger traffic under Chicago's downtown streets. The company was organized in 1894 with a capital of \$15,000,000 and a franchised was asked for at that time, but the council refused to grant it.

Cost of the War.

Tokio, Jan. 29.—An official report submitted to the diet shows that the actual outlay for the war from the beginning of hostilities to their end in September last was, for the srmy, \$495,000,000, and for the navy \$30,000,000.

000,000.

Presents For Miss Roosevelt.
Peking, Jan. 29.—The dowager empress has sent to the American legation a number of wedding presents for Miss Alice Roosevelt. The presents consist of coulty jewels, silks and ermine robes.

AN EXPLOSION PREDICTED

the Accident Did Not Materializas.

Louisville, Ky., Jan. 26.—A small army of negroes, many of them women, and all employee of the company, furried from the National Tobecco works, at 18th street and Broadway, shouting and wringing their hands. The cause of the exodus was a prediction by a fortune teller that the bolier in the plant would blow up of clock, and kill everybody. The "disaster" was foretold several weeks ago. In the morning some one mediculend the matter in the stemming room, and the panic ensued, but the accident did not take place.

Relatives Allege That Undus Infli Was Used:

Louisville, Ky., Jan. 27.—Suit to con-test the will of Dr. John A. Ouchter-lony was flick iters by August Pablan Ouchterlony and Alma Matilda Ouch-erlony, brother and stater, of Gother-burg, Switzerland. They silege undue Influence. The estate is valued at from \$100,000 to \$200,000 and much of the wealth was left to the Roman Catholic church in this diocese.

Top Price For Tobacco.

Henderson, Ky., Jan. 25.—The top price for tobacco this season was paid on this market. Sellers & King, extensive tobacco growers, sold their entire crop after strong competitive bidding on the part of buyers, for \$10.50 for good, \$5.50 for lugs and \$2 for trash.

To Improve the Insane Asylum.

To Improve the Insane Asylum.
Frankfort, Kr., Jan. 25.—The joint Regislative committee on charitable institutions visited the Western Kontucky saylum for the Insane at Hopkinsville, and R is understood will recommend an appropriation of 335,000 for improvements at that institution.

A. M. Narrison Settles.

Winchester, Kr., Jan. 27.—A. M. Harrison, formerly an agent of the auditor of state, who compromised a back tax sut for \$1,000 and who was subsequently charged, with fraudulently retaining the money, settled the matter here by paying the amount into court.

court.

The Shooter Escaped.

Ford, Ky., Jan. 26.—Charles Tensely is alleged to have shot and killed. Tandy Chenault. Tensely walked into the room and was told he was not welcome. He then pulled his platel, it is said, and began shooting. Tensely escaped.

Fatal Quarrel Over a Debt
Harard, Ky., Jan. 26.—During a
quarrel over a debt of 50 cents, Joshua
Meadows shot and instantly killed his
cousin, Burton Little. The men were
neighbors and had been close friends.
After the deed Meadows attempted
suicide.

Red River Moonshiner Shot.
Beattyville, Ky., Jan. 27.—United
States Deputy Marshal Mays and Deputy Collector W. T. Short engaged its
an encounter with moonshiners on.
Red river, in which about 25 abots
were fired. One moonshiner was abot,
as is evidenced by a trail of blood.

House Dynamited at Somerset. Somerset, Ky., Jan. 25.—Unkino-persons threw a dynamite bo against the house of John Cook, Main street. Sayeral members cook's family were in the house, none of them were injured.

COAL STRIKE ORDER.

cretary-Treasurer Wilson Will Be Instructed to Prepare it.

Indianapolis, Ind., Feb. 5.—It was in-timated at the international headquar-ters of the United Mine Workers of American Sunday that before the ad-journment of the present session of the executive board Secretary-Treas-urer W. B. Wilson will be instructed to prepare a formal strike order, ef-fective April 1, in order to avoid the necessity of reassembling the board after the adjournment of the present session.

necessity of reassembling the board after the adjournment of the present session.

No meeting of the board was held Sunday. The question of the per capita tax of \$1 for the establishment of a national defense fund, which was informally discussed just before the adjournment of the board meeting Saturday evening, is expected to be the first subject taken up when that body resumes its meeting.

An interesting situation in this connection has come about as a result of the resolution passed by the national convention providing that no district shall sign any wage agreement until all have obtained satisfactory settlements. This, resolution has been definitely explained by W. D. Ryan, secretary and tressurer of the Illinois district, who proposed it; by Vice President from L. Lewis, who spoke in favor of its passage, and by President Mitchell, who placed the motion before the convention, to include "every district under the jurisdiction of the United Mine Workers of American, whether anthractic, bituminous or blook coal regions in the United States and Canada."

Under this ruling the scale committee appointed by the anthracite immers in their Shamokin convention early in December will have a power to sign a contract even if their demands are conceded by the anthracite immers in their Shamokin convention early in December will have a power to sign a contract even if their demands are conceded by the anthracite operators unless the miners of all other districts effect an agreement with their employers.

RAILWAY RATE BILL

There Promises To Be a Long Dis-cussion on That Messure.

washington, Feb. 5.—Chairman Hepburn, in charge of the realized rate
bill in the national house of representatives, is unable to see the end of the
discussion of that measure. Under
the special order it has the right of
way until disposed of. The very first
day of the debate, which began last
Tuesday, developed the desire of many
members to make speeches. An extra
hour was added to each day and stiff
the list of applicants for time grew
larger. Mr. Hepburn has a long list
of republicans who are anxious to be
heard, and Mr. Adamson, controlling
the time on the minority side, says
there are 50 democrats who wish to
be heard in favor of the measure.

THE MOROCCAN CONFERENCE.

A Bloody Bulifight Was Given in Hon-or of the Delegates.

or of the Delegates.

Algeciras, Feb. 5.—The brilliant, though bloody spectacle, of a builfight in honor of the conference on Morocan reforms was the event of Sunday, Crowds came from all parts of Andabulusia to the yast stone amplitheater where the builring is and more than 6,000 persons saw the fight.

Most of the delegates to the conference were represented and many of the envoys were accompanied by their wives and daughters. The American and British delegates did not attend. One bulk Rilled five horses, four of them dying in the arens, the fifth one, terribly gored, staggered outside and died.

HAWAIIAN DELEGATION ARRIVES

They Will Make an Appeal Before the Committees of Congress,

Washington, Feb, 5.—A delegation of Hawsilian citizens arrived here to appear before committees of the coagress to advocate legislation requiring three-fourths of the customs duties and internal revenues collected in the territory to be expended on public works there.

It is said \$1,200,000 a year, equal to \$8 per capital of the population, is taken out of the territory, which the members of the delegation constitute a heavy drain on its resources.

Harvard Graduates Selected.
Washington, Feb. 5.—Congressman
Nicholas Longworth, of Clincinnati, announced the names of the gentlemen
whom he has selected to act as best
man and ushers at his wedding to
Miss Alice Rossoveit on February 17.
They are, in most casee, Harvard
graduates and intimate friends of the
bridegroom.

onal Banka Exampt From

tion on Government Bonds.

Frankfort, Ky., Feb. 1.—The Kentucky National banks won a big victory in the court of specals and it will likely result in a law being passed by the legislature that will provide a uniform way to tax the shares of both state and national banks. The case decided was the Marion National hanks. Barton, sheriff, and the question was whether in fixing the value of the shares of stock in the bank for taxation the bank has the right to have deducted the amount of its government bonds from the amount of its overnment bonds from the amount of its savernment bonds from the state banks are assessed for franchise taxation but the state supreme court has decided that national banks can only be assessed on the value of their shares of stock. The national banks claimed that in arriving at the franchise value of the state banks the board allowed the state banks to deduct seourities, which was discrimination, and refused to pay taxes on their shares of stock unless their government bonds were also deducted.

ALLEGED LYNCHERS.

ALLEGED LYNCHERS

In Jail at Jackson,

London, Ky., Feb. 3.—Joseph Farris
and Bill Queen were Thursday lodged
in the county jail on warrants charging willful murder in participating in
the lynching of . Virgil Bowers, a
negro, taken from the London jail october. 16 by 75 masked men and hanged to an apple tree. Bowers was
awaiting an order do be taken to
Frankfort for life imprisonment for
he murder of George Farris, of Grays,
Knox county. Farris was arrested by
Deupty Sherlif Pigg at his home, near
Lynn Camp, about 13 miles from London. Queen was arrested by Deputy
Sherlif Scoville at his home, near
Lynn Camp, about 13 miles from London. Queen was arrested by Deputy
Sherlif Scoville at his home, near
Lynn Camp, about 13 miles from London. Queen was arrested by Deputy
Sherlif Scoville at his home, near
Lynn Camp, about 13 miles from Longrow victim; Williams, of Knox couny, for Brit Farris, father of the negrow victim; William Keck and James
Trosper. All live in Knox county. An
investigation is still going on before
County Judge Pennington, conducted
by the Commonwealth's Attorney
Lewis and County Attorney Johnson.

WiTNESS POISONED.

WITNESS POISONED.

Took Strychnine Thinking It Was a Dose of Quining.

Jackson, Ky., Feb. 3.—Flem Tharp, principal witness in the case of the common wealth of Kentucky against Moso Feltner, charged with conspiring to kill Judge James Hargis, died suddenly of strychnine poisoning at his home on the Kentucky river, seven miles below here. Tharp took what he thought was a dose of quinine, and was dead in 20 minutes. He gave a slight dose of the same medicine to his little daughter, who was seized with strychnine poisoning, but will recover. It is believed Tharp was intentionally killed by some person who placed the poison in the drug. The authorities are investigating.

WALL STREET IN DANGER.

The leiders of "Trensled finance" is Wall street are intent on infairing the currency, for they find they have not enough money available to speculate with. A great panie is predicted by Jacob H. Schiff, head of the hanking firm of Kuhn, Loeb & Co., unless congress provides for more currency. He favors a currency based on commercial paper, and does not approve of the plan of Secretary Shaw, which he clares would ald speculation rather than legitimate business. Mr. Schiff, who is one of the Rockefeller crowd of financial princes, has been foremost in watering the stocks of railroad and industrial corporations. Infailon is the principal business of these frenzied financiers, and they have infaided that wall street belicon with such a volume of gaseous stocks and bonds that they now find it difficult to hold down their creations.

There appears to be pleaty of money for the stock gambiers. The volume of business all over the country is greater than ever before, and no produce at the market price. The currency of the United States has been increased 46½ per cent. since 1396, or nearly one builton doilars in nine years, for whereas it was \$21.42 in 1896, it is now \$31.40 per capita. Of this years, for whereas it was \$21.42 in 1896, it is now \$31.40 per capita. Of this years, for whereas it was \$21.42 in 1896, it is now \$31.40 per capita. After the Remains of a Warsa Boy, one of Gen. Moggan's Men wwo was killed in Battle in the Mountains of Tenn.

Battle in the Mountains of Tenn.

To the Editor of the Recorder:

It may be that these evil designers have a means of communicating from one to the other. In that case our smallpox scare is yet yielding its influence for our good, barring an occasional stop to answer a few questions concerning our business, and to tell or refuse to tell what they think we know about Gen. Manson and his army, as well as to get needful information of the roads and condition of the country ahead of us. When assured that our accostes are Southern soldiers, who accord us the most courteous treatment, we usually tell them all that we conscientiously can, being mindful of our obligation and respect due to the federal government. We are told that about four or five miles in our ront on the waters of Marrow Bone creek, near the back waters of the Cumberland, is a grist mill where the Southern boys get their bread stuff. The roads are rough and broken; our horses are becoming wearied, but as we feel that we have considerable to live for, Frank having one of the best little women Kentucky ever produced and two promising little boys, and I--well, I wanted to take another peep over that yard gate back in old Gallatin—so we do not want to camp in the mountains, and will try to reach. Mr. William's mill and nestle beneath the wing of the brave boys in Gray for the night. But here are three fellows sitting by the roadside, and they may have something to do with our getting there.

When we had arrived sufficiently near they saluted us with

Mr. William's mill and nestle benevery section of the country on
April 1.

The Black-Hand Society of
blackmailers and assassins has
become such a peril and menace
to the whole country that Presis
dent Roosevelt has ordered an investigation as to its methods, with
the hope of crushing it.

The News says that the whis
ky business in Nicholasville, last
year, amounted to 833,200, being
\$27.400 to each man, woman and
child, white or black, in that
city. The Nicholasvillans certainly-do like-the critter.

It now looks like the General
Assembly of Kentucky is a very
courageous body of men—the
probability is they will pass
law taxing dogs. Heretofore the
advocacy of such a law in the
Legislature was regarded as political suicide.

out of pistol shot, around a bend in the road, when we taxed out tried team to list utmost capacity. Those people evidently were of that class known as moonshiners, who were numerous, infesting the mountains and causing the revenue service so much trouble. These people and a systalinate in some respects to the one that we have in operation to day in ascertaining the weather changes. It was conducted by placing men in conspicuous places as spees and lookouts, and they would compare the conspicuous places as spees and lookouts, and they would compare the control of the conspicuous places as spees and colud not give to them a satisfactory account of himself, they would not healiate to resort to the proposition that a dead man lough the still the control of the con

Some fellow who had a little spare time in which to do some figuring, arrived at the following result as to the amount of salt in the seas:

figuring, arrived at the following result as to the amount of salt in the seas:

"The salts of the sea have fed throughout all time countless living things which have thronged its water and whose remains now form the rocks of continents or lie spread in beds of unknown thickness over 66,000,000 square miles of the 143,000,000 square miles of the cean's floor. They have lent the substance to build the fringing ree's of the land and all the coral islands of the sea, and there are at present on the basis of an average salinity of 3½ per cent in the 298,700,.000 cubic miles of water which make up the ocean's 90,000,000, componed on the saling of salt. This is sufficient to cover the areas of all the lands of the earth with a uniform the open of the content of the sufficient to cover the areas of all the lands of the earth with a uniform the open of the content of the the lands of the earth with a uniform layer of salt to a depth of 1,000 feet."

Now let him tackle the sands

and ascertain the number of par-ticles on the shores of time.

Once in awhile a bit of slang is so expressive it becomes incorporated into the language of an allowable idiom. One of the most striking of these is "making good." It has come to have not simply a general but a specific meaning. It illustrates the idea of competition; it indicates that under intense modern methods it is only he who succeeds that can, in the long run, win recognition. Recommendations, testimonials, requests from eminent men, al fall before the stern decree that you must "make good."

Don't Claim to Have a Promise
From the Governor.
There has been much speculation before and since the election of a United States Senator as to who would succeed Judge Paynter on the Appellate bench, the concensus of opinion all long, however, centering on Judge John M. Lassing, for that honor. In reply to a question on the subject by the Cincinnati Enquirer, Judge Jassing said:
"The governor has never given me a pledge of any description with a view to my appointment to succeed Judge Paynter, but I have no doubt in my mind that he will appoint me when the vacancy occurry Judge Paynter will probably resign next summer in order to give his successor time to get into the hances and make a canvass for the nomination and election at the November polling. I know that it would please Judge Paynter to have me appointed and elected to succeed him as a member of the Appellate Court bench before he takes his seat as United States Senator.

ame very near creation the other day when through town on a hay see and unique at the N liss seat as United States Senatur.

Dodgers and lickets for the dance and supper to be given by the Odd-list of the 18th inst, were printing to the same strain for \$25. C.N. Hansen sold a trio of his Rhode Island Reds for \$90 and has booked a great many orders for his eggs at \$15 per setting."

Mr. Thomas P. Crisler, who lives with his son in-law, W. J. Rimear twon, went out to the very early, one morning of oget a bucket of one way fell tokewards, so the same way fell to the word of the same way fell tokewards, so the same way fell tokewards.

"The gene January 20th, 1905. None knew the lowest people of the earth what January hamband, son, friends—all revers her hamband how well she descreed auch homoge and the purity and holimes of such a word as "Mother" is hould inspire in all our heart, in the solid and unless the big hearted hembers of the press come to his assistance his son will grow up an putter her character when her been been much all with the strang river. We cannot wish her to return to such a world of sin and sorrow. In the said that ber wilght was trimmed and burning," and that it was as a lamp and guide to our weary feet, trodding along life's narrow way. Could we emulate her life and so reed we hall consequently along the profession of journalism will be said that her "light was trimmed and burning," and that it was as a lamp and guide to our weary feet, trodding along life's narrow way. Could we emulate her life and so reed we hall know as we are known, and here shall be "one more to welcome us when we shall cross the intervening space between this land and that one "over there," one more to make the strange beyond seem fair." And so for her there is an atting to death and so treet from me more to welcome to which the strange beyond seem fair. In the strange beyond seem fair. I

Beschipton.

Bischmond Byers, it alive, was 6 years old last July, is of light cum; plexion, has gray eyes, left eye noticely crossed, has a small V shap ed nick in the edge of the left car, has a sharp chin and a narrow, projecting forehead. He is rather small, for his age and is unusually bright and intelligent, taking after the manner of a boy much older.

Dr. Byers has searched among the roving bands that frequent the United States and believes that his on can be found among traveling junk dealers, se-called horse traders our movers. He does not think the boy was stolen by genuine gypsies. He thinks he was taken by a wans dering band that used him for the purpose of begging in the town along the route.—New Harmony e(Ind.) Times. purpose of begging in the towns along the route.—New Harmony (Ind.) Times.

(Ind.) Times.

The four lots in Elsmere, Kenton county, belonging to the estate of the late A. S. Crisler, was sold at the court house door, last Monday, for \$215, and the 14 acres of land on Gun; wwder below Limaburg, brought \$355.

aburg, brought \$355.

A friend in the Hebron neighborhood writes the RECORDER complaining of some very bad conduct on the part of a couple of young men after church a few nights since. It seems the boys indulged in the stone throwing act, they being concaled by darkness. That was a very serious off-use and may be a costly amusement if kept up.

ceiving many nice orders since the recent poultry show at which all of them were first prize winners. O. A. Bogardus sold a Black Orphing to Qock for \$40 and a trio of the same strain for \$25. C, N. Hanens sold a trio of his Rhode Island Reas for \$90 and has booked a great many orders for his eggs at \$15 per setting."

Mr. Thomas P. Crisler, who lives with his son in-law, W. J. Rice, near twen, went out to the clistern very early, one morning last week, to get a bucket of water, and in sonne way fell off of the porch backwards, giving himself a jur so severe as to co-infine-him to the house ever since. His worst in jury is ab ut the hip. He will bout again in a lew days.

Although the original expense incurred by the purchase of thoroughbreds and nivestment for thoroughbreds and nivestment for thoroughbreds is the best, as the actual difference in value between good and inferior stock is much greater than than at first appears. A herd of cast the whether of thoroughbreds or grades, if bred for beet, will show the value of the breed, not only in the weight of careasses in proportion to age, but also in the cost of production.

Solves the value of the breed, not only in the weight of careasses in proportion to age, but also in the cost of production.

Solves the value of the breed, not only in the weight of careasses in proportion to age, but also in the cost of production.

A Sad Death

AN EDITOR'S APPEAL

To Brother Publishers in Behalf of the Lost Child of Dr. Byers, of Secleyville, Indiana.

If the editor of every paper in the central west will publish these lines there is no question but what Dr. S. L. Byers, of Secleyville, Indiana, will recover his little son who was stolen from his home one year ago last May. Dr. Byers has spent his entire resources in search for his entire resources in the professor of the pressure in the professor in juriant professor in the form and the term of the house yester-day at 2 p. O. F. centerery. Besides a little daughter only a few weeks add the deutse will be treed in the house yester-day at 2 p. O. F. centerery. Besides a little daughter only a 12 p. O. F. centerery. Besides a little daughter only a 12 p. O. F. centerery. Besides a little daughter only a 12 p. O. F. centerery. Besides a little daughter only a 12 p. O. F. centerery. Besides a little daughter only a 12 p. O. F. centerery. Besides a little daughter only a 12 p. O. F. centerery. Besides a little

responsibilities of this world.

At Hol-worthy, in Devonshire, England, the pretises girl who at tends church gets well rewarded for doing so. About lifty years or so ago, it strong the liev. Thomas Meyrick, who was then vicar of the parish, that the young ladies there did not attend church so often as they might do. So he left a sum of money, and this, according to the terms of his will, was to be put out at interest. The annual income from it was to be given each year to the pretitest young woman at Holsworthy who had attended church regularly for that year.

Roaks Now Doan

The books will be closed as soon as 100 mares are booked, so if you de sire to breed to that horse you had better book your mare at once. The book is at the Peoples Deposit Bank in Burlington, Ky.

L. A. CONNER, Manager.

—Ernest McGaffey, in St. Paul Globe.

POCKET HIS CASH DRAWER

Abraham Lincoln Carried Postal Funds with Him When Postmaster of Salem, Ill.

Senator Cullom, of Illinois, who was an intimate friend of Ahraham Lin-coln, tells the following story of the early times in Illinois when Lincoln was the postmaster of the town of

Salem:
"The cash drawer of the post office
there," said Senator Cullom, "was Lincoln's vest pocket, but it was a cash

ABRAHAM LINCOLD.

(From a Photograph Taken in 1860.)

drawer that was ascred to him. I remember on one occasion when a post
office inspector came around and made
a careful survey of everything in the
post office. He took account of stock
and figured out just how much Lincoln ought to have in cash belonging
to the government. Some of Lincoln's
friends were afraid that he might be
a little short and went to him with
offers of money if he needed it. He
repiled that he guessed he had it all.
When the inspector figured out the
amount that should be there he went
to Lincoln and told him how much
cash there should-be in the post office.

"Well, I guess I have it, said Lincoln, as he drew forth a hundle of
money.

coln, as he drew forth a bundle of money.

"He counted it out and it tallied to a cent to the amount the inspector had found due the government. Lincoln had kept the government's money separate at all times. Although he carried it around with him, as the best method of caring for it, he had never allowed it to become mixed up with his own money. That incident was characteristic of Lincoln. He was scrupulously honest."

Our English Estates.
The American, as his automobile sped through the lovely English country, said, with a proud and sweeping gesture:
"We Yankees have a right to be proud of these old estates of ours over here."

proud of these old estates of ours of there"
"Estates of yours?" said the haugh-ty Briton. "Estates of yours?"
"Well, what would become of them,"
said the American, "if it wasn't for our girls' money?"—Louisville Courier-

Paterfamilias—Do you think daugher got a love letter?

Materfamilias—No; it only had a ox-yoke in the Possession of wo-cont stamp on it.—Judge.

A LINCOLN ANCEDOTE.

The heroin of the following aneodote about Lincoln is now an old lady, hut she declares that when she recalls the way in which she met the advances of the man who afterward became her hero it rill brings the blush of shame to ber eheek.

"When I was about six years old," she narrates, "Lincoln for a short time served in the 'general store' of the little western town near which was my father's farm. In the window of this shop along with shoes, call-coses, sun-bonnets, toys, candy—all the heterogeneous stock of a country store—was displayed a bead pincushion, which it was the ambitton of my life to own.

which it was the ambition of my me-to own.

"Who has not at some time longed for the unattainable—the thing just out of reach—which, for that very rea-son, perhaps, seems to him the most desirable chiect the world holds? That head pincushion was to me what Great Britain was to Napoleon, but, to my despart, the little ticket pinned to its center read '27 conts—just, 20 cents in excess of my entire bank ac-count!

sald:
"'Perhaps, little girl, you will kiss

me."
I shook my head most emphat-

"I shook my head most emphas-ically.
"'Come now, if you'll let me have
a klas I'l give you anything there is
in the store, he hribed, and, stooping
from his great height, he lifted me to
the counter, where my face was on
a level with his.
"Anything in the store! I glanced
at the desire of my heart and my resolutton waskened.

Modern Home.

The old Edwards home in South Second street, Springfield, Ill., where Abraham Lincoln and Mary Todd were married, which was later converted into St. Agatha's school under the direction-of-the Episcopal church, has been made into one of the most heautiful homes in Springfield.

The old residence has witnessed some very interpsting events during its life. The old-house as it was had many nocks and corners, its old-fashioned stateliness added to the charm of romance and many were the stories told by schoolgitis of how Lincoln was married in this room and dined in another.

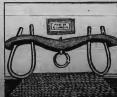

The front parlor, where Lincoln was married has been changed, in that one large massive window replaces the former low French windows, of which there were two. A new front door has been put in, which is a pity, as the old one of heavy oak seemed a part of the house and had swung open to admit some of the most illustrious men and women of the state and country. The big entrance hall and stairway remains the same as when Mary Todd came down the oaken steps to her wedding.

FEBRUARY.

The shortest month of all the year,

FEBRUARY.
The ahoriest month of all the year,
Yet sre its sands are run,
We spell two names the world holds dear:
Lincoln and Washington.

MADE BY LINCOLN WHEN A YOUNG MAN.

SCIENCE AND INDUSTRY.

During the year 1904 Siam exported more than \$12,000,000 worth of rice. Teak wood is second in value.

Teak wood is second in value.

According to a recent report from
Tokio, there are 1,786 wholesale and
285,414 retail tobacco dealers in Ja-

The annual value of the mineral products of Germany is about \$250,000,000. Coal and iron are the most important.

Prof. T. J. J. See, of Washington, has determined the height of the atmosphere by a new system, which consists in noting the time of sunset and that of the complete disappearance of the hiue of the sky.

It is stated that the best managers, pattern designers and dyers in the Lancashire cotton mills, tempted hyigh wages, are going out to india and Japan to take charge of mills there. Great quantities of textile machinery are also being exported.

A pecular process for separating non-magnetic particles like gold from sand has been patented by L. T. Weiss. The metallic particles in mass are electropizated with iron, by a special apparatus, and can then be separated by any magnetic method.

The use of milt of lime for quickly and effectively extinguishing free in coal mines is recommended by inspector Wolfang Kummn at German. The augustion is not new, but has been newly tested with sadisfactory results. The emulsion—which can be used with hand or power pumps—runs into and fills the crevices of the coal or mineral.

WESTERN CANADA'S

to its center read 27 cents —just 20 cents in excess of my entire bank account!

"Week after week, when I went with my mother, to the store to exchange hutter and eggs for sugar and other commodities which the farm did not yield, the coveted prize lay tantalizingly before my eyes. As time went on the hrilliancy of the red ross which adorned its center began to fade; jry-specks here and there sullying the purity of the Illies, but never for a moment did my affections waver. Through whatever vicisitudes it might pass, they still clung round the wreck of that cahion.

"Lincoin's fellow-clerk, a fresh-complexioned young fellow, who with his red cheeks and oiled locks seemed to me a perfect Adonis, and who, if the truth were known, shared my heart with the bead pincushinon, always met me with the stock pleasantry:

"Got a kiss for me to-day, little girl?

"Whereupon I would be seized with a a paroxysm of shyness and take refuge behind my mother's skirts.

"One evening, after the red-cheekgd youth had proffered his request in wain for about the hundredth time, a tail, ungainly young man came forward, and as he handed my mother her mail said:

"Perhaps, little girl; you will kiss"

"Perhaps, little girl; you will kiss"

"Perhaps, little girl; you will kiss"

country	during a	like perlod.

	dold has	been uniform	wlw wood

The yield has been uniformly good every year except 1900, when there appears to have been a slump all along the line. This, however, was more than compensated for in the following year, when the humper crop in wheat, onts and barley put the returns of all previous years completely in the shade and gave an impetus to settlement in the west which has prevailed to the present, as the following table by hushels will show:

Wheat. Oats. Barley.

"Anything in the store! I glanced at the desire of my heart and my resolution weakened.

"Would—would you give me that beed pincushion?' I whispered.

"He smiled and nodded assent.
"I looked at my suitor—oh, but he was ugly—and grand (but I didn't know that then). No, I shook my head, the price was too high. Them, as I glanced at my holoming Adonis, who stood beside—him, it occurred to me that I night strike a bargain more to my taste.

"Well," I drew a long breath and took my courage in both hands. "If you'l give that cushion, I'll—I'll kiss the pretty one for it!"—N. Y. Times.

WHERE LINCOLIN MARRIED.

Old House at Springfield Has Been Remodeled Into a Beautiful Modern Home.

The old Edwards home in South Second street, Springfield, Ill., where Ahraham Lincoln and Mary Todd were marriled, which was later converted into St. Agatha's school under the direction—of the Episcopal church, has been made into one of the most beautiful thomes in Springfield. The old residence has witnessed some very intergeting events during its life. The old house as it was had many nooks and corners, its old-fash-ioned stateliness added to the charm of romance and many were the stories to tool by the country, where mixed form the following year, when the humper crop in wheat, east and barley put the returns of all previous years completely in the shade and gave an impetus to settlement in the west which has prevailed to the twenth which may prevailed to the when which has prevailed to the wide which has prevailed to the world. New sections of the country have been placed the "forward movement" in the agri-during the lines of the country have been placed under tribute to the plow and harrow, and they grown, and along the interest may be constituted to the country, where mixed to the country, where mixed the previous gera completely in the shade and gave an impetus to settlement in the west which has prevailed to the twenth which has prevailed to the harm to the country and prevailed to the charm of the country has been made into one

center of the country, where mixed farming prevails.

The future of the Canadian West is assured, and for years to come it is bound to be the land of promise to the agriculturist of every nation and of every clime, and the land of opportunity to every settler within its hounds.

WINTER WEAKNESS

Dr. Williams' Pink Pills the Tonis
That Most People Need for
Blood and Nerves.

In winter the air of the Jose rooms in
which we spend so much of the ting
does not furnish enough oxygen to rise
lungs to burn ont the foul master in the
blood. In the cold season we do not exercise as much and the skin and kidneys do
not throw off the waste matter as freely
as usual. The system becomes overloaded
with poisonous matter, and to feeble
to throw it off. Relief can be had only
through the use of a remedy that will
promptly and thoroughly purify and
strengthen the blood, and the one best
adapted for this purpose is the great
hlood tonic known as Dr. Williams' Pink
Pills.

PUTNAM FADELESS DYES

which contained only phrases connected, with mercantile transactions, did sold enable the message to be short-cred; the only code word, in fact, which could be used was that for £50 -quarative"—and the message thus bead: "Inform X. Y wife seriously ill, ergostly requires inattive." In this form the message might early have been misunderstood, there being nothing therein to suggest that the bank's code was being used. In order to prevent any misinterpretation, the hank aftered the amount to £55, used to the same aftered the amount to £55 used was being used. In other than its literal sense. Whra. Y, received £55, and, no doubt, she still attributes the additional £5 to the good nature of her hushand:

STIGAR IS STRENGTH-GIVING

The Vigor of Modern Women Is At-tributed in Large Measure to Use of Sweets.

Use of Sweets.

Various reasons have een assigned for the increase in stature and strength of the modern maiden, who has most certainly grown ancommonly tail and groportionately muscular during the that few years. It cannot be that outdom: sports, gymnastic exercises and spr on have stretched her out and made her as strong as she is, because her lighters have had precisely the same advantage and they have not developed off the same rate. The secret lies in the fact that of recent years girls have become far greater consumers of sweet-secret than were their mothers and grandmothers.

scents than were their mothers and cyffadenothers.

— Time was when we—should—never-bave dreamed of having sweets on our funcheon, dinner and tea tables. Now it would be quite extraordinary were our not to offer these dainties. And, what is more, we are not metely confinit to eat aweetments at our meals, but we consume them at all times and thall places between meals. It was secontly said that boxes of bohous slay a conspleuous part in modern

chip.

The great Russian wrestler who is aborety to enter again into contest with the Turk, Madrall, tells us that the subre sweet stuff one eats the stronger off grows. Sugar is the secret of strength, he declares.

SOME RECENT INVENTIONS

Many Remarkable Contrivances with Queer Names and for Va-rious Uses.

Among remarkable recent inventions are the pneumositic the topodict, the felemeter, the telephoneears and the thermophile. The pneumositic is an automobile especially designed for use off tee, but which can just as easily be used on land. It moves by a propeller wheel run by a two and three-grarters horsepower electric motor, the propeller turning in the air and moving the carriage at a speed of 20 miles an hour. The topodict is a dimbination of a pantograph and telescope, by means of which any person can make a drawing in correct perspective of any scene before him, even if he knows nothing whatever of drawing. By means of the telemeter the excit distance of far-away objects can be measured and recorded. The "telephoneears" is an apparatus by which a ship is automatically warned of submarine dangers. By the aid of the thermophile it is possible to furnish heat by means of a fine electric wire which can be woren into rugs, blankets or wellous, and aif that is retard to the state of the size of the s meat by means or a line electric wire which can be woven into rugs, blan-kets or cushions, and all that is re-quired is a very small electric battery. The inventor claims for it that it will do away with the necessity of ever having fres in even the coldest weather.

And So Forth.

"Having discovered a projectile that will pierce any armor," said the seeker for information, "what will the next step be?"

"To find an armor that no projectile will pierce," answered the naval ex-

ert.
"And then?"
"We must find a projectile that will
lerce any armor."—Washington Star.

Gouldn't Stand for That.

Mr. Mulcahy, who happened to be passing a grocery store, saw a sign in the window which said. "Home Growa-Fotatoes."

"That bates me!" he said. "I don't zoolnd givin' a clane, dacent pig th' sun of me pa-ar-lors, but I niver raise Fraties in me house, b' Jarge! —Chicago Tribune.

Move to Shorten Working Hours Meets with Vigorous Protest from Employers.

from Employers.

The German Society for Social Reform has petitioned the federal legislature of Germany to pass an act to regulate the working time of females over 16 years of age who work in factories or industrial establishments. The petition asks:
"That the present maximum day of 11 hours be reduced to ten hours for such employes, and to nine hours on days preceding Sundays or holidays.
"That where the authorities permit overtime, the work shall not exceed 12 hours a day, and on Saturdays not over nine hours, and should stop by 7:30 p. m."

mit overtime, the work snail not exceed 12 hours a day, and on Saturdays not over nine hours, and should stop by 7:30 p. m.

"That the dinner pause at noon be extended to one and a half hours, the shortening of this pause to be allowed by the public authorities only after they have consulted the female employes upon the subject.

"That women be not allowed to work in factories or similar occupations until six weeks after confinement, nor during the fertinight following the six weeks, unless a physician's certificate permits it.

This petition has met with almost unanimous opposition from the employers. Their jobjection to this reform measure is based on examplea reasons. They say that many branches of manufacturing are limited to a short season in each year, during which overtime work is essential so as to fill orders timely. They allege that through this reduction of the working hours German manufacturing, especially that for the export trade, would be seriously injured, the price of goods made higher, and, in many cases, owing to inability to fill orders promptly, trade would diminish, and thereby the condition of the operatives he come worse instead of being hettered, as the proposed change of the law includes.

PHODODENDRONS WASTED.

Native Woods Are Devastated to Plant the Millionaire's

There is one plant which everybody knows and appreciates, vie., rhododendron. Small wonder that every million aire wants to own a hill side and covert with rhododendrons, for they are the most gorgeous flowering hardy scrubs the world has ever known, says the Garden Magazine. They have no fragrance or sentiment, as a rose has; the individual flowers are only one inch and a hart across, and the clusters may contain less than a dozan biossoms, but when you get a solid hank five feet high and fifteen feet across, of rhododendrons. However, the world has the feet high and fifteen feet across, of rhododendron. Howers set off by their thick, waxy, justrous, dark green, immortal-looking folingse, it needs only one look to understand why people plant them in such quantilles—by the carload, too. And one of the cruelest things a man can do is to drag up rhododendrons, azaless or laurel from the woods transplant them with no more exact than a deciduous shrub receives, put them in full sunlight and watch them sicken and die. All these broad-leaved evergreens are slow growers, shade lovers, haters of augmant moisture, extremely sensitive to drought and sure to suffer if they are exposed to full sunshine during sudden warm spells in winter.

Moliere Under Nemesis.

warm spells in winter.

Moliere Under Nemesis,
Henceforth even the commemoration
tablet cannot be accepted as conclusive
evidence of the fact which it records.
The discovery has just been made,
says the London Globe, that there are
two houses in Parls marked with tabelets relating that "in this beuse Moliere was born."
Still worse, they
introduce confusion as to the date of
that event, one of them stating it to
have taken place in 1620 and the other
in 1622. One of these houses is in the
Rue du Pont Neuf and the other at a
corner-of the Rues-St. Honore and
sauval. Moliere scems to have had
suncernof the Rues-St. Honore and
suncernof on since two houses in the
Rue Richelleu claimed to have been
that in which he died, and the dispute
was only settled siter difficult negotiation. There is a dramatic nemesis
about the Idea of the father of French
comedy himself hecoming a comedy of
errors.

Hay-Loft in Automobile Barn.

A Philadelphian who has a country house near his home city recently acquired an automobile. For its proper accommodation he built a barn near his house. When the structure was completed a party of friends invited to inspect it noticed that the harn was a two-story building. They wanted to know what he intended to keep in the second story. The owner's explanation didn't explain, but his wife revealed the reason for the second story was intended for a hay loft and it was not until the thing was built that either-Henry or I realized that an automobile doesn't eat hay."

HUMOR IN A CABLE CODE. GERMAN WOMEN WORKERS. MEANING OF SUN'S ECLIPSE

soribe Game and Peculiarities of the Phenomenon.

In these days of popular astronomy for the million, it seems scarcely necessary to describe at length what a solar eclipse means. Suffice it to say that it is a temporary bianteling of the sun hy the moon coming between it and the earth. Both the sun and the moon are of the same apparent size, but at times the moon, in her orbit, seems to be decidedly the larger, and if then the moon passes exactly between the earth and the sun a total solar eclipse ensues and is visible as such at those portions of the earth within the shadow-track, and as a partial eclipse along a broad strip on either side of this.

The shadow thrown on a hlank wail by any globular body held between a lighted lamp and the wall is a simple and homely illustration of an eclipse. The shadow will be seen to be much darker in the middle than at the edges, and the former is known selentificably as the umbra, while the lesser haze is termed the penumbra. If the observer now so stations himself that his eye views the globular body from the center of the umbra, the lamp is seen to be entirely hidden, but when viewed from the penumbra part of the lamp is visible. Such is precisely what happened in a solar cellipse. For two or three minutes the moon is cast on only a small portion of the distance the three planets are from one another the shadow of the moon is cast on only a small portion of the earth's surface. Where the cipse is total, or almost ac, the light enjoyed at the greatest phase, or middle of the cellpse, will be similar to that of a bright monlit night.

THEIR WONDERFUL BARGAIN

It Was a Handsome Auto, But the Cost Was Augumented by Sundry Mishaps.

Mrs. Gunbusta came rushing into the

Mrs. Gunbusta came rushing into the room breathnessy, relates the New York. Heraid.

Throwing her fur auto coat carelessly on a divan and laying her grim googles on the Acotican, the gasped:

"Oh, Fred, I bought a handsome machine this morning for only \$475."

"Buily for you!" shouted Gunbusta, Joyously, laying down the Motor Magisaine he had been busily engaged in reading when his wife entered.

"But," he stammered, "in my anxiety to hurry home in it and tell you of my wonderful bargain! I was horribly arrested several times for exceeding the speed limit and it cost me \$300 for fines and"—

FRENCH WAITER'S THEORY

ways Eating the Same Kind of Bread Cause of Internal Derangements.

have a theory about dyspepsia as

"I have a theory about dyspepsia and indigestion," said the head waiter in a French restaurant, that I think ought to be considered by sufferers from stomach complaints. I helieve that much of this class of trouble is due to people's persistency in eating the same kind of bread for weeks, months and sometimes years. Without a change.

"Now, nobody does that with any other kind of food; meat, for instance, or vegetables, or fruit or other dessert. Yet the average man will leat the same kind of hread twice or even three times a day and think himself wise. The stomach, and the same himself of the same himself with the word with the word

"there are many varieties of bread-corn, rye, whole wheat graham, Bos-ton brown, aerated, harley, Vienna and French bread. All of these differ in the making and the material, and if the av-erage man would only take a turn at some of them for a change from his reg-ular loaf he would find himself health-icr and happler."

A Healing Gospel,

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga, says of Electric Bitters: "It's a God-send to mankind. It cured me of lame book, stiff joints, and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in 50 minutes and feel like walking three more. 'It's made a new man of me.'' Greatest remedy for weakness and all Stomach, Liver and Kilday complaints. Sold under guarantee at all drug stores. Price 50c.

Iro In her seat. Where should she item for counsel? She lifted her eyes to 4 he stars and wondered whether, after all, the Hebrew God was the true (God. She found herself questioning whether ite had spoken as Moses believed. What message would the stars speak to the priests of Egypt? What snewer would they make to the records which Joseph had left? Fool that she had been. Why had she allowed herself to be so completely led from the faith of her fathers? She wondered now how she could have yielded so casily to the influence of her adopted son, whose early years with his own people had so inhred into his heing the fisth and hope of the Hehrew people. "This is but the result to be expected in first yielding to his early whims and aiding and encouraging him in his elforts for his people;" she exclaimed, betuinnily. "But enough! It has goos far enough." And then obeying a sudden inspiration, she exclaimed. "That is what I will do. I will return and seek the counsel and aid of the high priest, and he ready with argument and pleading when Moses shall return the shall not in foily and the unreasoning impulses of religious fervor week his brilliant prospects in life, and his hope of a kingdom."

Her unind thus made up, she rapped sharply upon the metal work of her carriage, to which her maids in waiting and her attendants responded, and soon, in wondering silence, they had turned the equipages about and were again speeding towards the royal barge at the river landing which but a few hours before they had so hastily left.

And in the meantime, what of Moses? The late afternoon had found.

BITS AND BREVITIES.

The dog known as a Manchester black-and-tan is, the latest London canine fashion. Good specimens are quoted at \$500.

Living under the same roof at Ko-komo, Ind., there are a 16-year-old mother, a 32-year-old great-great-grandmother. According to La Tribuna di Roma, one of the gaiters worn by Garibaldi when he was wounded in the battle of Aspromonte August 28, 1862, has been presented to the mayor of Rome.

The area devoted to corn in Kansaa in 1906 was 6,789,755 acres, an increase over that of 1904 of 305,597 scres, or 4.7 per Cent. The average yield to the acre for the entire state was 28 bushels.

Referring to the transition stage of the Church Extension Society of the Methodist Episcopai church, in San Francisco, the other day: "We are to see the future history of the world through the Golden Gate."

Baseball has found a foothold in the City of Mexico, and is to gain further interest from the opening of grounds devoted to this sport at Chapullepec. There is the famous castle where President Diaz is at home, as well as the military scademy of Mexico. On Dolidays and Sundays very large crowds resort thither to hear the band concerts. Finance Minister Limantour is ready to give a concession on grounds there for 20 years, provided \$20.000 is expended in improvements.

A Denver girl sprained her ankle at a football game. Gee, she must have a deep voice!

Palm—Do men usually give according to their means?

Pepper—No; according to their meanners.

Orange—Has he an interest in the business?

Lemon—Only a slight curiosity, I believe.

Flum—Why do they call an auto "she?"
Prunes—It's so hard to manage, and so expensive.

Emmeline—I pity the man that mar-rics you.

Eleanor—I'd do the same for the man that marries you, only I know there'll never be any such man.

She—I'll learn you to find fault with my temper. When we married you took me for better or worse. He—Yes, Martha, but did I hope there would have been something like an-average.

"You say your wife is troubled with insomnia? Tell her to eat lots of enlons; they induce sleep."
"But, doctor, I wish to sleep also."—Houston Post.

31 Boxes of Gold

300 Boxes of Greenbacks

For the most words made up from these letters

Y - I - O - Grape - Nuts

331 people will earn these prizes.

Around the fireside or about the well-lighted family reading table during the winter evenings the children and grown-ups can play with their wits and see how many words can be made.

>20 people making the greatest number of words will each receive a little box containing a \$10.00 gold piece. 10 people will each win one box containing a \$5.00 gold piece.

taining a \$5.00 gold plece.

300 people will each win a box containing \$4.00 in paper money and one person who makes the highest number of words over all contestants will receive a box containing \$100.00 in gold.

It is really a most fascianting hit of fun to take up the list evening after evening and see how many words can be added.

A few rules are necessary for absolute fair play.

Any word authorized by Webster's intitionary will be counted, but no name of person. Both the singular and plural can he used, as for instance "grape" and "grape."

The letters in "Y-I-O-Grape-Nuts" ay be repeated in the same word. Geographical names authorized by Webster will be counted.

Arrange the words in alphahetical classes, all those beginning with A together and those beginning with E to some under E, etc.

classes, all those beginning with A tosether and those beginning with B to
some under E, etc.

When you are writing down the
words leave some spaces, in the A, E, and
ther columns to fill in later as new
words some to you, for they will spring
into mind every evening.

It is almost certain that some contestmins will the with others. In such cases
prize identical in value and character
with that offered in that class shall be
awarded to each. Each one will be rejusted to send with the list of words
plusted to send with the list of words
plusted to send with the list of words
plusted to send with the interest
plusted to send with the contestprize letters are notto contain postry, or
ancy flourishes, but simple, truthrul
statements of fact. For illustration: A
person may have experienced some incipent or chronic alis traceashe to unwise
selection of food that failed to give the
body and brain the energy, health and
opwer desired. Seaking better conditions
and cream used in juits the meat, fried
opwer desired. Seaking better conditions

point of the property, sucky messes of halfcooked onts or wheat and cuts out the
coffee. Try, say, for hreakfast, a hit of
fruit, a class of Peetum Food Coffee. Some

amateur says; "A man would faint away on that," but my dear friend we will put dollars to your pennies that the noon hour will find a man on our breakfast huskler and with a stronger heart-beat and clearer working hrain than he ever had on the old diet.

give the names by private letter.

There is plenty of time to get personal experience with Grape-Nuts and write a sensible, truthul letter to be sent in with the list of words, as the contest does not close until April 30th, 1908. So start in as soon as you like to huilding words, and start in using Grape-Nuts. Cut this statement out and keep the letters Y1-O-Grape-Nuts before you and when you write your letter you will have some reason to write on the subject "Why I Owe Grape-Nuts."

December 231 persons will win tripse.

one to eat a house."
"Dere's where youse is wrong,
rra'am," replied Truthful Thomas.
"Git bizzy an' cook me a porterhouse,
an' I'll show youse."—Chicago Daily
Newa.

A Brief Tragedy.
The knock of the posimal
It gives you a thrill.
You look for a check
And he hands you a bill.
-Washington Star.

FAIR WARNING

Mr. Grumpy—Can you whistle' Applicant—Sure! I kin whistle'! For Je Shade of de Old Apple Trees Mr. Grumpy—All right, you may be as much as you like, but if y histle under this roof you'll red."—Chicago News.

Some-Tall Stories.
There was an old felliw named Hughes
Who shood six feet two in his shughes;
He jectured a bit
And made quite a bit
With the jokes that he told on the Jughes
-Houston Post.

A Thoughtful Hostess.
Hostess (to male wallflower)—Per mit me to introduce you to a charming dancer, Mr. Westend.
Mr. Westend—Au, thanks, no;

Mr. Westend—Au, thanks, no; I nevah dance.
"Would you like to join the card party in the drawing room?"
"Au, thanks, no; I do not play."
"Well, supper will be ready soon."—
N. Y. Weekly.

Her Interpretation.

"Miss Pepprey," said Mr. Borem, "I don't think May Knox is a very good friend of yours."

"No." replied Miss Pepprey, with an unconcealed yawn.

"No. She told me if I called on you I'd only he wasting my time."

"Ah, i see. She doesn't-consider my-time worth anything."—Philadelphia Press.

Used to Knocks.

"At any rate," remarked the patriotic citizen, "when a cadet out of the American naval academy he can't be beaten."

"I don't doubt it," chuckled the man with the mustard whiskers. "He is beaten so much while he isn there I guess he is hardened enough to stand anything,"—Chicago News.

Useful.

"Don't you this very statesman abould cultivate a manner of great dignity."

"A manner of great dignity," answered Senator Sorghum, "is an invaluable adjunct. It prevents people from asking bothersome questions, for fear of seeming impertinent.—Washington Star.

His Prospects.

Angelina—What did you tell papa

Angelina—what day you to it pays
about your prospects?
Edwin—I said I had expectations
from my uncle.
Angelina—Why, Edwin, you told me
you had no relatives at all.

Oh, yes; but I'm going to watch this evening.—Tit

A NATURAL CONCLUSION

Noolywed—It must be his ghost.—Chicago Journal.

Chicago Journal.

Thiking No Chances.

"Come straight home from school," said Roh's aunt. "Your father is to be married to-night and i want to get you ready."

"Sure I will," said eight-year-old Robin, promptly. "I lost out on the cher wedding, and it-isn't likely that I'il miss this one too."—Judge.

Might Have Been Expected.
"How did you girls come out on your charity Bazar?"
"Lost money."
"How was that?"
"Why, each girl was to furnish comething for sale that she herself itsel made, and what each girl was to furnish was to be kept a secret from the others until the night of the bazar."

Explained.

"Yes," said the first man, "she's a magnificent woman. She's the late Mr. Bibher's—"
"Ahl" interrupted the other, "a widow, sh!"

ow, eh?"
"Yes; grass widow."
"But I understood you to say the
"Tate' Mr. Bibber."
"Yes, he was always late getting
home. That's why she left him."—
Philadelphia Press.

Pop's Specialty,
He—I must be going.
She—but what's your hurry?
"I understand your father wears
very heavy boots."
"That is so; but you are the second
caller I have had this evening, and you
know father is not strong enough to
eject two men in one night."—Yonkers
Streeman.

His Only Chance.

She—Mrs. Vinks tells me that her husband has got into the stupid hahit of continally talking to himself. It wexes her greatly.

He—Oh, hand it, she shouldn't be too hard on the poor beggar. It's only natural he should want to hear something compilmentary of himself sometimes.

Added the Ten Years.
Miss Elderleigh—Just think, Mr
Braix, I am within ten years of 35!
Mr. Braix—I Can't believe it.
Miss Elderleigh—That's sweet of you—but it's true.
Mr. Braix—Well, if anybody else had
old me you were 45 I'd have said they
were five years out, anyhow.—Tit Bita.

A Variable CHmate.

The weather man makes sad my lot And much disturbs my peace of mind. Just as I'm used to what we've got He brings along another kited.

—Washington Biar.

Clara—It takes all kinds of people o make the world. Clarence—Not for me it doesn't. It nly takes one.—Cincinnati Enquirer.

And Tethered, Tool
Mrs. Ylpps—What a vile man you:
friend Flipps is. Why, he's a free

Worse.

Worsa.

"I think that the people who have taken this affair in hand have made you sincerely repent."

"Repenti" exclaimed the man who had been involved in questionable baance. "It's worse than that. "they nade me return some of the money!"

- Washington Star.

That's Why.
"You say you conceal nothing from our wife?"

our wife?"
"Absolutely nothing."
"And why do you not?"
"it is evident that you do not knowny wife."—Houston Post.

Realism.

Why is the cow purple in the pic-

ure?

Because the girl's parasol is red.
The cow, in fact, is purple with rage.
This is precisely what is meant by ealism, in art.—Puck.

realism, in art.—Puck.

You Bet He Would.

Mrs. Kidlets—Ohl John, why did you stay out so late? The baby has been crying for three hours without stopping.

Mr. Kidlets—Why didn't you tell him I wasn't a' bome? He'd bave waited.—Cleveland Leader.

Danish Explorer Will Try to Make a Reliable Map of Outlines of the Island.

What George Ade Thought About a Report of His Coming

Marriage.

The report was current a short time ago, that George Ade, whose many books of wise fahles adorn the Harper list, and whose side-splitting comments on matrimony have become current aphorism, had himself been caught in the tolis, and was to wed Miss Dorothy Tennant, the actress who has made such a hit in Mr. Ade's play. The College Widow." A recent New York daily publishes an amusing interview with the fablist and playwright anent tols same bit of gossip. "Are you going to marry Miss Tennant? asked the hopeful reporter, respectfully." Not that I know of, said the playwright and I think I would have the first tip." "Why not?" pursued the Intrepid interviewer.

now."

"'Are'there any other reasons?' persisted the pertinacious pencil pusher,
when the wild uproarous laughter had
subsided.

subsided.
"Yes, said Mr. Ade, gravely, 'I may
be a farmer, but no one can accuse
me of being a husbandman.""
Moral—It's a smooth guy that
knows when to sidestep."

Growing Lemons in Kantucky.

S. H. McMakia, one of the best known residents of Shelby county, is convinced that lemons can be raised in Kentucky as he has grown them himself. One specimen measures thirteninches in circumference. Mr. McMakin planted as ills sent him hy a friend in New York and obtained several lemons of great size. They require too much attention to be grown in Kentucky to any extent, but a few can he raised without difficulty.—Louisville Post.

Morning Goods.
"Do you sell mourning goods?" asked
the woman entering the department

"Yes, madam," replied the politic foor-walker; "you'll find the breakfast-food counter in the basement, two aisless to the right."—Yonkers Statesman.

Fell Over.

Astonished Friend-What is the matter, George-Been in a fight or attacked by a bull-dog?
George-Neither, thonk you. I have just discovered a short out from the top of that elift to this brach.—Judge.

Hons: J. C. Byland, Bert Simmons and Lewis Arnett have voted on two or three occasions to unseat Democratic members of the lower house in the General Assembly, and in every instance they have done right, at least that is the way of thinking about the RECONDER'S place of business.

They're having roller skating carniyals over at Providence. Webster county, and a lot of old guys attempted to do stunts for prizes offered. One old man is suffering with concussion of the brain, and a woman of uncertain age broke a leg. The rink is crowded every night, and more accidents are looked for all the time.

The legislature has concluded to take a hand in the effort to straighten out Breathitt county troubles, and will send a committee to Jackson in search of information; of which it is in possession of as much now as it will be when its committee returns. A legislature can not accomplish much good by dabbling in local troubles.

Charles C. Moore, the famous activities editor died at his home in Fayette county on the 7th inst. He was finely educated, and a forceful writer. He began his public career as a minister of the Christian church, and was attracting much attention as a minister of the gospel, when he startled his congregation by resigning his charge because of his disbelief of the Bible.

Cynthiana Democrat: The legislature should enact a law that every application for a pardon, or a parole, before the application can be considered, be published in a newspaper in the county where the crime was committed and the names of all the signers of the petition be published. A community has the right to know who the people are who would defeat the ends of justice by bringing back from the penitentiary or releasing from Jail or fines men who have violated the law. Cynthiana Democrat: The leg-

Dr. Terhune, of Passaic, New Jersey, who claimed and would argue on the subject whenever he had an opportunity, that persons who had died of what is called starvation were really the victims of fright, and had simply died because they were afraid they would and not from lack of food, died a few days ago after an illness of a menth of cancer of the stomach, during which time nothing cutered his stomach save water. A great many doctors visited him during his illness, and say that his death resulted from starvation.

from starvation.

It is believed that Judge Lassing will be Judge Paynter's successor on the appellate "bench, and that Attorney B. F. Menefee, of Crittcaden, Grant county, will be appointed by Gov. Beckham to succeed Judge Lassing, although there is one or more lawers in each county in the fifteenth Judicial district who has an ambition to serve the people as circuit judge, and when the time comes to nominate a Democratic candidate to elect to the office of circuit judge, the probability is there will be quite a number of entries. But, in the event the present program goes through alright, Judge Menefee will have a considerable advantage over any of the other candidates.

the time comes to nominate a Democratic candidate to elect to the office of circuit judge, the office of circuit judge, the probability is there will be quite a number of entries. But, in the event the present program goes through alright, Judge Meneice will have a considerable advantage over any of the other candidates.

It is annowneed that some time this spring the government will weigh the mails west of the Missourt river for the purpose of fixing the compensation the railroads will be paid for four years on a basis of what is carried during the weighing period. This plan makes it easy to pad the mails during the weighing period. It has been charged time

the weighing period. This plan makes it easy to pad the carried during the weighing period. It has been charged time

the weighing period. This plan makes it easy to pad the carried during the weighing period. It has been charged time

They will also raise more twins than young owes will and the lambs will be larger when they are born.

L. W. Cobb, editor of the Independent, when leaving the office Tuesday evening of last week slipped on the last step of the stars and fell head-long on to enough the complete of the stone step and pavement. His lead and body was badly bruised ond medical aid was summoned to dress the injuries. He is suff-plan makes it easy to pad the complete of the sufficiency of the suf

BOONE CO., RECORDER weighing season the mails have been loaded down with public documents sent out under congressional frank and shipped from point to point, weighed and reweighed time and again during the weighing season. That the documents sent out under congressional frank and shipped from point to point, weighed and reweighed time and again during the weighing season. That the payments made to railroads for transporting the mails are resistent.

Three weeks ago, Mrs. James Mulholland, Sr., of Scott county, fell through a trap door and broke her leg. A week later her son, Dan, fell and broke his leg, and last week James, Jr., fell from a hay loft and broke a leg.

Hous, J. C. Byland, Bert Simmons and Lewis Arnett have voted on two or three occasions to mescat Democratic members of the cars, and in many cases exveceds it.

Short Sheep Clips.

Plenty of good clover hay is the est sheep feed in the winter. Salt should be kept before the flock at all seasons of the year.

When making a sheep sheen not have cracks for ventilators

not have cracks for ventilators.

The sheep market is estrong and is bound to be for years to come.

Be gentle and quiet with the flock and good results will follow.

No breed of sheep is so hardy that you can starve profits from it. Good sheep pay the best under all circumstances. Raise them and see

see.
Superior principles and knowledge bring forth superior flocks always.
Give the sheep fresh water. It is not humane to make them eat

snow.

No other animal gives so much pleasure or profit to man as the sheep.

The careful shepherd who feeds well will always have the best of

success.

If you are breeding right, the new generation will be better than the dams.

the dams.

It is a grave mistake to think that raising pure-breds is a rich man's game.

The good pure-bred comes by intelligent breeding and feeding, not by accident, as some seem to imagine.

ine.

No other animal makes as large and profitable growth as does a lamb when under the care of a good shepherd.

Visiting the live-stock shows is a good way to decide what breed that you think you would like best to lound a flock with.

Bran and out, mixed, could be the country of the cou

ou think you would ound a flock with. Bran and oats mixed equally by

Jound a flock with.

Bran and oats mixed equally by weight make a good grain ration for the flock when the grass cannot be gotten by the sheep.

You cannot go far wrong on any breed of sheep that has proven itself useful and has a general good reputation in all sections.

Water at all times in abundance helps to keep the sheep's system in good condition and that is the way it always should be kept.

Eastern farms are now being stocked with sheep as rapidly as the landlords can find where' good breeding ewes are for sale.

Daily exercise is necessary to the well doing of the flock all through the winter. Drive them a way if they will not go themselves.

A right beginning is the first good step toward success. Have a definite aim to work to and then go after it with all your might.

Make friends of your sheep, not merely dumb beasts. A handful for oats occasionally will help the mat ter wonderfully and it pays, too.

Most breeders contend that a fully-matured ram will give the best results in the lamb crop and experiments prove that such is true.

Market-topping lambs are what buyers are tumbling over each other for. More tarmers should raise the best that it is possible for them to.

The size and quality of the lamb crop will depend largely upon the care and feed that have been given the ewes during the period of preg-

sol de diste of nickeacks, good enough for any one. The family and three californ aged repeated the pattern aged repeated the pattern and three californ aged repeated the statistic of the pattern aged repeated the statistic of the pattern aged repeated to be re

THROUGH THE WILDS OF KENTUCKY IN 1863,

After the Remains of a Warsaw Boy, one of Gen. Morgan's Men wow was killed in Battle in the Mountains of Tenn.

To the Editor of the Recorder:

After caring for our tired team, to be sure that they were the ones that we started with, I gave them a surprise in the way of a thorough scrubbing; then by frawing upon our commissary for our usual allowance of coffee and other necessaries, and by splicing with our kindly host and hostess, we had an old fashioned mountain supper of hog, hominy, cornbread and sorghum molasses, interspersed by our side dishes of nicknacks, good enough for any one. The family consisted of five father, mather and three caildren, aged respectively 7, 10, 15, the oldest being a boy.

Frank was kept busy with the soldier boys while I admired the courage and ambition of that faithful old mill and the patience of the people who had to go hungry while waiting for it to prepare the material for their bread. All hands were kept busy day and night. This seemed to be necessary possible in order to get a day's work out of that screaking old fabric, worrying and struggling for existence and usefulness. Finding a leisure moment the young man asked, "did yous come from the north?" I an swered, "yes," "Why do yous come down here on critter backs to fight we'ens fur? We'ens

RAW FURS WANTED.—Extremely high piness for prime skins. Herbert Kirkpatrick, Burlington.

Good fresh beef and other meats at Frank Rouse's, Burlington.

This is St. Valentine's day look out for handsome pictures.

For Sale—Two fresh cows. Apply to G. H. Walton, Erlanger, Ky.

The weather last week took all the base ball feeling out of the boys.

Again has February proven that it is to be regarded as the coldest winter month.

For Sale—9 shoats that will weigh about 100 each. Apply to R. O. Beemon, Limaburg.

This is the 14th day of February, and how much more winter would you want in the same length of time.

The master commissioner will do a little real estate business again at the court house door on next county court day.

There are more vacant residences in Burlington now than there has been at anyother one time in the last twenty years.

The local fur dealer made a swing out in the country one day last week, and found the trappers with but few furs on hand.

The snow remained on several days but was of no value for sleigh-ing. It was too dry to pack and became smooth and slick.

Leslie McMullen, keeper of the rst toll-gate out on the Florence ike, took the measles last week, nd was quite a sick man for sevpike, too and was eral days

The first crop of the season—the ice crop has been a success, and there is no more anxiety in regard to it. Houses all filled with a tolerably good quality.

Tommie Hensley, of Plattaburg and Willie Ryle, of Burlington, who are attending commercial school in Cincinnati, were at home, last Sat-urday and Sunday.

So far this month the weather has not been such that the farmer could push his work. About all that he could do has been to feed his stock and whoop-up the fire.

The snow that covered the ground during the recent severe cold weather was a great protection to the small grain, which has been having a pretty hard time of it this winter.

The young people from far and near assembled at the pleasant home of Mr. and Mrs. John Davis, three miles out on the East. Bend road, last Thursday night, where they enjoyed a delightful party.

Mr. A. Vaughn, of Canon City, Colorado, is visiting his relatives in Gunpowder neighborhood. Mr. Vaughn is operating a fruit ranch in his adopted State. He had not been in Burlington for 17 years previous to last Friday.

Circuit Clerk J. A. Duncan has been notified of the appointment of William Carnes, of Williamstown, as special judge to try the actions of Dempsey vs Black and Black vs Dempsey, pending in the Boone circuit court. Judge Carnes has fixed the 1st day of the April term to try the cvse.

Some heavy ice in the river last week.

If your ice house is not full it syour fault.

Good fresh beef and other meats

Frightfully Barned.

Chas. W. Moore, a machinist, of Ford City, Pai, has his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual result: "a quick and perfect cure." Createst healer on earth for Burns, Wounds, Sores, Excema and Piles. 25 cents at all drug stores.

The Eclipse.

Terra, Liuna and Sol had a beaut iful night, last Thursday, for giving their big show. Not a cloud was there anywhere in sight to obscure the view whon Liuna dodged behind Terra to get out of sight of Sol. The great game of hide and seek lasted quite a good while, and the person who was willing to pull loose from a good, warm couch, witnessed it for an hour or more if so desiring. desiring.

Warmest January Since 1890.

The average temperature for last month, 35, was higher than for any January since 1890, when the mean temperature was 37, according to the monthly meteorological report of the Indianapolis weather bureau-covering a period of thirty-five years. The next highest mean temperature for January, since 1890 was 34, in 1898 and 1894. The mean January temperature for the last thirty-five years was 28. The highest temperature last month was 70, on the 20th; the lowest was 8, on the 9th; the greatest daily range of temperature was 30, on the 23d, and the least daily range of temperature was 5 degrees, on the 12th. Warmest January Since 1890

'Round and 'Round they Go.

'Round and 'Round they Go.

No sooner does the farmer dispose of one crop of tobacco than he begins preparation for the next one. Already he is picking out a suitable place to burn a plant bed and he has figured to the last yard just how much canvass it is going to take to cover that bed. He has decided what fields the plants are to be set in and every detail connected with the growth of the crop has been worked out with exactness. Thus man moves always in a circle. From a given point in the circumlerence of that circle he starts on his work. When that work is finished he firids himself back again at the starting point ready to begin all over again. Is it any wonder that mankind some times groans under the monotony of the endless round of tasks—Ex.

John C. Mitchell Passes Away.

town, as special judge to try the actions of Dempsey vs Black and Black as Dempsey, pending in the Black with the largest of the April term to try the cose.

John C. Mitchell Passes Away.

In the death of John C. Mitchell has a considerable of the Blackfeet Indian Reservation, in Montana. This field contains the Blackfeet Indian Reservation, in Montana. This field contains of his world's goods. Mr. Mitchell has a commisted, 400,000 pounds of wire being required for the work. There are said to be 60000 cattle wintering in this pasture, half of which belong to the Indians and the balance to stockmen, who are paying for the privilege of pasturage.

Dudley Blyth was spending last Sunday evening with a young lady father hastened to the Phone, expecting to be informed of the young lady father hastened to the Phone, expecting to be informed of the sudden death of some friend, or told that a neighbor's house was on fire; but not a. Instead, Hubert Bachelor, who lives away down on the raging Gunpowder, said, "tell bounders and the polarity of the sudden death of some fiend," An investigation showed that the rig was missing, and Mr. Blythtelephoned to Mr. Backelor to hold it untill morning when he would ome after it. It was fortunate for the young man that Mr. Bachelor keeping the country of the propose of these conducted by R. Sackelor to hold it untill morning when he would ome after it. It was fortunate for the young man that Mr. Bachelor keeping the country of the propose of the propose

He Got the Dollar.

The Hazel Green Herald tells of a novel wedding that was celebrated in that section of the mountains by the Rev. Isaac Murphy. A couple on matrimony bent walked from Breathit county and arriving near the preacher's home, found the oreek at high water mark and were unable to cross. They called for the parson and he inquired their business. Upon being told the preacher answered: "Just lay the license and one dollar on the gate post near by." The groom to-be did so and the preacher solemnly said, "By the authority that lies on that gate post I pronounce you man and wife."

Myers—Sullivan.

Myers-Sullivan

Myers-Sullivan.

At the residence of G. D. Sullivan, in the eastern part of this city, Saturday evening at 6 o'clock, occurred the marriage of the daughter of the home, Miss Rhoda D. Sullivan, to Mr. Robert O. Myers, a well known and industrious timplate workes. The marriage was solemnized in the presence of the immediate friends of the happy young people by the Rev. T. P. James, the new pastor of the First Baptist church. The parties have the best wishes of a host of triends. Miss Sullivan is a charming girl, and the young gentleman who won her heart and hand is to be congratulated.—The Elwood, Indiana Call-Leader.

The Lifting Power of a Youth.

The Lifting Power of a Youth.

The litting power of a youth of seventeen years is 280 pounds. In his twentieth year this increases to 220 pounds. In the thirtieth and thirty-first year it reaches its height 365 pounds. At the end of the thirty-first year the strength begins to decline, very slow at first. By the fortieth year it has decreased eight pounds, and this diminution continues at a slightly increasing rate until the fiftieth year is reached, when the figure is 330 pounds. After this period the strength fails more and more rapidly until the weakness of old age is reached. It is not possible to give statistics of the decline of strength after the fittieth year, as it varies to a large extent in different individuals.

Seventeen Below Zero.

cle. From a given point in the circumlerence of that circle be starts on his work. When that work is finahed he finds himself back again at the starting point ready to begin all over again. Is it any wonder that mankind some times groans under the monotony of the endless round of tasks?—Ex.

Strange but True.

Two Burlingtonites were discussing the local meats market. a few evenings since. It seems that each had, at one time in the past, concluded to embark in the local meat business, but a short experience was enough for each. The first to give his experience was James L. Clore, who said that he purchased a consignment of nice meat as a tester—that he sold every pound of it at 5 cents a pound profit, and when he balanced his account he had lost 45. How the loss resulted he was never able to explain. Homer Clutterbuck then said that he and Roy bought a hind quarter of nice beef, as an experiment, and that they sold every pound of it at 4 cents a pound profit, and when the chall seed the account they had lost exactly \$3 90 on the quarter of nice beef, as an experiment, and that they sold every pound of it at 4 cents a pound profit, and when the starting point of the contract of nice beef, as an experiment, and that they sold every pound of it at 4 cents a pound profit, and when the starting point of the contract of nice beef, as an experiment, and that they sold every pound of it at 4 cents a pound profit, and when the starting point of the contract of the contra

Golden Grange Resolutions.

A Big Time at the Club.

The R. R. C. had a big soup, last Thursday night, on which occasion the following visitors were introduced: Joel K. Corbin by Joseph Case; Plum Gully, of Waterloo, by Bert Rouse. It had been several sweeks since the club had had as meeting and the attendence of members was quite large. Mr. Corbin entertained the boys with reminiscences of the civil war, his survounding being especially adapted to bring to mind long ago scenes about the campfire, when a kettle of soup, such as was being prepared twas anxiously watched by him and his comrades. During the evening he and Mr Case took part in the electric cotillion, which has proved a very popular recreation with the hoys. They became thoroughly rejuvenated and gave an exhibition of several steps that were popular half a century ago. At one time, Bert Rouse and Kirb Sullivan came very near precipitating a riot. They were the cooks, and when the soup was done, they took the kettle out yand set it in the snow to cool. After they had been gone some time it was announced in the club room that they had skipped with the kettle and its contents, and in al, instant, the men were climbing over er eachother to get out at the door or pursue the fleeing cooks, who, when they saw the mad rush from the building, thought the house was on fire. The member who perpetrated the joke was fined the cost of the soup and made go 'way back and set down, while the contents of the kettle were devoured.

Benjamin Vaughn Dead.

Benjamin Vaughn Dead

Benjamin Vaughn, son of Mrs.
Sallie Vaughn, left Burlington on
the 5th day of last December, for
Texas, where he intended to visit
a half brother and other relatives
he had there. His mother had received one letter from him previous
to last Tuesday, on the morning of
which day her daughter, Miss Annie, of Erlanger, telephoned her
that she was in receipt of a telephoned her
that she was in receipt of a telegram
from Texas announcing that Ben
was not expected to live until
morning. This report soon spread
over the town, and everyone deplored the bad news, and hoped that
a more favorable message would
be received later. But it was not
so intended, and the later message
stated that he was dead, giving no
particulars. The last telegram shattered all the hopes of poor Ben's
friends here, and his sudden taking
off was the topic or the day, everybody having a good word to speak
for the man who only a few weeks
ago bid them good bye, confident
that he would be with them again
in a few months at the most. Full
particulars in regard to the cause of
the unfortunate's man death were
anxiously awaited. Friday a letter
came, saying he was working for
a farmer and was felling a tree, and
that a limb flew back, striking him
on his head, crushing his skull.
The accident happened about 5 p
m. on Tuesday of hist week, and he
died at 7 o'clock the next. morning,
never having regalned consciousness
after receiving the blow on his head.
Everything that could be was done
for the puor fellow, but his fate was
inevitable from the first. The remains were laid to rest last Thursday in a strange soil by strange but
tender hands. The deceased was in
his 37th year, was a very compan
ionable man, and had a memory
that as to dates and the occurrence
of events within his time was authority among those who knew him.
He was a man who attended strictto his own business, and as a result
none kew him but to like him,
and now they unite in sorrow at
his untilety death, and extend the
mother and sitters their sympathy.

mother and sisters their sympathy.

No doubt that it will be a very great surprise to the many friends of Ed Hawes when they learn that he is in jail and ha-been since early last Monday morning. His sojoura in that institution is the result of an order made recently by the fiscal court, providing that the inside of that building be given two coats of paint, which job Ed secured, and is now spreading paint on the inside walls and the cells to beat the band, so you see it pays to be in jail sometimes.

Quite a number of Boone county people are sojourning at Jackson-ville, Florida.

London's lord mayors have, during the past decade, collected more than \$100,000,000 for charitable and benevo ent purpor

recently, leaves only 18 American rs on the retired list of the army served in the Mexican war.

Abyssinia produces the finest ostrich feathers, the price there being \$1.44 to \$2.31 a dozen for the best white, \$9 6 cents to \$1.93 a dozen for the black, and half as much for gray feathers.

The American Bible society, which does not pretend to print its Bible in all languages, issues either the whole Bible or portions of it in 242 languages and dialects.

The crop of 1904 amounted to 2, 457,480,934 bushels, which, at 44.1 cents a bushel, had a value to the farmer of \$1,087,61,440. Official figures of the department of agriculture show that there were sown in corn last spring \$9,401,000 acres, an increase of 2,080,000 acres, or 2.3 per cent. over last year's acreage.

Most of the South American Latin countries have entered upon a new stage of development and progress, both governmentally and commercial-

stage of development and progress, both governmentally and commercial-ly, and if not interrupted we may ex-pect the South American continent to take before long the place she is capa-ble of filling alongside her northern sister. The faster and more stable her progress the better for us, if we are awake to our opportunities.

are awake to our opportunities.

Argentina's exports of wheat for the calendar year 1905 exceed 113,000,000 bushels, compared with about 93,000,000 bushels in 1904, which up to that time exceeded all previous records. The new crop, which is about to be harrested, is expected to prove much larger than the last, and exports for the coming year may reach 130,000,000 bushels or so. Evidently that country is undergoing a rapid development.

B. F. Armstrong, of Browneyille, as

Is undergoing a rapid development.

B. F. Armstrong, of Brownsville, a professional snake and wild animal collector, has more than a ton of rattlesnakes at his camp, situated near Corpus Christi, Tex. He sells his snakes by weight instead of by number. He is preparing to make a big shipment to northern and eastern points. He also supplies large quantities of rattlesnakes for a snake oil factory that is in operation at Corpus Christi, Tex.

The long and unusual career of General Theodors H. Goodman, the retiring general passenger and ticket agent of the Southern Facilic railroad, exemplifies the idea that the most successful man is he who, without failing in his duty to himself, is most widely useful to his fellows. For 37 consecutive years Gen, Goodman was at the head of the passenger department of the railroad which he served. It is the longest term in that office ever held by an official of an American railroad.

office ever held by an official of an American railroad.

The emperor of Russia, long before the present crisis developed, laid up in store against the time to come. If he was driven from his dominions to-day he would not go unnedged into the world. What his gross Income actually is no man dare say. The semi-official "Almanach Hachette," which credited him with over \$,500.000 sterling per year, was confacated. The figure is pretty near the mark, apparently, for the Russian Journal of Financial Statistics shows his revenue from his million square miles of properties to be many millions of roubles.

About 3,000,000 ounces of quinine is used in the United States per year, which is more than 100 tons. The whole value is toward \$1,000,000. The cheapness of the sturr puts it within the reach of all ague victums and vest-packet nibblers. It is contained in patent preparations, sold as liquid at soda water fountains and dispensed in pilis, powders and candies. The calisaya cocktail is a favorite form. Some years ago a league of American quinine flends prevented a revolution in South America, fearing that it sight out of their supply of the drug.

If plans of the Friede Globe Tower.

20. are carried out, Coney Island will con present to the world its crowning sonder in the shape of an amusement ower seven hundred feet high, to contract the seven hundred feet high, to contract various altitudes a roof garden, ippodrome, dance hall, revolving aide, observatory, paim garden and their amusement features hundreds feet it fix aft. Joseph Hastings of Pittsburg, died in a saultarium at Summit, N. J. Mr. Hastings was prominent in business fite and his illness dates from a period following the collapse- of the Enterprise national bank, Allegheny.

At the close of the skating tournament on the Humboldt park lagoon at Chicago, the lee slowly gave way beneath \$3,00 people, causing a pande in which many were injured.

An attack by a crowd of angry Lithuanians upon the residence of Rev. Edward Stefanowicz, a Catholic priest, of Chicago, resulted in the fatal shooting of one man and the serious injury of a number-of others.

Four railway employes were killed in a collision on the Southern railway at Greensboro, N. C.

Craokemen blew open the safe of the post office at College View, the Adventist college suburb of Lincoln, Neb, and secured \$700 worth of stamps and \$5 in money.

On a trial trip the new armored cruiser Tensessee made a dash at a speed of 22.36 knots an hour.

At a meeting of the Royal Astronomical society, London, Ambassador Reid received the gold medal for 1995 conterned by the society on Prof. William Wallace Campbell, of the Lick observatory.

More Than One Thousand invitation
Have Been issued.—The First
Honeymoon Trip Will Be
Made to Florida.

Made to Florida.

Washington, Feb. 12.—The arrangements for the marriage in the white house have about been completed.
The wedding of Miss Alice Roosevell, daughter of the president, to Representative Nicholas Longworth, will take place at the white house at noon Saturday, February 17. The ceremony which will be performed in the historic east room, will be solemnized by Rt. Rev. Henry Y. Satterlee, Protestant Episcopal bishop of Washington, There will be no bridesmaids.
The groom's best man will be from the first process of Mr. Longworth's classmates and a college mate at Harvard, B. A. Wallingford, Jr., of Cincinnati, who married Mr. Longworth's oldest alster, Larz Anderson, of Washington, great grandson of Nicholas Longworth, tamily fortune: Viscount Charles De Chambrun, brother of Count Adolest De Chambrun, who married the groom's youngest sister, and Theodore Roosevell, Jr., the oldest son of the president, will be the ushers.

the oldest son of the president, will be the ushers.

One thousand invitations to the wedding have been issued. Those invited exclusive of the wedding party include the members of the cabinet and their wives, former members of the cabinet wives, former members of the cabinet who are now in the United States senate and their wives, the heads of the foreign embassies and missions and their wives, the official members of the party which accompanied Secretary Tatt to the Orient, the Ohio delegation in congress and he New York delegation in congress. Late in the afternoon Mr. Longworth and his bride will leave Washington on a trip to Florida, traveling in a special car. After the adjournment of congress they expect to make a trip to Europe.

Miss Alice Rosevelt will not be the

coar car. After the adjournment of congress they expect to make a trip to Burope.

Miss Alice Rosevelt will not be the only handsomely gowned woman at her wedding. The simple fact is that never in the history of weddings in this country have there been such preparations for resplendent gowning. The dressmakers of five cities—Washington, Baltimore, Philadelphia, New York and Beston—say that never before in their experience have such orders for wedding costumes been placed with them.

As the white house already is taxed how to dispose of the great mass of wedding gifts, just what Miss Alice is to do with them in the house which she is to occupy as Mrs. Longworth is difficult to decide.

Reported That Effort Will Bs Made to Overthrow President Castro.

Willemstad Crescos, Friday, Feb. 9.
—Conditions in Venezuela were unchanged at the date of the latest advices from that country. The censorship is rigid. One report is that the attitude of President Vicente Gomez, who is said to be plotting a revolution against President Castro in case of a French blockade, is causing some anxiety.

It is reported also that Gen. Antonic

It is reported also that Gen. Antonio Velutini, second vice president, has a secret understanding with France, and that he aspires to the presidency. The total armament is 50.000 mauser rifies and 20,000,000 ball cartridges, 80 pieces of small artillery of old-fash-loned type, and 10 modern guns in position at the ports. The treasury shows a balance of \$200,000. President Castrols said to be boasting that he will test the Monroe doctrine.

THE MOROCCAN CONFERENCE. Uneasiness is Feit in Europe Over its Anticigated Failure.

Anticipated Failure.

London, Feb. 12.—Telegrams from continental capitals and editorials in the London newspapers of Monday reflect the renewal of unenaliness over the anticipated failure of the Algedras conference on Mororcan reforms in consequence of the deadlock on the French and German contentions with regard to the question of police. A long Algedras dispatch of a semi-official nature published in Paris, seems to foreshadow an aboritive result, if not the actual rupture of the conference, and declares that the lines have reached beyond which it is impossible that France can go.

Will Assist District Attorney Jarome.

A BOY'S BREAKFAST.

There's a Natural Food That Makes
Its Own Way.

There's a Natural Food Way.

The Own Way.

There's a boy up in Hoosick Falis, N. Y., who is growing into sturdy manhood on Grape-Nuts breakfasts. It might have been different with him, as his mother expiains:

"My 11-year-old boy is large, well developed and active, and has been made so by his fondness for Grape-Nuts food. At five years he was a very nervous child and was subject to frequent attacks of indigestion which used to rob him of his strength and were very troublesome to deal with He never seemed to care for anything for his breakfast until I tried Grape-Nuts and I have never had to change from that. He makes his entire breakfast of Grape-Nuts food. It is always relished by him and he says that it satisfies him better than the ordinary kind of a meal.

"Better than all, he is no longer troubled with indigestion or nervous-ness, and has got to be a splendidly developed fillow since he began to use Grape-Nuts food." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read tee little book, "The Road to Wellville," in pkgm.

Bill to Limit the Racing Seasons in Kentucky Introduced.

Frankfort, Feb. 7.—This was Goebel Memorial day in the legislature and no business was done beyond the introduction of some new bills in the house. The senate adjourned to the house at 11 o'clock and short speeches sulogisted of Kentecky's marktyred governor were made by senators and representatives till 1 o'clock. At 3 in the affermoon many of the legislators and others walked to the Frankfort esemetery and placed sources of beautiful doral designs upon the grave of the day down the senators and placed sovernor. Rev. T. N. Arnold made a short talk at the grave and a prayer ended the ceremony. At night at the opera house Col. Bennett H. Young, of Louisville, dalivered the principal memorial address of the day before a large audience. He said Gov. Goebel was the pioneer in the great fight now-down and the senators of the day before a large audience. He said Gov. Goebel was the pioneer in the great fight now-down arged against the the cause of the great common title. Other the cause of the great common great of the commissioners when the senators and certical force of the railroad commissioners. The bone of contention was a section providing that railroads should provide or pay for the transportation of the commissioners when traveling on official business. The with the free transportation clause still in the Govern the senators of the day in the second of the commissioners when traveling on official business. LICENSE IN THE HIGHLANDS.

The Court of Appeals Decides That They May Be Granted.

They May Be Granted.

Frankfort, Ky., Feb. 10.—The court of appeals reversed the Campbell corcuit court in the case of The Commonwealth vs. Dom Petri. The action involved the granting of a license in the town district of Highlands, Campbell county, which was refused by the lower court. This court in reversing holds that the special taw of 1872 is to be construed with Section No. 4,203. The court affirmed the Kenton circuit court in the case of Joseph D. Kennedy vs. Kenton County. The action involved a controversy over the power of the county surveyor and the fiscal court to have resurveyed and plotted the turnpike road districts in Kenton county. The court construes and upholds the act of March, 1904, and holds that since there is nothing in the statute fixing the compensation for resurveying turnpike roads, it is a duty of the fiscal court, and it is proper to let the work to the lower court finding.

TEN-YEAR-OLD ARRESTED.

TEN-YEAR-OLD ARRESTED.

Charged With Causing the Death of His Playmate.

Death of His Pisymate.

Louisvile, Ky, Feb. 10.—Following a verdict of manslaughter, returned by a coroner's jury in the death of Alfred Mortimore, 8. Charles Pfeifer, 10, was placed under arrest, as the jury found that the victim had died from a fail occasioned by a blow on the head, inflicted by Charles Pfeifer. Witnesses, estified that the lad had been playing "prisoners" base." and that after a quittred the Mortimore boy was struck by young Pfeifer. His head struck a stone and death ensued several hours later.

Prison Commission Appointed.
Frankfort, Ky., Feb. 10.—The state prison commission announced the appointment of W. H. Pulliam, of Logan county, as guard at the branch prison at Eddyville, vice Thomas O'Conneil, of the same county. Also the appointment of Thomas G. Newman, of Frankfort, to a position at the state prison here.

Home Damaged By Fire.
Henderson, Ky, Feb. 8.—The home of Alexander Harthill caught fire from the furnace, but was extinguished by the firemen. The house was damaged to the extent of a few hundred dollars. Mr. Harthill's remains were in the house at the time of the fire.

Alleged Lynchers in Jali.
London, Ky., Feb. 8.—Jas, Trosper, last of the five men for whom warrants have been issued for the lynching of Virgil Bowers, the negro, here isst October, was arrested by Sheriff Swanner at Pittsburg. The five are in the London jail.

In the London Jail.

The Bill Advanced.
Frankfort, Ky, Feb. 10.—The agriculture committee reported adversely the Mulcahy tobacco warehouse measure. Mr. Mulcahy, in a vigorous speech, demanded that the bill be advanced for consideration. The house by a vote of 60 to 20 advanced the bill.

Brashear Held Under Bond,
Elizabethtown, Ky., Feb. 10.—The
examining trial of Grover Weldon, who
is alleged to have shot and killed Rob,
ert Brashear, at Upton, this county,
was held in this city. He was held
ever to the grand law. was held in this city. He was held over to the grand jury, and his bond was fixed at \$3,000.

Frankfort, Ky, Feb. 10.—On recom-mendation of the fish and game com-mittee the house killed certain bills to-repeal the present game laws as to quall and rabbits. Also the bill to pre-vent bird dogs rpming at large.

TAINTED MONEY IS USED.

The "Infamous" Transactions of the Republican National Committee.

When Judge Parker made the charge just before the national election of 1804 that the Republicans were soliciting and receiving money for their comparison corporations, President Roosevelt took occasion to personally reply. Among other Usagas he said:

"If the charges of Mr. Parker were true, then Mr. Cortelyou and myself are two of the most infamous men in the country." The exposure in the life insurance investigation shows that those corporations were solicited by the Republican managers and did pay large sums for the Roosevelt campaign fund, and sir. Cortelyou, the chairman of the Republican national committee. The resident Roosevelt were during the campaign, no constant communication with President Roosevelt were during the campaign, no constant of the Republican national committee. Republican leaders are now, as they were during the campaign, no constant of the Republican size of the congressional committee. The resident Roosevelt is constant. If the control is a soft of the campaign, and size of the congression of the resident Roosevelt is constant. If y lecturing other people for departic of the campaign, and sale of the Republican sat the congressional elections was mode as the president Roosevelt is constant. If y lecturing other people for departic of the campaign and als continued in the hands of the Republican sat the congressional elections was been made affected from the high loss that about a continued in the president Roosevelt is constant. If y lecturing other people for departic of the campaign and als as the residuant score to the campaign and as a few words and the same and the resident Roosevelt is constant. If y lecturing other people for departic president Roosevelt is constant. If y lecturing other people for departic provided the resident Roosevelt is constant. If y lecturing other people for departic provided the resident Roosevelt is constant. If y lecturing other people for departic provided the resident Roosevelt is c

scribed by the corporations is still in the hands of the Republican national committee.

This is the true history of these proceedings, as well as a few words of the republican stational committee.

This is the true history of these proceedings, as well as a few words of the result of the result is the president going to do about it to clear his own skirts from the infamous transactions.

The outlook for the success of the Republicans at the congressional electrons next fall is so dubious that Congressional Secretary of the Republican congressional committee. The reason he gives is that the president has refused as ascertary of the Republican congressional committee. The reason he gives is that the president has refused to allow him to dictate a federal appointment that has always been considered a perquisite of the congressman from the Indianapolis district. Chairmanship of the committee, and he has no doubt arrived at that conclusion on account of serious doubt if the insurance companies yan be held up for campaign fund contributions. Democrats should "sit up and take notice" and nominate their strongest men as candidates for congress.

THIRD TERM WOULDN'T GO

THIRD TERM WOULDN'T GO

If Roosevelt Should Change His Mind He Would Be Defeated.

Mr. Jacob A. Rils, a personal friend of the president, informs an anxious public that if congress fails to put into law the policies for which President Roosevelt stands he may ask a third term nomination for president. As no ne knowsexactly just where the president does stand on some questions, and there is good reason to believe he does not know himself what position he will have to make all this clear to a discerning people before thinking of third terms. If the Republican party with president, congress and all branches of the government cannot agree an reform measures, the voters will in disgust turn to tho Democracy, the hope and bullwark of a free people. A third term would be a dangerous innovation, although President Roosevelt might use it to advantage, but what Washington refused and Gen. Grant even was defeated for, as a violent departure from established precedent, it is probable that Mr. Roosevelt will not strive for but stick to his declared purpose not to accept a third term under any circumstances. If he should change his mind the people would quite possibly defeat him to protect their future liberty.

CONGRESS AND THE ISSUES

Position of the Parties on All the Great Questions to Be Decided.

such as ship subsidy, which it is unnecessary to say the Democratic vigorically oppose, on the general principle of opposition to all subsidies. The voters of the United States will be called upon next fall to decide which party has taken the position for the greatest benefit of all the people, and the majority of the voters who believe in equal rights to all and special privileges to none cannot but approve the Democratic position on all these issues and cannot indorse the Republican sins of omission and commission, with their protection of special interests.

POLITICAL COMMENT.

— What we need in Panama is more money paid out in wages and less in salaries.—Los Angeles Heraid.
—Cole Younger once saved the life of Steve Elkins, but a generous country has uever laid it up against him.—Chicago Tribune (Rep.).

of Steve Elkins, but a generous country has uever laid it up against him.—Chicago Tribune (Rep.).

—Chauncey Depew's latest vindication consists in the fact that the state legislature failed to request him to get out of office.—Chicago Dally News.
—It neems easy enough to get a new tariff law for the Phillippines, but it is a minthy hard matter to get a revision for the United States.—Savannah News.—"A big slump in our trade with Germany is imminent," say the dispatches from Washington. The inevitable stand-pat penalty.—Atlanta Constitution.

—Commissioner Garfield says the beef trust is too big for any one state to handle. Still, the beef trust is on the list of protected "infant industries."—Washington Post.
—John Morley, soon after he had visited the president at the WhiteHouse, is said to have remarked: "He is a sort of cross between St. George and St. Vitus."—Chicago Chronicle (Rep.).—Secretary Root may not have been diplomatic but he was deadly accurate in his talk to the house appropriations committee about the defects of our consular system. The reason it is not better is that congress does not want it to be better.—It is congress that maintains the viclous practice of keeping a consular position as a shelf for a disabled politician if not as a snug berth for an figoroant but efficient political worker. Mr. Root pointed out that a bill to remedy hesse evils had been introduced in the senate, but that nearly all the reforming energy had been taken out of it by the committee which reported it.—N. Y. Post.
—Much as he admires Mr. Roosevell, Jacob Rils is so broad-minded that he admits Washington and Lincoln to membership in the same class with his friend, the president.—Chicago Dally News. the people would quite possibly defeath im to protect their future liberty.

—From Uncle Joe Cannon' sighting remarks about the millennium chasers, it must not be understood that he is against the millennium; be simply wants the Republican party to be let alone until the millennium; be simply wants the Republican party to be let alone until the millennium; be simply wants the Republican party to be let alone until the millennium; be simply wants the Republican party to be let alone until the millennium; be simply wants the Republican party to be lett alone until the millennium; be simply wants the Republican party to be lett alone until the millennium; be simply wants the Republican party to be lett alone until the millennium; be simply wants the Republican party to be letter, it is congress that maintains the viclous practice of keeping alone the viclous practice of keeping a sold the was deadly accurated in his talk to the house appropriation sual respects. The reason it is not better is that congress does not want it to be better. It is congress that maintains the viclous practice of keeping a consular position as a self for a disabled politician if not as a saug berth or an ignorant but efficient political worker. Mr. Root pointed in the senate, but that nearly opposite to the beginning of a war, so no precedent will be violed in the senate, but that nearly opposite the president. The same class with his priend, they are the president will be violed in the senate, but that nearly all the reforming energy had been introduced in the senate, but that nearly all the reforming energy had been introduced in the senate, but that nearly all the reforming energy had been introduced in the senate, but that nearly all the reforming energy had been introduced in the senate, but that nearly all the reforming energy had been introduced in the senate, but that nearly all the reforming energy had been introduced in the senate, but that nearly all the reforming energy had been introduced in the senate, but that nearly all t

Still Fighting the Trust

Plans to fight the tobacco trust are maturing among producers of burley in the ¹³ counties of Kentucky which produce the light to-bacco and J. L. Cogar, a prominent grower of Midway Ky., said last night at the Willard Hotel that over half of the farmers in his county have signed a pledge not to raise my tobacco crop for the season of ¹⁹⁰⁷, says Tuesday's Louisville Herald. Prices have been comparatively poor recently, and the purpose is to force the Continental Tobacco Company to raise the price bacco Company to raise the price in order not to be left without ma

Safe Guide to Inner Sanctum.

Parties desiring to enter the printing office at this season of the year must be guided by the following rules: Advance to the door and give three distinct raps and then the "devil" will attend to your alarm. You must then give your name, postoffice address and the number of years you owe for the paper and he will then admit you. You must advance to the center of the room and greet the cashier with the following countersign: Extend the right hand about two feet from the body, the thumb and index finger, clasping a \$5 bill, which drop into the extended hand of the cashier, at the same time saying, "Were you luoking for me?" The cashier will say, "You bet!" and after giving him the news, you will be permitted to retire with a receipt properly signed.

An Exciting Hay Ride.

An Exciting Hay Ride.

One of the front wheels on J. M. Eddin's hay wagon ran ofl of the spinnel at Highland cemetery on the Lexington pike, a few days since, and one of his horses became frightened and tried to run, causing the wagon to turn over, making a very ugly mix-up on the road. Mr. Eddins was riding down in front of the load, and for a while he was in very close quarters and thought that the end of his earthly career was close at hand. After several frantic efforts he got out from behind the horses, but not until he lust from one of his lower limbs a sirip of cuticle about 18 inches long by 3 inches wide. The tap which came off of the spindle was found close to where the trouble began. An Exciting Hay Ride.

ast Thursday was the seven-th anniversary of Miss Ida Gris-and that evening quite a num-of her associates assembled at home to assist her to celebrate ant, and several hours were most pleasantly. Miss Ida has talon of being one of the trainers in the town.

Card of Thanks.

I desire to extend my sincere heartfelt thanks to all our friends and neighbors, who so kindly and generously ministered to my wife's comfort and pleasure in her last sickness; and for their sympathy so freely and heartily extended in our great sorrow. May God bless and keep you every one.

A Card of Thanks.

A Card of Thanks.

Through these columns I desire to thank my Brother Knights for the manifestation of Friendship and sympathy, extended to me in my wife's recentsickness and death; and for their faithful exemplification of the duties of a true and faithful Knight, in extending the true, the Pythian Friendship to a Brother in distress. May you every one continue to bring honor to yourselves and order by aiding to dispel the dark clouds that at times gather about the lives of all men.

C. M. BALDON.

bacco Company to raise the price in order not to be left without ma terial.

"The farmers are taking more incress in the movement now than in any yet started," said Mr. Cogar, because the association formed by the growers of dark tobacco. Bas been successful and has forced the price up higher than it has been recently. The list of names in Woodford county is growing, and I shall sign the pledge. If 75 per cent of the growers unite in the agreement, it will be binding, a beard of control will be formed, and the plans of the growers carried through. Chances for success are better than they have ever been." The movement is spreading over Kentucky and in the counties of Indians and Ohio. which produce hurley, and it is being watched with intense interest by the buyers and growers of tobacco.—Blue Grass Clipper.

A Lost Breed of Horses.

A Lost Breed of Horses.

In an address before the American Breeder's Association at Lincoln, Nebraska, Mr. Geo. M. Rommel, of the Bureau of Animal Industry, ead: "Only once had this country anything approaching a native drait breed, and that has been completely lost. This was the Conestoga draft horse of Eastern Pennsylvania.

"They were dappled gray or nearly white in color, other colorsbing rare. They weighed from 1, 2000 to 1,400 pounds and stood from streen to seventeen hands. Some specimens weighed 1,500 pounds, and stood from streen to seventeen hands. Some specimens weighed 1,500 pounds, alfalfa to balance the cow

pletely lost. This was the Conestoga draft horse of Eastern Pennsylvania.

"They were dappled gray or nearly white in color, other colors being rare. They weighed from 1, 200 to 1,400 pounds and stood from sixteen to seventeen hands. Some specimens weighed 1,500 pounds, and occasional ones 1,800 to 2,000 pounds. They are described as smart draft horses and rare good workers. They were used in the cities of the East and in the freighting business across the Alleghanis before the days of railroads. The development of railroads seems to have sounded the death knell to this breed. They have vanished No one seems to know whence they came or what has become of them. They could have been made the nucleus of a native draft breed, but their existence has no value for usue of the control of the contr

AND first in the figure of the control of the control

THE TARIFF TAX UNFAIR.

mous Profits Paid by the People to the Protected Man-

ple to the Protected Manufacturers.

The imports of diamonds, pearls and other precious stones have increased during the past year to the remarkable total of \$37,000,000. This is nearly \$11,000,000 more than in 1504, which was the banner year before this extraordinary increase for this year. It shows the extravagance of the era in which we live and the enormous amount this is annually expended for jewelry. As nearly all the vaule of these importations of precious stones were diamondand pearls, uncut and unset, this vast value has been greatly increased, probably by 200 per cent, when cut and set as sold by the retail jewelers.

As the tariff duty on the greater part of these unset jewele is but ten per cent, the millionaires, who mostly buy them, may but that small tax is suuch higher. For example: When the stime value of medium quality carpets are imported the tariff tax is much higher. For example: When the stime value of medium quality carpets are imported the davideren, or a total tax of 175 per cent, and valorem, or a total tax of 175 per cent.

This inequality in the tariff law, which requires the person of moderate means to pay 175 per cent, and over on necessities and the millionaire only ten per cent, on invaries, pervades the whole law more or less and yet most of the people that pay the tax have voted for Republican congressmen who in turn vote to perpetuate such unequal taxation.

Nor does the unequality of the tax stop there for the protected manufac-

VACILLATING PRESIDENT.

It me Secome Quite Plain That the Senate Is to Gwn Way.

Ingenious friends of the president will need to employ all their most subtle theories po account for his vacilations and final surrender in the matter of rate-fixing legislation. For Weshington dispatches make it plain that the senate is to have its way, says the New York Poet. The interstate commerce commission will not be given power to make railroad rates independently; review and control by the courts will be ratined as now. That is the point for which the best lawyers and clearest-headed men in the senate have all slong contended, and that is the point which the president is now ready to concede. All his lond protests to the contrary were simply playful, it now appears, or fresh illustrations of his "open mind." The clear practical upshot, however, is his tacit ahandonment of the campaign is the presidential non-sequitor. Will not be in it. The commission, that is, will not be made of the presidential non-sequitor. Will not be in it. The commission, that is, will not be empowered to make a rate, to go into effect." at once, "without a prior appeal to the courts to determine whether the rate be reasonable and just. It all that matter, we shall stay much as we are. Of course, Mr. Roosevelt will claim a great victory for his ideas, just as he did in the case of the Efkins bill of 1903, which he then declared to be all the railway legislation required; but the facts are not in doubt. The president has retreated. Though assured that he could have the bill he wanted by a combination of Republican and Democratic vottes, he shrank before Senator Crane's bogsy of a split in his own party which would coulset his term of office. He assessed to a rate-making clause which amounts to nothing, and for it has paid the price of giving up tariff revision. A britteright has thus again been sold to the reason.

THE SPOLIATION PARTY.

gether Is Graft and Plunder.

Nothing now holds the Republican party together but graft and spoils. As each usew scandal rut off the opportunity for one or the other, party ties weaken and it is becoming the fashion for each Republican congressmand not caring much what happens to his brother in distress. The chance for collecting campaign funds has been cut off in some measure by the exposures in the life insurance investigation, and without money and plenty of it, the average Republican congressman is a political derelict at the mercy of an outraged and suffering constituency. The trend is strongly towards Lemocracy, which is of the people and for the people. The very fact that it has been decated because it opposed the domination of the corporations and trusts and had no part or lot in the distribution of campaign funds from insurance corporations and other tainted sources has endeared it to the people. All real Democrate will therefore lay aside minor differences of opinion and raily for good-government.

POLITICAL PLOT IN OHIO.

to an Extraordinary Method to Gain Support.

Uncle Grosvenor, the Republican representative from Ohio, must be hard preased by hie party enemies, for he has resorted to the extraordinary proceeding of urging his brother congressmen to sign a petition to the respublican voters, reciting the great services that Gen. Grosvenor has performed in behalf of the Republican party and that to defeat him would impose great loss upon the party. But still the free and independent Republicans of the Chio district may think they know best who should represent them, and they are evidently disgusted with Grosvenor. In fact there is pretty, good evidence that the whole country is tired of politicians of the Grosvenor stripe and are determined on a change. In Ohio the people had an opportunity last fall of getting rid of some of, their Republican servants who had outlasted their usefuiness and the revolution has only just started. A Democratic congress is the pleasing prospect shead.

The Faith That Conquered

STORY OF THE CRISIS IN MOSES

re Authority.—"By faith Mosen, had come to years, refused to be son of Pharoah's daughter, rather to suffer afflotion with the God, than to enjoy the pleasures a season; esteeming the raproach a greater ches than the treas-grpt; for he had respect unto the so of the reward."—field 1:124-28.

the pathered in little knots and discuss what the country of the princess and discuss what the country of the princess and discuss what the country of the princess and the princess and the princess and the princess and the princess three of Moses with the saget Hebrewthe hasty journey of the princess three days later, and her return. The whispered accounts of the servants who had accompanied her, and their ominous shakes of the head as they told with mysterious air of the midnight ride, of the measenger bearing Moses letter, of her strange conduct and her journey back again in melancholy sience, all furnished endless and absorbing topics for conversation, and so persistently did the princess shut herself in her own private apartments that the servants were left quite to their own devices.

"It is the third visit which the princess has made to the temple within the last two days," whispered one of her maids, to a group of other servants who had eagerly gathered about her to hear the latest bit of goastly. "Sh—sh!" cautioned one of the servants who was standing on the out-akirts of the group and commanded a view of the long hall leading from the entrance to the inner apartments of the palace. "Here he comes."

An awed silence fell upon all as they looked in the direction in which the speaker pointed. There coming across the marbie-tiled floor. A flavor was and sown, and every few slaps there came a panse suggestive of eas inclination to the palace. The stride was uneven approaching. The stride was uneven a panse suggestive of eas inclination to the palace and every few slaps there came a panse suggestive of eas inclination to the hear and farlas as settled herself upon her couch and took from the folds of her toes a parchement. "Do not let anyone disturb me, save Moses. Oh, Tasis, do you suppose be will come to-day? Oh, he must come," and shad almost cobbed in the intensity of her longing. She felt she was qui

ner longing. She felt she was quite ready for him now, and fondled the papyrus sheets in her hand with coaddent assurance.

It was thus Moses found hor. In fact, so engroused was she that she old not hear his approach until he was quite by her side. With an eager, giad cry, she sprang up and threw her arms about his neck. Neither spoke a word—she because quite overcome by her emotions, and he-because the agony clutching at his heart had paralyzed both tongue and lips and he could not. "Oh, Moses, I am giad 'you have come, for I can help you," she said at last, and withdrawing her soft arms from about his bearded face she turned sagerly and recovered the purchment which had slipped upon the foor. "See, here are records which will help you. I received your letter," she ran on hastily, as though as feared he might break in with some word of objection, and you must know that its message filled my heart with deep apprehension and pain. I know you have sufered, too, but it will all come right, and we shall be happy once more. Listen: "Egypt, the fair daughter of the shall be happy once more. Listen: "Egypt, the fair daughter of death of the star of heaven in their course agree and smile benignantly upon the foor mer shall atream life and light, This is the word of the great sun god Osiria, and the stars of heaven in their course agree and smile benignantly upon the favored children of the land, upon Thermuts and her litustrious sacked, in surprise.

"It is gathered from the ancient records of the Egyptians, and the priestial" "Whence came such them words," Moses asked, in surprise.

"Est way hast thou talked with the priestial"

The lines which the conflict and dis-trees of mind of the past few days had furrowed in his face deepened as the woman was speaking, and he recolled as though she had struck him a cruel blow, when she went on to say: "Thou carest nothing for my advice. Thou has forgotten all that I have sacri-done for these; all that I have sacri-faced in adding thee; all that I amy ex-willing to do for thee and for thy peo-ple."

owards him here we have added and clasping his hand in hers, she said:

"But thou shalt still be my son. Thou shalt still be near me."

She felt his hand tremble as she spoke the words, and looking up saw a new and deeper agony mirrored in his face. He tried to speak; his lips moved, but no softm came she wondered how it was that her words could have affected him so. She tried to soothe him, and caressed the hand which she still held. Suddenly he withdrew it and, leaping to his feet, he began to pace back and forth fercely, as though the storms of emotion which raged within would tear him to pieces. At last he stopped abruptly before her and cried. "Not even this is left to me and thee. As the son of Amram and Jochebed. or the tribe of Levi, there is place for the among the Hebrew people, but not as the son of Pharaon's daughter. I take my place with the Hebrew people—taking a few steps from her in dramatic emphasis of his words—"and can no longer be called thy son."

With a cry of bitter agony the priscess mother swooned, and when sht came back to consciousness she found her faithful Tasis standing over head chamid came to consciousness she found her daily her hands, but Mosse was

HIGH CLASS DRUGGISTS

AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The sarning of a fair living, with the satisfaction which arise from a knowledge of the enfits conferred upon their patrons and assistance to the medical profession, is usually their greatest roward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headsches attended by bilioueness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of

BOONE CO., RECORDER Wednesday, - Fec., 21, 1906. W. L RIDDELL. - - Publisher.

Gov. Pattison is determined to have the lid put on in Ohio, and there is no doubt about it.

If President Roosevelt believes in the publicity of weddings he was certainly satisfied with the publicity given his daughter's marriage.

The Superintendent of Schools of Carter county has revoked the certificate of every teacher in that county. He claims that most of the certificates were obtained fraudulently.

The Ohio Legislature has passed a bill and it has been signed by the governor providing for a maximum charge of two cents a mile passenger rate on all roads in the state.

Dollie Dandridge, colored, of Lexington, who officiated in the culinary department of the White House under the Cleueland ad-ministration, forwarded to Wash-ington a pecan cake as a wedding gift to Miss Alice Roosevelt.

The county unit local option law was put to sleep in the Senate, last week. It may have had a different fate had the bill been exactly what it was called, a county unit bill. It was a county unit bill on the dry side, but not so on the wet side.

After today the General Assembly has twenty-three days in which to complete..its work. There is a vast number of bills that will never find their way out of the committee room, and no doubt the law makers will deserve, at the end of the session more credit for what they did not do than for what they did.

The Legislature has passed a law to tax dogs for the purpose of creating a fund with which to pay for sheep killed by dogs. Boone county has had that kind Boone county has had that kind of a law for twenty years, and in that respect she has been twenty years ahead of the remainder of the State. To find the dogs to assess is the most difficult feature of the law, the dogs having a very convenient way of losing their owners about the time the assessor is expected around.

assessor is expected around.

The last run of coal from Pittsburg completed the eleventh conscrive month with a coalboat stage every month from that port. Not in fifteen years had there been a coalboat stage in September until last year. Since last Pebruary there has been a stage sufficient to permit the shipment of coal from Pittsburg at least once every month. If a shipment is made in February of this year, it will exceed all previous records.

The New York World is authority for the statement that at a recent meeting of the members of the Equitable Life Assurance Society the directors were required to sign written pledges in which each one bound himself not to divulge anything about the revelations made by the society's accountants. The world says that there was submitted at this directors' meeting a report containing evidence of a great many scanduls which have not heretofore been revealed.

herefore been revealed.

The will of the late Marshall Field, the well known millionaire merchant, was an extensive, carefully drawn document of 32 type-written pages. The will distributes \$25,568,000 and the rest of the wast fortune is left in trust until one of the grandsons, which are now 9 and 12 years of age, reaches 50 years. Eight million was left to the city of Chicago for the endowment and maintenance of the Field Columbian Museum. The employes of Marshall Field & Co. were handsomely remembered, \$1,000,000 being left to those who had been in employment for 25 years.

A story is going the rounds of

The farmers of Carroll and adjoining counties in town Monday, and especially the stock raisers, were jubilant over the passage of the dog tax law by the Legislature and many said that if not another measure was passed that the present legislature had done good work. On account of the sheep-killing dogs the sheep industry has been falling off for years as the depredations of worthless curs, and even fine dogs, the farmer could not afford to undertake to raise sheep. With the protection of the dog tax law farmers can now discontinue raising tobacco and wearing out their land, by sheep-raising. Lambs and wool are higher at preset than for many years and there will be money in sheep for years to come.—Carrollton News.

In the Harris—Nall election

and there will be mode, it among the content of the committee, which favored Nall's retaining his seat, said in regard to the conduct of the policemen in the ninth wards said in regard to the conduct of the policemen in the ninth wards said in regard to the conduct of the policemen in the ninth wards and force by certain police officers in the Ninth ward. Indeed, the conduct of these officers is most reprehensible, and should be met with the severest punishment. No self-respecting court, board or other authority will, in our opinion, allow these officers to escape punishment they justly deserve. Their conduct was disgraceful, and can but forever tarnish the name of the city that permits them longer to remain as officers. Their conduct was such that to allow it to pass unpunished will, in our opinion, bring disaster and reproach upon the authority that allow it."

And yet the majority of the House of Representatives keep in office the man who is the beneficiary of crime, which, if allowed "to pass unpunished will," in the opinion of the majority of the contest committee, "bring disaster and reproach upon the authority that allows it." Now, in how much better position are the legislators who voted to allow Nall to retain his seat, than are the policemen and thugs who made it possible for him to acquire his certificate of election?

The effort of certain parties in the Legislature to take Pendle.

made it possible for him to acquire his certificate of election?

The effort of certain parties in the Legislature to take Pendlëton from the Sixth district and add it to the Ninth, is a fraud perpetrated on the country counties of the Sixth district, to which the voters of Carroll, Gallatin, Boone, Trimble and Grant will not submit. To take away Pendleton would leave us wholly at the mercy of Campbell and Kenton. While we would be expected to furnish the Democratic majorities, we would have no voice in the distribution of offices. If they must take Pendleton, let them also take Campbell and add Owen or Henry to the Sixth. We are free to say to the representatives of Kenton and Campbell that if they vote to cut off Pendleton without adding other country counties tha: will more than compensate for the loss, they need not look to us for their majorities from this time forth. We have talked with Judge Lassing, and he is bitterly opposed to Pendleton being taken from us. Hon. Paul Gullion is using every effort to crush this attempted fraud.—Carroll County Democrat.

What does it matter to Pendleton county if she is taken

What does it matter to Pendleton county if she is taken out of the Sixth Congressional District? Can she hope to ever see any of her sons honored with tributes \$25,568,000 and the rest of the vast fortune is left in trust until one of the grandsons, which are now 9 and 12 years of age, reaches 50 years. Eight million was left to the city of Chicago for the endowment and mainten ance of the Field Columbian Museum. The employes of Marshall Field & Co. were handsomely remembered, \$1,000,000 being left to those who had been in employment for 25 years.

A story is going the rounds of the press of a farmer living a few miles from Gleucce, who were his old suit till everybody was tired of it, and his wife was almost ashamed of him. But one day when in town—he concluded to buy a fiew suit, and a happy thought struck him. He would surprise Eliza So he bundled a new suit into the wagon, hurried they are the surprise Eliza. So he bundled a new suit into the wagon, hurried they do miles from town, he stood up in the wagon and "Peeled" and threw the despised old suit into the creek. Then he reached for his new clothes. They were gone—had jolted out of the wagon. The night was cold and his teeth fastered as he skurried for home. He surprised Eliza even more than he had anticipated.

THROUGH THE WILDS OF KENTUCKY IN 1863,
After the Remains of a Warsaw
Boy, one of Gen. Morgan's
Men who was killed in
Battle in the Mountains of Tenn.

To the Editor of the Recorder:

We want to make this for the night, so as to have that much done on our next day's work, as we expected to be bothered here with the water from the Cumberland river. We arrived in reasonably fair shape, baring mud and-worry, and found everything as represented—the ford impassable and that we would have to wait for the water to recede during the night, hoping to be able to cross over on the following morning. This is Crother creek, a small tributary entering the Cumberland now. It is said that when it gets hateful and rampant it comes rushing down the mountain side with irresistable force, having no respect for people or their possessions, like the rearing lion seeking whom it may devour. They have a school house here, the first for 30 miles. It is a small affair, 12x14 feet; consisting of split cedar logs, sided up with clapboards. Four stout men could carry it. Whether it was builded here for a purpose or fell off of some ones or wagon, or came down in a flood in Crother creek, I will not undertake to say. For the good it is doing it might as well have gone on to better fields of usefulness, or have some means by which we could distinguish it from a chicken coop or hop pen. But the sadest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the safest of all, stunding water nearest the actified with the To the Billor of the Recorder

We want to make this for the own of the water to read the county to a company fair shape, baring much and worry, and found everything as a represented—the ford impassion and the water to read the county of the county of the water to read the county of the c

Several Walton people were pass-engers on the south bound train that was in the wreck on the L. & N. near Latonia, last Wednesday. They escaped serious injury, one of their number the worst hurt, had three teeth knocked out.

A Lincoln Kirk, the noted monologue entertainer, will appear in the hall at Verona on March 1st. He is said to be one of the best entertainers before the public. Don't forget the date—March 1. See the advertisement in another column.

Leslie Jackson, who has embark-ed in the poultry business, will en-deavor to breed a new and much more valuable fow than any of the best now being advertised—the hens will begin laying very young and lay three eggs a day, morning, noon and night.

Ray Conner, of Clore's Ridge, who pitched for the Boones, last season, and who is signed to play with the Dayton, Ohio, team this seoson, has come through the winter in excellent condition, and his friends have confidence in his ability to make good.

The ball and supper given by Fowler Lodge of Odd-Fellows, of Union, on the night of the 13th inst., was a grand success. The supper was splendid and abundant, and the music delighted all, and the young people indulged in dancing to their hearts' content.

Hogs Pay to Raise.

Last September Samuel Hall purchased a sow and seven pigs for \$12. One day last week he sold the seven pigs for \$56. The sow is now raising a litter of nine pigs that are seven weeks old. It is seldom that it does not pay to buy pigs.

Frightfully Burned.
Chas. W. Moore, a machinist, of Ford City, Pa., has his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual result: "a quick and perfect cure." Createst, healer on earth for Burns, Wounds, Sores, Enzema and Piles, 25 cents at all drug stores.

Chas. L. Aylor, son of T. B. Aylor, of Limaburg neighborhood, was in town last Friday, arranging his business preparatory to moving to Covington, where he will have a position on a street car, and thus another young farmer has concluded that he can do better in the city than in the country. The country is fast losing the farm laborers, and larm help is becoming the problem of the day.

Dr. Crisler, of Covington, was interviewing some of the local base
ball talent while here one day last
week. The Doctor has been offered
the management of a good club in
the city, and if he accepts, he has
made a date for a game here—July
4th. The Doctor displayed great
nerve as the manager of the Boones
in going after and securing big attractions, and he will be missed
here this year.

A Very, Very Bad Boy.

A teacher in one of our county schools had a class of young scholars before her in mathematics. The examples were in addition and the following illustration was oftered: "Now children, it I lay four eggs on the desk and Sammy," pointing to a freckle faced lad, "should lay, three eggs on the desk, how many would be there?" The bad boy of the class who was at the foot and would be there: The bad boy the class who was at the foot and had listened intently shouted: "Go on, Sam! take her up! I don't think she can do it!"

He Changed His Notion.

He Changed His Notion.

One of Burlington's industrious and enterprising citizens concluded he wanted to engage in the poultry business and handle a breed of chickens, none of which were ever seen about here, and with that in view he answered an advertisement in a poultry journal, asking the price of a trio of a certain breed. Being anxious to begin business with the new breed, he grew very impatient before a reply to his letter came, but when it arrived he found he did not desire any of that grade of poultry as the price of the trio was \$45.

Electric Road to Erlanger.

Electric Road to Erlanger.

Erlanger people have succeeded is getting President Ernst of the C. N. & C. street railway to promise to again look over the country from Highland cemetery to their city with a view to extending his electric road to Erlanger. They think the time has come when he will see that it will be greatly to his road's interest to reach Erlanger, and they consider their prospects for securing the road at an early day are better than ever before. Erlanger has got a move on in the last few months and there is no telling what business enterprises may soon come her way.

A Big Fair for 1906

A Big Fair for 1906.

On Saturday week the Directors of the North Kentucky Agricultural Association will hold their first meeting to arrange plans for working up the 1906 fair. There is no doubt but what the next fair will be equal to or better than those of past years, as its record shows that its main object is to conserve the interests of the farmers of the surrounding country, by cultivating a desire on their part to improve the quality of both their farm products and live stock. It will be the event of all others looked forward to in this county from now until it begins.

Farmers Caucht Again.

Farmers Caught Again.

who pitched for the Boones, last season, and who is—signed to play with the Dayton. Ohio, team this seoson, has come through the winter in excellent condition, and his friends have confidence—in—his ability to make good.

The RECERDER, last week, was not exactly correct as to how Benjamin Vaughn's death was caused, the facts having been learned in the last few days. He and the man for whom he was at work were standing under a tree which they had set fire sometime before, and a limb burned off and fell on him, crushing his skull.

Farmers Caught Again.

A good deal as to the amount of seed required depends on how it is sown, whether broadcast or by the use of the drill, and then considerable depends on the quality of the beed also. Every point in this business ought to be considered carefully. When the sowing is done broadcast, the style of the operator is an important item.

There is No National Holiday.

There is No National Holiday.

Tomorrow is Washington's birthday. Some claim that it is a national holiday, but there is no national holiday, not even the fourth of July.—Congress has at various times appointed special holidays, in its second session the Fifty third Congress passed an act making Labor Day a public holiday in the District of Columbia, and it has recognized the existence of certain days as holidays for commercial purposes, but with the exception named, there is no general statute on the subject. The proclamation of the President designating a day as Thankagiving only makes it a legal holiday in the District of Columbia and the Territories, and those States which provide by law for it.

to W. B. Noell, 100 acres, 1 rood and 5 poles between Walton and Verona—\$1.

Mary J. and Add Robbins to Martha Slater, lot in McVille\$1550.

Tellitha Vest to Chas. L. Griffith, lot in Walton—\$1,600.

The combattive proelivities of Burlingtonites developed very rapidly last week, and scraps and rumors of scraps came up from every direction. Fortunately no one was seriously hurt.

Perry L. Aylor, of Hebron neighborhood has bills out announcing a sale of stock, crop, tarming implements, poultry and some household and kitchen furniture on the afternoon of March 2d.

The Yellow Fever Germ.

The rellow Fever Germ.

The seed of scores, 1 rood and with the form diseases germs, the most of tective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria poison and constipation. 25 cents at all drug stores.

Anotter of Boone county's very old citizens has passed to the beyond, and Mrs. Eliza Beemon, wide among the departed. Mrs. Bee mon passed away last Monday night, having been in her SSth vers inclusive lampting the properties of mong the departed. Mrs. Bee mon passed away last Monday night, having been in her SSth vers inclusive of the late Samuel Delph, who died many years ago, having reached a great age. She was the Mrs. Owen P. Tanner, both of whom survive her. Mrs. Beemon and Mrs. Owen P. Tanner, both of whom survive her. Mrs. Beemon and Mrs. Owen P. Tanner, both of whom survive her. Mrs. Beemon died at her home near Limaburg, which is in the neighborhood of the place of her birth. She was a wiman of the old school, and believed in every person doing something, and this store and the properties of the properties of the late Samuel Delph, who died many years ago, having reached a great age. She was the lepton of Mrs. Owen P. Tanner, both of whom survive her. Mrs. Beemon died and kitchen furniture on the family lot in the cemetery near that the properties of the late Samuel Delph, who died many years ago, having reached a great age. She was the late samuel Delph, who died many years ago,

Resolutions of Respect

Resolutions of Respect.

Whereas, It has pleased God in His infinite wisdom to call our dear Brother John C. Mitchell, from his labors on earth to his reward in that celestial Lodge above; therefore, be in resolved;

1st. That in the death of Bro. Mitchell, who was made a Mason in Angust 1874, Boone Union Lodge No. 304, has lost one of its truest and most consistent memers; his children, a kind father; his neighbors, a faithful friend and his church a true christian.

2nd. That this Lodge extend to the bereaved family their sympathy in their sorrow; that a page be set apart in the record book of this Lodge as a memorial, and these tresolutions be properly engrossed thereon; that a copy be furnished the Boone County Recorder for publication.

Committee:—L. H. Voshell, Jas. A. Huey, Geo. H. Stephenson.

London motor 'bue drivers whe void accidents for a week receive a comes. They are fined for accidents.

Senator La Feliette, of Wisconsin, is no of the closest students of Shakepears in the senate and the only operaring in that body.

wegetarian in that body.

Consul Hanna, in Monterey, Menteo, reports a good demand for Amerjean musical instruments of the
cheaper variety, except planos. Highgrade planos are easy to sell there.

In the United States are \$50,000
acres of peanut land and 170,000 peanutters. Three hundred million
pounds of peanuts and and \$11,000,000,
are produced here every year.

The island on which Biddystone lighthouse stands is the smallest inhebited island in the world. At low water it is only 80 feet in dismeter and at high water the base of the lighthouse, which has a diameter of unit a little over 13 feet, completely towered by water.

only a fittle over a feet, compasses bovered by water.

It is admitted in the military world that Turkey's army is gradually assuming strength and endelency to such an extent that, as an ally to one of like larger powers, or independently, she will soon prove a formidable for Turkey's military progress—is mainly due to German influence.

It is estimated that 19,000 Russelans of all ages and ranke have taken retuge in Switzerland during the past year as a result of the unsettled state of affairs in their own country. Among these are members of the Russelan arisforacy, who have lost their fortunes during the strikes, and are now obliged to work for their living.

Out of 4.217 arrivals of all classes

Out of 4,217 arrivals of all classes I vessels from foreign ports at New ork last year the American flag flew wer 760 ships. According to figures were not at the barge office recently, given out at the barge office recently, 478 of the '690 vessels were steam pow-ered, six brigs and 246 schooners among the sailing vessels. In this time there were 2,844 steamships un-der foreign flags entered at the custom bouse, of which 1,355 were British

Frederick de Martens, who was one of the Russian commissioners at Ports-mouth, has just resigned the professor-ship of international law in the Uni-versity of St. Petersburg, which he has held for many years. Prof. da Martens is a member of The Hague court, is one of the most eminent authorities on international law, and has served as an arbitrator in the set-tlement of a large number of import-ant controversies. of the Russian commissioners at Ports

ant controversies.

No South American country has made such strides in every respect in recent years as the Argentine republic. For the first nine months of 1805 imports were \$155,651,409 and exports \$247,110,123, showing an increase of imports of \$16,889,197, and of exports of \$48,917,214, over the same period for the previous year. This enormous export trede was substantially all agricultural and pastoral, while the imports were miscellaneous.

ports were miscellaneous.

Among the wedding presents sent to Miss Alice Roosevelt was one from Abliene, Kan. Charles Parker made a tiny merry-go-round of the latest design, and decorated in white and gold, with a little gold-plated engine to propel the machinery. The horses are solly two inches long, but are perfect in every particular, and flaxen-baired dolls are the passengers. The toy will run as amoothly as any catry-us-all or carrival features, and was sent to Miss Alice with Mr. Parker's compil-mests.

The vitality and the induence of the Jews are one of the marvels of the smodern age. Persecuted almost everywhere, except in England and the United States, they still keep up their identity all over the world and increase in numbers. Without a government of any sort, and without a strength of the still be smooth to speak for them, collectively and officially, they wield a powerful influence in nearly overy povernment. Even Russia, through he cars and Premier Witte, is obliged to defer to the views of the Jewish Epsilon Carrows.

At Dalquiri, Cubs, the American Santiano battlefeld commissioner dedicated the monument erected in Situes troops in Culta in the sare et 1893.

FRENCH PRESIDENT

M. Clement A. Failieres Assumes Duties of Chief Magistrate.

remier Rouvier Formelly Handed the Resignation of the Cabinet To the New Executive—Reguested To Continue in Office.

New Executive—Recrested
To Continue in Office.

Parls, Feb. 19.—Clement Armand
Pallieres assumed the duties of preatdent of France, while former President of France, while former President Cubust passed into private life.
The ceremony of the transmission of
office took place in the Elysee palace
Sunday atteracon, while the crowds
were massed in the surrounding
strests shouted "Long live Fallieres,"
every military garrison in France
thundered assulte of 21 guns.
President Loubet, surrounded by the
members of his cabinet, the president
of the senate and chamber of deputies and the members of his military
household, welcomed M. Fallieres, and
in a few sernest words committed the
executive functions to the new president. The reply of M. Fallieres and
in carrying them out. MM. Fallieres
and Loubet both wore evening dress
with the broad scarlet sash of the
Legion of Honor across their breasts.
The presence of their military staffs
in full uniform gave a touch of brilancy to the scene within the palace,
while the secorts of culrransiers which
accompanied MM. Fallieres and Loubet to and from the palace gave fitting
dignity to the occasion.
Sunday evening Premier Rouvier
formally hended the restination of the
cabinet will meet. Tuesday—unoraingfor the first time in the estimatistation
of President Fallieres.

JOHN A. M'CALL DEAD.

Carl Joubert, the well-known writers on Russian subjects, is dead in London.

Cholers is raging in Scistan, Persia. The first time in the history of the first time in the history of the first time in the history of the state game laws, pleaded guilty and been fined \$20\$. The plea of guilty was entered by the owner of the state game laws, pleaded guilty and been fined \$20\$. The plea of guilty was entered by the owner of the state game laws, pleaded guilty and been fined \$20\$. The plea of guilty was entered by the owner of the fatted game laws, pleaded guilty and been fined \$20\$. The plea of guilty was entered by the owner of the fatted game laws, pleaded guilty and been fined \$20\$. Blown To Pleges, Near Wilkesberre.

Wilkesbarre, Pa., Feb. 19.—Four men were killed by an explosion which occurred in the Buttonwood mine, operated by the Parrish Coal Co. about two miles from this city. The explosion occurred in a small structure. known as a timberman's shanty located along the gangway a short died tance from the toot of the shaft. In this shanty was stored a lot of giant powder. A number of company hands were at work Saturday night in the mine and it is thought they went to the shanty to get worm and eat the lunch. The supposition is that the heat from the steam pipes signited the powder and exploded it. Three of the men were blown to pieces.

Complicity in Securing Alleged Fra

Savannah, Ga., Feb. 19.—Britt Rogers and John J. Garrity, heads of two city departments, were arrested on federal warrants charging them with complicity in securing alleged fraudulent maturalisation pepers for a number of Greeks and other foreigness whose names have recently been added to the registration of votera. Rogers and Garrity promptly gave bond in the sum of \$1,000. Pive more Greeks were also arrested. There are about 60 warrants yet to be served.

Anti-Jewish Riots.

about 60 warrants yet to be served.

Anti-swish Riberts.

Kieff, Russia, Feb. 19.—An anti-few-leh riot brote out at Vietta, a town of 6,000 inbaSitsate near Cornel. A large part of the town is in fames and troops have been sent thore from Comel. It is not known whether there were any fatalities.

were any fatalities.

Remains Laid To Rest.

Hoskilde, Denmark, Feb. 19.—in the magnificent old Co hic church here the body of King Christian IX, amid he thunder of, gurs, the sonorous tones of the organ and the blare of trumpets, was laid to yest.

TWITCHING NERVES

A Serious Hereditary Trouble Co By Dr. Williams' Pink Pills.

By Dr. Williams' Fruits Gored
Sufferers from ailments that have atflicted in regular succession one generation after another of their family are, as
a rule, inclined to submit to them as inevitable. The case which follows proves
that such harefulary difficulties are not
beyond the reach of oursitive forces and
should inspire hopefulness and a readiness to try remedies that have effected
signal cures, such as that which is here
given.

ness to try remedies that have effected signal cures, such as that which is here given.

Mrs. Elizabeth Rannells, of No. 406
East Seventh street, Newton, Kansas, gives the following account of her allment and her cure!

"For two years! suffered from a trying nervousness in my lower limbs from my grandmother had suffered before me. The situation was for many years accepted as unavoidable because hereditary. But about two years ago, when my non was realising benefit from the use of Dr. Williams' Pink Pills, I thought there might possibly be some good in them for me. My trouble had then become so serions as to make it difficult for mo to restice such as the serion as to make it difficult for mo to restice such as the serion as to make it difficult for mo to restice such as the serion as to make it difficult for mo to restice such as the serion as to make it difficult for mo to restice such as the serion as to make it difficult for mo to restice such as the serion as to make it difficult for mo to restice such as the serion as to make it difficult for mo to restice such as the serion as to make it difficult for mo to restice such as the serion as the serion as to make it difficult for mo to restice such as the serion a

UNDER WHICH KING?

The More Postum the More Food— The More Coffee the More

The Pres. of the W. C. T. U. in a young giant state in the Northwest

young giant state in the Northwest says; "I did not realize that I was a siave to coffee till I left off drinking it. For three or four years I was obliged to take a nerve tonic every day. Now I am free, thanks to Postum Food Coffee.

I am free, thanks to Postum Food Coffee.

"After finding out what coffee will do to its victima, I could hardly, stand to have my husband drink it; but he was not willing to quit. I studied for monthe to find a way to induce him to leave it off. Finally I told him I would make no more coffee.

"I got Postum Food Coffee, and made it strong—bolled it the required time, and had blim read the little book, The Road to Wellville, that comes in every pkg.

"To-day Postum has no stronger advocate than my husband! He tells our friends how to make it, and that he got through the winter without a spell of the grip and has not had a headache for months—he used to be subject to frequent nervous headaches.

"The stronger you drink Postum the more food you get; the stronger you drink coffee the more polson you get." Name given by Fostum Co., Battle Croek, Mich.

There's a reason.

WHITE HOUSE WEDDING

Witnessed by Largest Company Ever Gathered in the Mansion on a Similar Occasion

CEREMONY BRIGHT WITH BEAUTY

s Alice Lee Roosevelt, the President's Daughter, Now Wife of Congressman Nicholas Longworth.

The Venerable Right Rev. Henry Yates Satterlee Pronounced the Fateful Words.

The Services, Simple, Beautiful and in pressive, Attended With All the Spiender of an Official Punction.

occeveit Was the Tweifth Brids rding To Accepted Authori-a, To Plight Her Troth in the White House.

ties, To Pilipht Her Troth In the White Mouse.

Washington, Feb. 19.—Chortly after moon, in the beautiful white and gold estat room of the white house the vengrable Rt. Rev. Henry Tates Satterlee, bishop of Washington, of the Protestiant Episcopal church, pronounced the Section of the Washington, of the Protestiant Episcopal church, pronounced the Section of Washington, of the Protestiant Episcopal church, pronounced the Market Alice Lee Roosevet, eldestiant Alice Lee Roosevet, eldestiant the Section of the Presentative in congress from the First district of Ohio. The covernous—the simple, beautiful and impressive ring service of the Episcopal church—was attended with all the splendor of a grand official function and with all the devoluces beauty of a cathedral service. It was witnessed by one of the most brilliant and distinguished assemblages ever gathered in the witte house, by far the largest company which ever gathered in the escoutive mansion on a similar coossion.

A halo of a hundred years of romantic white house history hung over the bridge could be accepted authorities, to plight her troth within its classic walls, and the identical spot where she joined hands with the husband of her choice, is hallowed in the memory of another white house bride, beloved "Nellie" Grand, who 23 years ago on "Nellie" Grand, who 25 years ago on "Nellie" Grand, who 25 years ago on "Neli

Sort Often Presented.

A delicious meat pie is made with one pound of ham and one of veal as a foundation. Broil the veal. Silce the ham, cut the veal into neat triangles. Hard boil eight eggs, peel them and cut them in halves length wise. Chop an onion and fry it in a tablespoonful of butter until tender; add a cupful of mushrooms cut in quarters and a tablespoonful of minced celery, the same of minced parsley and a heaping eatispoonful of flour; cook, siirring continually; for three minutes; and sibuly a pint of beef, veal or chicken sayun stock, continuing to stir. Put. the ham and veal into this gravy, let them heat, no more; then arrange the meat in layers in a baking, dish, placing the hard-boiled egg baives at regular intervals; pour the boiling gravy over, cover at once with a good paste and bake for 30 minutes or a half hour in a good oven. When the contents of the pie dish are hot and fhe crust in quickly laid over snd the jep ut to bake immediately, the crust rever sours the grayy—Farmers' Review.

DAME THRIFTY'S SCRAPBOOK.

Better than dicing apples to be used in celery-apple salad, we like the idea of grating firm tart apples into the mayonnaise dressing and pouring it upon the celery which has been quite finely shredded.

If you wish to cool down a hot oven which has reached the scorching point you can do so by placing in it a dish of cold water. The temperature will lower quickly.

To clean soiled furs of a dark color, rub hot sawdust or hot sand into them. Beat it out with a light stick. Repeat the process several times. Then brush or comb the fur and it will look like new.

When we want creamed potatoes to be especially nice we boil fresh postatoes and cream them while still warm. They are much better than when cold left-overs are used.

When hot grease is spilled upon a floor, cold water should be thrown upon it at once. This prevents the grease striking into the floor and leaving a permanent stain.

Many a backache on the part of the cook results from working over a cooking stove which is too low, it should be aget upon a box or on bricks.—Farmers' Review.

Chicken Fritters.

Take a cold chicken or a turkey and remove all of the meat from the bones; dip the pieces in batter and fry in hot fat until a light brown. Serve hot, Egg and bread crumbs may be used instead of the batter if desired.

The Camp was one of the work when the Camp was not at Hamilton by a conveyance and brought to the hall. Supper was in waiting at J. S. Moore's where all partock hearting. It was rather late when Bro. Elliott arrived from Waiton, but after he came he went into the work with his soul, in waiting annious to receive the mysteries of this higher branch of Odd Fel lowship, and from their appearance in the stillness of the morning and the bright sunshipe, they must have gone up against it real hard.

000 PETERSBURG.

PETERBURG.

The most enjoyable party of the season was given by Mr. and Mrs. John Botts, on the 17th Inst, in honor of the 14th hirthday of their beautiful and popular daughter, Miss Flossie. Miss Flossie a very admirable type of young womanhood, bright and vivacious in disposition and ever ready for a freely make bers. desirable leader in any social circle she enters.

With three or four exceptions the young guests were about 14 years of age. In looking over them when they were assembled in the parior, I decided to chalenge any community of mother earth to produce seventeen more beautiful and refused daughters, and thireen handsomer and more gallant sons than constituted the guests of this even in the production of the production of the earth to produce seventeen more beautiful and refused daughters, and thire handsomer and more gallant sons than constituted the guests of this even in the production of the earth o

Ining.

The young people spent five hours in the unremitting enjoyment of several of the historic old plays our grandparents use to engage in. During the evening the sgreeable hostess invited her young gnests into the dlining room and refreshed them with delicious ice-

BREADS AND BISCUITS.

Welcome Change from Wheat Br

And Boston-Brown.

Rye Bread.

Put two quarts rye flour into a sione jar; stir into it one cup yeast (or one cake, dissolved in water), two teaspoonfuls sait, and enough water to molaten well; let rise over night in warm place; in the morning stir. It down well; do not add more flour, but put into well-buliered paus as soon as light. Bake in slow oven.

Boston-Brown Hread.

Sift together three cups cornment, two cups rye flour and one cup wheat flour; mix three cups sour milk and one cup New Orients molasses, two even teaspoonfuls soit, and 1½ teaspoonfuls soid, the soid a having been dissolved in a little warm water. While mixture is effervescing, pour it into the flour, beating intil amooth Greass a pudding holler (or one-pound baking powder cans), pour in the batter, filling only to within two incies of the top; cover closely and place in a kettle of hotling water; let steam four or flue bouts.

Cream Biscuit,

Mix two heaping teaspoonfuls of baking powder with four cups flour and one level teaspoonful of sait; add lump of butter the size of an egg and enough cream to make soft dough; roll thin, cut out, and bake in hot oven.

liump of butter the size of an egg and enongh cream to make nort dought; roll thin, cut out, and buke in hot oven.

Soda Biacutt.

Mix two teaspoontuls cream of tartar with one teaspoontul soda, silr it well into four cuprisis flour; and a heaping tablespoonful of butler, or lard, and a little sait; mixing all together quickly with enough milk, or onlik and water, to make a noft dough; roll out, cut, and bake quickly.

Mix two heaping teaspoonful fake, and the present of the control of the contro

GOOD VEGETABLE SOUP.

Spinach Is Not Often Employed for Soup, But It Is Wholesome and Palatable.

Soup, But It is Wholesome and Palatable.

One quart of spinach, two quarts of milk, one ounce of butter, flour and seasoning. Wash and trim one quart of green spinach, put it in a saucepan holding at least three quarts of boiting water, and three tablespoonfuls of asil. Boil it rapidly, with the cover on until it is leader, which will be from three to seven minutes, according to the age of the spinach. While it is boiling, press it under the water with a wooden spoon. As soon as it is tender, drain it in a colander, run-plenty of cold water over it from a faucet. Chop fine and rub it through a sieve with a wooden spoon. While the spinach is boiling, prepare the soup as foi food water, to prevent burning. Mis together, over the fire to boil, first putting into the kettle agil of cold water, to prevent burning. Mis together, over the fire, an ounce of butter and an ounce and a half of flour until they bubble, then gradually add the boiling milk. Season it wiff a level tablespoonful of salt, half a teaspoonful of white pepper and a quarter of a saltspoonful of grated nutmeg. When the broth is done, stir into it delicate green and serve bot.—Chicage luter Ocean.

Suggestion for a Window.

For that double window which is built almost up to a neighboring brick wall, hang your sash entrains almost without fullness and embroider or apply an arched design of flowers or leaves over the top of them. They will be in one piece for each window and should be of white to let in all the indight possible without having to draw them. Simple, undeached unwillin may be used, and an applique linen design may he put on with embroidery liner is bold stitches. Or, a simple cretonur may be used. The whole point is to bring the design up where it will be the most effective by making it in a shallow arch near the top.

i-Oh, I don't know. Many a man married because he hasn't, the tage to back out.—Cassell's.

Extra Army Rations.
All European armies have certain catras weekly lo tho way of food. Sugar is given in Engisen and France, two gallons of beer in Russia, teilt a gallon of wine. In: Littly three pounds of fish in Spain, and five ouncess of bitter in Belgium.

Early Start.

Sir Oliver Lodge, whose name is famous in connection with psychical research, was put in business at the age of 14.

Wise Girl.

"So she married that awful Jack Rounder? Why, didn't she know that he had been blackballed by every club in towar? "Yes-that's why she took bim. She thought there'd be some chance of keeping him at home evenlugs."—Cleyeluad Leader.

High Finance.

It is tight finance when the law isn't samet enough to catch you.—N. Y. Press.

Chief Rabbi Meil, of Trieste, recently completed 50 years' tanure of omce. The jubilee was celebrated in all the synagogues. The chief burgomaster personally tendered his congretulations to the chief rabbi.

Artificial Ears.
Burtsell Roe, eight years old, who was born without ears, has been fitted with a pair at Bowling Green hospital, Toledo, O. He always possessed the sense of hearing.

NEW FOOD LAW

People now demand the right to know exactly what they eat.
To be told by maker or retailer that the food is "but maker or retailer that the food is "but mot satisfactory.
Candy my contain "pure" white clay or "pure" dyes and yet be very harmful. Syrups may contain "pure" glucos and yet be quite digestible and even beneficial. Tomato castup may contain a small amount of salicylic or boracle acid as a necessary preservative, which may agree with one and be barmful to another.

other.

Wheat flour may contain a portion of corn flour and really he improved. Offive oil may be made of cotton seed oil. Butter may contain beef suet and yet be nutritions.

nutrilions.

The person who buys and eats must protect himself and family, and he has a right to, and now demands, a law under which he can make intelligent selection of food.

right 10., and now demands, a law under which he can make intelligent selection of food.

Many pure food bills have been introduced and some passed by State legislatures; many have been offered 10 Congress but all thus far seem objectionable. It has seemed to be the selection of the seemed of the selection of the seemed of the seemed objectionable. It has seemed the selection of the seemed objectionable in the seemed objectionable of the seemed objectionable. It has seemed objectionable in the seemed objectionable of the seemed objectionable in the seemed objection of the seemed objection of the seemed objection of the seemed objection objection of the seemed objection objection objection objection objection of the seemed objection ob

The remaining sectious explain themselves.

The Postum Cereal Co., Ltd., for example, have from the leginning of its existence printed on the outside of each and every pky. of Postum and Grape Nuts food a truthril and exact statement of what the consumer might know precisely what ho or she was enting. A personnel sering in the part of the consumer might know precisely what ho or she was enting. A personnel sering in the precise and the precise and the precise has a right to expect not only an equivalent for the cost but a further right to a certainty as to what he eats. Or he may be willing to buy at less cost a jelly made part of fruit juices, sugar and a portion of glucose. But he must be supplied with truthful information of the ingredients and be permitted to use his personal liberty to select his own food accurately.

personal liberty to select his own rood accurately.

The people have allowed the slow murder of infants and adults, by tricky makers of food, drink and drugs to go on aboul long enough. Duly to oneself, family and nalion demands that every man and woman join in an organized movement to clear our people from this blight. You may not be able to go personally to Washington to Impress your. Congressmen, but you can, in a most effective way lell lifm by letter how you desire him to represent you.

Remember the Congressman is in Congress to represent the people from his district and if a goodly number of citizens express their views to him, he seems to be a season of the the season of the the season of the the season of the the season of the few for selfish interiors.

people be carried out, and not the machinations of the tew for selfash interests.

This pure food legislation is a pure movement of the people for public protection. It will be opposed only by those who fatten their pockets by deceiving and injuring the people. Therefore, if your Representative in Congress swades his pairbotte duty hold him to strict account of the congression of the congression. Several years ago the hutter interests of the country demanded legislation to the Congression. Several years ago the hutter interests of the country demanded legislation to the congression. Several years ago in hutter interests of the country demanded legislation to the congression. Several years ago in the future interests of the country demanded legislation to the congression of the country and by power of organisation forced the legislation. The law should have provided that pigs. of oleomagarine bear the statement of ingredients and then let people who desire purchase it for heavy tax. Manufacturers sometimes try to force measures in their own interests of the people and the labor trust is always active to push through bills drafted in the interest of that trust but directly contrary to the interests of the people as a

whole. Witness the anti-injunction bill by which labor unions seek to the the hands of our courts and privent the issue hands of our courts and privent the issue hands of our courts and the most in the members of the trust of the trust of the property. Such a bill is perhaps the most infamous insuit to our courts and the common people ever laid before Congress and the Representatives in Congress must be held to a strict accountability for their acts relating the state of the property of the people and the representatives be instructed by the citizens. The Senators also should be written to and instructed. If, therefore, you will remember your privilege and duty you will at once—now—write to your Congressman and Senator on this pure food bill. Clip and enclose the copy herewith presented and ask thom to make a husiness of following it. Urre its being brought to andering it. The structure of the propersive in the condendation of the propersive in the propers

TEXT OF PURE FOOD BILL.

If it meets approval cut it out, sign name and address and send to your representative in congress. Buy two or more publications from which you cut this. Keep one for reference and send the other to one of the U. S. Senators from your State. Ask one or two friends to do the same and the chances for Pure Food will be good.

A BILL

TO REQUIRE MANUFACTURERS AND SHIPPERS OF FOODS FOR IN-TERSTATE SHIPMENT TO LABEL SAID FOODS AND PRINT THE INGREDIENTS CONTAINED IN SUCH FOODS ON EACH PACKAGE THEREOF.

TO REQUIRE MANUFACTURERS AND SHIPPERS OF FOODS FOR INTERSTATE SHIPMENT TO LABEL SAID FOODS AND PRINT
THE INGREDIENTS—CONTAINED IN SUCH FOODS

ON EACH PACKAGE THEREOF.

Be it enacted by the Senate and House of Representatives of the United Slaies of America in Congress assembled That overy person, firm or corporation engaged in the manufacture, preparation or compounding of food for human, consumption, shall print in plain view on each package thereof made by or for them shipped from any State or Territory, or the District of Columbia, a complete and accurate statement of all the ingredients, together with, the announcement that said statement is made by the authority of, and guaranteed-to-be accurate by, the makers and she by the authority of, and guaranteed-to-be accurate by, the makers and she had be the said ingredients, together with, the asin of less than that known as eight point, and in the English language.

Sec. 2, That the covering of each and every package of manufactured, prepared or compounded foods shipped from any State, Territory or the District of Columbia, when the food in said package shall have been taken from a covering supplied by or for the makers and re-covered by or for the sellers, shall bear upon its face or within its enclosure an accurate copy of the statement of lagredients and name of the makers was printed, and such statement and lash obser the name and address of the person, firm or corporation that re-covered such food.

Sec. 3, That it shall be unlawful for any person or persons to purposely, wilfully and maliclously remove, aiter, obliterate or destroy such statement of ingredients appearing on packages of food, as provided in the preceding accions, and any person or persons who shall violate this section shall be guilty of a misdemeanor, and upon conviction shall be fined not test than one bundred dollars nor more than six months, or both, in the discretion of the court.

Sec. 4, That the Bureau of Chemistry of the Department of Agriculture shall make necessary rules and reg

THE COST OF REVOLUTION

Tuestions involved, a matter of much laterest connected with the recent proletariat strike in Russia has been the problem of the cost of the resultant distribution of the cost of the resultant disturbances in terms of money, and upon this matter most interesting light has been thrown by the publication in The London Statist of the cost of t

Queer Spot in Ireland.

Among the many odd nooks and corners and crannies of the suld emeraid laie is Carrick-a-rede, on the Great.

Northern railroad of Ireland. It is an isolated rock, separated from the mainland by a chasm 60 feet wide and more than 80 feet deep, and it is at this place that the sailgon are intercepted in their retreat to the rivers. A rude hridge of ropes is thrown across which remains during the fishing season, and this hridge, which is protected by a single rope rail, swings about-in the most unconfortable manner, often rendering, it a dangerous fent in stormy weather, save to the natives, who cross it with the utmost indifference. The name is derived from "Carrig-a-ramhadh" (the rock in the road) on account of the intercepting of the-salmon. Near by, on the west side of the Island, is a cavern in which have been found the bones of horse, ox, deer, sheep, goat, hadger, water rat and of several kinds of birda.

Use For Over Thirty Years

A Positive CATARRI ly's Cream Balm

Gov. Pattison, of Ohio, is a very sick man, and his friends are apprehensive of the worst.

John Watkins, a negro confined in jail at Owingsville, charged with murder, committed suicide by hanging, last Sunday.

The cigarette had friends enough in the legislature to pre-vent any proposed legislation against its use in Kentucky.

A New York man just return-ed from the Philippines says the natives have an aversion to work. They are preparing to enter poli-tics, perhaps.

A BILL has been introduced in-to the Rhode Island legislature making it impossible for any per-son to secure a divorce in that State on any ground whatever.

There is an effort being made in the legislature to abolish the school trustee system, and to substitute therefore a county school board. The Superintendent of Public Instruction is said to favor it.

There has been considerable talk during the present session of the legislature about establishing a new county or two, but there appears to be enough level-headed members to defeat all such unwarranted legislation.

Hon. J. W. Cammack, of Owen county, is the Ben Tillman of the Kentucky State Senate. Every few days he springs something that makes other members "shake in their boots" as it were. Cammack is able, fearless and aggressive.

That fellow who submitted to the thirty-third amputation of his leg in a New Jersey Hospital, a few days ago, has certainly been in politics quite a while, else the limb would not have furnished material for so many amputations.

cretion of the jury, and shall be liable for damages to the owner of the Eleventh Oho district, was defeated for a renomination at the Lancaster convention, last wednesday. The younger element went after the old gentleman's scalp and they took it in great shape. One ballot was all that was required to do the job. Grosvenor has been a member of Congress for twenty years and thought that he was invincible in his district, but the young men turned the trick before the old man realized that there was any danger ahead of him. Good bye, Charles, you can now take your place among the "has beens."

Representative Barry made a mistake when he resigned from the investigating committee appointed by the Speaker under his resolution. It is evident that the committee was set up against him, but he had the advantage of being its chairman, and had there been any damaging disclosures made against any of the departments of the State he could have gotten the evidence before the public which would have arrived at a proper verdict, no matter what the finding of the committee what the finding of the committee may be in the state of the committee and justified his own course. The unusual stir that his resolution created has caused many to believe that the State administration is afraid of an investigation, and should the committee as it is now constituted fail to find anything wrong the cry of "white wash" will be heard all over the State, no matter how honest and impartial the committee may be in its efforts to unearth anything that is crooked at Frankfort or that eminated therefrom. Everything having been conducted according to law in the various departments, the administration ought to court a full and fair investigation, allowing all factions a representation on the committee as the state of the total and the administration come out without a doubt being raised as to its honesty in every particular in case a report is favorable to it. If an investigation is to be started let it be one that will investigate.

The Dog Law.

The Dog Law.

The dog law, which has passed both branches of the Legislature and which will become a law by June, is quite comprehensive. The following are some of its provisions:

Every dog over four months old shall be taxed.

inside material for so many amputations.

It is understood that Senator Mat Harbeson, of Covington, will be appointed to the new circuit Judgship in Kenton county, for which the legislature has provided. It may be that the constitutionality of the act will be tested.

Senator Tillman and President Rosewell are publing together in the matter of railroad rate legislation, and the Senator has been given charge of the bill in the Senate of somewhat to the chargin of some of the Republican members of the committee.

Pittsburgers elected a Democratic Mayor, last Tuesday, very much to the surprise of the entire country, as it had long since been given up that Pittsburg was clear beyond redemption, politically. Political surprises are the order in this good year 1906.

Whisky made out of sunflower seeds has a very bad effect, as is evidenced by the statement of a Topeka, Kansas, editor, that he saw a quarter of a dozen of large rattle snakes on the street of that city a fewdays ago. That editor would better send to Kentucky and get an invoice of good whisky.

The growing crop of wheat is so promising that there is amarked downward tendency in the price in western markets. We do not like to advise our readers what to do with their surplus but if they should ask us what we would do if we had any tosell, we should tell them we would let it go soon.—Indiana Farmer.

The Paris Kentuckian-Citizen celebrated its 100th anniversary, last Thursday. The first editor of the Kentuckian, which was established in 1806. The two papers were merged in 1886. Champ Bruce is now the publisher of the Kentuckian, which was established in 1806. The two papers were merged in 1886. Congressman South Trimble's bill-providing penalties for adulteration of grass seeds, already indorsed by Secretary Wilson; of the Bureau of Agriculture, will be given impetus by a bulletin issued Wednesday by the department relative to an investigation of adulterations of orchard grass, bluegrass, clover and alfalfa seeds.

the pipe line companies.

A STRIKE on the part of the farmers or any considerable number thereof would be something entirely new in this country, but preparations are being made for such a happening tomorrow, and a meeting of the American Society of Equity has been called for Indianapolis, Ind. This society is composed of 200,000 farmers, and everyone who responds to the call—it is said, will agree to withhold from marketing any agricultural products excepting at prices that are up to the level that has been decreed equitable by the officials of this organization. The wheat growers constitute the branch to lead in strike, and if they are successful, other branches of agriculture will be expected to follow suit. If the farmers go on a strike for sure something will be heard to 'drap."

In a statement issued last Sun-

An excellent judge of horses contributes the following to the Kentucky Stock Farm on judging:
"In judging a horse always begin with his feet; look carefully up from each foot to the knee or hock before you look any higher. A horse without the best of feet and legs is unfitted for a sire no matter how handsome his head and body. A tough, flinty hoof, indersed by Secretary Wilson; of the Bureau of Agriculture, will in the section of adulterations of orchard grass, bluegrass, clover and alfalfa seeds. A confiding the section of adulterations of orchard grass, bluegrass, clover and alfalfa seeds. A confiding the section of adulteration was secured by the department or request of the first information was secured by the department or request of the first information was secured by the department or request of the first information was secured by the department or grass in worther of the section of the sec

Trimble county politicians will demand that the next call fixing the time and manner of nominating a Democratic candidate in this district for Congress, embody a clause prohibiting the use of money, whisky or other property by candidates in their canvass. There is no necessity for any radical changes in the next call, as there is but one person's name it is necessary to consider in connection with the next nomination—that of Hon. Joseph L. Rhinock, who will be nominated by acclamation. But when the time for the canvass after that arrives then look out for scrappy doings.

NOTICE.

In a statement issued last Sunday night at Indianapolis by Vice Presidest T. L. Lewis, of the United Mineworkers of America, he declares that there will be no atrike of the Mineworkers on the first of April, as the operators will restore the reduction accepted by the miners two years ago, and perhaps more.

The fate of Grosvenor, of Ohio, is another example of what the young politicians do for the old fellow when they decide to put an end to his career.

They are having a lively time in Louisville trying to get the Sunday lid properly adjusted.

Stop at Smith's and get something

English sparrows are very busy with their spring building.

John Glore, of Hebron, was Burlington, one day last week.

It did not take the ladies long to exhaust the supply of flower seed.

Both the banks observed Washington's birthday, by closing Thursday.

D. E. Castleman is having a two tory wash-house erected near his

For Sale—Several Light Brams cockerels. Apply to L. S. Beemon Limaburg.

M. J. Corbin, a Bellevue mer chant, was looking after business in Burlington, Friday.

Mrs. Belle Brady went home with Miss Julia Dinsmore, last Friday, to spend a few days.

Last week Chas. Craven had the worst trip of the year over his rural route with his produce wagon.

The jail has a very clean appear ance on the inside since Ed Hawes went over it with paint and brush.

County Clerk Adams made a tour of the Big Bone country, last week, and visited the hoped to be oil well.

Mrs. Eliza Riddell, of Bellevue, and her daughter, Mrs. Carrie Set-ters, of McVille, spent last Friday in Burlington.

The RECORDER was slightly wrong, last week, as to the age of Mrs. Eliza Beemon. She lacked 18 days of being 87 years old.

Geo. M. Moore, of Beaver, wraises a little tobacco occasional sold 16,000 pounds, recently, to C. Hughes at 74 cents a pound.

Lawrenceburg merchants are pleased with the announcement that a new ferry boat will be in operation at that point by April I

The turnpikes were in very bad shape in many places, last week, and heavily loaded wagons had considerable trouble in going over them.

The rural mail did not go out last Thursday, Washington's birthday, which is one of the days the carriers are directed to observe as a holiday.

Johnnie Duncan left last Friday morning for Hickman, this State, where he will have charge of R. A. Taylor's stable of trotting horses this year.

Z. T. Kelly, of Rabbit Hash neighborhood, was in town last Friday, closing up a real estate deal with H. D. Brady, of same neigh-borhood.

Mrs. J. G. Furnish and two child-ren, Master Joe and Sarah Gayle, of Covington, visited her father and mother, Mr. and Mrs. J. C. Revill, of this place, several days last week.

J. M. Conner, of Cincinnati, called on the Recouper, last Thursday. In another column he has something to say in regard to the lamb trade the approaching season.

R. H. Sandtord, of Covington, was in Burlington, last Friday. His looks begin to indicate that he is no spring chicken. He met sev-eral of his old friends while here.

John L. McAtee, son of James, McAtee, who lives near Waterloo, this county, is a professor in a col-lege in Blackwell, Oklahoma, to which to which city Rev. M. D. Early has accepted a call to preach.

Dr. W. H. Blanton, of Erlanger, is staying with his nephew, Dr. J. G. Furnish, of Covington, who is treating the old gentleman's very sore hand, resulting from what at first was considered an insignificant

injury.

J. L. Kite, of Waterloo, had business at the hub, last Friday, and called in and stocked up with flower seed for his good wife, who will give them a splendid opportunity to show their value as producers of the ornamental.

R. E. and Geo. M. Moore, of Beaver, were among the visitors to Burlington, last Friday, and met Menter Martin, of Bullittsville, of whom they bought three bores, R. E. buying a two year old for \$100, and Georgea team of aged mares for \$300.

Several of the farmers about town have been heard to complain of corn disappearing from their cribs in considerable quantities in the last few weeks. It is said, also, that the poultry yards are not exempt from nocturnal visits from unknown pattles who swipe chick-

Prightfully Burned.

Chis. W. Moore, a machinist, of Ford City, Pa., has his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual result: 'a quick and perfect cure.' Createst healer on earth for Burns, Wounds, Sores, Eccema and Piles, 25 cents at all drug stores.

Has Resigned.

Has Resigned.

Rev. M. D. Early, who has been preaching for the Bullitaburg and Burlington Bapties churches for about two years, has resigned to accept a call made by a church in Oklahoma. Mr. Early has many friends who will be sorry to see him leave. He will preach once more in Burlington.

orgetown News and Democrat

Georgetown News and Democrat Having one of the best equipped printing offices in the State as well as the best processe mad a there is no reason why the News and the Democrat should not be among; if not, of the nestest printed papers in the State. There is no reason they should not be and every reason they should not be and every reason they should be and must be. And that is what you are making them, Bro. "Gainsey," old boy.

Salt Well at Big Bone

Sait Well at Big Bone.
Some time last year G. L. Miller, of Big Bone, was digging a well at his residence, when he struck a strong yein cit water that is not fit for domestic purposee, and the well was abandoned. Two gallons of water from the well boiled down produces one pint of a substance which is very salt, seemingly mixed with one or two other substances of a peculiar taste. Mr. Miller ought by all means have the water analyzed.

Who Can Furnish the Information

Who Can Furnish the Information?
Carrollion, Ky., Feb. 24, 1906.
To the Boone County Recorder:
Dear Sirs:—Please give me the
address of Ben Mathewa(or Mathias)
He has a brother Joe. They were
out in the Confederate Army. Lafe
Wilkey was out with them. WereKentucky Bables, Missouri Men. I
think Ben is somewhere in Kansas.
Yours Respectually,
S. S. WALDROP.

Turned Flip-Fleps.

Turned Flip-Fleps.

A colored boy and a colt he was riding gave an amusing performance in the toad near the crossing at the creek south of town, one day last week. The boy's teet cut the latest styled pigeon wing in the air a considerable distance from mother earth, after which he lit, and found himself lying full length in a composition of mud and water about 4 inches deep. His clothing and mouth gathered all the mud they could carry, and by the time he got straightened out he decided that of rough riding he had enough.

A Fortune in Sweets

A Fortune in Sweets.

They say that James L. Clore and John Baidon are arranging to leave for Southern Georgia in about three months, where they will invest all their capital and devote their entire time and energy to the bee business. They want to secure the services of 500 boys between the ages of 10 and 14 years to capture lightning bugs for them. They will cross the bees on these bugs, and the offspring will be provided with a lantern that will enable it to work at night as well as in day time when the honey harvest is large.

Daugherty-Hogan Wedding.

Daugherty-Hogan Wedding.

Miss Anna Hogan and Mr. Chas.
E. Daugherty, of LaPlatte, Missouri,
were married in Cincinnati, one
day last week. The bride is a daughter of the late David and Jane Hogan, of this county, and had lived
with her sister, Mrs. John J. Rice,
in Kansas, for about two years last
last. She came to Kentucky a few
weeks ago to visit her sister, Mrs.
Asa Cason, and last week Mr.
Daugherty appeared on the scene
when they hied themselves to Cincinnati and were married. The
groom is a nice looking gentleman,
and is reputed to be a well-to-do
and successful farmer.

Died of a Broken Heart.

Died of a Broken Heart.

A dispatch from Winchester, this
State, dated F-bruary 21, says: Mrs.
Betty Timberlake was buried here
today. Her death occurred early,
Monday morning of a broken heart,
it is believed. Her husband, Wm.
Timberlake, died two weeks before.
He was 79 years old and she 72.
They had been married for over 50
years. She was the daughter of
Judge Richard French, formerly.
Circuit Judge, member of Congres
and candidate for Governor in this
state, and a woman of more than
usual brilliancy and accomplishments. For many years the yersided in Kenton county, and had
many friends in Covington and
Cincinnati. Two children, Miss
Mary, unmarried, and Mrs. William Hogue, of Frankfort, survive
them."

Mr, and Mrs. Timberlake lives

The Yellow Every Germ.

has recently been discovered. It bears a close resemblance to the malaria germ. To free the system from disease germs, the most effective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria poison and constitution. 25 cents at all drug stores.

A spirited campaign is preceding the election of officers for the Kun-tion Oronty Agricultural Associa-tion. The notices sent out to the stockholders say, the election will be held at Erlanger, March 2d, at 7:30 p. m., for nine directors.

Everett Aylor was able to come over in town, one day last week, the first trip he has made in a long time. He is improving gradually, and in the next few months his friends expect to see him fully re-stored.

The country is full of food for stock. Hundreds of shocks of fod-der are standing in the fields and will not be touched until they are hauled out to be thrown in washes or on scalded points.

The rain last Saturday evening was accompanied with vivid light-ning and loud peals of thunder. Several telephone boxes were put out of commission by the light-ning.

Horace Hewitt, the Aurora sew-ing machine man, planted an ad-vertisement in the RECORDER, last Monday, while in town. It will be to your advantage to read it.

In another column will be found the advertisement of Dr. N. F. Penn, with Motch, Jeweler, Madi-son Avenue, Covington. Give him a call when in the city.

The RECORDER has been requested to publish the road law, which it would do readily, if it had the several acts digested so as to know what the law is.

Nothing exciting from Big Bone oil field this week. The work of sinking wells is progressing nicely, but no oil has shown up yet.

The dog law exacted by the leg-islature repeals the present Boone county law under which dogs are taxed to raise a sheep fund.

Mr. T. D. Jackson went to Owen county, last week, to spend several days with his numerous relatives there.

The Petersburg public school will

give an entertainment for the benefit of the school, March 2nd, 1906.

At Smith's Drug Store, Walton you can get any late magazine— March numbers are now out.

W. H. Moore, of Hathaway neigh-borhood, was transacting business in Burlington, Monday.

T. A. Huey, of Big Bone church neighborhood, was a caller at this office last Monday.

Mr. Gibson sold his large crop of tobacco to the Rising Sun buyer, last week at \$9.25.

John Sommers, of Gunpowder neighborhood, was in town Mon-day.

Menter Martin bought of Gilly Weisickle two horses, last Monday.

L. S. Beemon will have a tele-phone put in his residence.

Be Careful, Boys.

While every one reading this article knows well my disposition in regard to any line of business, it is not my object to bear any trade.

I am just home from a tour of the East, and the general opinion is that our sheep and lamb trade will not be what many have anticipated for the coming easton. Many estimate from two to three hundred thousand more lambs than last year, besides we have a heavy crop of western fed lambs to dispose of through March and April, and they are being marketed daily, in every eastern market, and it looks like there will be a full sufficiency to supply every market. Many Ohio and Michigan feeders are well stocked, and are ready to unload at a much lower price than they were a few weeks ago.

I was at Pittsburg Monday, the 12th, where they had 20 double decks on the market, and they were selking good, handy weight, fed lambs from 7 to 7.40, just such lambs as we. sold on our market one month ago, at &c. Their mark ket should be fully 40c higher than the Cincinnati market. I saw Mr. Timmerland, of Pittsburg Provisien Co., buy 4 double-decks, near 1,000 head, at 7c. They were very fine and good weights, while some of the best buyers held out of the market, claiming the price was too high. I was shown a message from Buffalo, stating that a Philadelphia house had bought in Buffalo still cheaper than they were selling in Pittsburg.

While I think our Kentucky lambs will meet a good, fair market, especially if their quality is good, we must remember last year's prices as unusual, and I feel we will remember that last May there was two shipments of California lambs received in Chicago and dstributed to eastern markets, and they failed to prove satisfactory. Now I have, from good authority, that some of the best slaughterers of New York have agents in California to dress these lambs there and ship them in cold storage. We cannot tell to what extent they may operate forward sparing lambs if it should prove profitable.

The dog law.exacted by the legislature repeals the present Boone county law under which dogs are taxed to raise a sheep fund.

The first of March is here again It does not look like it has been eleven months since March took a back seat the last time.

Mrs. Susan Kirkpatrick and family are moving, today, to the house recently vacated by Ezra Aylor, out on the Florence pike.

Rain would descend more equally upon the just and the unjust if the unjust did not swipe so many of the umbrellas.

There has been no deep freezing of the ground this winter, neither have there been any hard rains to pack the land.

James Hedges, who has occupied W. F. McKim's residence ever since he moved to Latonia, moved to Walton, yesterday.

According to the Rising Sun papers the city is overrun every day with tobacco wagons, many of them from Kentucky.

There has been some very fine weather for sowing grass seed, and many of the farmers take advantage of it.

Lystra Smith and wife, from over on Ashby Fork, were guests of their daughter, Mrs. Irvin Rue, last Sunday.

There'does not seem to be any great amount of business accumulating for April term of circuit court.

After 15 years of more or tess serious consideration of the subject the senate passed a pure food hill by the decisive vote of 63 to 4. The hill makes it a misdemeanor to manufacture or sell adulterated or misbranded foods, drugs, medicines or liquors in the District of Columbia, the territories and the insular possessions of the Linited States and prohibits the shipment of such goods from one state to another or to a foreign country. It also prohibits the receipt of such goods. There is a heavy penalty stated.

Senator Morgan made a report on the sanitary treaty between the various American republics and in executive session of the senate stated that it was desirable to bave a treaty ratified at an early date. The agreement between these republics will have a hearing on the passegs of a national quarantine law.

The house committee on hanking and currency decided to report favorably on the hill enabling national banks to lend to one-borrower 10-per cent, of their surplus as well as 10 per cent, of the

anthractic mines by railway combinations.

Representative Esch (Wis.) introduced a hill to prevent common carriera- and officers- of common-carrierfrom having any interest in companies engaged in minhg, manufacturing
or trading in any commodity trans
ported by such carriers.

The house passed-the Mussel Shoals
dam bill. It permits the creation of
an immense water power on the Tennessee river in Alabama and has been
pending before congress for several
years.

By a vote of 8 to 5 the sense com-

pending before congress for several years.

By a vote of 8 to 5 the senate committee on interstate commerce agreed to report the Hepburn railroad rate bill without amendment, but the resolution adopted reserved to the members of the committee freedom of action concerning amendments offered in the senate.

On the 22d the senate passed the anti-hazing bill. The bill gives authority to the secretary of the navy to dismiss at any time a midshipman whose presence he considers for any cause contrary to the best interests of the service after a trial by court-martial.

Without opposition the house on the 23d passed the Tillman-Gilleaple resolution, directing the interstate commerce commission to make examination on the subject of railroad discriminations and monopolies and report on the same from time to time.

Miscellaneous Items.

The bridal couple, Congressman and Mrs. Nicholas Longworth, started on the 19th for a trip to Cuba and arrived at Port. Tampa Flas, on the 20th when they sailed for Havana. A large crowd met the happy couple at the station on their arrival Mrs. Longworth was presented with a magnificient floral design emblematic of the friendship of Cuba for herself and her father.

Mr. and Mrs. Longworth arrived in Havana on the 21st and were welcome do by the citizens. Later they were taken to the country residence of the American minister, Edward V. Morgan. On the 22d the white house bridal couple were given an ovation during a gain performance at the National theater, Havana, given in their honor. "I can say authoritatively that Congressman Longworth will be a candidate for renomination for a third term in congress this fail," said former Mayor Fleischmann, of Cineinnati. "I know that his ambition for the future its along legislative lines."

OF EDUCATIONAL INTEREST.

Yosaburo F. Sugita, of Tokio, has been given the chair of language and lit-erature of Japan at the University of Notre Dame. He is the son of a swealtby Japanese coal merchant. He is 20 years old, speaks and writes English finently, is a hrilliant French conversationalist angin bearing is studious and thought-ful.

any, in bearing is studious and inoughtful.

The New York Society for the Protection of Italian Immigrants, says the School Journal, has taken steps to establish schools among the Italian labor camps of New York, Pennsylvania and New Jersey. The intention is to interest local authorities so that they will support the schools when once established.

set local authorities so that they will support the schools when once established.

A movement has been started by the Japanese in Vancouver to provide schools in which their own language shall be taught. There are several hundred Japanese employed in and about the city, many of whom have large families. As many of these people expect to return to Japan, they are annious that their children shall acquire a knowledge of their own language.

If has been decided by the trustees of the Carnegie institute in Pittaburg to name the school of domestic science and nart for women of the new school of technology the Margaret Carnegie School for Women in honor of the mother of Andrew Carnegie. While the proposition to use his mother's name in this way was a total surprise to Mr. Carnegie, he has expressed his pleasure that her name has been chosen for this permanmanent association with the work of the mother of the kindergarten system in Germany. Of course, the Froebel method of training little folk was introduced before she gained the notice of the forth and a century ago that the kindergarten beame a popular German Institute. Frau Goldschmidt has just celebrated the eightight anniversary of her birth, but even now she reads without glasses and is still vigorously advocating the Froebel pedagogies. She is an important ractor in the advancement of woman's cause in the fatherland.

FROM FOREIGN FIELDS.

The entire collection of the diplomatic letters of Pope Pius VII, has been stolen from the archives of the Vatican.

The London branch of the Gaelic league is preparing a scheme for placing the principal Irish products on the English markets, condent in low prices and good qualities.

The original proclamation for the capture of Prince Charles Edward (the Young Pretender), dated Whitehall, August 21, 1745, has recently been discovered, and purchased by the British museum.

After two recent nights of fog near-

covered, and purchased by the British museum.

After two recent nights of fog nearly 6,000 birds were found dead under the lantern of Cape Grisnez lighthouse, says the London Chronicle. They had been attracted by the brilliant light, and were killed by flying against the lighthouse.

Kores has a population of about 6,000,000. Seoul, the capital, has 22,000, and is constantly increasing. Already 50,000 Japanese live in the kingdom. No less than \$8,000,000 has been spent on railways. The foreign trade was worth \$25,616,487 last year.

Double tracking the Siberian railway will certainly not take place for a year or two. As there are neither rails nor other material, nor workmen along the lines, the difficulty is great. Moreover, the whole of the appropriation for the purpose has been spent.

spent.

Among the presents received by Bishop O'Connell, now in Japan, as the papal envoy to the mikado, is adeed of dedication for an 11-arce tract of land to the pope as a site for Catholic headquarters, at Oshide, seven miles from the well-known tourist resort, Karuizawa.

FOOD AND STUDY.

A College Man's Experience,

A College Man's Experience.

"All through my high school course and first year in college," writes an ambitions young man, "I struggled with my studies on a diet of greasy, pasty foods, being especially fond of cakes and fried things. My system got into a state of general disorder and it was difficult for me to apply myself to school work with any degree of satisfaction. I tried different medicines and food preparations, but did not seem able to correct the difficulty. "Then my attention was called to Grape-Nuts food and I sampled it. I had to do something, so I just buckled down to a rigid observance of the directions on the package, and in less than not time began to feel better.' In a few weeks my atrength was restored, my weight had increased, I had a clearer head and felt better in every particular. My work was simply aport to what it was formerly.

'My sister's health was badly rundown and she had become so nervous that she could not attend to har music. She went on Grape-Nuts and had head. Then my brother, Frank, whis in the post office department at Washington city, and had been trying to do brain work on greasy foods, cakes and all that, joined the Grape-Nuts army. I showed him what it was not could do, and from a broken-down condition he has developed into a hearty and efficient man.

"Besides these I could give account of numbers of my fellow-students who have made visible improvement mentally and physically by the use of this food." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Weilville," in plant.

Dog Tax Bill Passsd—Anti-Cigar ette Massurs Killed.

Frankfort, Feb. 80.—A bill jam Is about to result in the legislature. The county unit bill's friends have announced they will block everything in the senate, and now comes the redistration. The bouse committee on the state of the senate in the senate of the senate county from the Eleventh and put it in the Third congressional district, Butler from the Third and put it in the Second. The senate committee on Kentucky statutes agreed to report favorshly the following bills: The Johnson bill, authorizing a county to appoint more than one road supervisor; in which a county make the Goorge bill, authorizing electric railways, gas and oil pipe line companies to condemn a right of way.

The house committee on Kentucky

ing electric raiways, gas and on pupe time companies to condemn a right of the companies of the control of the companies of t

or adulterated distilled spirits.

Frankfort, Feb 2.1—There were hot words over the county unit bill in the senate, and as a result at least two senators do not speak as they pass by in a speech Senator Cammack reitersted to defeat the bill which was deflect by Serator Porter. The senate of the senate, and the senate and the senate of t

country the schools superintendent, shall country the schools and select all the teachers.

Frankfort, Feb. 24.—Opponents of a Frankfort, Feb. 24.—Opponents of a Leader of the school o

The Lincoin Farm.
Frankfort, Ky., Feb. 22.—Mr. Hamnah called up the resolution in the
legislature urging the government to
buy the Lincoin farm in Larue county,
this state, and convert it into a national park. It was unanimously
adopted,

adopted.

Burned With Acid.

Newport, Ky., Feb. 24.—Leva Hissem, daughter of ex-County Judge Hissem, was paintully but not seriously burned at her home, as the result of applying carbolic acid to her arms, under the impression that she was using a lotion for the skin.

Lexington, Ky, Feb. 24.—The mar-riage of Mrs. Mattle E. Weeks and James Redfearn, which was celebrat-ed in Cincinnati, came as a complete surprise to the family and friends of the bride in this city.

LEXINGTON REFORM SCHOOL

Known By the Witness.

Frankfort, Ky, Feb. 23.—The house special committee, known as the Barry investigating committee, met in exceutive season with Representative Barry on the witness stand. He made some general statements, it is said, to the effect that he had been told of mismanagement at the school of reform at Lexington and that he had heard that a number of clerks in the statehouse employed other clerks at smaller salary to do their work. O. D. Emerson, a former employe of the school of reform, was before the committee, but, it is understood, was unable to make any definite statement, about any particular mismanagement. State Auditor Hager was also before the committee, but nothing could be learned as to what he testified, as the committee members agreed to keep muite about the testiment.

NEW KENTUCKY ROAD.

Louisville, Ky., Feb. 24.—The Cairo, Mayheld & Nashville Raliway Co, filed a charter in the Jefferson county court; placing its capital stock at \$100,000, its awowed object is to build and operate a railroad from a point opposite Cairo, Ill., through the counties of Carrillale and Graves, via Mayheld, to a point on the Paducah & Memphis division of the Nashville, Chattancoga. & St. Louis railway, in Calloway county, about four miles south of Murray. The road will be about 60 miles long. The incorporators, all of whom are officiale of the Louisville. B. Nashville, Railway Co., and their respective holdings are: Milton H. Smith, 928 shares; W. L. Mapother, three shares; Edw. W. Hines, three shares; J. H. Ellis, three shares; W. H. Bruce, three shares. The maximum deht is fixed at \$50,000.

KNIFE AND GUN USED. Louisville, Ky., Feb. 24.-The Cairc

KNIFE AND GUN USED.

Deadly Affray at Cynthiana.

Cynthiana, Ky., Foh. 24.—Near the corner drug store of Vanderen & Lydicks, in this city, Ashley Ward shot twice at Shirley Frisble with a 38-cuil-ber pistol. Frisble cut Ward on the face, and on one finger of the right hand with a knife. The shooting is said to have been over a young lady, one of the men having made a repark. Ward is a law student in the office of his brother-in-law, W. T. Lafferty, and Frisble is an undertaker. One ball shattered Frisble's arm and doctors think it will have to be amputated. The other ball slightly wounded the right arm.

Warehouse Destroyed By Fire.

right arm.

Warehouse Destroyed By Fire.
Burgin, Ky., Feb. 22.—Fire of unknown origin destroyed the warehouse
of Voris Bros., here, together with
hemp worth \$8,000, the property of
Cogar & Davis, of Danville. This is
the second destructive fire that has
visited Burgin within the past ten
days.

To Curb Reform Mayors.

Frankfort, Ky., Feb. 22.—The bill fixing the minimum number of police in second-class cities at 30 was passed in the house. It is intended to apply particularly to Paducah and to prevent reform mayors from cutting down the force to keep ante-election promises.

promises.

Raliway Yards and Roundhouse.

Middlesboro, Ky., Feb. 22.—R. Horneck, of Cumberland Gap, has contracted with the Southern Raliway Co, to construct their yards and roundhouse at Hamilton Springs, Tenn. All the coal from the Middlesboro district will be handled in these yards.

Longstreet, Race Horse, Dead.
Lexington, Ky., Feb. 24.—Longstreet, one of the most famous race horses of this generation and a successful sire, is dead at the Elmendorf stud of Jas.
H. Hasgin. Longstreet was raced by M. F. Dwyer, and on the turf. won 36 races and earned \$61,365.

Singer Agent in Jail.

Mt. Sterling, Ky., Feb. 24.—William Wiley, of this city, was arrested in Lexington at the instigation of the Singer Sewing Machine Co. He acted as agent for the company here and at Richmond, and is charged with embezzlement and forgery.

bezzlement and forgery.

Trial Was Postponed.

Harrodsburg, Ky., Feb. 21.—At the request of the commonwealth the trial of Luther Herron and William Britoton, policemen, charged with killing Walter Stotts, was postponed until the May term of circuit court.

Many Barrels of Whisky Burn, Levingood, Ky., Feb. 24.—Firs totally destroyed the distillery plant of the Hayee Valley Distilling Co., with 2,500 barrels of whisky. The plant was owned by Timothy Hayes, of Covedle, O., and his two sons, Arthur and J. E., who live here.

Threaten To Leave the State.

who live here.

Threaten To Leave the State,
Louisville, Ky., Feb. 24.—If the Kentucky legislature passes the bill relaing to the rectifying of whisky severaing to the rectifying Louisville firms
threaten to leave the state. They may
remove to Ohlo and Indiana.

Which Republicans Refuse to Handie.

If the people elect a Democratic house of representatives next fall there will be several matters that will require their attention which the Republicans either refuse to do or dare not attempt. All the great railroad combinations must be investigated and, if discovered to be trusts or combines which restrain trade or plunder the people, the department of justice must be required to prosecute such illegal combination in the gourts under the provisions of the interstate commerce act. The Democrats of the present house of representatives have already asked the executive departments for information about the Pennsylvania railroad, which controls a number of other railroads, but the evidence produced by the administration is one mager that it virtually amounts to repeating what Senator Knox said when attorney general: that the administration is not going to run amuck against the railroad combination, of which the Pennsylvania railroad is the head, and asays the goverdnor: "It is a fact that West Virginia is a letter to Senator Tillman that that state is suffering from a railroad combination, of which the Pennsylvania railroad is the head, and asays the goverdnor: "It is a fact that West Virginia is roady in the grasp of a railroad combination, of which the developed, how much coal shall be shipped out of the state, to what points or parts it shall be shipped. And when it shall be shipped. Of course, it makes its own rates, and our people are helpless." That is a grave indictinent of the policy of the Republican party, which refuses to prosecute such a plundering combination, as the law requires. There is not much doubt that all the other great railroad combines are equally culpable.

Then there are the tariff rates that the Republican party refuses to revise, under which the trusts charge view, under which the trusts charge

railroad combines are equally culpable.

Then there are the tariff rates that the Republican party refuses to review, under which the trusts charge lower prices for their products to foreigners than to our own people, and under which the steel trust alone makes a clear profit of \$150,000,000 a year, and the sugar trust millions of dollarr beyond a fair profit, and many other trusts in proportion. These and other great prohiems must be settled on the hasls of the Democratic policy, and can never be settled right by the Republicans, who have been receivers of part of the plundering of the proper, through their political bosses, who uge the campaign funds received from the trusts and corporations to perpetuate their-power.

THE RAILROAD QUESTION.

It Is Up to the Senate Now to Give the People a Fair Deal.

the People & Fair

Deal.

The house of representatives, having passed the bill to regulate railroad rates with practical unanimity, the interstate commerce committee of the senate will no longer be able to daily along and quibble about what shall-be reported. Senator Elkins and the other railroad senators will have to fish or or no, on the house bill. It may not be perfect, it probably is not, but it contains the principle of the people controlling the railroads enteroilly and the railroads controlling the government, and that is a step in the right direction. It is to be hoped that any amendment by the senate to change the principle involved that, when a rate has been declared unreasonable, the interstate commerce commission has power to make a reasonable rate in piace of it, which shall go into effect and stand until set aside by the courts as confiscatory, will not prevail, and will be resisted by the house of representatives, if it is necessary to continue in session until December, when the next session begins.

It is a great triumph for the Democracy, to have the Republicans adopt in the bill almost the exact hinguage of the last national Dehocratic platform, in the clause above mentioned, which involved the real virtue of the measure, which it is hoped will give the peopio relief from unreasonable rate. The till is not just as the Democratic hards and the real virtue of the measure, which it is hoped will give the peopio relief from unreasonable rate. The till is not just as the Democratic hards and the provisions of the bill stronger in many particulars, but wisdom dictated that it was as stringent a measure as could be passed by the present congress. After the bourts have had an opportunity to pass upon the codstitution—tilly of the act as a whole, or any par-

was as stringent a measure as could be passed by the present congress. After the Pourts have had an opportunity to piese upon the constitutionality to piese upon the constitutionality of the act as a whole, or any particular clause, it will be the duty of the period of the provisions of the bill, if necessary, to hauve the cetablishment of reasonable rates. Reasonable rates are what the people are demanding, and nothing less will eventually satisfy them.

Its begins to look as though there is small hope for some of President Roosevell's pet measures unless the country elects a Democratic house of representatives next time.

—The beef trust magnates possibly had some hopes of tying Mr. Gardeid up so as to make him a sort of accessory.—Washington Star (Rep.).

—The house of representatives passed 429 pension bills in 72 minutes. Is it any wonder that the pension agents are still finding their business a profitable one?—N. Y. Evening Sun.

—The fact announced in congress that there are already more Spanish war voteruns on the pension roll than were men in all Shafter's army inspires mild wonder as to the probable aggregate in later years.—Detroit Fres

REFORM AND THE GRANGE

The Republican ring that has by the ordinary partisan political methods obtained control of the National Grange organization are naturally not much in sympathy with the reforms the people deare. That this is the case is shown by the efforts of the legislative committee of the National Grange, who are in Washington, to urge congressional legislation to remove the tax on alcohol and establish a parcels post.

the tax on alcohol and establish a parcels post.

The committee members are: Gov.
Bell, of Vermont; ex-Gov. Batchelor,
of New Hampshire; Aaron Jones, of
Indiana, past master of the National
Grange, and E. B. Norris, of New
York.

These are all Republican politicians
and either holding or seeking office,
which, for a non-partisan organization, or which pretends to be non-partisan, is rather extraordinary. If removing the internal revenue tax from
alcohol is the most important reform
that these partisan Grangers can discover to urge congress to act upon,
when there are so many great issues
awaiting decision that affect the farmers, they might as well return to their
arduous duties of talking to Pomona
and Ceres, as to waste their time in
Washington talking to congressmen.

Why don't these Grange politicians
urge congress to pass a railroad rate
bill that will absolutely prevent the
railroads from charging unreasonable
rates? Is it because they have railroad
passes in their pockets, like most of
their brother politicians of the dominant political party? Why don't they
urge congress to revise the tariff so
that the farmers can sell in the dearest market whereas now they are buying
everything at high protected trust
prices and selling their products at
the price fixed in the free trade martest market and buy in the cheapest
market, whereas now they are buying
everything at high protected trust
prices and selling their products at
the price fixed in the free trade martest of the world and being cut off
from some markets altogether by opposing protection, as in Germany? Not
a word against the trusts and corporations which are plundering the people by wholesale, but great show of
effort for Insignificant propositions
that may be of some small advantage,
but weigh nothing in the present fight
of the people against organized greed,
graft and corruption.

The members of the local granges
are good, honest citizens, laboring unreasonable rates on their produce and
on what they huy, their represen

represent them.

Reforms and Congress.

The Republican party pretends to favor reform, but most of its leaders take passes from the railroads and franks from the telegraph and express comparies. What can be expected of a Republican house of representatives that resolved to pay itself extra mileage, as the last congress did, and nearly all the Republican members that voted for that steal have been relected to the present congress. Can reform legislation be expected from such a body, the majority of whom are on record for grafting? The Republican majority of the senate last year refused to consider railroad reform legislation, and a committee of that body has been gathering evidence mostly favorable to the railroads, so that the issue may be befogged, and with no real purpose of legislating for the control of railroad rates.

Needed Reform.

the control of railroad rates.

Needed Reform.

Republican waste and extravagance is nowhere more strikingly indicated than in the treasury department which annually, in making the estimates for the customs department, recommends the continued payment of salaries to partisan politicians at, so called, "porta" which no ship with dutable cargoes visits. There are ten ports with aggregate expenses during the last fiscal year, and for many years past, of \$5,160.33 which turned in actually not a cent of revenue. There are 51 ports where the expenditures exceed the receipts which shows that reform is needed not only in this matter of custom houses, but in the tariff and the absurd system of customs collection.

—It is stated that the senate com-

the tarift and the abstract of the senate committee on interstate commerce will resport a skeleton railway rate bill. The skeleton will probably consist of bones of contention.—Washington Post.—New York society never did indors the Roossveit demand for publicity. What it needs in its business is privacy.—Memphis Commercial.
—Secretary Tatt continues to explain things to the satisfaction of about all the lavestigating committees. Taft is smooth, as well as hefty.—Boston Herald.
—Vice President Fairbank's frionds in Indiana deciar under their breaths that they will eliminate United States Senator Beveridge as a Republican factor in the state Mr. Beveridge's term in the senate does not expired until March 3, 1911.—N.Y. Sun.

French and Italian parties are con-emplating the manufacture of maca-oni in Canada on a large scale.

Japan has at last a newspaper in which the same type is used as in our ournais. It is called the Romaji.

Morocco has no railroads, and practically no roads. A mail service exists between Fez and the leading towns on the coast, such as Tanglers, Totuan, Rabat, Casshiancs, Mogador and Saffi.

Representative Kahn, of California, has introduced in congress a hill to provide for a world's fair in San Francisco in 1313, the 400th anniversary of the discovery of the Pacific from the American continent.

The exports of oleomargarin from the United States for the 12 months of 1905 show an increase of 55.5 per cent. over the exports for 1904. The exports of butter during the same period show an increase of only 17.7 now cent.

per cent.

The news that the Belfast and Northern Counties railway of Ireland has offered free traveling for ten years to proprietors or tenants of new houses along its line between Belfast and Lough Lurne has heen widely commented unon in the press.

According to Ainsworth R. Spofford, the aged and scholarly assistant librarian of congress, the people of Germany are the greatest writers of books in the world. He brought out this fact loday in a little discussion of books and authors, in which he said that the taste for history at the present time taste for history at the present time amounts almost to a passion.

amounts almost to a passion.

There is a greater variety of plant
life in California than in any country
of the globe, excepting, of course, that
of which the Sunset State is a part.
One farm near the town of Fresno,
country seat of Fresno county, and in
the center of the great inland hasin,
has on it nearly every known variety
of tree.

the center of the great inland nasin, has on it nearly every known variety of tree.

The pope has just received from California the largest tourmaline ever found. It is a huge crysial, seven inches long by about flavour her inches in diameter and weighs about 14,000 kurats—nearly eight pounds. It is of a delicate pink color and is worth thousands of dollars. The gem was-found recently in the Mess Grande mine in San Diego county. California, where the Indians were the first gem miners.

It is perhaps not an overestimate of the value of the salt industry in the state has saved the whole people of the state as much most of the salt in the state of Kanasa to say that no other should be salt was first put on the market 13 years ago, eastern salt was seelling at an average price of about \$3 per state of the salt in the service of the salt in the service of the salt in the service of the salt of the salt in the service of the salt in the service of a salt. It is very conservative to estimate that the price has been manifest of salt. It is very conservative to estimate that the price has been reduced at least \$1 per barrel.

George Hearn, of New York, has shown his public spirit and his appreciation of art for the public's sake by the gift of \$100,000 to the Metronolitan Museum of Art. Coming from one of America's foremost collectors just as the new management is installed, it is a valuable expression of confidence, and suggests that Sir Purdon Clarke is to be sustained in his laud able ambition to make the art museum the greatest of its kind in the world, although we shall never possess the great art treasures of Rome, Florence, Berlin, Parls and London.

Breat are treasures or nome, prorence, Berlin, Paris and London.

The agencies of religion and reform in New Jersey are moving upon the legislature of that state for the conactment of stricter laws relative to the saie of liquo's and also for a hetter enforcement of the excise laws upon the statute hooks. In this work all sects and denominations are united, it is said that the hills favored by the clergy will close the saloons at 11 o'clock every week night and forbid reopesing between that hour Saturday night and 6 o'clock Monday moraing. Back rooms and saie of liquor to minors will be forbidden.

Twenty words submitted to a spelling bee in Springfeld, Mass, in 1846 were given to the high school class in East Liverpool by Superintendent Rayman, and it is reported not one in the class correctly spelled every word. The worst blizzard since the storm of January 12, 1885, rayed at Donesteel, S. D. Snow fell to a depth of over one foot on the level and in some places was pilled to a depth of over

At a meeting of the bituminous coal operators in Pittshurg the question of wage scale was discussed. A majority of the representatives opposed an increase of 5.5 in the miners' wages. The collieries controlled by the Pennsylvania Rallroad Co. posted no tices announcing that hereafter until further-orders all collieries would be worked full time on Saturdays.

The foreign element employed in the coal mines at Pittsburg have manifested some anxiety over the threatened coal strike and one of the results was the departure of a party of 110-for their home.

Thirty-five miners were discharged from the Westmoreland Coal Co., at Jeannette, Pa. The action is said to be due to the men having formed a miners' union.

A leading coal operator who is conversant with the situation in the hituminous coal mining states, says that the Ohlo operators are a unit in opposition to an advance in the miners' wages.

"There is by no means a certainty services and the conversant with the situation in the miners' and the coal maning states, says that the Ohlo operators are a unit in opposition to an advance in the miners' wages.

tuninous coas mining seaces, was seen the Ohlo operators are a unit in opposition to an advance in the mineral wages.

"There is by no means a certainty as yet that there will not he a coal strike," said a member of one of the big merger-coal companies of Indiana. The cause of the massacre at Nanchang, China, originated in a dispute of French Catholics with an official over the possession of property. Several missions were byrned by the monthat formed and six priests and two of the family of Mr. Kingman, in whose house the missionaries sought safety, were murdered and the residence fred.

The state department received a dispatch from Consul General Rodgers, at Shanghal, that it was definitely known that the American property at Nanchang was safe, and that refugees arrived at Kluklang.

Jinstructions have been sent to the governor of Nanchang to punish severely all participants in the massacre when six Freqch Jesuit missionaries and four British subjects were killed. It is rumored at Hong-Kong that the dowager empress was assassinated in the palace at Peking.

Senor Mendez Capote, leader of the moderate party, in Cuha, formerly president is electors is actually cast. He says the office is merely or namental.

SCIENTIFIC ITEMS.

Prof. Koch is said to have decays to apply the Nobel prize recently awarded to him to the publication of a complete edition of his scientific writings.

Sir David Gill, who has been astronomer royal at the Cape since 1579, is resigning his post and returning to England for the New Year. Many notable astronomical problems have been solved at the Cape observatory under Sir David Gill's direction, inclusing the determination of the minor planets Victoria, Sappho and Iris.

The problem of the ascent of asy in trees, an English botanist points out, is yet unsolved. If appears that, in the highest trees the total pressure would be nearly-100 atmospheres, and as we cannot suppose that leaves can exert so intense osmoth suction, the only theory at all probable is that the living cells exert some sort of pumping action in the wood.

M. Martel, a French explorer who has devoted much time to the subject of caves, is confident that the surface of the earth is fast wearing away by crosion and corrosion, in such a manner that the level at which water is found in the earth's crust is being lowered. He, thinks that there will he a disastrous scarcity of water available for drinking a few centuries hence.

Gold have been easily distilled by Henri Moissan in the electric furnace,

able for drinking a few centuries hence.
Gold has been easily distilled by Henri Moissan in the electric furnace, its boiling point being higher than that of copper, but lower than that of lime. In a cold tube, the vapor condensed partly in the form of moss gold, partly as microscopic crystals; the general properties being those of finely divided gold. In alloys with copper and tin, the gold distills over last. On distilling an allow of the and gold, a purple of Cassius is obtained in the dry way.

A PERFECT HAND.

How Its Appearance Became Fa-miliar to the Public.

The story of how prohably the most perfect feminine hand in America hecame known to the people is rather listeresting.

As the story goes the possessor of the hand was with some friends in a photographer's one day and while talking, held up a piece of candy. The pose of the hand with its perfect contour and fautiless shape attracted the attention of the artist, who proposed to photograph it. The result was a beautiful picture kept in the family until one day, after reading a letter from someone inculring as to who wreet the Postum and Grape-Nipis advertisements, Mr. Post said to his wife: "We receive so many inquiries of this kind, that it is vident some people are curlous to know, suppose we let the advertising department have that picture of your hand to print and name it." A Helping And." (Mrs. Post has assisted him in preparation of some of the most famous advertisements.)

There was a natural shrinking from the publicity, but with an agreement that no name would accompany the picture, its use was granted.

The case was presented in the light of extending a welcoming hand to the friends of Postum and Gape-Nuts, so the picture appeared on the hack covers of many of the January and February magazines and became known to millions of people.

Many artists have commented upon It as probably the most perfect hand in the world.

The advertising dept, of the Postum Co. did not seem ahle to resist the temptation to enlist the curlosity of the public, by refraining from giving the name of the owner when the picture appeared noncements, thus seeking to induce the readers to look for and read the multitude of inquiries furnishes an excellent flustration of the interest the public takes in the personal and family life of large manufacturers whose names become household words-through extensive and perfection and noncements the mane noncements have and perford-

STATE NEWS PICK-UPS

KENTUCKY LEGISLATURE

The House of Representatives

The House of Representatives Votes
To Put the Tax on Whisky.

Frankfort, Feb. 23.—One of the most important bills to either body this sensiton was Senator Cox's bill presented by the senate. It provides that shares of stock in a foreign corporation event of the control of the

sance tax section was adopted but the seastate inherited must amount to \$1,000 or more hefore the tax can be collected.

Frankfort, March 2.—The Ward primary election hill came up in the senate as undinished husiness. It provides for holding all primaries of all parties on the same day each year, for the same requiring barbers to pay a license tax was stricken out on motion of R. C. Simmons, of Covington. The clause requiring barbers to pay a license tax was stricken out on motion of R. C. Simmons, of Covington. The clause requiring sond fountains and retail dealers in mineral waters was also stricken out.

Frankfort, March 3.—Friday was a red-letter day in the legislature so far as work was concerned. The senate passed the Ward bill, repealing the result of the price o

late Dr. Hugh Tohin, prison physician, passed.

The house passed the bill appropriating \$25,000 to help complete the new state house, and the bill appropriating \$56,000 to establish two state normal schools. It also passed the bill making numerous chances in legislative districts. Other bills passed: Providing for holding juvenile courts; appropriating \$50,000 for two state normal schools passed unanimously; allowing abandoned gas wells to be plugged; giving. Circuit Judge Proyr, of Louisville, another week's vacation each summer; providing for the drainage of public ditchès.

Hindman, Ky., March 2.—Fars and Perry Sloane, moonablners, were killed here in a desperate fight with revenue officers. They fortified themselves in a log cabin. Malcoim Holliday, one of the posse, received several wounds before his brother forced his way ingo the cabin and killed the moonablners.

Will Try Curtis Jett.
Cynthlana, Ky., March 2.—Judge S.
G. Botts, of Owenton, Ky., has been
appointed by Gov. Beckham to try the
case against Curtis Jett, charsed/with
the murder of James Cockrill. J. H.
Webster will assist the commonwealth
attorney, and Jett will he defended by
J. I. Blanton.

Lyne To Ride Lotus Eater.
Lexington, Ky., March 2.—Jockey
Lucien Lyne, who has been spending
the winter at the Larchmont stad of
his father, S. C. Lyne, in this county,
will have his first mount of the year,
on Lotus Eater in the Derby at the
Fair Grounds, New Orleans, on St. Patrick's day.

A Fated Kentucky Family.
Owensboro, Ky., March 2.—During
the past week four members of the
family of Jesse Tucker, this county,
have died of black pneumonia. The
first died at Adairville, Logan county.
Shortly after seven members of the
family were stricken, and four have
died.

THE SHIP SUBSIDY BILL

A Measure Put Forward in the L terests of Protected Monopoly.

The senate passed the ship subsidy bill by a vote of 38 to 27. Five Republicans enators voted with the Domocra's against the bill—Burkett, of Nebraska Dilliver, of lowa; La Po' lette and Spooner, of Wisconain, and Warner, of Missouri. These men, says the Indianapolis News (Ind.), not only followed public opinion on this question, but they were on the right ado of it. We regref exceedingly that the Indiana senators, one of whom voted for the bill, and the other of whom was paired in its favor, could not bring themselves to antagonize this subsidy grah. A rather remarkable thing about the vote is that it was so small. Only 65 senators voted, and only 38 are recorded for the bill—or 39, including. Beveridge, who announced that he would have voted for it hal he not been paired with Clark, of Montana. The bill goes to the house discredited, as was the case with the bill passed a year or so ago by the senate.

The proposition is to grant a "subvention of five dollars per gross ton per, year to cargo vessels engaged in the foreign trade of the United States, and of \$5.50 per ton to vessels engaged in the Foreign trade of the United States, and of \$5.50 per ton to vessels engaged in the Foreign trade of the United States, and of \$5.50 per ton to vessels engaged in the Foreign trade of the United States, and of \$5.50 per ton to vessels engaged in the Foreign trade of the United States, and of \$5.50 per ton to vessels engaged in the Foreign trade of the United States, and of \$5.50 per ton to vessels engaged in the Foreign trade of the United States, and the Jething sold here to the receive a subsidy. But stalling vessels reating as low as 20 tons are brought within the provisions of the hill, establishes 13 new mail lines, and increases the "subvention" to the Cesnale line, which runs from the Pacific coast to Australasia. The now lines are to run from Atlantic aports to Brazil, Urugu, Argentina ports to Brazil, Urugu, Argentina ports to Brazil, Urugu, Argentina ports to Brazil, in the provision of the hill, These, of co

the past week four members of the family of Jesser Tucker, this county, have died of black pneumonia. The first died at Adairville, Logan county, have died of black pneumonia. The first died at Adairville, Logan county died.

The Sewer Bill Passed.

The Sewer Bill Passed.

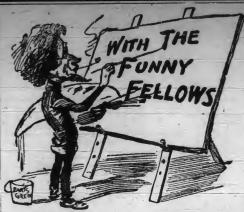

Frankfort, Ky., March 3.—The semate, on metion of Senator Allen, receded from its amendments to the who nuise bills providing for construction of sewer's and streets in second class cities, and the bills passed as they came from the house.

For a Racing Commission of five members to be appointed by the governor, The commission to practically have control of racing meetings in this state.

"What reason was given?"
"I smoked cigarettes."
"Why, that seems hardly a sufficient reason for such drastic action."
"Yes; but I was smoking the boss's cligarettes and he caught me at it."—
Judge.

The Old Story.

Still do the fates conspire and frown,
And bitter is life's cup.
Whene'er the mercury goes down,
The price of coal goes up.
—Washington Star.

THE DOCTOR'S IDEA.

Invalid—Doctor, I must positively asist upon knowing the worst.
Dr. Wise-Well, I guess my bill will e about \$85.—Chicago Journal.

How, Indeed?
The poor musician 'gan to cry,
And this is what I heard him say:
"How can I lay a little by
When none will buy my little lay?"

Judge.

—Judge.

Might Live Too Long.
Old Gotrox—I proposed to Miss
Peachly last night and what do you suppose she said?
His Friend—She said "yes," doubtless.
Old Gotrox—No; she said before giving me an answer she would like to look
at my family Bible. Now, what do you
suppose she wants to see that for?
His Friend—Oh, she probably wants
to see if you come of a long-lived family.
—Chicago Dally News.

The Music That Charms.
"The old-fashloned idea of serenading has gone completely out of date,"
said the romantic youth.
"Yes," answered Miss Cayenne, "a
girl don't care to hear a guitar now.
But an automobile horn will cause her
to take notice."—Washington Star.

"What do you think we had better do to stop the rallroads?" asked the man who is patriotic, but nervous. "Don't try to stop 'em," answered the man who is always in a burry. "Encourage 'em to run faster and oftener."—Washington Star.

Exchange of Confidence.
Mr. Jinks—I don't know how you will feel about it, sir, but the fact is that my wife, your daughter, is a dreadfully hard woman to live with.
Mr. Blinks—I can sympathize with you, sir. I married her mother,—N. Y. Weekly.

Money Gone.

He longed to wed the girl
Whom he was wont to court,
But he had courted her so long
ft made him very short.
-Philadelphia Press.

SPORT.

"Morning. Killed anything?"
"No; have you?"

Hymn and Him.

Aren't you going to choir reto-night?

Jes-No.
"You'd hetter. We're going to give
that new hymn a trial."
"Can't. I'm going to give a new him
a trial myself."—Tit-Bita.

A Simple Plan.
Mr. Youngman (after long thought)
—Is there any way to find out what
a woman thinks of you, without proposing?
Mr. Benedict (absently) --Yes; make
her mad. --N. Y. Weekly.

'No Yell at Vassar.
First Vassar Student—Say, girls,
there's one this we've forgotten. We
haven't any co.sege yell. All colleges
have yells, you know.
Second Student—Why, of course.
Strange we never thought of it. Let's
have one.

have one.

Third Student—But I don't see how we can yell without taking the gum out of our mouths.

Fourth Student—Let's let the yell ço. It isn't very lady-like, anyhow.—N. Y. Weekly.

"True Humility.
"The cook wrote me a letter of res-

"The cook work and in grantion."

"The idea! What did she say?"

"She called me every name she could think of; said you were a beast and that she considered herself our superior."

"That all?"

"All except that she signed herself:

Your humble servant."—Houston Post.

Only Remedy.

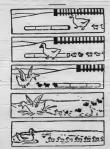

Mrs. Blinks—Our son John doesn't seem to have a bit of energy. He'll never be good for anything until he marries.

Blinks—How will marriage benefit blue?

him?
Mrs. Blinks—Oh, after he's married
a few weeks he'll get over the hahit
of hanging around the house.—Chicago
Daily News.

Poor Boni.
Count Boni is sued for divorce
Because he has acted too corce;
It's the thought of the dough
He'll have to let gough
That's filling his heart with rem.
--Houston Post.

BLACK AND WHITE; OR, THE OF A PUTZLED MOTHER.

Mrs. Newbride (petulantly)—No! you don't think of me at all any more.
Mr. Newbride—That isn't so, my dear.
Why, I've been thinking of you all day.
Mrs. Newbride—Fisher! You even forgot to mail the letter I gave you this

morning.

Mr. Newbride—Well—er—you see, l
think of you so earnestly that I forget
everything else.—Philadelphia Press.

HOSPITALS CROWDED

MAJORITY OF PATIENTS WOMEN

drs. Pinkham's Advice Saves Many From this Sad and Costly Experience.

certain fact that every year brings an increase in the number of opera-

Mor hospitala.

More than threefourths of the
fourths of the
patients lying
white beds are women and girls who
are awaiting or recovering from operations made necessary by neglect.

Every one of these patients had
plenty of warning in that bearing down
feeling, pain at the left or right of the
abdomen, nervous exhaustion, paindizziness, flatulemirregulasirregulasirregulasirregulasfeeling, pain at the left or right of the abdomen, nervous exhaustion, pain in the annul of the back, polvic catarth, dizziness, flatulency, displacements or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the trouble may make headway until the penalty has to be paid by a dangerous operation, and a litetime of impaired usefulness at best, while in many cases the results are fatal.

Miss Luella Adams, of Scattle, Wash, writes:

Miss Luella Adams, of Seattle, Wash, writes:

Dear Mrs. Pinkham :—

"About two years ago I was a great sufferer from a severe femile trouble, poins and before from a severe femile trouble, poins and before from a severe femile trouble, poins and the series of the severe femile trouble point and the series of the series of

troubles, active years and the constraints.

Mrs. Pinkham invites all young women who are ill to write her for free advice. She is daughter-in-law of Lydis E. Pinkham and for twenty-five years has been advising sick woman free of charge. Address, Lynn, Mass.

TALES OF THE TOT

"Dear! Dear! Willie, can't you be ood for a quarter of an hour?" "I can for a quarter of a dollar, ma.

Fred (at the concert)—That man nust have a taste for music, papa. Papa—Which man, Freddle?" "Why, the one who is trying to wallow the trombone."

Mamma-Oh, dear! Margie, I don't elieve you know what it is to be peneve you know what it is to be good.

Little Margie—Yes, I do, mamma.
It's not doing the things you want to

Mamma—Why, Johnny, you have eaten more than your share of the berries!

Johnny—That's all right, mamma.
Minnie ate most of the cake we stole yesterday.

"Why do you want a light left in your room when you go to bed, dear?" asked Elsie's mother. "Are you afraid?"

"No mamma," replied Elsie; "I want it so I can see to go to sleep."

Ruying the Ammunition.

The Candidate—And you might send some eggs around to my hotel.

Village Elector—Yes, sir. How many would you like?

"I—f think "Il take all you've got."

—London Sketch.

A NECESSARY EVIL.

Experience of a Minister Who Tried to Think That of Coffee.

Pu

THE office of treasurer of Hamilton county, Ohio, has been a snap for several years.

They are having a lively time in Louisville trying to get the Sunday lid properly adjusted.

Ex-President Cleveland will retire from farming, and with that in view he has sold his New

A CENSUS completed a few days ago gives Carrollton a population of 3,056, which is several hundred people less than that thriving little city claimed.

It will not cost you acent to try Chamberlain's Stomach and Liver Tablets, and they are excellent for Stomach troubles and constipation Get a free sample at drugstore. Sold by every reliable dealer in State of Kentucky.

PAT CROWE who was recently acquitted on the charge of robbery in connection with the Cudahy kiduapping, and was later taken to Council Blu's to answer another charge of robbery, has been released on bail.

Gov. Beckham has appointed Judge John L. Dorsey, of Henderson, as Special Judge to try the case of James Hargis and others at Jackson. H. G. Botts, of Owen country, has been appointed to try the case of Curtis Jett at Cynthiana.

THE Governor of Arkansas says the lid has to gon at Hot Springs April 1st. Hot Springs is one of the greatest gambling places in the United States, and if Gov. Davis gets the lid down good and tight there he will surprise the country.

They are digging up money by the coffe-pot full at Frankfort. The find made last week appear-ed to have been where found for a long time. Propably it was what remained at the close of some red-hot Senatorial campaign somewhere back in the past.

INDIANA Republicans are growing uneasy over the political outlook in their State since the Governor has been after some of the officials with a sharp stick. If the Democrats exercise good judgment and put up a strong ticket next fall the Republicans will have a hard fight to keep them from carrying the State.

NATIONAL and State banks and NATIONAL and State banks and trust companies of Kentucky gain-ed-a victory in the adoption of the Revenue Bill with an amendment that the assessment by the State board shall be for State purposes only, and that the Assessors of counties, cities, towns and taxing districts shall assess the institu-tions in their territory for local purposes.

Some Kentucky Men.

It has been the habit of some writers to boast of Kentucky's fine whisky, fast horses and beautiful women. In a recent letter Savoyard takes the Kentucky men of ye olden times as his theme, and of their achievements says:

"Kentuckians, under George Rogers Clark, moved the boundary of the United States from the Ohio river to the great lakes.
"It was a Kentucky statesmen-John Breckinridge—who was the real author of the Louisiana purchase.

John Breckinridge—who was the real author of the Louisiana purchase.

"Kentucky made the war of 1812, and did more than her share of the fighting of it.

"Kentucky was the first State to establish common schools and support them by a tax on all the property in the State.

"Kentucky secured the free navigation of the Mississippi river, and gave more soldiers to the Texas revolution than anyother State.

"Kentucky furnished more soldiers for the Mexican war than anyother State.

"The first steamboat ever launched in the world was the work of a Kentuckian—John Fitch.

"Andubon lived in Kentucky; so did Alexander Campbell.
"Joel T. Hart was a Kentuckian, as well as America's greatest sculptor. Jewett was a Kentuckian, as well as America's greatest portrait painter.

Thomas F. Marshall and Rich-

sculptor. Jewett was a Kentuckian, as well as America's greatest portrait painter.

Thomas F. Marshall and Richard Menafee were Kentuckians as well as the finest orators of a generation of orators.

"George Roberts, a Kentucky jurist, gave more suggestions to the judiciary at Westminster than anyother Amercan judge.

"Ephriam McDowell, a Kentuckian, performed the first successful operation for ovariotomy.

"Dr. Brasher, of Kentucky, performed the first successful operation. These two features astonished the medical colleges of Edingburg, Paris and Berlin.

"Bishop Bascom, a Kentuckian, was the greatest pulpit orator our country has produced.

"Robert J. Breckinridge was the leading Presbyterian clergyman of two generations.

"Juo. A. Broaddus was the most erudite Hebrew scholar of all America.

"Spalding's history of the Catholic church stamps him as

"Spalding's history of the Catholic church stamps him as the equal of any American who has written history."

"There are more churches and more church members in Kent tucky, according to population, than in anyother State, and fewer suits for seduction and slander.

"Kentucky contributed Lincoln to the North and gave Davis to the South. She was on both sides of that war and is proud of it, though a little prouder of the rebel side than the other."

that the assessment by the State board shall be for State purposes only, and that the Assessors of counties, cities, towns and taxing districts shall assess the institutions in their territory for local purposes.

Owensboro, Winchester, Mayfield and Bowling Green are included among the cities for which it is said recommendations have been made to Congress for appropriations for government buildings. As Uncle Sam seldom erects a building at a cost of less than \$100,000, it is very probable that each of these Kentucky cities will get a building costing at least that amount.

The Missour Court of Appeals has decided that St. Louis policemen must stay in their own back yard. They had been making arrests at the race track beyond the city limits in St. Louis county, and their authority in that respet was tested in the courts, and last week the Court of Appeals handed down an opinion in which it was held that their jurisdiction is confined to the city limits.

To Jailer Little, of Breathitt county, all prisoners look alike, and when Judge Hargis, Ed Calahan and B. F. French were placed in his custody by the Circuit Court Judge, they were accorded no special privileges despite the attempts of their influential friends to have him take them into his residence instead of putting them hebind the bars. The mighty seem to have fallen in Breathitt county.

While Gen. Keifer, of Springfield, Ohio, is advocating his bill to reduce the representation in Congress of several of the Southern States because of their treatment of colored people, a mob is organized in his town to exterminate the colored citizens, and burn their property and subject them to violence in numerous ways. Will he amend his bill so as to include Ohio as one of the States to lose Congressmen?

That race war at Springfield, Ohio, last week is another demonstration that human nature is the same under like conditions regardless of location. The same causes that will incite a race war in the south will result in the killing of the blacks and the burning of their property in the north, and these acts are as bad, but no worse, in one section of the country, as in another.

According to Judge Littleford, of Cincinnati, the honest election organization of that city was overzealous last fall and many of its acts were without justification, but on the other hand the leaders of that organization have charged that the judge's friends expected to profit by the election frauds that they forestalled, hence he is not in a position to announce an unbiased opinion as to the labors of those who wanted a square deal at the polls.

a square deal at the polls.

At the last term of the Owen county fiscal court the salary of the county judge was reduced from \$800 to \$700 per annum, with his consent; the county superintendent of schools was cut from \$1,020 to \$800 per year—he appeals; the pay of the jailer was reduced from \$2 to \$1 per day for taking care of the court—he appeals. If these cuts in salaries stand it is said they will save the county \$1,000 per annum.

Sheep and wool products do not take fertility from the soil, but actually add to the value of Tomake early lambse of Tomake early lambse on the soil to the early lambse of the care of th

Maple a classes were selling for \$1.50 per gallon in Burlington, last week.

The rain the latter part of last cek interrupted the preparation f tobacco plant beds.

It will be only a few days now until the base ball enthusiast can begin persuing base ball scores.

W. C. Watts, oi Cincinnati, was meeting many of his Boone county friends in Burlington, Monday.

It took four horses to prope Hubert Conner's produce wagon around its circuit last Thursday.

In 1905 Indiana raised 100,000,000 bushels of corn on 4,000,000 acres, an average of 40 bushels an acre.

W. J. Rice bought two young horses from John Baldon, several days ago paying a good price for them.

Dr. L. H. Crisler and Tony Bent-ler, of Covington, were mingling with the small crowd in town last Monday.

Benton Vickers and wife, of Con-stance neighborhood, were trans-acting business in Burlington, last Thursday.

F. W. Kassebaum, the Aurora Granite and Marble man was in town Monday and planted an ad in the RECORDER.

John Baldon has moved to the house belonging to Johnnie Hogan and recently vacated by Mrs. Susan Kirkpatrick and children.

Another telephone line to connect Waterloo and Burlington was staked off last week. It comes through the Goodridge neighborhood.

Mr. and Mrs. William Hedges gave the young people a delightful cotillion party at their Gunpowder hill top home, last Wednesday night.

The ground has been full of way-er all winter and the water courses ought to run freely through the coming summer, furnishing plenty of water for stock.

Two of this county's very old citizens, and residents of the Bur-lington neighborhood, passed to their reward last Friday—John Bebb and James Jarrell.

The colored school in Burlington district usually begins the first of August, but last year it could not be started at that time, and not until last week did it begin.

March came in very quietly, but before noon of the first day the wind had begun to shake the limbs on the trees and to make loose windows in buildings rattle.

Eli Rouse, son of the late Fielding Rouse, died a few days since, in an asylum for the insane in Oklahoma. He went from this neighborhood to the southwest many years ago.

This office is in receipt of a souvenir postal card from Col. Clifford E. Nadaud, posted at Algeries, North Africa. Colonel Nadaud is certainly seeing some of this world.

Dr. Sam H. Halley, of Payne's Depot, Scott county, sold to M. Hughes, representative of the Continental Tobacco Company, his crop of 271,000 pounds at 7½ to 9 cents. This is probably the largest tobacco sale so far reported in Kentucky, and gives the producer of . it the right to be called the "Tobacco King." The sale-brought over 21,000.

A Residence Burned.

A Residence Burned.

The residence of Cad Sullivan, who lives about three miles out on the Petersburg pike, was destroyed by fire about 8 o'clock last Wednes day morning. Everything in the second story was lost, while most of the contents of the lower story were saved. Neither Mr. nor Mrs. Sullivan were at home when the fire was discovered, he being out on the farm and she at his father's, near by. The fire was caused by a defective flue.

Jacob Utzinger was in town last Friday and bad his Reconstant Couled him up? to listen, but some postoffics. He will cultivate the farm owned by the late William Moore.

The snow that fell on Tuesday night, of last week, drifted worse than anyother snow of the winter. In many places the public roads were rendered almost impassable for a couple of days.

Geo. W. Sandford and William Hughes went to Cincinnati, last Thursday, expecting to become both buyers and sellers on the horse market, but they failed of casults in either branch of the bussness.

The first advertising matter for the 1904 Boone fair was issued last week. The dates for the next fair are the last three days of August and the first day of September. The fair always Egins on the last Wednesday in August.

Get Tangled in the Mud.

Clark Beemon had quite an exciting time, one day last week, in a well developed mudhole in the road between Wilse Delphi's and Jerry Tanner's. His team got down and it required considerable time and labor to get them out of the mire.

Dr. Sam H. Halley, of Payne's Depot, Scott county, sold to M. Hughes, representative of the Continental Tobacco Company, his crop of 271,000 pounds at 7½ to genus. This is probably the largest tobacco sale so far reported in Kentucky, and gives the producer of, it the right to be called the "Tobacco King." The sale-brought over 21,

James Jarrell Dead.

James Jarrell, who would have been 82 years old next September, died at his home near the forks of Wuolper creek, last Friday. The remains were interred in the Odd-Fellows' cometery at this place, last Sunday at 11 o'clock after Fellows' cemetery at this place, last Sunday at 11 o'clock after short religious services at the grave by J. O. Roberts and D. M. Snyder. He was the father of Mrs. Owen Beemon, the only child that survives him. One brother, Henry Jarrell, it he only aurivior o the large family, and he is in his 79th year. In the passing of James Jarrell the last of those who were heads of families on Woolper creek forty years ago, has gone to his reward. Mr. Jarrell was a man who staved closely at home, having only time in which to attend to his own affairs. He was a good neighbor and citizen, and left this world, after a long and honorable life, without any enemies. His widow, who was a daughter of the late Henry Smith, has the sympathy of all in her bereavement.

same conditions. A good fund of mate-rial is now at the child's command for the settings and background of its bu-man figures. It will be able to concern itself with the man and not have the anded concern of the scene in which the man is placed. It will continue to add to its store of scene in material for story tell-ing after the human figure is introduced, for it has learned how to reduce objects to its medium and its courage bas grown with the west which.

AT 80

The picture of the lake shore, while made up of simple forms, is more complex in the combination of its given symbols. The teacher should give a number of combinations and vary the proportions, as well as reverse the direction of the lines, composing it in tall narrow panels and in long low ones, making the lake and bluffs on the right instead of the left. The child should at all times be made ta_fee! the flexibility of the material forms.

all times be made to feel the flexibility of the material forms. The winter night with the cabin in the woods is given with colored forms, the shade being black, half tone and wbite. This will suggest other subjects of its kind where similar treatment can be used. Reference may be made to the article in which color proportion and shading were spoken of. It is suggested that the same subject be treated, giving the outline of the forms more character accentuation, especially the plue trees. Let the introduction of accent be made by slight degrees, so that the child may not lose sight of the simple structural form on which it is building the accented

or mo which it is building the accented form.

Majority Learn by Imitation.

It has been observed in the development of the class how the child of artistic lustinets has sought by all the means at lat disposal to add beauty to its work—how it instinctively has felt proportions, color or form; how the mere line by which it drew has had more life and inspiration, though it were only the outline of a cube, that the line of the child not similarly endowed. There is no way to make the inarjistic nature thus express itself, no way of pointing out to it the subtle difference—For this lack of artistic instinct there is only initiation, noly the slow process of observation and acquirement by initiation. These children—cannot—profit—by suggestion. They will always use the mechanical forms in the nost mechanical way, and the toacher cannot expect that the accented line or the accented form or questions of proportion of color are for their appreciated use.

They will appeal to them more forethy. After the other children more artistication, and defended have made use of them. The effect of the children control the in suggesting appreciation may be expected from only part of the class.

While the school-teacher has been addressed more than the prient through.

Moses was busy over his manuscripts, feelting that he could not let one precious moment of daylight go unused. He was obliged to do all his studying and writing by natural light now, for he had not the means to provide himself with the had not the means to provide himself with the had not the means to the hearty morning found him bending over his work, and at night he only ceased wheu the twilight had been swallowed up by the invading darkness.

The rest of the family was just beginning to stir, when there came a loud, sharp knock at the door of the rude hut, and before the aged Amram could sbuffle across the dirt floor, and open, it was impatiently repeated with increasing emphasis. The trembling hand of Amram drew the bolt, and as the bar cleared its socket, the door burst open under the last vigorous blow of the stranger whose burly form now loomed through the low, narrow opening.

"Say, old man," bellowed the gruff voice of the overseer, "you've lorfed long the burly form now loomed through the low, narrow opening.

"Say, old man," bellowed the gruff voice of the overseer, "you've lorfed long the burly form now loomed through the low, narrow opening.

"Say, old man," bellowed the gruff voice of the overseer, "you've lorfed long the burly form now loomed through the low, narrow opening.

"Say, old man," bellowed the gruff voice of the overseer, "you've lorfed long the burly form now loomed through the low, narrow opening.

"Say, old man," bellowed the gruff voice of the overseer, "you've lorfed long the burly form had been shown the parents of Moses during the land that cruel persecution, almed have help and the large that raged within, and he would have planed the parents of Moses during the land that true leprescention, almed evidently at Moses, was to take its place. Not a word was spoken after the Expytlan had gone. Each was trying to understand this new situation. Bach was searching for some way of scape. But there seemed no help for them, and tearfully mother and saughter watched the aged father driven

ple? Had ne souter turn oack and statement?

With the last question there came an impulse to rush back to the paiace, but it was but for an instant, and then the sweet, comforting vision of shilob, the One Who was coming from God, swept over him and he whispered softly to himself:

"Yes, we can wait! Deliverance is from Him, not Egypt!"

But thought of his father brought back the pain and anguish, and he cried out in his despair:

"What can I do? What must I do now?"

A sudden inspiration seized him, and, rising, he passed out of the door and in the direction—of the clay hole where multitudes of the Hebrew people were placing in the making of brick, which others of his ensiaved people were placing in the wails of the great cities Pharaoh was building.

"Surely, I can do more than a feeble old man," he muttered to himself as he strode along. "Surely, they will not refuse to let me fill his place."

As he drew near to the place the

volce:

"Etc him go. I will take his place.
See, I can do more than he."

"Back, you ingrate! You traitor to Egypt's favor and bounty!" the overseser shouted. "Your only way back to the king's favor is to take my place. Here, take this"—holding out the whip he beld in his band—"and this is the way to use it," be continued, swinging the lash through the sir and bringing it down with such force upon the bare back of Amram that the thongs cut out strips of flesh wherever they fell.

The old man sank to the ground with a moan. For one instant the eyes of Moses rested upon the writhing form, and then all the peat-up passion of the years over the sufferings and wrongs of his people burst foreth. Like a maddened beast of the forest brought to bay and fighting for its young, he aprang at the throat of its ground. The latter was a big, brawny man, and his great frame struggled and twisted for the mastery. His musdes knit in mighty-enovulaive effort to tear Moses' hands from their deadity grip. His fingests, like the talons of a hawk, sank deep into the fisch of Moses' arms and tore threst powerful hands—were but as bending reeds. Ever lighter and tore threst powerful hands—were but as bending reeds. Ever lighter and tore threst powerful hands—were but as bending reeds. Ever lighter and tore the first powerful hands—were but as bending reeds. Ever lighter and tore threst powerful hands—were but as bending reeds. Ever lighter and tore threst powerful hands—were but as bending reeds. Ever lighter and tore threst powerful hands—were but as bending reeds. Ever lighter and tore threst powerful hands—were but as bending reeds. Ever lighter and tore threst powerful hands—were but as bending reeds. Ever lighter and tore threst powerful hands and ling from hands and ling from hands and

Stockwell, of Indianapolis

Expectations," said the other, and all aid that "I never dreamed it possible to succeed as I have."

Like Arabian Nights.

Everywhere, on the trains, at the hotels and in family I have been told successes that reminded me more of the stories in the Arabian Nights than of this matter-of-act workaday world. 'Yields of wheat from 35 to 53 bushels per acre, and of cats of from 60 to 100 bushels, are numerous in every locality and well authenticated. At Mooso Jaw, Lethridge, Calgary, Edmonton, Regins, Brandon, Hanley and many intermediate places I saw cattle and young horase fat as our grain-fed animals of the "States" that had never tasted grain, and whose cost to their owners was almost nothing. At Moosomin I saw a trainload of I,400 steers en route to England, that were sbaky fat, raised as above stated. If the older generation of farmers in Indians, who have spent their lives in a contest with togs and stumps as did their fathers before them, could see these broad prairies dotted with comfortable homes, large red barns, and stray towns with their towering elevator towns.

his success in teaching will depend upon bis keeping in mind that the main idea cousists not in teaching the child to draw and overcome difficulties, but in teaching it to draw something while avoiding them. The interest of the child must be preserved to gain the results de-

Small Hope for the Small Shipper to Obtain Fair Treat-

Telling the story of the milroad rate in the current McChre's. Ray Stannard Baker sees small hope for justice for the small shiper as long as the power of the railroad to fix rates remains in the hands individuals:

"The railroad is, indeed, the essential tool of industry throughout the world. It is the regulator of business. It holds the saeles of destiny. It decides where cities shall be located, and how fast they shall grow, it marks out in no small degree the wheat and corn areas, it decides where cities shall be located, and how fast they shall degree the wheat and corn areas, it decides where of the shall be mountained for the business of the shoularies for the business of the shoularies for the business of the shoularies for the surface of the shall be manufacered in Minneapolis. Buffalo, and whether the chief export business in grain shall be done at the port of New York or at the port of New Orderna.

"And the great fact arising out of these conditions, the overwhelming the standard of the seed of the seed of the seed of the seed that these enormous powers, the centrol of the very instrument of business destiny, is in the hands of a comparatively few private citizens who are handling the tool not to build up the nation properly, not to do real independent refune, or between wheat and flour, not to make the rate-system simple and time-saving, but to fill their own pockets in as short, a time as possible. Hill says that the state of Washington shall grow. Tuttle says that Pittsburg shall not grow, the weetern railroades say that Chicago and Kansse City, shall butcher the beer, the eastern roads allow Rockefeller to dominate the oil industry and become dangerously rich. It is terrible power to place in the hands of a few mental standard of the source of the said of property which determines what tribute every other kind of property shall pay to it." When a shipper or a citizen whethinks he is wronged attempts to get reliet, he must submit his case, not to an impartial tribunal, but to his adversary is ric

IN THE POLITICAL DRIFT.

IN THE POLITICAL DRIFT.

The United States senate is giving a good illustration of now not to do things.—Cleveland Leader (Rep.)

—A meat packer is the poorest witness that ever stepped into the box, with the single exception of an oil magnate—St.—Louis—Clobe-Democrat (Rep.)

—Senators Depew and Platt have gotten so that they can each look at the daily paper without fear of being shocked by the news that the other has resigned.—Washington Star (Rep.)

—Doubtless the senate wishes something would happen to make the public look the other way while its corporate bosees are making it put the ship-subdy grab through.—Chicago Daily News.

—The government printing office,

pounds of the training of the ship-subsidy grab through—Chicago Daily News.

—The government printing office, which has been run as a grafting appendix of Republican politicians, is to be reorganised and the surplus workers laid off. About one-half of the government printing is wested.

—The discussion of railroad rate government printing is wested.

—The discussion of railroad rate legislation is doing some good, even if the ecante refuses to stand by the people, for a bill has been introduced in congress to tax the railroades in the territories the same as other property is taxed. Most of the states need a similar law, for, except in Massachusetts, the railroades only pay from 25 to 50 per cent. of the proportion of taxes that the people pay.

—Those Republicans who favor the property is the railroades only pay from 25 to 50 per cent. of the proportion of taxes that the people pay.

—Those are refused in the training the congress when the dictum of Speaker Cannon. "Leave it alone, it's too dangerous," is generally known. As a business proposition, tariff reform has some Republicans friends in congress, but the great majority are afraid of the political consequences.

—The fact that the tuniff war with Bermany has probably been averted will doubtless prove a great blow to those patriots who were eager to add will doubtless prove a great blow to those patriots who were eager to add will doubtless prove a great blow to those patriots who were eager to add will more to our prospority by hoisting the Dingley rates 25 per cent, under certain conditions.—Indianapolis News.

—Vice President Fairbanks is making a desperate effort to appear of a warm and enticing nature, but the cold snap has checked him gania, athough the property of t

Nancy Hart, the famous Georgia character of revolutionary days, is by no means mythical, but was a very real personage. Not withstanding her gigantic frame, red hair, freckies and crossed eyes, her memory is kept greener among the people of her native state than that of many a more preposessing heroine, says the Richmond News-Leader.

She was what is familiarly known as a Georgia "Cracker," a poor though intelligent white, who lived among the sand hills or in the isolated districts of the state.

Her capture of the ten tories while they were devouring the tempting yinnds she had been compelled to prepare for them is recognized as a historical fact.

During Andrew Jackson's presidency representatives from Georgia, destring to bring that state to the notice of the president, decided to present a painting for one of the niches in the rotunds of the United States capitol building. At length it was completed—a portretit of Nancy Hart, biarcheaded, barefooted, her akits to her knees, crossing a shallow stream driving tef tories before her at point of one of their own guna. The president, who was redheaded and came of hardy ploneer stock himself, its said to have been very much, pleased with the picture, and it is to be hoped that Georgia profited by the diplomacy of her representatives.

The idea that Nancy Hart followed her husband to Florida and died there is renous. After the farce disturbances of the revolution had gone down as history she buckled up her yoke of oxea and with her children and grandchiffern emigrated to South Carolina.

At one of the stops on the route her son.—in-law he selected the latter and lifted him bodily into the bed of the was meleomed and respected by her neighbors. My grandfather's grandfairer of her present and the Georgia hee.

Her fame preceded her there, and she was welcomed and respected by her neighbors. My grandfather's grandfairer of her present and the grand her huse open that rivised Moody's and Jones' in enthusians were held under huge open tabernacles, and men rode on horseb

France's New President.

M. Fullieres, the newly elected French president, was born in Mezin. There is a church dating from the ninth century in the little city. Against its walls once nestied the sulthy and home of a blacksmith. It was in that house, for ma grandfather church in 1872, but the smithy was born. The property was sold to the church in 18..., but the smithy was carted away and set up again, stone for stone, in the outskirts of Mezin, where it till stands.

NERVOUS DYSPEPSIA

A Desperately Serious Case Cured by Dr. Williams' Pink Pills.

A Desperately Serious Case Cured by Dr. Williams* Pink Pilis.
Brought to the very verge of stavration by the rejection of all nourishment, her vitality almost destroyed, the resovery of Mrs. J. A. Wyatt, of No. 1189.

Zeventh street, Des Moines, Jowa, seemed hopeless. Her physicians utterly failed to reach the seat of the difficulty and death must have resulted if she had not pursued an independent course suggested by her sister 's experience.

Mrs. Wyatt says: "I had pain in the region of the heart, application and shortuces of breath so that I could not walk very fast, My head ached very badly and I was seized with vomiting spells whenever I took any food. A doctor was called who pronounced the trouble gratifitis, but he gave me no relief. Then I tried a second dector with ant benefit. By this time I had become very weak. I could not be the most elicited broth on my stomach, and at elicited broth on my stomach, and at elicited broth on my stomach, and at elicited broth on the was scarcely more them skin and benefit my sister had got from Dr. Williams' Pink Pills and decided to take them in place of the doctor's medicine. It proved a wise decision for they helped me' as a belt to leave my bed, Dr. Williams' Pink Pills were the only thing that checked the womithing and as soon as that was stopped my other difficulties left me, they are also and the proposed my other difficulties left me, they are also and my friend because helped proposed by control to all my friends because I have a vigorous appetite now and am able to leave my bed, Dr. Williams' Pink Pills for Pial Feople to all my friends because the correction of the convenity and as soon as that was stopped my other difficulties left me. I have a vigorous appetite now and am able to attend to all the duties of my home. I praise Dr. Williams' Pink Pills for Pial Feople to all my friends because the correction of the proposed my other difficul

adate city of ever the states that is the control of the control o

work esumating, inishing at noon on Saturday.

I sound that a fairly good farming country, a good deal lying about like our country; a part of the timbered land level, but the most of it pretty rough. It is free stone soil but good grazing land. Part of the land that had timber on it had been grubbed and was covered with sod, which was fine pasture. It looks a little like Kentucky bluegrass but they told me that it was called "red top." I was told by one man that he had seen Ken tocky bluegrass seed sown there and it would grow but in a few years it would turn to red top.

I went from there to Zaneeville, from which place I took the traction to Columbus, the State capital. I passed through the beautiful little eityton! Newark, county, seat of Lincola county. It was getting dusk and the electric lights were just lighted around the public square, which is one city block with four sides of business houses, which, brilliantly light-d, made a pleasing spectacle, and I had a good opportunity to view it as the car stopped for several minutes. As it passed out, into the night the thought came to me of what a great country this is with its thousand of happy hames, where each individual has the right to life, liberty and the pursuit of happiness.

Farriced at Columbus at 7 p. m., tired and travel stained but happy from the fact that I knew that there lived in that city some Boane county people, who were old time friends and associates, Dr. W. S. Cole and his wife, the daughter of my old friend, George E. Rouse, Going to the bureau of information I soon found the way to their place, which hey selected when they first went there eleven years ago perfect strangers, to commence the practice of his profession. He told me that his capital was very small and that he was advised to go there as it, wes a growing town and grow with it, which he did and time friends and associates for his place, which hey selected when they first went there eleven years ago perfect strangers, to commence the practice of his profession. He told me t in his buggy with him and while he made a carl-1 had an opportunity to more closely examine the city. I found the streets well payed and cleaned and the working people had good houses and pleasant surroundings. He drove me to the Insane and Imbecile Asylums of the Siste, and closed the entertainment by taking me to the depot, where I took the 4p. m. train which soon deposited me in Clinchnati more fully convinced after my visit that Boone county produces and sends out into. other states the best people in the world. Yours Truly, Frank Russell.

TARCH No. 3183.

Season 19116

The great GERMAN COACH STALLION, PLUTARCH No. 3183, imported from Germany by J. Crouch & Son, of LaFayette, Indiana, now owned by the Burlington Horse Company, will make the season of 1906, from the 1st of April until the first of July, in the town of Burlington, Boone Co., Kentucky; the remainder of the time at L. A. Conner's stable, four miles south of Burlington, on the East Bend road.

PEDIGREE AND DESCRIPTION.

Plutarch No. 3183, was foaled June 8th, 1901; bred by H. Stukenberg, Hammelwardermoor

Sire- Ailrat No. 1193, by Magnat No. 860, Agamemnon No. 560, &c., &c.

Dam-Pavone No. 6423, by Tello No. 1190, by Young Othello No. 923, by Othello No. 755, &c. 2nd Dam-Pfalz No. 3087, by Claro No. 890, by Kimme No. 568, by Young Duke of Cleveland No. 200, registered in "The German, Hanover and Oldenburg Coach Horse Stud Book."

This Stallion is a Mahogany bay 16% hands high, weighs 1300 lbs., has the size, color, and style combined with extreme knee action, lifting his feet high which gives elegance to his pace and action. His points are strong with clean bone under the knee and feet sound, open and tough. He carries his head well with neck very rangy, long and well cut up at throttle, having a fine ear. well set broad forehead with large intelligent eyes and has a fine gentle disposition.

In order to produce good colds it is not recessory to have fine which beed received to the disposition.

In order to produce good colts it is not necessary to have fine or high bred mares as the German Coachers being so long and strong bred will produce high class colts from all classes of mares.

The colts are fine and large and develop quickly. No other breed of stallions will produce as many good colts from all classes of mares.

It must be remembered that this class of horses always demands high prices and to-day they are

the highest price horse on the market. Terms:—\$20.00 to insure a colt to stand up and suck, money due when colt is foaled or mare parted with. Parties breeding must follow up the season. Care taken to prevent accidents, but not responsible should any occur. Positively no service on Sunday. Pasture furnished and mares taken

care of at \$4.00 per month.

We will give a premium of \$50 for the three best colts the get of this stallion of 1906, to be shown regardless of sex at the Florence Fair in the fall of 1907, the premiums will be awarded \$25, \$15, \$10.

Work of Republicans.

Work of Republicans.

Where do the wood alcohol mea come in? Why, they are the beneficiaries of the tax on grain alcohol. The alcohol tax is their protective tariff. The truth is that year after year they have gone to Washington and defeated measures for removing the tax from grain alcohol used mechanically, and the ways and means committee is going to consult them now, though they have absolutely no connection with the pending legislation, except that the taxation of other people is a benefit to them. The committee is going to consider whether the tax on grain alcohol used industrially shall be continued for the sake of compelling manufacturers to buy wood alcohol. That is what revenue legislation under the Republican party has come to.—Philadelphia Record.

come to.—Philadelphia Record.

—The Buffalo Courier wonders, now that the wedding is over, will any attention be given that matter of the restitution of the money litegally contributed by the insurance companies to the Republican campaign fund?

—"The Republican saystem." statement issued by the newly creater, publicky burean of the authracite operators.

The Burlington passenger trains Nos. 1 and 14 collided head-on two miles west of Akron, Col. George H. Sherwood, mall weigher, was killed, and four other trainmen were injured.

The president has selected James T. Sullivan, of New York, as the representative of the United States at the Olympic games in Athens next month is accordance with a request of King-George of Greece.

James Walker, Jr., a negro youth, was hauged at Birmingham, Ala., for the murder of W. M. Hill, storekeeper tsmythely-mine, 11 months ago. Walker confessed on the scaffold.

A United States marshal selzed 7.000 gallons of whisky, worth \$12,000, at the state dispensary at Columbia. S. C. The whisky is said to have been improperly branded and marked.

ANTHRACITE MINERS.

Their Proposition for Adjustment of Difficulties Denied.

Coal Operators Request That the rike Commissioners' Award Be Continued For Another Term of Three Years.

Continued For Another. Term of Three Years.

New York.—The propositions of the United Mine Workers of America for a readjustment of wages and conditions in the anthractle coal fields as a whole have been denied by the committee representing the anthractle operators. As a counter proposition, the operators suggest that the awards made by the anthractle coal strike couminssion, the principles upon which they were established by the commission and the methods established for carrying out their findings and awards, shall be continued for a further term of three years from the first day of April, 1906. The present agreement terminates March 31st of this year.

The demand of the miners that the operators enter into an agreement with the union is declined on the ground that the anthracite operators "stand unalterably for the open shop, and again decline to make an agreement with the Union is declined on the ground that the anthracite operators of America, an organization controlled by a rival industry." Of the demand for an eight-hour day, the statement says the operators know of no change in conditions that can be used to usuatin the renewed demand for a reduction in hours. Declares that the expectation of the strike committee that the reduction from ten to nine hours "Should not result in any decrease in the output of the mines" has not been realized, and adds:

"We might Justly say that with the expectage of the past three years, the tenhour day should be restored; but we are willing to ablde by the decision of the commission.

Toledo, O. — Eastbound freight No. 78, from Garrett, ind., was running in two sections. At Godsend, es small station-two miles from Bloom-dale, the first section stopped for water. A fierce snow storm was raging and obscured the first section from Engineer Albert Guastke and Fireman Nicholson, of the second section, and their train dashed down upon it. Wheu they discovered it, it was impossible to stop and their engine crashed into the rear of the freight ahead, throwing one car over on the parallel track which was open for a fast passenger, westbound. At this moment the passenger came along at full speed, The enging hit the deralled caf and was almost demolished. The mail and baggage cars were thrown over the engine, two passenger coaches were spillstered and a Puliman carwas deralled, but none of the occupants injured. The engine and four cans of the freight second section were demolished. Fireman Hootman was planged beneath the engine and tender of the passenger and instantly crushed to death. Engineer Selgel was thrown into the air and fell senseless beside his engine.

Over 1,000 Lives Lost By An Explosion of Gas in France.

Paris. — Gas in the coal mines of the Courrieres district, near Bethune, exploded with terrible results. The flames spread to all the communicating pits in which 1,800 men had just descended in the morning. The spectacle surrounding the scene is foarful.

The worst fears as to the enormity of the mine disaster. In the Courrieres district of the Pas de Galais have been realized. The death list numbers 1,100 and the whole of the region stands appalled, at, the terrible tragedy which has brought sorrow to 6,000 fathers, mothers, wives and children.

The vast mortuary camp is under military guard, 400 soldiers having airrived there to assist in holding in check the crowds of distracted mourners. For a time hope had been held out to the people that tapping on pipes by the imprisoned men had been heard, but gradually this hope vanished and the people demanded admission to see the bodies, and even threatened to break through the cordon of troops, who had the greatest difficulty in keeping the crowds from the pil.

The Burning Caney Gas Wall.

the pit.

The Burning Caney Gas Wall.
Caney, Kan. — An attempt to cover the huge burning gas well six miles from here with a great iron hood, upon which a week of preparation had been spent, was made, and failed. The hood, with its attached pipes and weights weighing more than 35 tons, was thrust aside, bent and broken by the mighty rush of gas and fame.

INTERESTING STATE NEWS

Frankfort, March 7.—The senate adopted Col. Jack Chinn's bill providing for a state racing commission to control the tracks. It received 32 votes to 4 sgainst. Four amendments were added to the bill before passage, as follows: Extend term of commission from two to four years, revoking only for cause license, permit appeal to the courts to exclude trotting tracks and .to prevent commission from limiting racing on any track to less shan 40 days yearly. In accordance with the Simmons resolution to investigate the loss of his anti-pool-room bill, the speaker of the house appointed Representatives Simmons George Wilson, of Unlon, and Chas. Dawson, of Logan, as the investigating committee.

The house adopted without dissent bill No. 372, by Mr. Bourne, changing time of holding courts in the Tweftth judicial district. Mr. Redwine's bill, suthorizing the appointment of special judges in regular districts, allowing appointment in one county while the regular court is being held in another county, passed by a vote of 62 to 3. The motion to reconsider the libel retraction bill was tabled after a hard fight by a majority of five. The bill proposing that domestic life incurance companies be required to keep on deposit with the state treasurer securities of the value of the Policles outstabilish a state tuberculosis sanitarium. The bill originally called for \$50,000, but the committee to locate and build the annitarium. The senate passed the bill appropriating \$20,000 to estabilish a state tuberculosis sanitarium. The bill originally called for \$50,000, but the committee to focate and build the annitarium. The senate passed unanimously by the senate.

The house of representatives took the insurance people by surprise by unanimously passing, a bill abolishing the deferred dividend policles in this state, and requiring annual dividends to be paid on all life policles after down the senate passed the house bill appropriations of the power of the sale of the first four creasing the sale rise of the first four creasing the sale r

tenced To One Year in Prison.

Lexington, Ky., March 10.—William-Curran, a wealthy lumberman and churchman, was sentenced to serve one year in the penitentiary on the charge that while a director of the defunct Industrial Mutual Deposit Co., a debenture concern, he embezzied \$500. On the result of his trial depended the liberty of a score of prominent Lexington people who are under indicated the control of t

THE KENTUCKY MINERS.

Connection With Nominations.

Louisville, Ky., March 10.—A wrangle over the color line in connection with the nomination of candidates for district officers and the transaction of routine business took up the time of the one session here Friday of the convention of the 25d district United Mine Workers of America. Here the convention of the 25d district United Mine Workers of America. Here of the convention of the 25d district United Mines Workers of America. He one-hard the familiar miners in the district. Baye been represented among the district officers, but the nominastions. Friday were confined to white miners. The discussion was without definite result. The election of officers will be held Saturday. The officers and delegates are practically unanimous in favoring a restoration of the scale of 1903, 62½¢ for mining screened coal. The present rate is 78½ cents. The session will probably continue for several days.

FIRE AT OWENSBORO.

FIRE AT OWENSBORO.

Owensboro, Ky., March 9.—The gro-cery store of T. W. Moss & Son was destroyed by fire. The entire building was in James when the fire was dis-covered. The rooms over the store were part of the Farmers' hotel, occu-pled by a dozen people. All escaped except Ed Rider and James Broger, recently from Louisville. They were overcome by smoke and had to be car-ried out of their rooms by firemen through vindows and were finally re-vived. Loss \$5,000.

WAS FRIGHTFULLY SCALDED.

Chief Distiller Fell Into a Tub of Bolling . Slop.

Cynthiana, Ky., March 9.—James Curle, head distiller of the F. S. Ash-brook Distillery Co., in the city limits, while walking across a tub of boiling slop, fell into it and was severely scalded about the arms and legs. He drew himself out after being covered up to his neck. He is resting easy and the burns are not necessarily dan-gerous.

gerous.

Louisville Tobacco Market.

Louisville, Ky, March 10.—Six hundred and fitty-nine finds of burley were offered Friday on the breaks at prices varying from \$4.05 to \$15. One hundred and fitty-nine finds of burley were offered at prices varying from \$3.95 to \$7.50. The market was unchanged on burley and elightly stronger on dark tobacco.

Mother Sees Jett in Court.

Cynthiana, Ky., March 3.—Special
Judge H. G. Botts, of Owenton, called
the case of Curtis Jett, indicted by
a Breathitt county grand jury for killing James Cockrill, town marshal, in
Jackson, Ky. When Jett came down
the small aile of the courtroom his
mother drew him to her and kissed
him.

Accidentally Shot By a Woman.
Middlesboro, Ky., March &—Alice
Moore and Lucy Tucker became involved in a quarrel at the restaurant
of Josh Beard. As a result the Tucker
woman pulled a revolver and fired two
shots. They went wild and one struck
Frand Maden, who was playing pool
in an adjoining room, killing him instantily.

Frankfort, Ky., March 9.—The bill to transfer Butler, Ohlo and-Adair counties to different congressional districts was defeated in the house after an oratorical exchange of left-handed compliments between Thomas Drewery, of Louisville, and Will Young, of Rowan.

SETTLEMENT

With B. B. Allphin, Ex-Sheriff on Account of General Expense Fund for 1905.

For guard conveying Wm. Ingram to asylum.

For guard conveying Wm. Ingram to asylum.

For guard conveying Warner to asylum.

For waiting on courts, &c., allowed by fiscal court Jan. '06

For summoning 59 witnesses for G. J. at 15 cents each...

RECAPITULATION:

Given under my hand this the 3d day of January, 1906.

S. GAINES, Commissioner Boone Fiscal Court.

I, B. W. Adams, Clerk of the Boone County Court in the State of Kentucky, do certify that the foregoing settlement was filed at the January term, 1905, of this court and ordered to lie over one 12 50 10 60 month subject to exceptions, and none having been taken, same approved at the March term, 1906, and ordered to record. Wi ore, same and this certificate have been duly recorded in my office his 7th day of March, 1906.

B W. ADAMS, Clerk.
By F. B. ADAMS, D. C. this 7th day of March, 1906.

It will not cost you a cent to try Chamberlain's Stomach and Liver Tablets, and they are excellent for Stomach troubles and constipation Get a free sample at drugstore. Sold by every reliable dealer in State of Kentucky.

In an opinion by Justice Har-lan, the United States Supreme Court Monday, it was held that there is nothing shown in the case of Caleb Powers which war-rants the Federal Court taking charge of it. The case is remand-ed to the State courts, and Pow-ers will be tried for the fourth time in the court in which he was three times convicted. The de-cision was unanimous.

A Lively Tussle
with that old enemy of the race,
Constipation, often ends in Appendicitis. To avoid all serious
trouble with Stomach, Liver and
Bowels, take Dr. King's New Life
Pills. They perfectly regulate
these organs, without pain or discomfort. 25c at all Druggists.

The devil never made a lock that the love of God could not break.

The Harrison county grand jury handed out to progressive euchre players a very hot roast, and then showed the white feather by recommending that the next grand jury investigate the violations of law in that particular.

Boone County Pomona Grange will meet with Pt. Pleasant Grange at Florence, March 17th, 1906. The fifth degree will be conferred on a class of candidates, and it is to be hoped that a full representation from all the Granges in the county will be present.

present. WILLIAM BATTERSON, Master.

COMMISSIONER'S NOTICE.

COMMISSIONER'S NOTICE.

Bone Circuit Court.

Carrie N. Tanner, & C., plaintiffs.

G. G. Hughes, adm'r, & C., defendants.

Notice is bereby given all persons having claims against the estate of J. G. Vaughn, deceased, to present same to the undersigned, proven according to law. The Master will begin his sittings to hear proof of claims in his coffice in Burlington, on Feb. 10, 1906, and continue from day to day (Sunday excepted) until March 17, 1906.

J. A. DUNCAN, M. C.

COMMISSIONER'S SALE.

Garnett Tolin is assisting J. C. Revill in the bank.

Born, to Elbert Roberts and wife, on the 10th inst., a boy.

Young chickens are making their ppearance in every direction.

The Burlington farmers occupied positions close to the stoves last week.

Groundhog winter closed on the 9th, and peewee winter began to run 20 days.

Buds on some of the maple trees have begun to show signs of the approach of spring.

Teamsters say the condition of the Lexington pike from Florence to Covington, is awful.

Everett L. Helm's latest song, "Sweetheart Edna Riley," is now on sale. 37 cents per copy by mail.

Mrs. R. S. Cowen has sold her house and land out on the East Bend road, 30 acres, to C. E. White, for \$2,000.

John Baldon made a trip over in Indiana, last week, looking for a team to buy, but found none that suited him.

Cad Sullivan carried no insur-ance on his residence nor its con-tents, and the loss of contents was nearly total.

Housecleaning season is not far in the future, very much to the de-light of the men who are experts at putting down carpets.

See Wilhoit the Life Insurance man, Farmers and Traders Bank Building. Covington. Residence, Stringtown on the pike. 3-28

A good sized crowd attended the sale of the personal estate of the late John C. Mitchell, last Wednes-day, and good prices were the rule.

W. L. H. Baker, of Big Bone, will have a public sale of stock and farming implements and household and kitchen furniture on the 24th.

The first thing you know farmers will be badly behind with their work, as the weather so far has not been such as to permit of much crop preparation.

From the way the tobacco was coming in to Hogan, last week, it is evident the American Company's man did not buy all of the weed in this part of the county.

W. H. Wilson, of Union precinct, made the Reconder a very pleas-ant call last Thursday afternoon. Mr. Wilson's visits to Burlington are few and far between.

At no time during the past win-ter was the ground frozen very deep, consequently the roads will settle and become good in a short while after the rainy season is over.

Some of the industrious farmers lie awake at night now planning for the crop they will cultivate in 1906. They all want to get a good start, but very little has been done so far.

Mrs. W. C. Goodridge and Miss Kittie Gaines arrived home Mon-day morning from Jacksonville, Florida. The mercury was down to 22 above zero that morning, and they felt the cold very perceptibly.

Dudley Rouse received a large consignment of garden seeds, one day last week, from Washington, and he is at a loss to know how the seed department learned that he would garden extensively this year.

In renewing his subscription, O. W. Adams, said: "I can't afford to be without the RECORDER. It is like a letter from home, and comes regularly every week to my office." Mr.-Adams is quartered at the Oxford Hotel in Cincinnati.

If every sheep raiser in this county has had as good luck with lambs as those heard from at this office, the 1906 Boone county-lamb crop will be larger than usual, as nearly all the ewes have two lambs each, and the lambs are doing nicely.

A large lot of garden seed which Congressman Rhinock had shipped for distribution in his district were lost or stolen enroute, but if possible he will secure another supply for distribution among his constituents. Mr. Rhinock will see that his people will get all that is coming to them.

ing to them.

almost universally regretied.

Mr. John B. Winston, of Idlewild, died after a briet illness, last Friday morning, lacking one month and two days of being 76 years old. Mr. Winston had been a sufferer of rheumatism for many years. His death was not expected as his illness was considered a bilious attack to which he was subject. He was a member of Bullittsburg Baptist church, and besides many friends he leaves a widow, one son and two daughters to mourn his departure. His daughters are Mrs. C. E. Stephens, of this county, and Mrs. Threidkeld, of Wheatly, Owen county. The deceased was an upright, God-fearing man.

death was not supported a bilious at tack to which he was subject. He was a member of Bullittsburg Baptist church, and besides many friends he leaves a widow, one son and two daughters to mourn his departure. His daughters are Mrs. C. E. Stephens, of this county, and Mrs. Tyreldkeld, of Wheatly, Owen county. The deceased was an upright, God-fearing man.

In Memoriam.

Mrs. Letitia Woodward, of Covington, Kentucky, passed to her Eternal Home February, 1906, aged 87 years. She was an humble, christian, faithful, pure, patient in suffering, never murnuring "under affliction. For over 50 years had not heard a sound, yet without a murnur. She had an abiding faith in God, for her life was in harmony with His will. All that willing hands and loving hearts could down with His will. All that willing hands and loving hearts could down was done for her all through her declining years, and to the day of the death, by her two devoted daughters. May the Lord sustain and comfort in their loneliness.

"She was so gentle, sweet and good, And walked with Jesus here; "Trees are leaded down with alest and the work of sowing tobacco plant beds will be rushed from how on until tis too late to sow seeds. her thought was far from the task perfore her.

So eagerly did she listen for anatches of the conversation that now said then were sudible and so-oftendid she blunder and forget the work her hands were given to do, that finally her mother impatiently dismissed her, asyling:

"You are no good tending the sheep, and you are a trial in the house? What alls you, child?. Go out and see if you can't get your can't get your can't get your can't get you fail? And as she went out the door, giad of the chance to get by herself, her mother's eyes followed her, and noted the shy giance she cast in the direction of the stranger, and the color which mounted to her check as she passed bim, and the good woman exclaimed to herself:

"If do subtements whild is in her work and the color with the control of the stranger, and the color which mounted to her check as she passed bim, and the good woman exclaimed to herself:

which mounted to her chees as say passed him, and the good woman exclaimed to herself:

"I do believe the child is in love with him. Humph," and she shrugged her shoulders contemptuously, "what has he, a penniless fugitive, to offer for one of the daughters of Jethro, the prince and priest of Midian?"

She was aroused from such irritating meditations by the sudden appearance of her husband, who said:

"Well, mother, I have about persuaded Moses to tarry in this part of the country. He is a clever fellow. Has quite a wonderful history. But I can't quite make him out. He claims to be a Hebrew, a decempant of isac, son of Abraham."

"Abraham!" broke in his wife; "why, thy people claim descent from with the country why, thy people claim descent from why, thy people claim descent from which is the country of t

to be a Hebrew, a descendant of Isaac, son of Abraham!" broke in his wife; "why, thy people claim descent from Abraham, for was not Midian, the ancient head of this people, the son of Keturah, whom Abraham took to wife after the death of Sarah!" "True, Indeed," responded Jethre, meditatively, "but he talks and acts not like a hebrew, but like an Egyptian, born and bred. And when I charged him with being such, he seemed confused, offering no explanation save to say that he had been trained in the Egyptian schools. He talks freely, however, about his people, as he calls the Hebrews, and the hope they have of deliverance from slavery in accordance with promises

"Oh, what will you think of me?" the solbed.

"Oh, what will you think of me?" the solbed.

"Oh, what will you think of me?" the solbed.

"Oh, what will you think of me?" the solbed.

"Oh, what will you think of me?" the solbed.

"It was the solbed of the solbed of the solbed.

"It was the solbed of the you when you tell me why you acreamed." Moses responded soberly, watching her with growing larevy in accordance, with promises that the solbed oberly, watching her with growing larevy in accordance, with promises to fee to the solbed oberly. Watching her with growing latevast.

There was no response.

"Do you want me to go away?"
"Do gou want me to stay?"
"Still there was no answer, save as a little trembling hand reached out and was grasped tenderly in the big starts from Geshen, where his people was the solbed of the search out the land and prepare is east and north into Canaan—the of government of the solbed of the search out the land and prepare is east and north into Canaan—the of government of the search out the land and prepare is east and north into Canaan—the of government of the search out the land and prepare is east the would remain, he was prepared to the search out the land and prepare is government. Thou will be better content. T

Him.

"Jethro is right," he exclaimed, as a new peace and confidence, stole into his heart. God hath spoken through him. I will not go no to Canaan. I will wait here until God makes the way plain, and leads me back to my people."

As he spoke the words there came a half-stifled scream of joy from the clump for bushes at one side, and glancing quickly in that direction he caught a glipse of Zipporah's face. He made one move towards her, when with a frightened, embarrassed look she turned and fied from him.

"What would he think of her?", she asked herself. "Would he think she was spyling upon him?"

When her mother had dismissed her she had sought the solitude of the she had sought the solitude of the she had sought the solitude of the woods, and it was not her fault that later Moses had invaded her retreat. By way of answer there came the sound of rapid footsteps following, her, and she quickened her pace and would have made good her escape, and would have made good her escape, and in her way and tripped her. Before she had time to gafn her feet, Moses was at her side and sa he lifted her in his great, strong arms, he said, laughing-ly:

"My little bird almost escaped me "My little bird almost escaped me."

at her side and as he litted her in his great, strong arms, he said, laughing. Iy:
"My little bird almost escaped me that time. Did I frighten you?"
She tried to push him away with one hand while with the other she sought to hide her face.
"Oh, what will you think of me?" she sobbed.
"I will tell you when you tell me."

Good for Trade.

Ranway Official (traveling incog on his own line)—They say there has been some fault found with the lamps on these trains. Do you see anything wrong with them?

Passenger—No, sir. to on the contrary, they are exactly the kind of lamps I like to see used.

Railway Official (highly-pleased)—I presume you are a professional man't Passenger—Yes, sir; I am an equilat—Royal.

The Supreme Test.

"You say that you would do anything on earth for me?" the fair girl asked, looking into his earneet face.

"Anything, darling!" he whispered, passionately.

"After we were married would you go shopping with me?" she continued. With a groan of anguish he turned away, and she, sobbing, hid her face among the pillows. In the supreme test he had falied.—Judge.

Proof to the Contrary.

"No," she said as she glanced down the column of marriage notices, "it cannot he true that marriage is a lottery."

"And why not?" queried the young man in the parlor scene.
"Because," she replied, pointing to the column in question, "there is a law prohibiting the advertising of lotterles—and just look at this."—Chicago Dally News.

SHOULD A HORSE

BE CLIPPED?

CLIPPING IN THE EARLY SPRING RECOMMENDED BY LEADING VETERINARIANS.

All. Thinking Men Readily Recognize

"A horse is a valuable asset, and ahould receive the best care possible. He should be well fed, comfortably stabled, carefully groomed and clipped in the early spring. If he receives these attentions he will work well and improve in value. A horse lives under artificial, conditions. In his wild state he required none of these attentions, for he was able to look out for himself. The domesticated animal, being worked under conditions that are in themselves artificial, must be kept in condition for such work.

Definition.

If you the definition axistate."
Of that small word, "mistate."

THE EDITOR

and Physical Vigor.

A New Jersey editor writes:

"A long indulgence in improver food brought on a condition of nervous dyspensia, nearly three years ago, so severe that I had to quit work entirely. I put myself on a strict regimen of Grape-Nuts food, with plenty of outdoor exercise and in a few months found my stomach so far restored that the process of digestion gave me pleasure instead of distress.

"It also built up my strength so that I was able to resume my business, which is onerous, as I not only adit my own paper but also do a great deal of 'ourside' writing.

TARCH No. 3183.

The great GERMAN COACH STALLION, PLUTARCH No. 3183, imported from Germany by J. Crouch & Son, of LaFayette, Indiana, now owned by the Burlington Horse Company, will make the season of 1906, from the 1st of April until the first of July, in the town of Burlington, Boone Co., Kentucky; the remainder of the time at L. A. Conner's stable, four miles south of Burlington, on the East Bend road.

PEDIGREE AND DESCRIPTION.

Plutarch No. 3183, was foaled June 8th, 1901; bred by H. Stukenberg, Hammelwardermoon

Sire- Ailrat No. 1193, by Magnat No. 860, Agamemnon No. 560, &c., &c.

Dam-Pavone No. 6423, by Tello No. 1190, by Young Othello No. 923, by Othello No. 755, &c. 2nd Dam-Pfalz No. 3087, by Claro No. 890, by Kimme No. 568, by Young Duke of Cleveland No. 200, registered in "The German, Hanover and Oldenburg Coach Horse Stud Book."

This Stallion is a Mahogany bay 16½ hands high, weighs 1300 lbs., has the size, color, and style combined with extreme knee action, lifting his feet high which gives elegance to his pace and action. His points are strong with clean bone under the knee and feet sound, open and tough. He carries his head well with neck very rangy, long and well cut up at throttle, having a fine ear, well set broad

forehead with large intelligent eyes and has a fine gentle disposition.

In order to produce good colts it is not necessary to have fine or high bred mares as the German Coachers being so long and strong bred will produce high class colts from all classes of

The colts are fine and large and develop quickly. No other breed of stallions will produce as

many good colts from all classes of mares. It must be remembered that this class of horses always demands high prices and to-day they are

he highest price horse on the market.

Terms: \$20.00 to insure a colt to stand up and suck, money due when colt is foaled or mare parted with. Parties breeding must follow up the season. Care taken to prevent accidents, but not responsible should any occur. Positively no service on Sunday. Pasture furnished and mares taken

we will give a premium of \$50 for the three best colts the get of this stallion of 1906, to be shown regardless of sex at the Florence Fair in the fall of 1907, the premiums will be awarded \$25, \$15, \$10. For further particulars call on or address

The Battenberg family has come prominently to the front of late owng to the prospective marriage of the young Princese Ena Victoria to King Alfonso of Spain. Though mong her intimates she is known as Princese Ena, it is announced that he will in the future be known as loven Victoria of Spain, in remembrance of her illustrious granduother, Queen Victoria of Britain.

There are in the United States 1,029 plants devoted to silk manufacture, employing 99,000 skilled operatives. These plants are distributed, all over the country, and in 1905 produced \$105,000,000 worth of silk textiles. It is estimated that the production for 1906 will reach the amount of \$115,000,000, and that the grand total of consumption of silk price goods for the present year will amount to \$150,000,000.

amount to \$150,000,000.

In the year 1895 the United States produced nearly 385,000,000 pounds of copper. Its value was \$38,000,000 pounds of copper. Its value was \$38,000,000—not quite ten cents a pound. Every year since then the output of our copper mines has been grester than the year before, in 1904 American mines produced \$12,000,000 pounds, and the value was \$105,600,000, or about thirteen cents a pound. The increase in consumption being greater than the increase in consumption their greater than the increase in production, the price advanced steadily.

price advanced steadily.

The most recent marriage and divorce statistics of Indians show a naw and interesting condition. The information is derived from a compilation of the county cierk's records by the chief of the state bureau of statistics. The number of marriages decreased from 28,301 in 1904 to 28,05767 in 1905. The number of divorces increased from 3,449 in 1904 to 3,840 in 1905. In 1904 there was one divorce for every eight marriages. For the year 1905 there was one divorce for every seven marriages.

One of the most prominent figures as the sporting world is Willie Hoppe, the American boy, who won the chamgionship of the world at 18-inch balling billiards from Maurice Vignaus. It is a great feat of science for any one to win the billiard championship, but for a boy 49 years old it is won-derful. Hoppe is even more sensational than was Frank Ives, in his time the most picturesque billiardist the world had ever seen. The boy was born a billiardist, for he had "the stroke" the first time be handled a use, when six years old.

the most wonderful forest in the world is being washed out of the tableland of northern Arizona, but it bears little resemblance to a forest save in the form of the logs in which the tree trunks are broken. The trees are undoubtedly the oldest in existence, for the woodland which they composed existed millions of years ago. Finally the forest was everwhelmed by the sea and later by an earthquake, so that the trees were imbedded in such a manner, that most of them have literally turned to stone.

The Indian is coming to the front in these days. The trihal organization of the Cherokees, Chickmaws, Chockaws, Creeks and Seminoles was lissolved a few days ago, and those indians, numbering about nheety thousand, will diffuse themselves among the mass of the clitzenably of the country. Their community, the indian Territory, will form part of he coming state of Oklahoma, and he red man will take up a little of he white man's burden, and assist in saking and obverse he have a second or the white man's burden, and assist in saking and obverse he have a second or the white man's burden, and assist in saking and obverse he have a second or the white man's burden, and assist in saking and obverse he have a second or the white man's burden, and assist in saking and obverse he have a second or the saking and obverse he have the saking and obverse he have a second or the saking and obverse he have the saking and the saking and obverse he have the saking and the saking a

A HUGH SNOWSLIDE.

Mixing Property to the Value of Near \$500,000 Destroyed.

That a Score of Men is ardinghouse Had Lost Their Lives.

Their Lives.

Oursy, Col. — A mammoth snowslides in the Mt. Sneffels district,
six miles south of Oursy, wrecked the Camp Bird mine mill, tramhouse, boarding house and readingroom. William Cressy is known to
have been killed and it is feared that
their lives were iost. A number of
men, it is reported, were seriously injured. The property loss is estimated
at from \$440,000 to \$500,000.

The Camp Bird hunk house, adjoining the reading room, which was
wrecked, narrowly seazeped heing enguilfed and crushed. There were be
tween 200 and 250 miners and mill
employes in this huilding when the
silde came down. The residence of
General Manager Cox also escaped
destruction by a narrow margin. The
silde shad largely spent its force beforereaching the assay shops and general
offices of the Camp Bird mine. This
savalanche, which moves annually and
is called the United States slide, was
larger this year than ever before. It
started moving Saturday evening at 70
clock, following its usual course.

A telephone message received here
from Silveston at 3 o'clock Sunday
afternoon stated that a report has
been received that scores of miaers
were killed by the destruction of the
Camp Bird boarding house, but this
report is discredited here.

The Camp Bird boarding house, but this
report is discredited here.

The Camp Bird club house was one
of the finest ever built for a similar
mine owner, several years ago to za
English company.

PRESIDENT MITCHELL'S LETTER.

PRESIDENT MITCHELL'S LETTER.

Replies To Anthracite Operators' Re-jection of the Miners' Demands.

indianapol's, 'Ind.—President John Mitchell, of the United Mine Workors of America, has mailed to George F. Baer, chairman of the anthracite coal operators' committee, his reply to the committee's communication rejecting the demands of the miners' organization.

Mitchell expresses his keen disappointment over the rejection of the miners' organization.

Mitchell expresses his keen disappointment over the rejection of the miners' demands in toto and says:

"It is our opinion that neither you nor we can afford to hreak off negotiations in this abrupt manner. So far as we and the interests we represent are concerned, we are not willing to accept any share of the responsibility this action entails. We believe that further meetings should be held and that we should strive earnestly and conscientiously to reconcile our differences.

"While it may be true that on the

turther meetings should be fed and conscientiously to reconcile our differences.

"While it may be true that on the part of the operators there had been no serious cause for complaint during the past three years, we wish to assure you that in expressing this opinion you do not reflect our views. Not only has there been criticism among the miners, but what is more important, there exists much cause for criticism and complaint. To such an extent is this true, that we feel it incument upon us to say that we can not with any degree of contentment or satisfaction, continue to work under present conditions. Moreover, we repeat that the interests involved are so vast that we are not willing to hreak off negotiations without first making further efforts to reconcile our differences. We, therefore, propose that further conference or conferences he held between now and the first of April."

held between now April. 'I't this suggestion meets with your approval, we shall be pleased to arrange with you a date upon which our joint committee may reconvene."

AN IN CHARGE OF RAIL WAY BATE LEGISLATION.

BECOME VERY PROMINENT

nator Knox Fopular with Both Par-ice—Senator Bailey a Fine Consti-tutional Lawyer—This a Young ies—Senator Bailey a Fine C tutional Lawyer—This a Yo Man's Administration.

A S H I N O TON.—
Senator Tillman,
of Sou h Carolina,
has had unexpected honors thrust
upon him. He has
been put in charge
of the railroad
rate bill in the
senate and occuin managing an administration measure while personally being the bitterest enemy President Roosevelt has in
congress. The senator has accepted
the responsibility and proposes to
show friends and foes alike that he
can rise to the occasion and conduct
themselt caimly and conservatively. He
has declared that if anyone expects to
see him make a clown of himself on
the floor of the senate that person will
be very much disappointed.
It is absolutely amusing to see this
free-eating senator from South Carotina visiting the Republican elde, getting counsel and advice as to how he
shall conduct the fight for this great
economic measure. It is funny to see
him in consultation with Senator Doltilver, of lows, who is a Republican
of the deepest dye and as opposits to
fillman in his views of government
and legislation as could be found. Mr.
Dolliver had expected to have been put
in charge of the rate bill himself, but
was the victim of a parliamentary
play in the committee on interstate
commerce which resulted in Mr. Tillmore prominence then any other man
in congress. Hs added to hie notorlety by
making one of the most bitter at
tacked the president's policies and
ancered at his personality and yet today he is the champion of Mr. Rooseveil'e principal policy, that of regulating freight rates. Then Mr. Tillman gained additional notorlety by
his joint resolution calling for an inwestigation of the coal and oil carryting railroads and ou top of all this ha
is put in the limelight by having
charge of railway rate legislation in
the senate.

The President and His Friends

The President and His Friends.

IERE have been many eterics about the president failing out with a number of his did friends on the rate question. There has been some pretty plain and on the part of hie friends with the president and on the part of hie friends with the president, but there is no evidence of a rupture. Senator Knox, of Pennsylvania, is one of those who has been represented as breaking with the president, but he expresses the views of himself and other senators on this point when he says: "The talk of my breaking with the president and the resulton as my breaking with the president and the senators on the calls of a rate bill, but during the past dive years I have frequently differed with him and there never was any thought of a rupture. The president and his friends are not so far apart on the rate question as might be supposed."

Benator Knox seems bound to take a prominent place in the consideration of the railway rate bill as he is looked up to by every lawyer in the senate as a man most thoroughly capable of passing upon constitutional points and the latter seems to be really the only source of controversy in the rate question. Mr. Knox is a popular on the Democratic side as among hie Republican configures and it le a daily sight on the floor of the esnate to see him and Senator Balley, of Texas, the Democratic leaver and a fine constitutional hawyer, in armest conference discussing some legal phase of the bill. Mr. Balley say he regarde Mr. Knox as one of the greatest lawyers in the constitution.

The Silver Dollar.

T is a remarkable fact that in the year 1905 not a successful of the third in the year 1905 not a successful of the third in the year 1905 not a successful of the third in the year 1905 not a successful of the third in the year 1905 not a successful of the third in the year 1905 not a successful of the third in the third in the year a single pattern piece of this den on in a tion struck off at the mint, although coin collectors urged Director Roberts of the mint at least to issue proof pieces so that their series of coins would, not be broken. He declined all such requests.

The silver dollar took the place of the old Spanish "piece of eight," which had general circulation in the colonies and states before the opening of the mint. in 1792. The coinage of aliver dollars began in 1749 and they were lessed each year continuously for tan years and then discontinued. Their coinage was resumed in 1839 and they have appeared each year from that up to 1905 in which year not a single dollar was struck off.

The most valuable dollar in the series of silver dollars is one of 1794. One of that mintage is good condition is worth \$240, while as high as \$510 has been paid for a subceimen that was never in circulation. This dollar bore the design of aliberth head with flowing hair. Above the head was the word "Libert," surrounded by 15 sura. In two years the total number of dollars of this design circulated was \$05,731 in 1804 the last year in which these dollars were coined, about 19,000 were minted. The dollar of that date is regarded as the most famous of all, as they were search in the two years the total number of dollars were coined about 19,000 were minted. The dollar of that date is regarded as the most famous of all, as they were sent to Tripoli to pay the solder of the dollars were used in those days to pay off the men in the navy and nearly an the coins made by the mixt tare year was coined about 19,000 were minted and sallors engaged in the Tripolita war. The theory is that few of the coins were

it, the senate hated it, and it discomparatively young.—Chicago Tribune (Rep.)
—Senator Foraker's speech in opposition to the railroad rate bill consisted of about 35,000 words and he spent a week in writing it. Contrary to general expectation, the Obio a nator read it without oratorical frill or dourlab. The speech was pronounced a masterly effort, but as the epseker's "fire-alarm" propensities were nit in vidence it was rather a dull and disappointing affair.—Chicago Chron.ce (Rep.)
—The quantity of pension legislation passed through congress with ahourd ease and a pension liet of \$140,00,000 a year in this country insigner the Toronto Sun to remark; "If democracy means the government of public opinion as contrasted with that force, hereditary privilege, or class interest, we may hope and believe that the come to stay. But if it means demagogic government, whether for he netion or for the numlcipality, its permanence is not so curs."

Standpatters Reign.

Germany, of its grace, will not enforce its new tarist against the United States for another year. This decision of the reichatag, muet make the German high protectionists, etandatters, green. We rather sympathize with their woe. If protection is such a good thing, the more you have of it the better, of course. But both our American standpatters and most of our reformers seem to rejoics at Germany's consideration. The former because it enables them to avoid taking up the tarist question just now; the latter, because it gives them a year to agitate for rational reciprocal relations with Germany. The evil day, in curopinion, is only postponed; our standpatters will never yield an inch until tremsudous popular pressure comes upon them.—Indianapolis News (find.)

RECORDER 400 A Mch., 2l, 1906. W. L RIDDELL

It is astonishing how easily bills were swiped in the Senate during the regular session. A very large screw was loose some-where in the organization of the upper house.

Many of the members of the General Assembly were on the alert for soft places for them-selves or friends during the regu-lar session, and in several instan-ces they succeeded in getting what they were after.

It will not cost you a cent to try Chamberlain's Stomach and Liver Tablets, and they are excellent for Stomach troubles and constipation Get a free sample at drugstore Get a free sample at drugstore. Sold by every reliable dealer in State of Kentucky.

The winner of the \$25,000 prize for correctly naming the total attendance at the St. Louis exposition in 1904 is Frank Campbell, a convict in the Netraska state penitentiary, who stil has about one year to serve. How would you like to trade places with Campbell?

Gov. Beckham is receiving the endorsement of nearly everybody for calling an extra session of the legislature to impose a tax on the business of rectifying whisky. With a reasonable tax on that business it will produce a large amount of revenue, and the Governor is determined that it shall not escape its share of the burden of state and county expenses.

den of state and county expenses.

The Republican bosses held a love feast, so called, at Frankfort one night a few weeks ago, and it is said they agreed on Judge Burnham, of Richmond, as their candidate for Governor of Kentucky. The Republican machine in this State operates very much smoother, than the Democratic machine does. Just keep your eye on it for a while and see how nicely it does its work.

work.

On several occasions while presiding over the Senate, during the regular session this winter, Lieutenant Gov. W. P. Thorn attempted to imitate the actions of the late Thomas B. Reed while he was Speaker of the National House of Representatives, but in every instance Gov. Thorn made a humiliating failure and lowered himself, not only in the estimation of the Senators, but in the estimation of the Senators, but in the estimation of the Billie. Billie! why do you do so?

Billie. Billie! why do you do so?

An examination of the census reports of 1900 shows that Kentucky has been particularly generous in furnishing her best blood to the upbuilding of other States, particularly throughout the West. In the States and territories in the United States there were, according to census in 1900, 546, 265 native-born Kentuckians. Since the report there have been many others who have left Kentucky for other States, and, with the 30,000 living in Canada, and others living in Mexico, South America, Europe and Asia, there are over 600,000 natives of Kentucky living without the borders of the State.

The newest thing in paper is

of the State.

The newest thing in paper is the disappearing kind. Soused in diluted suiphuric acid and then carefully glazed, it looks like the paper that abideth, but slowly the acid nibbles at the fibers under the glazing, till in a week or so the substance has clean gone out of it, and the place thereof knows it no more. A most convenient sort of paper—when you're the one to use it. For instance, on such paper you can write a promissory note, and in a short time it is no more forever, having crased itself perfectly. No doubt but what there will be a great demand for the "disappearing" paper.

An interesting test at feeding

An interesting paper.

An interesting test at feeding hogs skim milk at the Guelph, Canada experiment station, is given in their bulletin, which will attract the attention of pig feeders. It says: Whenever from five to eight pounds of skim milk per day were fed to shoats in commection with all the grain they would consume, it was equivalent to selling the skim milk at 42 cents per hundred; when ten pounds of skim milk were fed, the returns were only 30 cents per hundred; when 15 pounds were fed the returns were only 20 cents per hundred, and when as much as twenty-five pounds of skim milk were fed the returns were only from 10 cents to 15 cents per hundred for the skim milk. These facts show that one can

The jury at Indianapolis, last week, found the Mr. Herrick, who resigned several weeks ago as Auditor of State, guilty ofembezzlement of the State funds to the amount of \$127,000. The Governor discovered that Herrick was not handling the State's money properly and forced him to resign. As soon as Herrick found out that his embezzlement was known to the Governor he began to replace the money, which he succeeded in doing, but the jury thought he ought to be punished for being too free with the State's money. The case has been appealed, and if the lower court is not reversed Herrick will get from two to twenty-one years in the penitentiary. It is best not to use other people's money without their consent, for they will be sure to want it when you have it not at your command.

The legislature generally finds

will be sure to want it when you have it not at your command.

The legislature generally finds some way by which to get the constitution of the State out of its way when it wants to accomplish something which that instrument forbids it doing. The most recent example of this was the enactment of a law providing for a commissioner for the court of appeals. Creating that office is just about the same as increasing the number of judges of the court of appeals which cannot be donunder the constitution. The work of the court of appeals ought not to be delayed. Probably the nesessity for a commissioner would not have arisen had not one of the members been physically unable to attend to his duty for so long after his election. If the labor of a judge of that court is as arduous as it is claimed, great care should be taken that none but the strongest men, both mentally and physically, should be selected as members. It is no place for invalids.

The probability is that several

be selected as members. It is no place for invalids.

The probability is that several rural mail routes will be established in this county at an early date, according to the best information the RECORDER can obtain. At least one of the routes will start from Burlington and one from Florence, the latter to come out the Burlington pike to Chas. Tanner's, thence through the Gunpowder and Richwood neighborhood. The new route to leave Burlington will go out the Florence pike to Jerry Tanner's, thence south to the Gunpowder neighborhood, winding around by John Garrison's and back to Burlington by the way of W. P. Sullivan's mill. The route to leave Burlington by way of the East Bend road to Waterloo, Mcville, Bellevue, &c., and back to Burlington, is not in favor with the department at Washington because of its covering part of the present route from Commistary to Burlington. A route has been asked for from Constance to Taylorsport and back by the way of Bullitsville and Hebron, but as that route covers a portion of the Ludlow route, it may not be established. Don't get excited and think these routes are sure to be established as there is many a slip twixt the cup and the lip.

be established as there is many a slip 'twixt the cup and the lip.

At the opening of the regular session of the legislature in January it was believed that the body was composed of business men—men who had the ability, and a desire, to legislate in the interest of the entire State, but in a few weeks the wheat was separated from the chaff and the latter predominated largely, and party and special legislation became rampant. Some of the members from whom good work was expected developed into partisans and devoted their time and talents to efforts to put through the General Assembly some partisan scheme, while others who should have used their talents for the benefit of the whole State, became obstructionists. Taken as a whole the legislature which was said included so many most excellent members was—so—short on that class of material that the best that can be said of its record is, it is about on a par with those of its predecessors.

"Col. Jack Chinn," says the Lexington Leader, "holds the record in the Senate for bad gram-mar, but Spearker Thorn has the belt for cussin'."

Secretary Taft's refusal to accept a Supreme Judgship is in-terpreted to mean that he is a candidate for the next Republican nomination for the presidency.

A Lively Tussle
with that old enemy of the race,
Constipation, often ends in Appendicitis. To avoid all serious
trouble with Stomach, Liver and

Pills. They perfectly regulate
these organs, without pain or discomfort. 25c at all Druggists.

TUCKY IN 1863,

The soldiers were here after their usual supply of meal and horse feed, which seemed to be very scarce, and in great demand and, in that country the surplus (if any existed) having been consumed by previous armies passing through. The Southern forces here seemed to consist of forageing, raiding and soutting parties, whose business was gathering necessaries and supplies for the main army under Gen. John H. Morgan, which was encamped on the opposite side of the river, in Tennessee. This place, in addition to the regulation, saw and grist mill propelled by and subject to the whims and devices of an uncertain little stream that came wandering down from between two mountains, contained a residence with some pretentions toward civilization, and comfort away above the average domicile of that section, being two stories a residence with some pretentions toward civilization, and comfort away above the average domicile of that section, being two stories high with a hall between and kitchen in the rear, the two lower rooms being of hewn logs, while the upper rooms were of boards sawed at the mill. All of this was owned and presided over by a kindly little old gentleman, known as Mr. J. C. Flower, though small in statue, wonderfully large in all of the requisites that go to constitute a true, magnamimous Southern gentleman.

Being tired and our team continues.

by a kindly little old gentleman, known as Mr. J. C. Flower, though small in statue, wonderfully large in all of the requisites that go to constitute a true, magnamimous Southern gentleman.

Being tired and our team pretty well fagged, feeling secure under the protection of the stars and bars with the Southern boys around, we retired early only to be disturbed by the frequent calls of the soldiers, some of whom belonged to Lieut. Beall's command, As the news of our coming had preceded us they had come to meet and assist us in anyway they could, many of the soldier boys were from Gallatin, Boone, Grant and adjoining counties, representing the best families of Kentucky, among whom I noticed Capt. Jerry Jones, of Napoleon; Jas. Harve Hoggins, Frank Story and Lieut. J. W. Hance, of Warsaw, Lieuts. F. M. Carson and A. T. Stott, of Petersburg, the latter being the father of our much esteemed fellow-citizen, the jovial Billie, upon whom the Kate-Mosier Daughters of the Confederacy conferred the well merited and much deserved Cross of Honor, recently. Frank and I had forgotten all about being tired or that sleep or rest were necessary, and were perfectly at home, mingling among our jolly friends and former school mates, answering and asking questions. As some of them were members of Lieut. Beall's company, they gave us all of the necessary information as to where he was burried, and how to get there, offering to go with us and assist in disinterring, and render any service needful.

The object of this force was to watch the movements of Gens, Manson and Hobson, as General Morgan was concentrating his army preparatory to making hits famous raid through the States of Indiana and Ohio, experting nove and the boys in blue were only stem the results.

The object of this force was to watch the movements of Gens, Manson and Hobson, as General Morgan was concentrating his army preparatory to making his famous raid through the States of Indiana and Ohio, experting not be eligible to the four hundreds of wealthy people. Ballooni

General Morgan kindly sent us a private message, urging us to lose no time, reminding us of the importance of crossing a certain railroad bridge on the Louisville and Nashville railway between Cave city and Louisville, on our way home; that he contemplated destroying that bridge on 'a certain day, which was verified by later developments, the bridge being burned on the day after we crossed it.

later developments, the Druge being burned on the day after we crossed it.

His comrades accompaning us we arrived at the grave the following morning. It was situated on the banks of Cedar Creek a small tributary, entering the Cumberland about 50 yards distent. Many of his comrades had gathered to do the last act, to pay the last sad tribute of respect and love to the memory of the hero soldier boy, whom to know was to love. Standing beneath the silvery rays of that balmy June sun, with the stars and bars floating over me, looking around upon those bared heads, brave and determined hearts and noting the flow of tearl from eyes unused to weeping, whether right or wrong, I could not undertake to say. It was enough for me to know that the responsibilities of war, its causes and terrible results are not rith the fellow behind the gun but I will misst that their pariotism and sincere

An Able Judge.

William Carnes, one of the leading lawyers of the Grant county bar, has been appointed by Governor Beckham to hold the April term of the Boone Circuit Court.

Judge J. M. Lassing is interested in a great many of the cases on the docket and is akin to some of the litigants and it therefore became necessary to have another Judge at this term of the court, and the Governy wisely selected Judge Carnes, of Williamstown. Judge Carnes is one of the leading lawyers of the Grant county bar, a man of integrity and ability and will reflect credit upon the wisdom of the Governor in making the selection.

Owen County Democrat.

Oh, no, brother! Judge Carnes was appointed to try but two cases, and for their trial he has selected the first day of the April term.

A Good Counterfeit.

A Good Counterfeit.

A Good Counterfeit.

An exchange prints the following recipe for maple syrup which it guarantees will make a first class imitation-which is hard to tell from the real stuff: Soak ten medium sized corncobs in five quarts of cold water for one hour, then boil for 30 minutes; strain and add to the liquid six pounds of light yellow sugar, bring slowly to a boil, then boil briskly until at thick as desired. If you want to make a better quality and palm it off on your friends as the real goods from Buffalo Trace, add a little maple and four pounds of brown sugar.

Moved Up a Class.

Moved Up a Class.

Carrollton has become a fourthclass city, the bill passing the legis
lature this week. No city with less
than 3,000 inhabitants can be admitted to this class. The levy cannot be raised until we become 10,n00 in size, which is about three
years off. But we can borrow more
money, which will perhaps be done
with a view of improving our
streets.—Democrat.

The Democrat rejoices that its
ity has been enabled to increase its
indebtedness. Some times a debt is
a good incumbrance to have.

a good incumbrance to have.

Afficied With Rheumatism.

"I was and am yet affilicted with rheumatism," says Mr. J. C. Bayne, editor of the Herald, Addington, Indian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One sale by eyery reliable dealer in state of Kentucky.

Keep an Eve on Walton Town.

Keep an Eye on Walton Town.

Keep an Eye on Walton Town.
Attorney J. G. Pomlin, of Walton, was in Burlington last Thursday. He is one of those who believes in his town, and never allows an opportunity to say a word in its behalf escape. He said his business in Burlington that day was to investigate the title of several lots in Walton, on which parties proposed to erect up-to date residences this spring, and that a good, substantial boom was sure to come for Walton this year.

He Can Walk Some.

He Can Walk Some.

Prof. Elbert Ryle, who teaches school at Big Bone Baptist church, is a fearless pedestrian, as shown by his trip, last Friday afternoon, on foot over the hills and hollows, and they are legion and precipitous, lying between his school house and the town of Burlington. He came as the crow would fly and made the trip in a little over two hours, notwithstanding he traversed a field of ice the entire distance, eight miles.

They Will Investigate.

They Will Investigate.

They Will Investigate.

The friends of Burlington's Bachelor merchant, J. B. Rouse, are organizing an investigating committee to ascertain on what day of the month his birthday comes. They want to give him a big birthday send off, but as the record of his birth has been destroyed or lost they do not know on what day to celebrate the event, and J. B. will not tell them. The committee is directed to make a report on or before July.

The weather this month has caused a very considerable delay in the preparation of tobacco plant beds, and the very large crop which is anticipated may be somewhat reduced because of other work side tracking the making of plant beds.

Sheep are usually more exposed in the fields than other animals. During cold storms they require shelter. In an experiment made it was found that twenty sheep under shelter gained 273 pounds more than unsheltered sheep, and on less food, during one winter.

Hogan has been putting his to-bacco in the city at a pretty good rate for the last ten days. The de-livery of the weed before the freeze of last week consumed all the room he had at his command, and to re-lieve the pressure he had to prize and send to the city as rapidly as he could.

A subscriber who commenced taking the Records with the beginning of the year, called at the office, one day last week, to report that there is much more pleasure in reading your own paper than there is in reading one you borrow. Mr. Borrower, would you not better try it for a while?

Sale of Hay.

Sale of Hay.

Public Sale—I will sell at my residence near Limaburg, at 1 p. m., on Monday, the 26th inst., about 25 tons hay—both clover and timothy in stacks and ricks, on my and Geo. E. Rouse's farms. The sale will'be on a credit of six months, purchasers to give notes with good security, payable in Erlanger Deposit Bank.

J. B. CONRAD.

Couldn't Deliver the Goods.

Couldn't Deliver the Goods.

Recently a woman called at the jail with a loaf of bread which she wished to give to one of the prisoners. As the loaf was unusually large, Sheriff Axby's suspicions were aroused, and he decided to cut into it to ascertain if it was all bread. The knite disclosed a pint bottle of whisky. In the meantime the woman who thought she was so cleverly concealing the stuff disappeared from the scene.—Lawrengeburg Press.

Hume will Hustle Here

Hume will Hustle Here.

Ex-Deputy Sheriff B. B. Hume, of Walton, has purchased of Jas. L.

Clore his livery outfit and all his livery stable equipment. Mr. Hume took charge of the mail route last Friday and has opened up the livery stable which he rented of Judge Lassing. Mr. Hume is an energetic business. man, and it is huped that he will make a success of his venture in Burlington.

Has Landed a Good Job.

J. M. Eddins expects to go on duty as a guard at the Frankfort pentientiary some time during the month of April, it being understood that he has been slated by the new board of prison commissioners for a place. The position carries a salary of \$75 a month. It is a job that keeps a fellow on the alert all the time, and occasionally a very unpleasant duty arises. Mr. Eddins will make a good man for the place, as he seems to like business along that line. While his friends here will be sorry to see him go away, they are glad to know that he has a good place and hope that he will finally be promoted to the best subordinate position at the institution.

He Will Stay on the Western

want to give him a big birthday send off, but as the record of his birth has been destroyed or lost they do not know on what day to elebrate the event, and J. B. will not tell them. The committee is directed to make a report on or before July.

He Took a Pleasure Trip.
Deputy Shfi. W. D.Cropper made a tour of the northern part of the county, one day last week, while the sleet and the snow were holding the dust down as successfully. He covered considerable dirt road during the day, and he and his horse were both glad when they rounded in at Burlington about night.

De Not Neglect a Bad Cold.
Never allow a cold to take its course. Too often at this season of the year its course is toward pneumonia. Chamberlain's Couph Remedy will promptly cure your cold and counteract any tendency in this direction. There is nothing better for acute throat and lung troubles. For sale by every reliable dealer in state of Kentucky.

During the bad weather last week the crowd that sat around the store stores got the guessing fever, and to descide their guesses nearly everything in some of the stocks were weighed. The boys smoked occasionally.

During the bad weather this month considerable interactions made on the very large supply of food on hand for live stock, and still a considerable surplus will be left over, both of hay and fodder.

The farmers were given a good opportunity, last week, to use their sleds, and some of them took advantage of it to do certain kinds of work for which a sled is much better calculated than a wagon.

St. Patrick would have had no trouble handling the enakes last Saturday morning. It was too cold for them to wiggle. An attempt in that direction would have made them break into pieces.

Why is it dangerous to go into the woods in the spring? Because the bulrush is out, the cowelips around, the grasses have blades, the flowers have pistills, and the little twigs are shooting.

Last week's weather was the worst of the entire winter, and es-pecially on sheep and lambs. That class of stock required close atten-tion, as snow and sleet is particular-ly hard on them.

It is said that the quails that were not killed during the hunting season have wintered well, and that there are plenty of these birds to produce a very large crop for next

season.

The sleet, Monday, played havoc with some of the shade trees here in town. Every once in a while a limb would give way beneath its load of ice and come down with a crash.

This is the month in which graft-ng can be profitably done, says an xchange. It appears to be done profitably every month in the year

The dirt roads were in a bad condition in many places last week. The bad places should be marked by the overseers for attention at an early date.

This has not been a severe winter but the consumption of coal has been large enough for the ordinary pocket book.

B. B. Hume is now proprietor of the liverystable, which until recent y, was under the proprietorship of

ly, was under the proprietorship of James Clore. Everett L. Helm's latest song, "Sweetheart Edna Riley," is now on sale. 37 cents per copy by mail.

The winter machinery was reversed last week and carried the country back to December.

Don't forget J. B. Conrad's public sale of hay on Monday the 26th inst. at 1 o'clock p. m. Quarterly meeting was held with he Methodist church here last Sat-

urday and Sunday. For fresh meat go to Frank Rouse dealer in all kinds of country pro

duce, Burlington.

The mercury was only ten degress above zero at six o'clock St. Patrick's day.

The mill at Burlington grinds and crushes corn on Tuesday in each week.

Edson Riddell was out with his camera, Monday afternoon, securing views of the town, clad in sleet and snow, while the limbs on many of the trees drooped nearly to the sidewalks. The view as a whole was magnificent.

was magnificent.

Of all the sleets this winter that
of last Monday morning made the
higgest show on trees, shrubbery
and telephone wires. Taking altogether the morning looked very
much like this part of creation had
struck the polar regions.

Quarterly meeting was held with the Methodist church here last Saturday and Sunday.

For fresh meat go to Frank Rouse, lealer in all kinds of country, produce, Burlington.

The mercury was only ten degress above zero at six o'clock St. Patrick's day.

The mill at Burlington grinds and crushes corn on Tuesday in each week.

The RECORDER has issued several horseographs and Jackotypes this borseographs and Jackotypes this borseographs and Jackotypes this bridge.

Limaburg gets two maila a day now The extra service began last Friday.

For Sale—Good yearling Jersey bull. Apply to Legrand Utz, Limaburg.

E. M. Gaines requests his RECORDER sent to 1615 Roscoe St., Chicago.

The sleet and snow last week damaged telephone lines very little.

Mrs. Frank Rouse began teaching a spring school here last Monday.

Keep prepared for any kind of weather during this month.

March has been the worst month of the winter on live stock.

Talk about winter months, what is the matter with March.

Only a few in Burlington wore the green, last Saturday.

Read R. A. Steel's new advertisement in this issue.

Last week was bad weather on young poultry.

This has been a winter of heavy sleets.

Copyright, by Jessian the picture form of the man a fairly flexible symbol that can represent easy and undistorted actions, it is now ready to use the human faure with forms of other objects which serve for its natural setting. Recalling the tree, house and hill forms, the man is to take his place in them as the center of interestror as a part of the story picture. That the symbol has proved an amusing jumpling-jack, with some as well as an expressive automaton with others goes without saying. The Egyptlans told of the magnificence of kings in much the

figure with but a slight change from the plain figure. The arms are extended to permit the carrying of the palls and one foot is advanced to suggest walking. The woman with the little boy walkings have there has the same modifications; one arm is extended to hold the hey's hand; this bends the chid's arm so as to meet her hand; the other hand can hold a stick or hasket. There is the same advancement of the foot in each figure to suggest walking.

It is left to the parent or teacher to find names and storles for these pictures, as "Polly, the Milkmaid." "The

WOMEN AND BOY WALKING PICTURE FORMS AND COMBINATION

warms simplicity of drawing that now serves the cartonolast for the expression of the absurd in his art.

It is the actious possibilities of the block man that are now to occupy us. Two subjects are given, in which the figure is added to familiar material—in presenting the picture forms to the child with the combination, draw the symbol of the mas at first presented, that is, without action, being out the change in the direction of lines or blocks as altered by the action. A supplementary stack figure of this action may give the angles more clearly. The child should always understand any figure in action as a variation of the pian figure and not as a new symbol. This nurtures the desort of the symbol and cultivates its free use.

MAKER OF STEEL SQUARES.

ant Industry That Sp from the Ingenuity of a Blacksmith.

Blacksmith.

The first steel square was made by Sllas Hawe at South Shafubury, Vt., 85 years ago, and the industry is activative of the state of the

ment for the work he had done. He cut these lengths of metal up into quitable sizes and made squares and rules of them.

The tools became popular at once and sold for five and six dollars, most of the business being done through the peddler who had been the means of bringing the saws to Mr. Hawes.

At first the blacksmith made the tools only at odd times when he had nothing else on hand, but the demand became so great that he nad to make special arrangements for their manufacture, and the industry grew into one of rather imposing proportions.

Mr. Hawes had been engaged in the manufacture of the squares for several years before it occurred to him to take out a patent on the new implement. He did this ultimately and began the manufacture of the squares for several years before it occurred to him to take out a patent on the new implement. He did this ultimately and began the manufacture of the mine are contained to the site where the first one was in borlously formed by the old blacksmith.

Swung Their Swords. His Presence of Mind.

"Yes, I got her out before the walle fell."

"Did she keep her presence of mind?"

"No; she threw her arms about my neck and nearly strangled me."

"You must have had a time tearing them loose?"

"Nope, I told her her halr was coming down."—Houston Post.

Swung Their Swords.

An amusing story is related of Lawrence Barrett and John McCullough when they were starring together in the west. The manager of some out of the way place in Colorado got them to play an engagement with him for "one night only." The stage of the theater was so small that there was hardly standing room for the company, the files being about two feet above the actors' heads. The bill was "Richard III.," and by the time they came to the last scene the patience of both McCullough and Barrett was exhausted. But they had-their revenge. Just before they rushed on for the "windup" between Richard and Richmond, McCullough, who was playing Richard, turned to Barrett. "How in thunder are we going to swingour swords in that spaces?" he asked. "Never mind," replied Barrett, "cut the scenery down!" And they did. They went at each other with a vengeance, and with every blow made it gash in the files or cut a piece out of one of the wings. When the fight was finished and the victorious Richmond stood over his prostrate foe, the files above him uning in ribbons and the wings were total wrecks.

Sympathy by Weight.

Grow More Good Sheep.

Grow More Good Sheep.

With the present bright outlook before breeders, and what seems to be a guarantee of a continued and increased demand for mutton and wool, says Blooded Stock, it is time for farmers to wake up to their own interests and to the interests of the whole country and begin to raise more and better sheep. Especially is this true of the Scuth, where this industry seems to have had its worst stab.

industry seems to have had its worst stab.

The most important thing connected with the work of the sheep breeders is the selection of the rams from which to breed. Never under any consideration breed from a scrub, a grade or an inferior ram; for in doing this you do your flock and yourself an irreparable injury. In selecting the ram I have found it best to find some well-known breeder who has the breed wanted—some one who advertises in the farm papers and is known to the papers to be upright in his transactions; then make known your wants to him and let him select the particular ram for you to fill your particular want or wants. wants to him and let him select the particular ram for you to fill your particular want or wants. I have found this way of selecting a buck to be satisfactory, as a good, up-to-date breeder usually only wants what his stock is actually worth, and is nearly always willing to give you the benefit of his experience, which is of no small value to the breeder. It is always better to buy the ram when a lamb and keep him over until one or two years old, as a flock is usually culled while lambs are yet young, and if you wait until they are older you get second or theird choice animals, which is often detrimental to your interest. Again, if you breed to lambs too young you are sure is degenerate the flock, as the get of immature bucks are meyer so strong and vigorous as those of many ones.

TARCH No. 3183.

The great GERMAN COACH STALLION, PLUTARCH No. 3183, imported from Germany by J. Crouch & Son, of LaFayette, Indiana, now owned by the Burlington Horse Company, will make the season of 1906, from the 1st of April until the first of July, in the town of Burlington, Boone Co., Kentucky; the remainder of the time at L. A. Conner's stable, four miles south of Burlington, on the East Bend road.

PEDIGREE AND DESCRIPTION.

Plutarch No. 3183, was foaled June 8th, 1901; bred by H. Stukenberg, Hammelwardermoon

Sire- Ailrat No. 1193, by Magnat No. 860, Agamemnon No. 560, &c., &c

Dam-Pavone No. 6423, by Tello No. 1190, by Young Othello No. 923, by Othello No. 755, &c. 2nd Dam-Pfalz No. 3087, by Claro No. 890, by Kimme No. 568, by Young Duke of Cleveland No. 200, registered in "The German, Hanover and Oldenburg Coach Horse Stud Book."

This Stallion is a Mahogany bay 16½ hands high, weighs 1300 lbs., has the size, color, and style combined with extreme knee action, lifting his feet high which gives elegance to his pace and action. His points are strong with clean bone under the knee and feet sound, open and tough. He carries his head well with neck very raugy, long and well cut up at throttle, having a fine ear, well set broad

forehead with large intelligent eyes and has a fine gentle disposition.

In order to produce good colts it is not necessary to have fine or high bred mares as the German Coachers being so long and strong bred will produce high class colts from all classes of mares.

The colts are fine and large and develop quickly. No other breed of stallions will produce a many good colts from all classes of mares

It must be remembered that this class of horses always demands high prices and to-day they are the highest price horse on the market.

Terms:—\$20.00 to insure a colt to stand up and suck, money due when colt is foaled or mare parted with. Parties breeding must follow up the season. Care taken to prevent accidents, but not responsible should any occur. Positively no service on Sunday. Pasture furnished and mares taken care of at \$4.00 per month.

We will give a premium of \$50 for the three best colts the get of this stallion of 1906, to be shown regardless of sex at the Florence Fair in the fall of 1907, the premiums will be awarded \$25, \$15, \$10. For further particulars call on or address,

Always Keeps Chamberlain's Cough Remedy in His House.

Always Keeps Chamberlain's Cough
Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept
on band continually in our home,"
says W. W. Kearney, editor of the Independent, Lawry City, Mo. That is
just what every family should do.
When kept on hand ready for instant
nee, a cold may be checked at the ontset and cured in much less time than
set and cured in much less time than
tem. This remedy is also without a
peer for cropp in children, and will
prevent the attack when given as soon
as the child becomes hoarse, or even
after the cropy cough appears, which
can only be done when the remedy is
kept at hand. For saie by every reliable dealer in state of Kentucky.

Of the recent heavy moves in Neby.

liable dealer in state of Kentucky.

Of the recent heavy anowa in Nebraska, the St. Paul Republican, says:

"Whatwer discomfort and inconvenience may have been occasioned by the recent heavy anows, they have been of a innest incalculation value to this state in advance of the crop season. The state is advance of the crop season at the present time, the mild weather during December, January and February having kept it in good condition, while the deep blanket of snow came just in the nick of time to protect it from the extreme cold of the past two weeks. Ahmdant motures is promised when the spring the was begin, and It is a time of great promise for another coord-breaking crop year."

The question that is uppermost in the minds of Kentucky farmers is, when will spring open."

Tortared By Savages.

when will spring open:

Tortured By Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense stiffering I endured for three months from inflammation of or three months from inflammation of Oushing, Me. "Nothing the savage of Oushing, Me." "Nothing and resident of Oushing, Me." "Nothing the savage of Oushing the Oushing the Oushing the Savage of Oushing the Oushing the

NEARLY A CENTENARIAN.

Elder Edmond Stephens, After a Long and Useful Life, Has Gone to His Reward.

Long and Useful Life, Has
Gone to His Reward.

Gone to His Reward.

Eider Edmond Stephens died at his home near Erlanger, bast Monday evening at 7 o'clock, of general dehility, after several weeks' confinement to his bed. "Uncle Ed," as everybody called him, was a son of Samuel Stephens, hold and the control of the several weeks' confinement to his bed. "Uncle Ed," as everybody called him, was a son of Samuel Stephens, and his bed. "Uncle Ed," as everybody called him, was a son of Samuel Stephens, and Mrs. Rossan Black, both of whom reside in the several service him, woodford Stephens and Mrs. Rossan Black, both of whom reside in Edingburg, Illinois.

He married his first wife, Eisabeith Carter, in 1300. She lived only a few years. To them no children were born, and a several years ago. To him and his last wife was born one son, Napoleon B., who lives at Erlanger.

Edmond Stephens' edneation was received in the country schools of an early day, but being a man of considerably over an average mind, and a good student, he acquired a veather of the several him well during this nong life. He was one of the best funations in all his part of Kentucky, and had amassed a large estate. Although on the deeline, physically, for the last two or three years, his mind remained unimpaired, and he continued to look after his financial affairs until a short time before the end came.

He was one of the best financiers in all his part of Kentucky, and had amassed a large estate. Although on the deeline, physically, for the last two or three years, his mind remained unimpaired, and he continued to look after his financial affairs until a short time before the end came.

For many years "Uncle Ed's" was the Gretnagreen for this part of the State, and no minister in Kentucky, who have not heard him expound the serviced him expound the couplesythat partook of these number away up in the hundreds. Edmond Stephens was the oidest living male native of Boone county, and her eutite population is sorry to hear of his death.

March 25.—After

BELLEVIEW.

John A. Barnett, son of the late Jas;
Barnett, was found dead in bed, last
Sunday morning, at his honse in the
upper part of this precion. Mr. Barnett was not quite. To years old and
was supposed to be in his neual health
when he retired Saturday night. Sanday morning his wife got up, did the
sulfking and deeding and prepared the
band to come to bis morning's meal,
no ansyer came, and upon going to
his bed ahe found him cold in death,
he having died, apparently, without a.
struggle Mr. Barnett had no children
and was one of the quietest and most
estimable men of the neighborhood. It
was seldom he was seen away from
home. He was a companionable gentleman of the old school.

Miss Jessie Gibson is visiting rela-tives at Crittenden.

Attorney Ome Rogers, of Erlanger, was in Burlington, yesterday.

Wm. Spelifor, of commissary called on the RECORDER yesterday.

J. C. Revili was in Cincinnati and Covington a day or two last week.

Jerry Deiph's mill had a good day's work yesterday, grinding and crush-ing. Considerable crowd of people in Bnr-lington, Monday. It looked like court day.

Peter Hager and little son, of East Bend, were among the Monday visitom to Burlington. It is predicted that it will not take the roads iong to get good after the weather settles.

Another borrower confesses the error of his way, this week, and subscribes for the RECORDER.

Ben Cason and son, Raiph, of Mid-dle creek, were transacting husiness in Burlington, Monday.

At last reports C. L. Crisier was no better. Benjamin Houston was considerable better Monday.

The legislature placed a tax of 1½ cts. per gallon on rectified liquor and adjourned the special session Monday at 6 p. m. The RECORDER makes no charges for publishing oblituaries, hence cannot af-ford to print more than one of a de-ceased person.

Capt. Ryle has not been making his usual good time between Erlanger and Burlington, for several days on account of heavy roads.

C. C. Adams, of Williamstown, has been selected as a member of the cam-paign committee of the conference for education in the South.

Those in Owen county upon whose teams a special liceuse has been imposed to assist in repairing the free pikes are kicking and some of them have eujoined its collection. C. C. Adams, Grant county's popular. Superintendent of Schools, finds that since marrying that the RECORDER is the only thing necessary to complete his happiness, consequently he becomes one of its happy family.

A large number of subscribers to the RECORDER were sent the March number of the Metropolitan and Rural Home for langestion. All new subscribers to the RECORDER for one year, and all old subscribers how renew up to or beyond January 1, 1907, will receive the Metropolitan and Rural Home only the Metropolitan and Rural Home and the Will be sent to you once a month for a year.

for a year.

Doctors Are Puzzled.

The remarkable recovery of Kenneth McIver, of Vanceboro, Me., is the subject of much interest to the medical fraternity and a wide circle of friends. He says of his case: "Owing to severe inflammation of the Throat and congestion of the Longs, three doctors of the Longs, three doctors over the Longs, the congestion of the Longs, three doctors over the Longs, the congestion of the Longs, three doctors over the Longs of the Longs, the Longs of the L

Ward Coleman found on the B ington pike a few days ago a gro adge or medal, on one side of whis is inscribed the name, "Mattie B. N man," on the other, "Arithmetic."

ried descent of the monatain.

"The sheep!" he exclaimed. "What am I thinking of, anyway?" and he shook his great though he would arouse his confused frame as though he would arouse his confused frame as though he would hastly retraced his steps over the pathway which stretched up and up into the heart of the mountains.

"How could I be so forgetful?" he childed himself, struggling on as fast, as the steep ascent would permit, and lifting his eyes and looking, anxiously before him for some sight of the flock which he had lett hehind.

The day before, led by some strange.

before him for some sight of the flock which he had lett hehind.

The day before, led by some strange impulse, he had gone far to the other side of the desert and up into the incutality, whose towering peaks life de their rugged heads toward heaven and seemed heckoning him on. The years had come and gone since he had settled down in Midian and the humdrum life of tending the flocks of Jethro had quite duiled his perceptions and his consciousness of God. Not that he had forgotten God, and God's promises; not that he had cased to be troubled by the hondage of his people, or had given up hope of their desiverance. Buch could not be, for faith in God and longing to help his people were woren into the very warp and woof of his being. But as year after year had dragged on, until now nearly 40 years had peased since he had fled from Egypt, his sensibilities had been duiled, and in a sort of listies, discouraged way he had waited. But on the day before as he had the defining in silent impressiveness toward Him, and with quickened spirit and reviving memory he had gone on and on, until at last he had seemed to be in the very heart of the mountain. There abundant pasturage had been doned in he had seemed to be in the very heart of the mountain.

toward Him, and with quickened spirit and reviving memory he had gone on and on, until at last he had seemed to be in the very heart of the mountain. There abundant pasturage had been found, and he spent the night in the place, and that morning carly as he moved about from place to place a strange thing had happened.

A tongue of fiame shot up from the center of one of the dry acacia bushes at one side in a rocky, sterile place, and he thought at first that some sparit from his morning fire had blown thither and set fire to the inflammable wood, as was no often the case. But as he watched the fiame he noted that it did not seem to consume the bush, and be turned asfde to investigate, when a voice-which seemed to come from the very center of the fiame spoke his name, and told him to take off his sandla, for he was standing on holy ground.

Then had followed that wonderful interview, in which he had been told of God's purposes for the Hehrew people, and of his own call to go hack to them with God's message. Was it to be wondered at that all else was forgotten under the excitement of the morning. It seemed that had safet, He hreathed a sligh of relief and his mind, free from the keeper, and the decay had been told of God's purposes for the Hehrew people, and of his own call to go hack to them with God's message. Was it to be wondered at that all else was forgotten under the excitement of the morning. It seemed that had safethed his men and turned anxiously about in search of them. At last be reached the place, and found the sheep were still there and safe. He hreathed a sligh of relief and his mind, free from the anxiety, reverted to the remarkable incidents of the morning. It seemed that had sartled him no. And he listened, but there were the had expend where he had first noticed the morning for the morning, but while the head while head the hops were all excitement in considerable that the consumer in the top of the morning to the him to the consumer in the top of the morning to the him to the consumer in the pr dream to him, and he found himself asking the question: "Was it real, after all?"

There was the bush over beyond that justifying rock around which he had moved when he had first noticed the strange fire, but now it seemed the ordinary bush it was, and he looked in vain for the fiame that had startled him so. And he listened, but there came no sound save that of the soft trickling water of a nearby spring, and the occasional hieating of a sheep as it hurried after the rest moving of ho some more inviting spot of green. Had he heard that Voice which had thought was God talking with him? or had he imagined it?. The staff which he held but loosely in his hand attipped and fell to the hard rocks at his feet with a clatter, and arouseh him from his puzzled reverie.

"Yea." he said, "it must have been real for there is the staff which turned into a serpent." and fell to the hard rocks at his feet with a clatter, and arouseh him from his puzzled reverie.

"Yea." he said, "it must have been real for there is the staff which turned into a serpent." But why didn't it turn into a serpent again, as it dadore when came fashing hack at him the question: "But why didn't it turn into a serpent again, as it dadore when came fashing hack at him the question: "But why didn't it turn into a serpent again, as it dadore when came fashing hack at him the question: "But why didn't it turn into a serpent again, as it dadore when came fashing hack at him the question: "But why didn't it turn into a serpent again, as it dadore when came fashing hack at him the question: "But why didn't it turn into a serpent again, as it dadore when came fashing hack at him the question: "But why didn't it turn into a serpent again, as it dadore when came fashing hack at him the question: "But why didn't it turn into a serpent again, as it dadore when a came fashing hack at him the question: "But why didn't it turn into a serpent again, as it dadore when a series of the safer in the more of the condition of the fash of the more of the condition of the fa

lation of the moment. From the heights of apiritual certacy to which he had been wrongsh by the experiences of the morning he was suddenly received by these doubts and fears to the depths of heilish darkness.

"If God has spoken," came the voice of the tempter in his soul, "let Him prove it by again faming forth in the hush, as you thought He did before. If He has commissioned you to go back to your people make sure of it by the signs which you think He has given you. Jiow do you know you can do then?—What, if a tier your-return to Goshen, you should fall to show these signs to your people that God was with you? Try them now and make certain of so important a matter."

Thus a perfect storm of questions assailed his stronghold of faith and sought to break it down. The struggle was long and fierce, and again and again when he thought he had conquered and was firm in his faith that God had appeared and talked with him the doubts would come back with redoubled power and he would have it to fight all over again.

"Why do I need evidence of God's presence and power, more than He has given me this day?" he asked. "The signs and wonders are not for me, but for my people when I shall return to them. Then will the rod turn to a seepnent and then will my hand take on the leprous hue."

Thus he reasoned, and victory came. Two days later, as he drew near his home he became more and more troubled as to what Jethro would say and the willing to his father's face and manner, he added, quickly: "Has anything happened?"

Thus he reasoned, and victory came. Two days later, as he drew near his more than the willing to his father's face and manner, he added, quickly: "Has anything happened?"

The structure of the military shout and Gerahed home? He felt he could not, and so said, simply:

"Oh, where? I hope it is to Egypt, who seemed so wrapped up in his paper, and the said for one who perhaps would not understand."

Could he tell the rest when he had reached home? He felt he could not, and so said, simply:

"He was crowled to know

Wonders Never Cease.
First London Belle—Oh, ha
heard the news? I never woul
believed it, but it's true. All s
wonderful things are occurring

wonderm unings we days.

Second London Belle—Dear me!

What has happened?

"An English duke, who spent three weeks in America, has returned, and married an English girl."—N. Y.

"Did she succeed?"

"Yes, in a way. He was the same high roller during their marriage, but when she got a divorce the judge allowed her so much alimony that he can no longer afford to be a joily good fellow so he has settled down."—Houston Post.

Severe.

Myrtle—You remember we had a few friends who thought they could sing? Well, we have discouraged them at last.

Gwendolen—How ever did you man-

age it?

"Just bought a phonograph and got them to sing into it. Then we let them hear their own voices."—Cassell's Journal.

No Time to Lose,
"The man next door told me the
other day he was going to spend \$2,000
on his daughter's voice."
"Say, you know you offered me
\$5,000 for my house and lot a week
ago, provided I could give immediate
possession!"

"Yes."
"Well, I'll take it."—Chicago Trib

"Well, La.

Hopeless." erled a simply hopeless!" erled a woman who was trying to teach one of her friends to play bridge whist.
"Why?"
"I began by asking her if she knew the value of the cards," continued the woman, "and Blanche said, "Why, cerbainly! About ten cents a pack."—Detroit Free Press.

"we'nuation.

Mean Insinuation. Said the maid, I'm afraid Said the maid, I'm afraid
That my darling Jim
Won't love me when I grow old."
Said her friend,
"I'd not spend
Any time on him
If he's already growing cold."

NOT AN UNMIXED BLESSING

NOT AN UNMIXED BLESSING
Thoughtfulness of a Wife Provided
Occurrences That Were
Theory was about to leave town
for a week's vacation, and his wife was
helping him pack his suit case, relates
Youth's Companion. "Here, George,"
said ane, beaming with the consciousness of a good deed done, "is a nice littile linen case that I've made for your
cake of soap, and here are two others,
one for your coilars and one for your
cuits. This long one with the ribbon
bows is for your ties. They'll keep
everything so nice and clean,"
"To-es," agreed George, eying them
somewhat doubifully, "so they will."
"And this," continued thoughtful Mrs.
Bennett, "is a little case for your handkerchiefs, with a violet sachet inside;
and here are two others, lined with oilsilk, for your wash-cloth and beth
sponge."
"Why that's to put your starched
shirts in, dear. See, it's just the length
of your suit case—I measured to get it
just right."
"I see," said George, thoughtfully.
"Any more?"
"Yes, indeed. I've been planning for
this trip for weeks. This his dening
ase is for your own hisk-broom, and
these others, enfordered with forget
me-nots, are for your own and your
military brushes. This larger case—
for your nightabirt, here's another for
your razors, and this little button and
huttonhole is for your whisk-broom, and
these others, englishell, here's another for
your razors, and this little long one is
for your toothrush. It did intend to
make a case for your solid lines but—
Just at this moment Mrs. Bennet was
called downstairs. When she returned,
half an hour later, George was sitting
on the side of the bed among his personal belongings and gazing disconsolately at the bulging sides of his suit
case.

solately at the buiging move of case.

"Why," exclaimed Mrs. Bennett, looking at the array on the bed, "you haven't packed a single thing!"

"Yes, I have," replied George, mopping his hrow. "I succeedd in getting all those cases into that suit case, but there isn't room for any of my clothes."

there isn't room for any of my clothes."

Factory Worked by Spiders.

The spider-web gown may soon be a reality, for the threads of thousands of spiders are being carefully gathered, unwound and woven into shimmering silhen fabrics. On the sland of Madagascar this odd industry is carried on under the direct management of the governor, who has been appointed by the French authorities manager of what is perhaps the strangest factory in the world. Here spiders toll day and night and die from overwork and from ignorance on the part of the attendants. Therein lies the chief difficulty. The spider seems perfectly willing to spin out in the mange groves of its native land, but it grows sulky when transplanted to the specially-prepared cellpin the silk-spinning factory of Madagascar.

Boll-Weevil Dying Out.
A Louisiana commission reports that the boll-weevil, no much feared a pear ago, is no longer a terror in that state. In two parishes which it had invaded heavy rains and cold weather have practically exterminated it, and the farmers who planted early-maturing cotton to avoid its ravages find that the early crops yield more to the acre than the old varieties.

Man of the House—Why don't you try to earn a living, you lays wagabond, instead of begging lif. Saymoid Storey—Mister, if beggin a fivin frum tellers like you ain't earnin't, I don't know wot ia.—Chicago Tribune.

"Are you a weather prophet?"
"No," answered the umbrella salesman, jocosely and confidentially, "I am the man who collects the weather profit."—Washington Star.

That Delightful Aid to Health

REFORM OF REPUBLICANS.

DEALING WITH GERMANY.

Republican Scheme Which Will Be of No Benefit to the People.

of No benefit to the People.

Ia the temporary compromise with Germany on the tariff war, which gives until June, 1907, to arrange a treaty, unless in the meantime our tariff is with a servised, American products are to be allowed to enter them our tariff is we have agreed to allowed to enter them of the rate of the products are to be allowed to enter the rate of more part we have agreed to allow a gold, or crude tartar, to be imported here at the rate of five per cent. ad valorem; brandles and other east and valorem; brandles and other statistic statistic special again, and in potitics, \$1.25 ore gailon, which seems particularly in oil; or water colors, pastels, pen and ink drawlugs and statuary. It per cent ad valorem.

Under this Republican scheme of reciprocity, on a small scale, how much will the ordinary citizen rain by this compromise. Who uses argois? Who will be benefited by the reduced rates on brandy? Who purchases oil paintings or statuary? The present tariff seems invented to tax the poor and let the rich get their luxuries at reduced rates.

There can be no relief from the plundering of the present tariff from the plundering of the present tariff from the required rates.

There can be no relief from the plundering of the present tariff from the Republican party; every move they make maintains the burden of the tariff tax on those least able to bear it and reduces the tax on iuxuries. The Democratic plan of low fax on necessitics and a high tax on imported foreign inxuries is the only proper adjustment. As it is now the great majority of the people pay the tariff tax and the trusts and combines are protected in adding to their profits on their products, because the tariff protects them from competition and, more exaperating, than that, the irrusts sell their products, cheaner to the foreigners than 50 our own people. As the last Democratic national platform dealered, "protection is robbery," plundering the many for the henefit of the few.

The Santo Domingo treaty which promised to involve use with foreign nations, has been indown, has been indown to be in the senator. The Democrat's did t with their little caucus.

Flow from the BungDabts to the Steamship
Total
Hon. Sereac Elisha Payne, the chairman of the ways and means committee
of the house of representatives. The
stream of the ways and means committee
of the house of representatives. The
stream of the ways and means committee
of the house of representatives are
the thouse of representatives. The
who is an ardent stand patter, has hid
an a reform to make him famous. He
has pust discovered, what very one sies
has known for years, that there are
a number of -custors, become officers that
do not carn their sailt, because the expenses of keeping up these custom
bounese is greater than the amount recovered from tariff duties on importunin fact some of these official do not
oblied a cent except their silaries, and
in it seed hardly be sailt, they arver
in fact some of these official do not
oblied a cent except that of a Republic
is the second that is a servent
in the second that is a servent
in fact some of these official do not
oblied a cent except that of a Republic
is the second that is a servent
in the continuation of the continuation of the reforms as never been strewn
with roses, as Mr. Payne now discovers,
for his Republican colleagues refuse to
pass the bill he has reported to abolish
the states bordering on the cosans wond be
affected by this reform, and every congreamman that has a-constituent that is
traving a salary as one of the officers
proposed to be abolished, is a rampant
nemy of the reform measure.

The trouble with the Payne reform
is that it is too restricted. Secretary
Shaw repayts it would only save a
sirife of some \$109,000 per annum and
what is that to this great and giorous
atton when the money goes for the
slid flag to be holsted every day, and
Republican partisans of a congressman, with none too much patronage
of customs were reformed to a reform the patron,
and the second the seaboard, where the dulike representative to the patron,
and the sea to the se

of Roosevelt in the Rall-way Fight.

"In the muititude of counselors there is wiadom," is the way Soloman viewed the politics of this day, but in the Republican political programme the multitude of counselors seems to lead to confusion, as far as rallroad rall read registation is concerned. There is no doubt that there is concerted action of the Republican leaders to blind the eyes of President Roosevelt and get bim to commit bim self to a compromise with the rall-roads, which would make all that has been accomplished worthless for relieving the people from unjust and unresonable rates.

The fact is the president has been secomplished worthless for relieving the people from unjust and unresonable rates.

The fact is the president has been so harassed by those who pretend to be sincere friends of railroad rate regulation, and so tormented by others who are anxious to be reelected to congress, that he is ready to approve any bill that appears to cover the lexisiation he has recommended. The bill that will pass the senate will eave out the best that is in the Hepburn bill and so qualify the other provisions that have merit that the legislation will be worthless as far as the people are concerned. But whatever the bill shall eventually contain, the Republican congress to back up the administration. A very adroit game, but the voters will see through it.

OF POLITICAL IMPORT.

OF POLITICAL IMPORT.

—More than balf the Republican congressmen are fearing defeat at the best election and many deciare they will not be candidates. They feel that the voters are determined on a new dealer than the voters are determined on a new dealer than the voters are determined on a mental series of the property of the decision of the decisi

The Coffee Debate.

The published statements of a number a "waspy" feeling towards us, for daring

A frank public discussion of the subject is quite agreeable to us and can cer-tainly do no harm; on the contrary, when all the facts on both sides of any question are spread before the people they can hereupon decide and act intelligently.

Give the people plain facts and they

will take care of themselves. We demand facts in this coffee discu sion and propose to see that the facts are brought clearly before the people.

A number of coffee importers and roasters have joined a movement to boom coffee and stop the use of Postum Food Coffee and in their newspaper statements undertake to deceive by false assertions

Their first is that coffee is not harmful.
Weassert that one in every three coffee

what a terrible menace to a nation of civilized people when one kind of beverage cripples the energies and health of one-third the people who use it.

We make the assertion advisedly an suggest that the reader secure his ow proof by personal inquiry among cone

think of. Of course, if the person is one of the weak ones and says "I can't quit" you will have discovered one of the slaves of the coffee importer. Treat such kindly, for they seem absolutely power-less to stop the gradual but sure destruction of body and health.

Nature has a way of destroying a part of the people to make room for the such comparison of the fittest, and the victims are many.

We repeat the assertion that coffee does harm many people, not all, but an army large enough to appal the investigator at the such control of the coffee importers and roasters is their statement that Postum Food Coffee is made of roasted peas, beans or corn, and mixed with a low grade of coffee and that it contains no nourlabment.

We have previously offered to wager 3100,000.00 with them that their statements are absolutely faile.

They have not accepted our wager and they will not.

We will gladly make a present of

We will gladly make a present of \$25,000.00 to any roaster or importer of old-fashioned coffee who will accept that

etty educated physician, chemist and food expert.

Please remember we never say ordinary coffee hurts everyone.

Some people use it regularly and seem strong enough to withstand its attacks, but there is misery and disease is store for the man or woman who persists in its use when nature protests, by heart kidney disease, want, eyes, or expenditude to the food of the contained in all ardinary coffee, must be dissonitused absolutely or the disease will continued in all ardinary coffee, must be dissonitused absolutely or the disease will continued in spite of any medicine and will grow worse.

GET RID OF THE CAS

The weather prophets and the goose-bone people are very mun just about now. They predicted an open and mild spring. You see what we are getting.—Blue-Grass Clipper, March 22.
Don't be so exacting. Be liberal enough to grant the prognosticators as many as three days of grace, anyhow, for it is seldom they are able to spot the weather. They ought to go and form the acquaintance of the weather clerk or throw up their job.

There was something don't grant the good of the grant through the grant through the grant three days of grace, anyhow, for it is seldom they are able to spot the weather. They ought to go and form the acquaintance of the weather clerk or throw up their job.

There was something don't grant the grant g

There was something doing in Georgetown police circles one morning last week, when fortynine students of the college were run in, charged with being excessively hilarious on the streets the night before. The youngsters attempted to run a bluff by declaring that they would go to jail before they would pay a fine, but when the test came the young men weakened and coughed up something over a hundred dollars of the coin of the realm with which to appease the offended law.

The Department of Justice will a way from the comforts of his own leads to the conforts of the comforts of his own leads to the conforts of his own leads to the conforts of his own leads to the conforts of his own conforts of his own leads to the conforts of war.

The Department of Justice will take official notice of the lynching in Chattanooga, Tenn., of the negro Johnson, in whose case the Supreme Court of the United States had granted the right of appeal, which acted as a stay of his execution. Steps have been taken by the department looking to an investigation of the matter. The United States District Attorney for that section will be instructed to make a thorough investigation of the lynching, and if the facts obtained seem to warrant it, proceedings under the Federal statutes will be begun against the participants.

Monte of the control of the control

A Washington correspondent in last Sunday's Enquirer went over the Congressional outlook in in last Sunday's Enquirer went over the Congressional outlook in Kentucky, and, in referring to the Sixth District he said: "Politicians say it is 'in the cards' for Joseph L. Rhinock to succeed himself as Representative from the Sixth District. Mr. Rhinock is not only close to the state administration and the State Committee, but 'is a warm friend of John M. Lassing, whose control over the situation in the Sixth District was so superb and so perfect that he voted the entire delegation from that district in the General Assembly for Paynter for Senator." It seems to be under stood everywhere and by every body except probably Bro. Bell, of Trimble county, that Mr. Rhinock is to have a second term in Congress.

appeal, which acted as a stay of his execution. Steps have been taken by the department looking to an investigation of the matter. The United States District Attorney for that section will be instructed to make a thorough investigation of the lynching, and if the facts obtained seem towarrant it, proceedings under the Federal statutes will be begun against the participants.

One of the most pleasant incidents in connection with Senator Cammack's fight for the county unit bill was the presentation by Gov. Beckam of the pen with which he signed the bill. When the Senator Cammack and told him his desire to have him present when the bill was signed. At the same time the Governor had sent for a new pen, and when, on its arrival, the Chief Executive had written his name to the most popular measure passed at the session, he presented the pen to the Senator with a complimentary speech, saying he hoped the Senator's efforts in the future would be commensurate with his achievement in connection with this bill. Of course Senator Cammack appreciates the gift and more especially the association and watchfulness, as we had not gone very far become the senator's efforts in the future would be commensurate with his achievement in connection with this bill. Of course Senator Cammack appreciates the gift and more especially the association of the horses; that it was advisable to use the Senator's efforts in the future would be commensurate with his achievement in connection with this bill. Of course Senator Cammack appreciates the gift and more especially the association of the horses; that it was advisable to use the senator's efforts in the future would be commensurate with his achievement in connection with this bill. Of course Senator Cammack appreciates the gift and more especially the association and their numerous sociating parties with the race would be commensurate with this achievement in connection with the senator's efforts in the future would be commensurate with the senator's efforts in the future would be commensu

The Taking Cold Habit

The old cold goes; a new one quickly comes. It's the story of a weak throat, weak lungs, a tendency to consumption. Ayer's Cherry Pectoral breaks up the taking-cold habit. It strengthans, soothes, heals. Ask your doctor about it.

OVER THE WORLD.

Happenings of Interest Gathered and Condensed For the Busy Reader.

SUMMARY OF IMPORTANT EVENTS

What is Transpiring at the Capita of the Nation, Together With Ex-eiting Events Occurring in Foreign Countries.

Congressional items.

The house adjourned immediately after it was called to order on the 21st out of respect for the late Representative George R. Patterson, of Pennsylvania.

President Rooseveit vetoed a bill passed by the congress for the crea-tion of a new division of the western judicial district of Texas.

judicial district of Texas.

The ratiroad rate bill occupied practically all of the time of the senate on the 22d. The statehood bill was taken from the speaker's table in the house, placed in the hands of three selected conferees and a request made of the aenate for a conference on the disagreeing votes of the two houses.

The senate confirmed the nomination of Charles S. Francis, of New York, as ambassador to Austria-Hungary.

Tork, as ambassador to Austria-Hungary.

The senate passed a resolution directing the secretary of war to make
a survey and examination of the Ohio
river, near Cincinnati, with a view to
the establishment of an ice harbor.
The house committee made a favorable report on the bills authorizing the
secretary of the interior to sell to missecretary of the interior to sell to missecretary of the interior to sell to missecretary of the interior to sell to misslonary and religious organizations
the lands on which they have erected
mission buildings in Okiahoma.

In the senate on the 23d the fortifleations appropriation bill was taken
up and passed. The bill carries an
appropriation of 3125,000 for the erection of a powder manufactory. As
passed the bill carries an appropriation of \$5,278,933.

"MEDICAL OFFICES."

Order Issued Debarring Illegal Concerns From the Mails.

The Condition of Affairs Develop Under the Post Office Depart-ment's Investigations of These "Offices" Appailing.

"Offices" Appalling.

Washington. Orders have been issued by the postmaster general instructing the postmasters at New York and Brooklyn to refuse to admit to the mails the advertisements of 52 illess! "medical offices" located in those cities and also to revise to admit to the mails the advertisements of 52 illess! "medical offices" located in those cities and also to revise to deliver mail matter received addresses of to the factitious and assumed amore under which parties conducting these concerns hide their identity. For some time past the department has had inspectors working in New York gathering the necessary evivence to close the mails in these cases and the officials of the department Sunday expressed the bellef that practically all of the criminal concerns of this character in these cities have been covered.

A statement given out at the poet

of of the criminal concerns of this character in these critics have been covered.

A statement given out at the post
office says: "The condition of affairs
which has developed under the department's investigation in all of these
cities has been appalling. It was
found that in a large number of instances those engaged in conducting
these offices have criminal records
and are "dope fiende". In Boston one
of the concerns excluded by the department from the mails was supposed
to have been the office at which was
performed the fatal operation upon
the young woman Susan Geary—the
suit case nurder. One of the "doctors" whom the department found
tientified with several of these "officea" in Boston was also connected
with the Susan Geary case. The number of deaths that have been caused
in titige offices can never be known.

The volume of business done by
these concerns was large. It was said
that as high as 20 criminal operations
a day were performed in some of these
offices, and that the income sometimes;
singed as ligh as \$2,000 a week.

OHIO'S STRICKEN GOVERNOR.

Columbus, O. — The physicians attending Gov. Pattison gave out the following statement at 10:30 Sunday night:

Sunday night:

Gov. Patitison has been somewhat
more restlesa, otherwise no important
change has occurred since the last
statement "was issued. Pulse, 198;
respiration, 24; temperature, normal.

O. P. HOLT.
E. J. WILSON,

The last statement given out in the afternoon did not note the pulse or respiration. The governor's pulse of respiration are the governor's pulse at 15' o'clock Stinday morning was 96 and his respiration 22.

The members of the family feel much encouraged, but to the public the physiclans do not hold out any hope of recovery.

A story printed Sunday that the governor is suffering from cancer of the prostate giand is neither affirmed or dealed by the physiclans. The kidney trouble from which he has suffered is now said to be only a complication attending the real malady.

PENNSYLVANIA MINE OWNERS.

They Threaten To Break Away From the Interstate Agreement.

Indianapolis, Ind.—Bituminous coal operators and miners of the central competitive and southwestern-districts will make a final effort to come to a decision as to whether a wage scale to go into effect April 1 can be agreed upon

to go into effect April 1 can be agreed upon.

The miners demand an advance in wages of 5.55 per cent., which is the restoration of the wage scale of 1993. S. L. Robbins, speaking for the operators of Western Pennsylvanis, has offered to pay this advance and has threatened the operators of Ohio, Indiana and illinois who are standing firmly against the payment of any advance, that unless they recode from their position he will break away from their interstate agreement and run his mines on the advanced scale.

Hawthorne's Manuscript Destroyed.

New York.— A acore of original manuscripts of famous works of Nathaulei Hawthorne were dameased by a fire which destroyed the home of his son, Julian Alawthorne, in Yonkers. Several of the manuscripts were destroyed while others were badly damaged by water.

Two More Bodies Recovered.

Wheeling, W. Va. — Two additional bodies were recovered from the Century mine, running the death list to 26. All others have been accounted for, The funerals of 20 of the dead miners were held Sunday afterwood.

Selected As a Speaker.

Philadelphia.—Prof. A. H. Smyth, of the boys, his school, has been designated by President Roosevelt to make the speech on behalf of the United States at the Franklin bi-centenary exercises, which will be held in Paris on April 20.

COMMERCIAL CULLINGS

COMMERCIAL CULLINGS.

Switzerland's exports of machinery and implements in 1904 are valued at about \$9,500,000. Electrical machinery, and implements in 1904 are valued at about \$9,500,000. Electrical machinery, and machines used for weaving, knilling and embroidering were the principal items. As this little country had no iron or coal, but must import the heavy materials by railroads, the exportation of machinery speaks well for its industrials kill.

The American financial condition was so easy in 1905 that we were about the most service of the condition of \$64,000,000 worth of dutable foreign goods, an excess over 1904 of \$93,000,000, at the same time our imports of free goods amounted to \$130,000,000. Together, those increases in 1905 over 1904 amounted to \$145,000,000.

According to the government report, the United States consumed last year about one-fourth of the sugar production of the world. Nearly all the sugar frought into this country is produced from cane, and the United States consumes fully one-half of the cane sugar produced in the world. Cane sugar is forming at present a larger proportion of the world's sugar supply than during 1890-1902.

Our forsign commerce of the calendar year just closed reached the gigantic total of \$3,800,000,000, by far the largest year's business in the history of American foreign commerce, and \$1,145,000,000 more than in 1895. The halance of trade in our favor arising out of our foreign commerce of 1905 was \$44,600,000 and that for the last four years exceed \$1,745,000,000, a year, equal to nearly \$1,500,000 a day for 30e working days in each year.

FOOD HELPS

In Management of a B, R.

Speaking of food a railroad man aays:

"My work puts me ont in all kinds of weather, subject to irregular hours for meals and compelled to eat all kinds of food.

"For 7 years I was constantly troubled with indigestion, caused by eating heavy, fatty, attacty, greasy, poorly cooked food, such as are most accessible to men in my business. Generally each meal or lunch was followed by distressing pains and burning sensations in my atomach, which destroyed my sleep and almost unfit do me for work. My brain was so muddy and foggy that it was hard for me to discharge my duties properly.

"This leasted III! bout a year ago, when my attention was called to Grape. Nuts food by a newspaper ad, and i concluded to try it slees then I have used Grape-Nuts also then I have used Grape-Nuts as the early every meal and a cometimes between meals." "We railroad men have little change to prepare our food in our cabooses and I find Grape-Nuts mighty handy, for II is ready cooked.

"To make a long story short, Grape-Nuts hands a new man of me. I have no more burning distress in my stomach, nor any other symptom of indigestion. I can digest anything as one and prepared entirely." Name given by Postum Co. Battle Greek, Mich.

It Drove the College Girl To Suicide,

Hartford, Ky., March 23.—Miss Prudie Ford, a college student here, it is alleged, was accused by hor boardinghouse mistress of stealing some clothing belonging, to a daughter of the family. The young lady vehomently denied her guilt and sought other lodgings. Wednesday she left school suddenly and has been missing since. The last seen of her she was sitting on the river side with letters in her hand. One lotter found on the river bank Thursday said she was going to drown herself. She was a beautiful girl, about 18 years old.

Vetoe By the Governor.
Frankfort, Ky., March 22.—Gov.
Beekham issued his first veto of the session Wednesday afternoon. It was house bill 368 affecting fith-class citles, it gives to cities of the fifth class citles, it gives to cities of the fifth class of the right, which is enjoyed by citles of other classes, to exempt from minicipal taxation for a period of five years any manufacturing enterprise.

No More Time To Be Added.
Frankfort, Ky, March 22.—Gov.
Beecham has made the positive statement that he will not, for any purpose whatever, extend the call for the extra session of the general seasebly. Some wanted the call extended to consider an appropriation for the Jamestown exposition.

exposition.

Drug Company Bankrupt.
Louisville, Ky., March 24.—The Fowler Drug Co. was declared bankrupt
in the United States district court
here. The firm, of which Alderman J.
W. Fowler was principal, recently falled for \$25,000. The assets are very
small.

PIES MADE BY MACHINE.

A was an apple ple made by the new pie-making machine that is attended to by one man and three boys and turns out from 16 to 18 pics a minute. The machine is ten feet long and 20 feet wide, An electric motor furnishes power and a gas jet keeps the forming dies warm. Over the machine is suspended a tank with "fillings" for 400-pies, and in it an agitator-revolves to keep the material from blocking the outlet. After the paste for crusts has been properly mixed it swelphed and cut into properly mixed pieces by a dough divisier. A tray full of lumps of dough for bottom crusts is placed at one end of the machine, and another tray containing tumps for top crusts at the other end. At the rear is a stact, of plates automatically fed by a ratchet. A magnetized arm swings around, picks up a plate, and places it on a die made to receive it. A piece of dough is placed on the plate and the next movement brings it under a die which forms the lower crust. Then the fruit is, deposited from the tank, and the plate moves forward. By this time another lump of dough has been flattened out and stamped with an initial, such as an L for lomon, while an automatic bellows blows a puff of flour over the dough to keep it from sticking. The next movement brings the filled pie and this upper crust together, one operator being stationed here to adjust the top cover if necessary. Then the covered pie comes under the edgine die, which cuts of all the scraps, and which leads to the oven.

THE BEAUTY OF MACHINERY

It Harmonizes with the Divine Laws That Control the Un-

That Control the Universe.

Certain people imagine that machinery is ugly, uninteresting and disagreeable. Had they a finer and clearer vision, says the Reader, they would see that the ugliness is in the missise of this machine by incompetent or caroless men and women. The well-made and woll-early for machine by incompetent or caroless men and women. The well-made and well-early first shade and they will be universe. We may stand beside a glant bandsaw while, with screaming clamor, it rips a huge log into materials for a home. To the clear vision it is luminous with a strange beauty, a beauty we are only just heglining in understand, its brilliant bade flying with incredible speed is making a roof-tree to shelter a happy mother. In apother place we see a machine whose purring cutters are shaping beautiful white pine moidings of classic form to decorate a home—making in million feet of moidings, all alike. Perhaps some -sensitive soul cries. "How distressing, so mechanical, so monotonous! How said it all is! Dear soul cries that 10,000 nomes should have graceful forms on stair and sash and door, than that one home have hand-made moidings and the others have none at all? The cutters of this machine can and do accurately produce the spiendid curves designed by the sculptors and the architects who made Greek temples glorious. The machine is a missionary of the beautiful briggs are not ugly because cheap. They are beautiful and cheap.

TELLS TIME BY HIS PALM.

TELLS TIME BY HIS PALM

Maine Man Who Notes the Flight of the Hours by Looking at His Hand.

the Hours by Looking at His Hand.

Walter Nason, living in Newport, Me, has the mysterious ability of being able to tell the accurate time of day by simply looking in the palm of his hand as another would look at his watch. No one, reports the Thurston (Me.) Journal, has been able to learn his method and, in fact, he himself can not explain the source of his power. This uncanny knowledge is not of recent origin, he having used it for many years. When he first began to use this gift, as he considers it, he purchased a watch, then looking at his hand to ascertain the time he would compare his fingers with those of the watch, finding his own always correct. Many of the people about the village was doubted his power and who looked upon it as a "fairy story," have by their own observation and experiments become convinced of its truth.

Walter Nason was horn in the lowa of Palmyra 40 years ago and came to Newport when he was about 15 years of age. He attended the district school in Gliman, after which he found employment in different mills, at one of which he is working at the present time.

John B. Winstom.

John Bedford Winston is dead at the sign of 78 years. He died at his home at Idewids are the sign of 78 years. He died at his home at Idewids are the sign of 78 years. He died at his home at Idewids are the sign of 78 years are the sign of 78 years. He was born-the farm on Woolper creek to which his father moved just after his marriage about the year 18th. His father, John Winston (Uncle Jack) married fuery Allen, a site of the late Sthreschley Allen, who married Mary (Polity), a daughter of Nanton Watts, wife of the late Judge Washington Watts, John Winston and his hrother-in-law, Allen, actified on adjointing Jarmas on. Woolper creek about the years, acked reach reaching a large family of child-ron.

John Winston, the father, was son of John Winston, who moved from Virginia to North Carolina, thence to Kenton connty, this State, late in the 18th century—something over 100 years ago—bringing with him a great many negroes and—becoming then a large landowner. He will be the sulfice of the first brick houses the built one of the first brick houses. The house still stands in good condition, a marvel of superior architectural strength and durability.

John Winston, the grand-father of the subject of this sketch, was a son of Samuel Winston, or Virginia. His sister married John Henry, and was the mother of the patriot and statesmen, Patrick Henry. John Winston and six brothers, was in command of a regiment in the great battle of King's Mountain, near the close of the Revolution, which was the control of the same sent to he lower house of the federal Congress from his district in North Carolina. John Winston, the father of Carolina, John Winston, the father of Carolina, John married Elizabeth Hawkins, of Newport, Ky. William died yonng. Ann married James N. Caldwell and settled in Newport, Ky. Fatty married county, Missouri. The grand have the was a great many years. He was a man of sterling hitegrity, but a few years ago he was seized with a mental discontinuity of the wide of John Winston, the father from business. "Aunt Lucy." the wide of John Winston, the father from husiness. "Aunt Lucy." the wide of John Winston, the father from husiness. "Aunt Lucy." the wide of John Winston, the father from husiness. "Aunt Lucy." the wide of John Winston, the father from husiness. "Aunt Lucy." the wide of John Winston, the father from husiness. "Aunt Lucy." the wide of John Winston, the father from husiness. "Aunt Lucy." the wide of John Winston, the father from husiness. "Aunt Lucy." the wide of John Winston, the father from husiness. "Aunt Lucy." the wide of John Winston, the father from husiness was a monor of the late of the

The subject of this sketch left aviving him a widow and three children—Mannie, wife of Chas. Stevens, Paulina, wife of Dr. Threikeld, and Allie, an only son.

Adle, an only son.

I knew John B. Winston from my serliest childhood. I plowed in the same fields with him many a day. He plowed an honest furrow. He was faithful and upright, a good man, a good husband, tather and citizen.

izen.

I wrote Frank P. Walton at his business shouse in Cincinnati and told him of his death. If he said. 'I' am sorry! He was a good man! An honest man! 'A christian! He kept the faith! I lived by him—I know." This is his testimony—his spontaneous, laconic utterance.

This is his testimony—his spontancous, laconic utterance.

At his deski he was one of the oldest members of the Bullitsburg Baptist church. He joined that church to
which his father and mother belonged. He was a long sufferer from
rheamatism contracted more than
fifty years ago. He died of heart
failure the outcome of that disease.

We hament his death, and with
sorrow give him up. Many scenes in
our youthful lives come back to us
now. We attended the same schools
as far back as the early fortys. Our
social lives were greatly blended for
many years when we were young.

PLUTARCH No. 3183.

The great GERMAN COACH STALLION, PLUTARCH No. 3183, imported from Germany by J. Crouch & Son, of LaFayette, Indiana, now owned by the Burlington Horse Company, will make the season of 1906, from the 1st of April until the first of July, in the town of Burlington, Boone Co., Kentucky; the remainder of the time at L. A. Conner's stable, four miles south of Burlington, or the East Bend road.

PEDIGREE AND DESCRIPTION.

Plutarch No. 3183, was foaled June 8th, 1901; bred by H. Stukenberg, Hammelwarderm Germany.

Sire- Ailrat No. 1193, by Magnat No. 860, Agamemnon No. 560, &c., &c.

Dam-Pavone No. 6423, by Tello No. 1190, by Young Othello No. 923, by Othello No. 755, &c. 2nd Dam-Pfalz No. 3087, by Claro No. 890, by Kimme No. 568, by Young Duke of Cleveland No. 200, registered in "The German, Hanover and Oldenburg Coach Horse Stud Book."

This Stallion is a Mahogany bay 16½ hands high, weighs 1300 lbs., has the size, color, and style combined with extreme knee action, lifting his feet high which gives elegance to his pace and action. His points are strong with clean bone under the knee and feet sound, open and tough. He carries his head well with neck very rangy, long and well cut up at throttle, having a fine ear, well set broad forehead with large intelligent eyes and has a fine gentle disposition.

In order to produce good colts it is not necessary to have fine or high bred mares as the German Coachers being so long and strong bred will produce high class colts from all classes of mares.

The colts are fine and large and develop quickly. No other breed of stallions will produce as many good colts from all classes of mares.

It must be remembered that this class of horses always demands high prices and to-day they are the highest price horse on the market.

TERMS:-\$20.00 to insure a colt to stand up and suck, money due when colt is foaled or parted with. Parties breeding must follow up the season. Care taken to prevent accidents, but not responsible should any occur. Positively no service on Sunday. Pasture furnished and mares taken care of at \$4.00 per month.

We will give a premium of \$50 for the three best colts the get of this stallion of 1906, to be shown regardless of sex at the Florence Fair in the fall of 1907, the premiums will be awarded \$25, \$15, \$10. For further particulars call on or address,

Signs Which Show That Rocevelt
Has the Thing Under Advisement.

Judge Parker's expressed belief, that President Roosevelt will, after all, seek a third term in 1908, has at least some significant developments to sup-port it, says the Albany Argus. For instance:

The face price. It is no with all the markets price. The so with all the markets price. It is no with all the markets price. The so with all the markets price. It is no with all the markets price. The so with all the markets price. The sound the markets price. The sound the markets price. The sound the markets price and includes the markets price. The sound the markets price and the markets price and the markets price. The sound the markets price and the markets and the price of their, products and pay the politicians a percentage for them the price and the pric

WHO SHE WAS

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused it to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose restore the family fortune. "I maiden name was Estes, was born in argued that the medicine which Lynn, Mass. February 9th, 1819, coming from a good old Quaker family, meghbors was equally good for come years she taught school, and became known as a woman of an alact. The Pinthams had no more well as the property of the

and the became quive popular among the control of t

women of the whole word.

The Finkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and hereba were atteped on the store, which was not been a store to the store. There is not the store which were the store that the store that the store it was before they had given it away freely. They hirsd a job printer to run off some pamphiets actting forth the merits of the medicine, now called Lydia E. Pinkhams Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it recommended it to others, and the de-mand gradually increased.

and investigating mind, an earnest sector after knowledge, and above their nature is a wonderfully sympothetic nature.

In 1843 she married Isaac Pinkham, a builder and real estate operator, and their early married life was marked by prosperity and happiness. They had four children, three sons and adaughter.

In those good old fashloned days it was common for mothers to make their own home medicines from roots and herbs, natures own properties of the various roots and herbs. They had they was common for mothers to make their own home medicines from roots and herbs, mature a own properties of the various roots and herbs. Mrs. Pinkham took a great interest in the study of roots and herbs, their characteristics and power over discuss. Sine maintained that juxt as natures of the field there are remedies expressly designed to cure the various initia and weaknesses of the body, and it was her pleasure to search these out it was her pleasure to search the form the proposal to the form the proposal to the proposal

crty swept away. Some other source of income had to be found. At this point Lydis E. Pinkham's Vegetable Compound was made known to the world,

The three sons and the daughter, with their mother, combined forces to woman whose name it bears.

PICTURE SYMBOLS AND COMBINATIONS.

ACTIONS GATHERING APPLES DATHERING APPLES" PICTUR E SYMBOLS AND COMBINATIONS.

"oathering and pranching of the idea representation much nearer an apple true may be given.

Modifying Picture Forms.
The same would hold of any ayarabid, and especially that of the himsun figure. As soon as a man can be represented by an arrangement of parallelograms it is naural to try to so modify the latter as to approach the complexity of rounded vorms. The reacher may permit and even encourage this where the effort seems built, apport can be permitted and rineity upon it. The danger lies.

B.

mest have individual guidance in this case.

The Illustrations.

One of the aubjects given this time is a man and boy coming home from the fields at evening. While given it close addresses we are still dismipiletty of the picture symbols it is possibly for the more tained child to treat the theme with greater freedom than is employed in the combinations. The arms and legs of the figure might be made less stiff and more rounded, the bodies less squared, the distant trees given a freer outline, and so on within the knowledge of the child. The teacher should call attention to the angles made by the legs us walking.—The man and boy are tired and their legs drag after them. Try to illustrate this by the stick figures, calling upon the observation of the child and comparing this action with other walking. figures it has drawn. Note the proportions of the three pictures are sender. Note vening than does the upright panel with the pain forms, the other two with more freedom of line and the pictures are the bottom of the page is a treat the bottom of the page is quite free in its use of the formal form.

A little color has been suggested but more may be used; a tone might begives the stacks and ground to contrast them with the evening sky.

The other subject is "Gathering Apples." The first combination is given with the plain forms, the other two with more freedom of line and the picture art, the bottom of the page is quite free in its use of the formal form.

A little color has been suggested, but more may be used; a tone might begives the stacks and ground to contrast them with the evening sky.

IDENTIFICATION IN FRANCE.

Passports and Registration of For-eigners Are Rigidly Re-quired.

Deputy Consul General Coxe, of Paris, cautions Americans solourning or traveiting in France to provide themselves with means of identification. The lack of this in many cases his caused unnecessary anxiety and aunoyance. Mr. Coxe writes:

"The simplest means of identification is to carry addressed envelopes which have passed through the poet office. The French also requires registration for all foreigners who come to residence at the offices of the prefect of police in Paris or Lyans, or at the office of the mayor in other parts of France. Any change of address must also be communicated to the police. To secure this registration and the small certificate of identify, the person must furnish either a passport duly viseed of a consultar affidavit.

"Two incidents from very many will illustrate the importance of carrying everywhere papers to identify the bearer. A well-known American lady going to the control of the control o

avoided.

"Briefly, an American desiring to travel or remain in France will addignently to his comfort and avoid many a difficulty by providing himself with all the means of identification."

Trouble Not Wasted.

mighty pretty."

Chinese in Broughams.

"Broughams are now very noticeable.

In Peking, occupied principally by
Chinese officials, and often their
wives and children," says the Peking
and Tientsin Times. "They not only
run on the broad macadamized roads
but up the narrow side streets to their
houses. Of course to meet a cart is
fatai, to the cart at least if heavily
it daen, which has to turn the best way
it can, go back to some cross road, and
allow the brougham to pass. In this
instance there is no left or right of
the road, but the whole road. The
police are conspicuous by their absence in such places."

sence-in-such places."

New York's "Finest."

Fat policemen and policemen decorated with whiskers are becoming acarce on the New York police force. The active and intelligent officer whose bett extends over the building line is in constant fear of retirement and is making herole efforts to reduce or keep down weight, as commissioner Bingham secults the idea that a policeman in order to be efficient must weight somewhere near a quarter of a ton. The men are required to keep themselves looking smart, too, and a beard two days old is almost sure to some in for censure.

Well Answered.

"There is an echo up near Nisgara
Falls," remarked the Observer of
Events and Things; "and when a person abouts, Will Nisgara ever dry up."
the answer comes back, 'Dry up."
Yonkers Statesman.

Then He Went.

"No, I have no business," said the cheerful dolt. "I just dropped in to kill a little time."

"Well, thank you," said the busy man, "but, really, I haven't a bit I want killed to-day." — Cleveland Leader.

March, skidoo!

The snipe hunting season op in March.

March was anything but a cheerful month.

There was a pretty good crowd in town Monday.

March is gone and may we never see the like of'er again.

For Sale—Sow and 7 pigs. Apply to Kirb Crister, Pleasant Hill.

The grass only wants an opportunity to begin its spring growth.

Saturday was a strenuous day in Burlington—at least the afternoon. Mrs. B. B. Allphin, of Walton, is spending a few days with Burling-ton friends.

Mrs. John Baldon went to a Cincinnati hospital, last week, for treatment

Pendleton county people are of the opinion that their peaches are not all killed.

C. C. Hughes was transferred from Covington to Cynthians, the first of this month.

The Baptist congregations at Burngton and Bullittsburg, have not

The prophet who predicted rain for last month knew his business or proved a good guesser.

The moon was alright on the po-tato question last month, but the groun was off all the time.

The first day of April furnished pretty nearly as much sunshine as the entire month of March.

Edward Corbin, of Florence, de-livers goods at Union, Richwood and Dixon on Friday of each week.

more business than any in the U.S. last year.

W. R. Hearst, of New York, says he is in nowise a candidate for a presidential nomination, but that he will remain in politics.

Base ball talk is being indulged in by the local fans, who hardly know where they are at as regards a team for the coming season.

There was rain enough during the month of March to beat all the life out of the land, and it is feared that such has been the result.

No one has been reported as hav-ing sowed oats this spring and left them lying on the ground, taking chances of their making a crop.

The Owingsville Outlook has taken a peep into the future and says Senator James B. McCreary may as well be prepared for the worst.

The bill increasing saloon license in Ohio to \$1,000 was passed by the legislature, last week. It is claimed that it will put 6,000 saloons out of

Deputy Sheriff Cropper says it does not take much court work to go a long ways when the public roads are in the condition they have been this spring.

The directors of the North Ken-tucky Agricultural Association will meet at the cottage on the grounds next Saturday, and it is important that every director be present.

Last week was home-coming week for several of those who left the old town a few months ago. Among them were Anthony Bent-ler, R. W. Clark and Buzz Rock-well.

After the funeral sermon by Rev. T. L. Utz, last Wednesday, Elder Edmond Stephens' remains were placed in the vault at Hopeful church to await interment at Flor-

Fannie C., Noah Clore's famous brood mare died one day last week. She, probably, produced more premium colle than anyother mare ever owned in this part of the

It is very much desired that every member of Viola Lodge I. O. F. Hebron, attend the meeting next Saturday night, as business of great importance will come up for attention.

attention.

James Adams, of Pendleton county, and a brother of the late Thomas Adams, of this county, was the guest of his deceased brother's family here, from last Sunday until Monday afternoon.

Rising Sun people are talking railroad again, and believe it is sure to come now. Another survey of the route from Madison, Indians, to Cincinnati, is being made, and the right of way for a considerable distance has been secured.

The Williamstown Courier made the "no danger announcement" in display type, last week, as the editably type, last week, as the editably type, last week, as the editably the "no danger announcement" in display type, last week, as the editable officer had informed the editor that there was no longer any danger from smallpox. There was only one case in the town and the pattent died.

No grand jury having been summoned for the term of the Boone criccult court which convenes next monday, those who, otherwise, would have had business away from home during the week, can remain and give their stiention to farm work, which has been very much delayed.

Akin, &c., to Milton, 40 acr No grand jury having been summoned for the term of the Boone circuit court which convenes next Monday, those who, otherwise, would have had business away from home during the week, can remain and give their attention to farm work, which has been very much delayed.

delayed.

Phil Cayton, of East Bend, has sued his neighbor, Peter Hager, for \$3,200 damages, resulting from his being shot by Mr. Hager's 13 year old sun, lest winter. The boy had his flobert rifle over at Mr. Cayton's and discharged it accidentally, the ball entering Mr. Cayton's wrist, and ranged to near his elbow, where it was cut out.

A great many who have been in the habit of raising chickens complain that their hens refuse to set this spring, and several are threatening to invest in incubators. It may be that the hens have organized and drawn the line on setting, and they are not to be blamed if they have decided to toree that arduous duty on to a wooden box, a laup and a gallon or so of coal oil.

"To remove rate," says an exchange, "take a keg, fill it tull of water and put cottoneed in the water. The seed will float on the surface. After placing the keg where you want it, sprinkle-noeal on top of the cotten seed. You may catch from 10 to 20 rate at one setting." The keg, water and meal can be had in these parts, but from whence will come the cotton seed?

The first day of April furnished retty, nearly as much sunshine as he entire month of March.

Edward Corbin, of Florence, devers goods at Union, Richwood and Dixon on Friday of each week. Wilholt was in town Monday dong business. His company did nore business than any Company nthe U.S. last year.

W. R. Hearst, of New York, says as in nowise a candidate for a presidential nomination, but that

A spell of bad weather always finds somebody short on fuel, and about this time of the year several are found in that boat about Burlington, and many of them are persons who laid in their usual supply of winter's coal last fall, but which, for some reason, was exhausted sooner than usual, although the winter was not unusually cold. Some contend that much of the coal they have used this winter did not have the proper heating properties.

Rheumatism Makes Life Miserable.

Rheumatism Makes Life Miserable.

A happy home is the most valuable possession that is within the reach of mankind, but you cannot enjoy its comforts it you are suffering from rheumatism. You throw agide business cares when you enter your home and you can be relieved from those rheumatic pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continued use for a short time will bring about a permanent cure. For sale by every reliable dealer in state of Kentucky.

a permanent cure. For sale by every reliable dealer in state of Ken tucky.

The Lawrenceburg Press makes the following suggestion to its correspondents, and the Recorder reproduces it for the benefit of its correspondents, and the Recorder reproduces it for the benefit of its correspondents of the Press will confer a favor by trying to get items that will benefit their neighborhoods and the county. Every bit so information showing progress that will benefit their neighborhoods and the county. Every bit so information showing progress and improvement is valuable, and will reflect credit on your vicinity and encourage and stimulate people in other parts of the county. New buildings, good work on roads, items about the lodges, schools and inchrence in agriculture, stock raising, fruit il growing, forestry, poultry raising, ret., are desired particularly?

Ephriam Augustus Rouse was as born near Burlington, Ky, Jan. 27, 1328. He was married to Isabelle Craven Feb-24, 1853. He answered the Death Angel's call early Thursted day morning March 1, 1906 aged 78 years, 1 month and 5 days. To this and the resided in Ky, until the year than the first dying in infancy. Remember I make horseshoeing a specialty.

JOE BIRKLE,
Buillitaville, Ky.

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system rundown. To restore this vitality take Dr. Miles' Nervine which will strengthen and build up the nerves. You cannot be healthy without strong nerves. "For eighteen years Dr. Miles' Nervine which will strengthen and build up the nerves. You cannot be healthy without strong nerves. "For eighteen years Dr. Miles' Nervine and proported the will strengthen and word the prevent bead, and had such awful disay perfect health MRB. S. L. YOUNG.

224 Pittaburg St., New Cautle, Pa. Dr. Miles' Nervine is easily by your druggist, who will return your money.

The Irish linen industry is booming as it has not flourished in years, largely on the expanding exports to the United States.

Cotton was king in 1905—a record year for the production, and a spectacular year in speculation. The total erop of the season was 13,556,000 bales. American spinners took 4,500,000 bales and 8,887,000 bales were ex-

ported.

During the last year the United States produced an enormous amount of gold. It was a banner year for the gold mines-got the United States and the Transvaal particularly, the two great gold countries of the world competing for supremacy. The year's yield of gold in the world amounted to about \$375,000,000 from all sources of supply. Of this amount the United States produced \$90,000,000.

The new water works which are being discussed at Los Angeles will cost \$35,800,000, according to estimates by Frank H. Olmstead. This is an enormous sum for a city of 105,000 populamous sum for a city of 105,000 popula-tion to pay for such works, and this amount is due to the \$25,000,000 which the conduit, over 250 miles long, will cost. In order to construct the con-duit It will be advisable, Mr. Olmstead says, to build a railway costing over \$5,000,000 along the line and to erect three 600-barrel cement mills.

three 600-barrel cement mills.

Officials of the Philadelphia Rapid Transit Co. have changed the original date for the opening of the new sub-way in that city, and now expect to fanagurate the service on December 21. The two-parts of the work that will require the utmost energy, it they are to be finished by that date, are the changing of the grade of the lines weat of the river to admit the surface tracks to the bridge over the Schuyl-kill, and the big station under the surface of Market street from 15th to 16th streets.

According to to recent statistics, the length of the railroads of the world was 537,165 miles on December 31, 1904, of which 270,336 miles were in America, 187,776 in Europe, 46,592 in Asia, 15,649 miles in Africa and 16,702 miles in Australia. Of the mileage of European railroad Germany stands first (34,916), followed in their order by Russia (33,286), France (28,286), Austria-Hungary (24,261), the United Kingdom (22,592), Italy (10,025), Spain (8,660), Sweden and Norway (17,730).

There seems to be an epidemic of polaritis, jüdging from the many plans of audaclous and death-defying men who would carry the pole by assault since strategy has failed. The old-fashioned way of steaming as far as resulble and then using dogs has gone out of style. Now is is årrships and autos that will be used to conquer-the last bit of obstinate space yet defying man. Walter Wellman will use the afirship sethod and will be able to start when summer comes. The Duke of Abruzzi, who has been farthest north of any man, will try again to reach the pole.

north of any man, will try again to reach the pole.

The Smoke Abatement League of Cincinnati has Issued an appeal to the citizenship for substantial aid and comfort in the work of ridding Cincinnati-of the heavy pail of smoke hanging over the city from Price Hill to Walnitt Hills. Owling to the topography of Cincinnati the work of abating the smoke nuisance is more difficult than in other citigs. The western hills prevent the winds from dissipating the smoke, save on rare occasions, and under certain atmospheric 'conditions. Electricity and natural gas may soive the problem.

Martin Kellar, a walter in a Scattle cafe, a few weeks ago overheard guests at his table discussing the chances of making a fortine in Theoma tide lands. Having saved up \$5,000, Kellar bearded the next train and secured an option on a block of tide lands, and in a few days afterward received an offer from the Union Paedice of \$38,000 for the block of lands. He cleared up \$50,000 on his infestment, but king sone back to his old business as a waiter. He fleets that the ses ometimes more valuable than those who gave them are sware,

The coal operators' and miners' conferences in the central competitive district adjourned sine die without coming to an agreement on the wage scale.

The matterns convention of the Unit.

scale.

The national convention of the Unitde Mine Workers of America adjourned sine die after authorizing the national and district officers to sign a
wage agreement with any coal operator who would agree to pay the scale
of 1903 or its equivalent for a period
of two years, This is an advance of
5.55 per cent.
No scaneral stylke order, was issued

of two years. This is an advance of 5.55 per cent.

No general strike order was issued by the national executive board of the United Mine. Workers as a result of the all-day meeting of that body in Indianapolis.

Eight thousand miners in the employ of the Keyatone Coal and Coke Co. and the Jamison Coal and Coke Co. and the Jamison Coal and Coke Co. near Greensburg, Pa. have decided to continue work regardless of the action of the Indianapolis convention.

In the event of a general strike of the bituminous miners in Pennsylvania the loss to the workers would be \$650,000 daily.

Estimates place the number of miners who will probably be on strike in Ohio at between 25,000 to 3000, there being about 40,000 miners in Ohio.

Fourteen thousand miners employed

Onto.
Fourteen thousand miners employed in coal mines in the Belleville, Ill., district, struck at midnight. At the same hour 500 miners employed in the Edwardsville (Ill.) district also stopped work.

work.

The Republic Steel Co., East St.
Louis, suspended operations, with the
announcement that the suspension is
due to the impending coal strike. The
plant employed 1,500 men.

que to the impending coal strike. The plant employed 1,500 men.

The Keystone Coal and Coke Co., operating 15 mines in Westmoretand County, Pa., granted the miners an advance of 5 per cent.

According to advices received there will be no general tie-up of the bitum-inous coal miries in Indiana.

In anticipation of a minera strike, the visibly supply of coal in Des Moines and Iowa has been absorbed by rallroads and factories to the extent that not a pound of commercial coal can be had at any price.

Congressional Items.

Senator Daniel Introduced an amendment to the house railroad rate bill making railroads liable for damages to employee resulting from negligence or mismanagement or insufficient railroad equipment on the part of the railroad.

Senator Congression

road equipment on the part of the railroad.

Senator Carmack offered an amendiment to the railroad rate bill making the initial railroad liable for damage to freight transferred to a connecting line. It has been favorably passed on by the senate committee.

Representative Sparkman, of Florida, re-introduced his resolution for an exhibition at Tamps, Fis., from January to May, 1968, to celebrate the beginning of the construction of the Pansma canal.

The house on the 31st passed the legislative, executive and judicial appropriation bill, carrying \$30,000,000, after considering the measure two weeks.

The house committee on public buildings and grounds agreed to report a public building bill carrying, appropriations aggregating \$20,000,000.

Miscellaneous Items.

public building bill earrying appropriations aggregating \$20,000,000.

Miscellaneous items.

The police of Minneapolis are engaged in a hunt for theires of register and a significant of the city and sold their punder.

The Salvation army in London has been unable to secure sufficient accommodation for the emigrants desiring to go to Canada. Aiready 2,600 have been sent to the Dominion and passages for 2,000 more are booked.

The British museum has declined to purchase the Nelson memorandum outlining the plan of the battle of Trafalgar, which recently was sold at auction for \$18,000.

Jacob H. Schiff, the New York banker, was decorated with the Order of the Rising Sun while in audience with the emperor of Japan.

G. Martin Brill, head of the Brill car works, with interests all over the country, died in Philadelpia.

In the supreme court of the District of Columbia, Justice Stafford granted a temporary injunction against the union printers of Washington, who are strike for an eight-hour day, respectively of the stafford granted a temporary injunction against the union printers of Washington, who are strike for an eight-hour day, respectively of Columbia, Justice Stafford granted a temporary injunction against the union printers of Washington, who are straining them from interfering in any way with the non-union employes.

The police have discovered a plot of liberals to assassinate President Palma, of Cuba.

With practically complete returns from 62 out 67 5 counters in Aramas, Gov. Jetterson Davis has a majority of 2,072 over Senator James H. Berry for the democratic nomination for United States senator.

Gen. Luke E. Wright, newly appointed ambassador to Japan, will sall from Scattle for his new post April 29. He will be accompanied by Mrs. Wright and is due at Yokohamo on May 15.

Tommy Burns carried out his promise to put out within 20 rounds both Jim O'Brien, of Pittaburg, and Jim Walker, of Battle Creek, Mich. Each was disposed of in short order.

was disposed of in short order.

District Attorney Jerome has asked Justice Dowling to apploint a special grand jury to investigate the insurance business in New York city.

On a charge that his connection with the contribution of 348,702.60 from the funds of the New York Life insurance Co. to the republican national committee in the campaign of 1904, constituted grand larceny in the first degree, George W. Perkins, a member of the firm of J. P. Morgan & Co., and until recently first the president of that insurance company, was arrested on a warrant issued at the instigation of District Attorney Jerome, New York.

York. Delegates from the blue and gray state organizations from a score of states met at Atlanta, Ga. The object of the gathering is to form a national organization which will perpetuate without distinction between north and south the memory of those who fought on either side in that memorable conflict.

on either side in that memorable conflict.

"I am in no sense a candidate."

With these words Wm. R. Hearat met
an inquiry concerning presidential timber and issues for the campaign of
1908.

Brig. Gen. Eric Swayne, who was
second in command in the Somilaland
campaign against the Mad Mulish, has
been appointed to succeed Sir Bickham
Sweet-Escott as governor of British
Honduras.

Pay Miners Advance Asked.

Pittaburg, Pa. — Dispatches from
the soft coal fields indicate aimost a
general announcement from the operators of Western Pennsylvania to pay
the miners the advance of 5.55 per ton
called for in the restoration of the
scale of 1903. With notices posted at
the majority of the mines announcing
the granting of the scale, the strike
in the soft coal field has lost the threatening aspect that has surrounded it
since last January.

The miners of the Fairmont, W. Va.,
coal section have not entered into the
present controversy. Of the 40,000
miners in West Uriginia, but 5,000 are
dilitated with the United Mine Workers, about 1,500 are in the pan-handle
section and these have ceased work.

SPINAL MENINGITIS.

Near Alexandria.

Newport, Ky., March 30.—Death in one of its most agonizing forms has laid its heavy hand on the family of Charles Hogle, a farmer, living about two miles south of Alexandria. His 14-year-old son was stricken with cerborospinal meningities, and died after suffering for two hours. The same day his 12-year-old boy was stricken with the disease and succumbed before night. Next evening the ten-year-old son was stricken, and died a few hours afterwards. While Drs. Houston and Zinn were treating this boy the two cher children, aged six and tarce, respectively, were stricken with the dread malady, and their desth seems only a matter of momenia. The attending bysicians can not account for the presence of the terrible affiction, as the family was considered one of the healthlest in the section. The disease carried off the six-year-old son of John Nelser, also of Alexandria, about three weeks ago.

TWO WHOLE COUNTIES

They Must Vote on the Question of Abolishing One Lone Ssicon.

Abolishing One Lone Saloon.

Williamstown, Ky., March 29.—The villiage of Jonesville is the topic of conversation among local option and anti-local option people. It lies in both Grant and Owen counties and 's the only "wet" place in either county. Heretofore the citizens there have voied separately on the liquor question, and as a majority of thece were in favor of the sale of whisk; Jonesville has maintained a saloon, while those in other parts of the two coulties have gone out of business. Under the Ehrlich law both Grant and Owen counties will have to vote on the question separately and will have to each hold a special election for the counties entire and vote "dry" as a whole to put Jonesville's saloon out of business.

The Hessis Distillery Sold.

The Heasig Distillery Sold.
Paducah, Ky., March 29.—The Hessig distillery, recently sold in bankruptcy, has been purchased by H. Weil & Son, one of the largest wholesale liquor firms in Western Kentucky, The capacity of the plant will be doubled and two large warehouses will be erected.

A Robber's Victim.

DISPELLING HAILSTORMS.

Experiments of German Meteorologist
Who Is Battling with the
Clouds.

Who Is Battling with the Clouds.

Herr Stiger of the meteorological burreau of Vienna battles with the clouds. In almost every country on the continent where agriculture is the peoples mainstay there is a systematic use of scientific warfare with cloud sinosing, cannon for the purpose of dispelling threatened ball storms. Herr Stiger began his experiments with the fundamental principle of disturbing the intense stillness which prevails before a halistorm. He demonstrated the tact that after the ring of a shot a small tense stillness which prevails before a halistorm. He demonstrated the tact that after the ring of a shot a small whirlwind arises, easily perceptible in the reflected sunshine. This whirlwind arises at hight. At a distance of 200 feet the wind destroyed a strong 200 seconds at hight. At a distance of 200 feet the wind destroyed a strong 200 feet the wind destroyed a strong Maphragam. The experts who attented could planuly see the wind rise from the mouth or the funnels with lighting rapidity possessing all the dispects of a shot. The most marked effects were produced by horizontal shots. For the experiments, shields built of theke paper and linen were piaced at intervals of from 40 to 100 yards from the mouth of the cannon. When the clole of wind erfolded these shields they were torn from the frames, the solid posts and framework snapped m two and were cost from 18 to 22 yards, while a large mastiff standing now was whifted into the air, turned several somessuits and was finng to the ground lifelees.

HAY AN ARTIST IN WORDS.

HAY AN ARTIST IN WORDS.

Unerring Sense of Fitness in Se-lection Rendered Speech Incomparable.

It is hard for those who knew and loved Hay—and all who knew out did loved Hay—and all who knew out did love him—to reconcile themselves to the thought, writes Joseph—therkila.

Bishop, in "A Friendship with John Hay" in Castury, that he can draw no more pictures for us; that this admirable and perfect and rarely maccaed artist it words can delight us no more forever. As he said of the voice of his son, his own is still squading in our ears. It was in every fiber and tone the voice of the intellectual men, of the scholar and the gentleman, a voice that itself was music, and the music of a pure and gentle and noble soul. And the words to which the music was set! Who that has had the exquisite plassive use of ir ne only right word in every case, its clear-cut and incisive enunctative use of the only right word in every case, its clear-cut and incisive enunctation, the constant play of a humor teat was next door neighbor to me-ancholy, and the finer because of that close as sociation, on ever forget it, or, think of its loss without a pang?

of its loss without a pang?

"Is new once a very covetous, sordid old fellow," says Lord Chesterfield in his letters to his son, "who used frequently to say: Take care of the pence, for the pounds will take care of themselves." This was a just and sensible reflection in a miser. I recommend you to take care of the minutes, for the hours will take care of the himselves, i am very sure that many people lose two or three hours every day by not taking care of the minutes. Never think any portion of time, whatsoever, too short to be employed; something or other may atways be done in it."

term of office failed to pay him \$100 of his salary.

Bowling Green & Western Road.
Bowling Green, K., March 31.—It overcoat. You will find it good and is stated on presumably good authority that construction work will begin much, but I couldn't tisk of it? "e-on the Bowling Green & Weetern rail-road between this city and Morgan-town within a few days.

TWO MEN AND GOD

Scripture Authority.-Exedus, 4:10-17, 27,

Scripture Authority.—Exodus, 4:0-17, 27, 28.

N the day on which Moses and his wife Important of the Important of Jethro and took up their journey towards the land of Egypt, Aaron had been some days on his way in quest of his brother Moses, and had the evening before reached E 1 i m, where were 12 wells of water and a delightful grove of palms, 70 in number. Weary with his journey he stretched thimself upon the green-carpeted earth by the side of one of the clear, sparkling pools, and after drinking deep of the refreshing water he had failen into a deep sleep. While he thus lept it seemed to him that the Lord came and touched him and said unto him:

"Go, hasten into the wilderness

salept its seemed to him that the Lord came and touched him and said unto him:

"Go, hasten into the wilderness, which lies before thee, for Moses departs on the morrow, seeking thee."

So vivid was the vision and so real the voice that he awoks with a start, and, teaping to his feet, exclaimed:
"Yea, Lord, I will go."

He did not know how far the night was spent; but the Full-orbed moon was Booding the earth with its light and seemed to mark out a pathway for his feet, and hastily partaking of sone of the fruit of the palms, and filling his pouch with other lusclous clusters, and replephing the water in his skin bottle which he carried over his shoulder, he started forward.

All that day he traveled, and only rested at night when the darkness made if no longer possible or safe to continue. Bit with the first glimmenings of daylight he was again pursuing his journey, expectantly.

The towering outlines of a distant mountain beam elimpsead upon his vision, and within his heart there rose a feeling of joy and clation which he could not understend or explain.

All day long the vision of that mountain held him and he paused mot unit, toward the middle of the atternoon, near the hould not understend for explain.

While thus engaged the breaking of a brauch in a clump of bushes near a hand caused him to turn and, peering the rough of a brauch in a clump of bushes near a hand caused him to turn and, peering the outlines of a tent. His first impulse was to hurry thirther and see if he could obtain tidings of Moses, but as quickly there came a second impulse, wa to hurry thirther and see if he could obtain tidings of Moses, but as quickly there came as a second impulse, wa to hurry thirther and see if he could obtain tidings of Moses, but as quickly there came as a second impulse, wa to hurry thirther and see if he could obtain tidings of Moses, but as quickly there came as a second impulse, was to hurry thirther and see if he could obtain tidings of Moses, but as quickly there came as a second impulse, was to hurry thi

exciaimed:
"Uh, if they could only come to this place," and as he continued on up the mountain he kept asking himself the question: "Will deliverance ever come?"

exclaimed:

"Oh, if they could only come to this place," and as he continued on up the mountain he kept asking himself the question: "Will deliverance ever come?"

Each repetition was more intense and louder than before, until his voice echosed and—recknede—through—the mountains, as though the very rocks were taking up the cry and calling the heaven for answer. Almost startled, Aaron paused and listened, and as the sound of the echoes died away there seemed to come from the distance abecomed and come of the come of t

sponded.

And while Aaron distened with stirring heart, Moses related all that had befallen him in the mountain.

"And God hath sent thee to me to help in this great mission," he concluded.

cided. "But you little know the Pharaoh with whom you have to deal," responded Aaron, dublously, and he went on to tell of the cruel oppression that had marked his reign. "Think you that he will let our people go?" No, that he will not, for God has spoken pisinly on that point, declaring that even a mighty army would not be able to win our freedom."

"Then how can we hope for deliv-

"There how can we can kope for in ourselves, but God has said He will stretch out His hand, and smite Egypt with all his wonders."

"What wonders."

"I know not, save that God has said that we must obey His voice and that with this rod"—holding out, the staff in his hand—"we shall do signs as He

Aaron took the staff in his hands and looked at it curiously.

and looked at it curiously.

"Why, that is only your shenherd's
crook, is it not? Is that the only
token of thy authority?"

"And is that not enough when
God's power is manifest in it?" And
suiting the action to the word, Moses
selzed the rod and cast it upon the
ground at Aaron's feet and instauly
it was changed to a writhing serpent,
before which Aaron's feet in terror.

"Fear not, brother, for this shall
certify us before our brethren and
before Pharoah," said Moses, coniplacently, reaching down and grasping

"Fear not, brocher, for this shall certify us before our brethren and before Pharoah," said Moses, complicently, reaching down and grasping the tail of the reptile.

Aaron retraced his steps as he saw the venomous snake become a harmless rod again in the hands of his brother, and he exclaimed:

"It. Is woncerful!"

"And if the people will not believe because of this sign and Pharaoh will not hearken then there is this sign that God hath given me."

And thresting his hand within the folds of his garment, he drew it out and it was white with leprosy.

The look of horror upoa Aaron's face as he shrank away frous the loakingment disease was changed to one of averieif as he saw his brother again put the hand into his bosom and draw it forth restored like the other. His dropped to his knees and grasped the hem of Moses mantle, saying as he did so, in a hoarse whisper:

"Thou heat the power of a god."

"Nay, my brother, say not so. Arise it is God spower. It is the thin; which God has shown me here in the mount."

"Surely, then, the cry of the oppressed people has gone up to God and He will remember His promises gives unto them;" Asron said, carnestly "Think you, then, that they will receive me?" Moses queried, anziously, as he recalled how they had turned against him years before when he had sought to fod when they behold these signs which thou doest, but if tear Pharon will not hearken unto you, and he will call upon his pressite to do their wonders and discredit you. And they are exceedingly clever, as shou knowest." he added, by way of emphasis.

Moses noded in assent, while an anxious, troubled look crossed his face. He trembled at the thought of

"The darkness will soon be upon us."

Next morning the camp at the foot of the mountain was broken up with the first glimmerings of daylight, and the wife and sons of Moses started on their journey back home. Far into the night they had talked the unacter over,"and at last Zipporah had istened to Aaron's conneed and agreed that it was best that she and the boys should return to Jethro's home.

"God will lead us back this way with my people," said Moses, confidently, as they sporated. "And thou shalt come with us then."
"But I will not see Egypt!" she cried, regretfully.
"No," responded Moses, clasping her

erion, regretfully.

"No," responded Moses, clasping her and her sons in final embrace; "bn: thou shall see a better and, a land flowing with milk and noney, a land to waith Gold is going to lead his people."

Enter my name for a copy of "Let-ters from a God-Made Minister" by Edgar DeWitt Jones and on receipt of same I will remit 75c.

Name. Address

Hear that the land owners along the East Bend road for several miles out has each agreed to haul stone, free of charge, from his land and place it on the side of the road, it being understood that the road overseer is to use the road money to which their road will be entitled, in breaking and spreading the rock thus furnished. The carrying out of such an agreement will in one year's time overcome—the—dangerous—condition with which these good people—have been confronted this month when they desired to travel their road. If a like combination for the betterment of the public roads was formed in each neighborhood in the county, good roads would soon become a reality in Boone county, the problem having been solved with, comparatively, no cost to the county. The plan is feasible, and each community will receive the direct benefit of all its labor and the greater part of the tax it pays. This is a feature that commends the plan to every land owner in the county.

The ground is settling rapidly.

The ground is settling rapidly.

For sale—Sweet potatoes. Apply to T. J. Walton, Commissary.

NOTICE.

To whom it may concern:—Parties who are in need of Sewing Machines, will do well to see Horace Hewitt, Aurora, Ind. He will save you money on any kind of a machine you want to buy. JTARCH No. 3183.

The great GERMAN COACH STALLION, PLUTARCH No. 3183, imported from Germany by J. Crouch & Son, of LaFayette, Indiana, now owned by the Burlington Horse Company, will make the season of 1906, from the 1st of April until the first of July, in the town of Burlington, Boone Co., Kentucky; the remainder of the time at L. A. Conner's stable, four miles south of Burlington, on the East Bend road.

PEDIGREE AND DESCRIPTION.

Plutarch No. 3183, was foaled June 8th, 1901; bred by H. Stukenberg, Hammelwardermoon,

Sire- Ailrat No. 1193, by Magnat No. 860, Agamemnon No. 560, &c., &c.

Dam-Pavone No. 6423, by Tello No. 1190, by Young Othello No. 923, by Othello No. 755, &c. 2nd Dam-Pfalz No. 3087, by Claro No. 890, by Kimme No. 568, by Young Duke of Cleveland No. 200, registered in "The German, Hanover and Oldenburg Coach Horse Stud Book."

This Stallion is a Mahogany bay 16½ hands high, weight 1300 lbs., has the size, color, and style combined with extreme knee action, lifting his feet high which gives elegance to his pace and action. His points are strong with clean bone under the knee and feet sound, open and tough. He carries his head well with neck very rangy, long and well cut up at throttle, having a fine ear, well set broad forehead with large intelligent eyes and has a fine gentle disposition.

In order to produce good colds it is not necessary to have fine as high broad management.

In order to produce good colts it is not necessary to have fine or high bred mares as the German Coachers being so long and strong bred will produce high class colts from all classes of mares.

The colts are fine and large and develop quickly. No other breed of stallions will produce a many good colts from all classes of mares.

It must be remembered that this class of horses always demands high prices and to-day they are the highest price horse on the market.

Terms:—\$20.00 to insure a colt to stand up and suck, money due when colt is foaled or mare parted with. Parties breeding must follow up the season. Care taken to prevent accidents, but not responsible should any occur. Positively no service on Sunday. Pasture furnished and mares taken

We will give a premium of \$50 for the three best colts the get of this stallion of 1906, to be shown regardless of sex at the Florence Fair in the fall of 1907, the premiums will be awarded \$25, \$15, \$10. For further particulars call on or address,

IIE measured tread of the soldiers pacing to and fro before the dark, somber face of the great rock tomb was the only sound which broke the stillness of the dreary place, save as an occasional oath or muttered complaint was heard.

complaint was heard.

"Curses on' the chief priests." Marcus growled, shaking himself vigorously in effort to overcome the chill of the sight air. "I like not the place or the task which brings us thither."

"I wish I were home," he added, and his thoughts went back to the white, listies from of his little girl, whom he had been forced to leave that afternoon. "Would he ever see her alive sgain?" he asked himself, and the heart of the great rough soldier felt as though it would break under the weight of its sorrow.

Little Marie was the only living

heart of the great rough soldier felt as though it would break under the weight of 1s sorrow.

Little Marie was the only living thing he had in the world. The mother had died years before, ere he had left litaly with his legion for Palestine, and he had taken the little girl along because she had begged so hard to come, and because he did not feel this he could leave her behind. The travel and change from place to place had been hard on the little one, for he was not always able to give her the care which she needed, but since coming to derive the had follow a sorrow and because he did not feel this he could leave her behind. The travel lines had fallen in pleasanter places. Circumstanges had made it possible to perform a service for a Jewish family living there, and as a result he had found a good home for his little girl. And just when he was happy and contented in the thought that she was heig well provided for and was growing stronger, she had taken ill. That was over a week ago.

She had been out in the streets with the other oblidiers when the through from the city pressed out to meet one named Jesus, whom they halled as king, and she had followed with the strength could stand, and as a result had been thrown into a fever which had wasted her slight form. She had salked "afmost incessantly about the mau Jesus whom she had seen riding in regal state on the ass' colt, and had declared over and over again: "Oh, His face was so good. I want to be with Him!"

Then had come the earthquake and the darkness the day before, and the fright had thrown her into every the fright had thrown her into every her place with the place of the was the place of the plac

to be with Him!"

Then had come the earthquake and the darkness the day before, and the fright had thrown her into convuisions, from which she had with greatificativity railled. And since then she

sions, from which she had with great difficulty railied. And since then sie had been sinking gradually, and when he bade her good-by he feared he never would see her alive again. He knew little about 'this man Jesus whom the Jews had condemned to death, and whom the Roman soldiers had crucified, save that he made claims to being the long-looked-for king of the Jews.

the Jews.

"Why need they such a guard?"

"What," exclaimed a voice at his elbow, "know you not that the high
priests fear that this man's disciples
will come and steal his body away?"

"Why should they want to steal-the
body?" asked Marcus. "Did they not
bring the body here themselves? And
is not this the tomb of the rich Joseph of Arimathaea, one of His disciples.""

"Quite true, but know you not that it reported that this man Jesus de-tred that though they killed Him He ulld rise from the grave on the third

clared that though they killed Bim He would rise from the grave on the third day?"

"No, who told thee that?"

"The centurion of our band was told by one of the guards who stood in the presche of Pliate when the chief of the state of the guards who stood in the priests appeared before him and asked for a guard for the tomb. He declared that he overheard them say that this man, whom they called the deceiver, had said that after called the deceiver, had said that after three days he would rise again."

"Could not one who had such powers are himself from the cross," asked him while he was hanging on the cross, "relied another of the soldiers, "for I was among those near the cross," and heard him declare that if He should ask for them His Father would send 12 legions of angles to deliver Him."

"Who was His Father?" again questioned Marcus of Joseph, the tarpenter of Nazareth, but the centure in in tharge of the soldiers at the cross declared openly after the cruethin in charge of the soldiers at the cross declared openly after the cruethin in charge of the soldiers at the cross declared openly after the cruethin in charge of the soldiers at the son of God, "Then God must have sent the darkness and the earthquake," exclaimed Marcus, and again his heart flew back in anguished thought to his little faughter."

"As he pessed and repassed the mouth of the

apprehensively on either hand, fearful that some spirit or supernatural being might appear.

"If Jesus has risen, where is He?"
he questioned. "Was He the Son of
God?" "If He was the Son of God,
and had power to rise from the
dead, could He nor help his little
deughter?"
These and a catasism of other lite
thoughts came crowding in upon him.
He had now catered the city and
furned up the street which led to his
home. Suddenly he was roused from
his meditations by a voice which thundered in his ear:
"By Jupiter! is that you, Marcus? I
thought we left you for dead at the
tomb."
Marcus looked into the grinning face
of one of the solders who had stood
guard with him at the tomb, but before he could make any response to the
greeting, the other went on with:
"Too bad you didn! get away with
the rest of us. We've made big money
this day," and he shook his leathern
pouch from which came the chink of
golden cois. "But it is not too late for
you. Come with me!"

"Yo the high priest's house."

Marcus looked at the bag of gold

"Where?"
"To the high priest's house."
Marcus looked at the bag of gold and then into the face ot the soldier, and the latter answered, by way of explanation, dropping his voice to a whiseer:

"To the high priest's house." wasted her slight form. She had ed afmost incessantly about the Jesus whom she had seen riding tegal state on the ass' colt, and cleared over and over agalin. The His face was as good. I want with Him?" earthquike and darkness the day before, and then the had thrown her into convuls, from which she had with greatuity railied. And sance then she been sinking gradually, and when de her good-by he feared he never die see her sive again. It has a she had condemned to a she had so the had been she had seen the high she had with the high she had with the high she had with the high she long-lookel-for king of lever. The high she was that he made claims self the high she was the made claims she will be she was the made claims she will be she will be she was the she was claims she will be s

as he stood with his amn upon tasstone.
Suddenly he felt the ground shaking beneath his feet, and he was brushed aside as though he had been a bit of chaff. Curses and terrified eries filled the air. The soldiers were tossed about like ships on the heaving waters of the ocean, and went tumbling away from the tomb.

Then came a flash of light brighter than the sun at noonday, and the soldiers fell down as dead men. Marcus felt his senses recling and after the first twild flash in which he saw the seals of the Roman power hurst aumster and the stone rolled back and the tomb flooded with light he krew no more.

dec and the stone rolled back and the tomb flooded with light he ksew no more. How long he lay there he knew not, save that when he returned to consciousness the first gray streaks of day were beginning to creep up in the eastern sky. None of the other solidiers were to be seen, and, rousing himself, he looked towards the both one side of the opening, while the frayed ends of the tape of the imperial Roman seal dangled towards the ground.

Slowly he crept towards the mouth of the tomb and looked in. It was empty. He recalled the conversation of the hight before, and his confused brain tried to understand what rising from the dead might mean. He felt he wanted to get away from the dreadful place, and as he hurried on he looked, apprehensively on either hand, featful that some spirit or supernatural being might appear.

"If Jesus has risen, where is He?"

EASTER EGG-ROLLING.

Annual Carnival Enjoyed by Wash ington Children on the White House Lawn,

Ington Children on the White House Lawn.

Ten thousand children, varied in age and size and color, perhaps 100,000 viridheed ages, and upward of 28,000 grown folks watching this strange amalgamation of color, is the essence of the Easter egg-roiling caturilar in the president's back yard. This monatér egg-roiling tele is a custom which has been handed down from one generation of children to another. Where and when it originated no person in this age has been able to determine, but all Washington combines to guard it as a privilege inviolate. This great "play-time" is not devoted exclusively to the pastimes wherein the colored eggs are an all-important adjunct, for many of the little visitors who have come unprovided with baskets of the fragile playthings spend the entire day skipping the rope, playing with dolls, sailing miniature boats in the great fountin basins, or induiging in some other diversion dear to the childidsh heart. Of course, eggs, decorated in many bright colors, employed in any one of a dozen ways, constitute the reigning "fad." The older children in the vast assemblage on the White House lawn usually indulge in games of "coss and catch," a pastime which is likely to seriously deplete the stock of eggs, or egg "picting," which necessitates an even more prodigal use of the delicate souvenirs of the day, "Picking" consists in the striking of two eggs together until one or the other is cracked, whereupon the owner of the shell which has failed to stand the novel test must surrender the damaged egg to his victorious competitor.

Another game of the same order may be played by two youngsters seated upon the ground several feet apart.

Each selects an egg from the basket at her side and simultaneously they roll forward the bright-colored ovals, with the hope, of course, that a collision will result and the relative strength of the two eggs be determined. Every year finds dozens of new "egg games" in-

EASTER GREETING

The teatures of this gala day at the home of the president, however, which are likely, after all, to most deeply impress the casual spectator are found in the beautiful democracy of the fete and the almost unfailing good-nature which prevails among these acres of children. The junior members of the families of abinet ministers and senators, freed for once from the sovereignty of nurses, enthusiastically roll eggs to the grimlest and raggedest little youngsters in all Washington. Rich and poor, black and white, mingle together for this one day on terms of perfect equality; and, strange as it may seem, seldom does there creep to the surface any manifestation of envy on the part of the poorer children for the possessions of their more fortunate playmates. It is only the happy possessor of a goosegy or turkey-egg who stands superfor to his fellows in this vast assembiage. Mayhap he is a piccaninny in tattered clothes, but as the champion "egg-pick er" he is for the time being the idol of a band of loyal: satellites.—Woman's Home Companion.

THEIR SECOND EASTER.

THEIR SECOND EASTER.

What Gaster Owes to Good Friday

What Gaster Owes to Good Friday

By Charles Wadner, sether of "The Simple List."

I LOVE EASTER, with the trangul certitude that death is
vanquished. Easter! It is a brightness of the soul more
beautiful than the brightness of the day, more evident than
the sun. I would that I could carry into all hearts filled with
shadow, veiled in mourning, a ray of that divine dawn.

Why, then, do so many Christians fall to catch the vivifying secret of this royal day?

It is because they do not knew what Easter owes to Good
Friday. The glory of Easter is not directly accessible to us.
To conquer it we must pass through the "via dolorous," Such
is the meaning of the Scriptures, and life confirms and filluties that the confirms of the confirms and filluties that of the confirms of the confirms and filluties that the confirms of the confirms and filluties that the confirms of the confirms and filluties that the confirms of the confirms of the

ments, and he stretches out his hand to grasp the miracle; but his hand remains empty. The Christian soul throughout the ages is not thus deceived. It says, "From the Cross, the Crown."

Thou sillet me, brother, that thou caust not believe in the ages is not thus deceived. It says, "From the Cross, the Crown."

Thou sillet me, brother, that thou caust not believe in the save the control of these who, like the does not have a control of these who canst thou discern the Baster message? Thou hast to thee, how canst thou discern the Baster message? Thou hast ont the eyes to bear that light.

The crucible of life is terrible. Is our nights, in our diageous, in our supreme struggles, show us not the Risen, but the Crucified One! It is from His dead eyes that the eternal dawn of Easter is kindled. To die as He died, to die with Him, is to spell the unknown Verb of the true isle. There is no other school to liberate men from the hiddens cluster alevery to death. There is no other school that does this with the school of the Cross.

If, then, thou woulds battle thy, soul in the victorious but the school of the Cross.

If, then, thou woulds battle thy, soul in the victorious taylight; Good Friday the night of anguish, from whose become the cry arises on the air, "My God, my God, why hast thou forsaken me?"

But do not misapprehend—this light comes from that night. There, in the thick darkness, opens the door into the "kingdom that contch not with observation."

The first production of the true of the control of the contr

SURE HARBINGER OF SPRING

An Infallible Sign Is the Sass Tea of the Country Grand-

"Why some people put their money on the groundhog when seeking signs of the coming of spring, inever knew," said a rham whee in his own conceit. "For a good many years I have read about the boy with a top, or with marbles, as being auger harbingers of the vernal season than the advent of the crotical with the vernal season than the advent of the vernal season than the advent of the vernal season than the advent of the vernal season that is the vernal season that is the season that is the very the past winter has been out of the ordinary run. To see tops, however, is no indication that fish are getting hungry.

"The marble in the city is not a sign of biuebirds. Not by a long flight. And I don't know when I ever saw a boy roll a koop in Manhattan. That used to be a sign of spring.

"The city boy, of course, knows nothing about resurrecting she hat. In the country, the first fishing worm is a sure pointer that the backbone of winter has been strained.

"It is in the home in the country, where there is a watchful grandmother has the paradimother gots her prescleace, but it is unerring.
"At the very first rising of the sap, in fact, before vegetation feels the first thrill of renewing life, the grandmother has the intimation. When she makes assasfras tes, then indeed do you know that spring is nigh.
"Occasionality you will find a street peddler in the city with bunches of assasfras bark for sale, and you may have noticed that such peddlers are not of the ordinary type.

"The sassafras dealer on the streets always a motherly looking woman with an apron and a bonnet that is never seen in the shops, or a paternal fooking individual who has chin whisters. Country appearances and sassafras for tex.
"If I wer making a book on the weather—serving weather—i would claus

WOMAN'S EXTRAVAGANCE.

Set Forth in Writing, by One Who Must Have Been a Man, Long Ago.

An antiquary was chuckling over an article on extravagance in dress. "A man wrote this, I'll warrant," he said. "Men are siways writing such things. See what a man wrote in 1630 of a certain Miss Phraser's gown."

And he read from his notebook: "This lovely rich gown, of the best brocade, much bejeweiled and embroidered, cost £330. It frights Sir Cave Scroope, who is much in love with her, from marrying her, saying his estate will scarce maintain her in ciothes."

He turned another page: "Mme, de Montespan," he read, "wore at a great court festival a gown of gold on gold, embroidered in gold, bordered with gold, and over that a gold frieze stitched with, certain gold which makes the most divine stuff imaginable. But why deck out the human form with such rulnous extravagance?"

Crushing a Doubter.
Customer—You guarantee your candy
to be pure and wholesome, I suppose?
Confectioner—It's a good deal purer
and wholesomier than this ragged old
greenback you've handed me.—Chicago Tribune.

Soaks In.

"What makes Bounders get his head shampood so often?"

"He's on the water wagon, and there's brandy in the shampoo."—Detroit Free Frees.

KNEW HIS BUSINESS.

Actress—Somebody's been to my room and stolen all my jewels!
Hotel-Clerk—Ah, then I'll let the reporters know at once.

Pride of Station.
Prima Donna (proudly)—If that is the Prince of Wales at the door, tell bim that the queen of the operatic stage has no desire to associate with mere princes.

Maid—it is not the prince, madam;

'Oh! Admit him."-N. Y. Weekly.

A Plausible Theory.

Mrs. De Sweet—I cannot understand why so many cultured men are willing to leave all the happiness of home, all the blessings of civilization, and spend a lifetime in explorations in such countries as Africa.

Colonel Warmbreast—gallantly—All men, madam, are not bessed with such wives of Mr. De Sweet—N. Y. Weekly.

Two Swift for Eggs, ess-Well, why don't you boil Two Swift for Eggs.

Mistress—Well, why don't you boil
the eggs?
Cook—Sure I've no clock in the
kitchen to go by.
Mistress—Why, yes, Bridget, here's
a clock in the kitchen.
Cook—Phwat good it ut? Ut's tin
minnits fast!—Cleveland Leader.

How She Missed Him.

Geraldine—There was an awfully handsome Russian nobleman staying at the same hotel with us, but nobody would introduce him to me.

Gwandoline—How spitefull.

Geraldine—Oh. no. They couldn't pronousce his name.—Cleveland-eader.

"Charley, dear," said young Mrs.
Torkins, "I wonder who 'our heast don't law?"
"Perhaps we don't feed them property."
"I hadn't thought of that. I'll go'this afternoon and buy them some egg plant!"—Weahington Star.

other."—Washington Star.

The Uses of Time.

The Time and the Old Man fell into a little colloquy, "You've dealt pretty sently with me, I'll go'this afternoon and buy them some egg plant!"—Weahington Star.

Superfinite.

"There is a man who figures prom-inently in our business," said the justof clerk when showing a friend who had called to see him through the establishment.

"The can with the pen behind his ear?" asked the other.
"Yea."

"Yea."
"Is he one of the partners?"
"No; he is the bookkeeper."—The
Bits.

A Man of Learning. To colleges he gave much pelf,
His fame no envious tongue co
He didn't lecture much himself
But wisely let his money talk.
-Washington Star.

PHILANTHROPIC.

"Good luck. Franz! ['ve found a four-leaf clover!"

"O, leave it growing, so some poor person can find it!"—Fliegende Blaetter.

The Safe Side.

"Don't you think it would be a good idea for you to make another speech?"

"What for?" asked Senator Sorghum. "If I don't make a speech people will think I know more than I care to say. If I do, they are liable to think I want to talk, whether I know anything or not."—Washington Star.

Upset the Arrangements.
Doctor (visiting cholera hospital 'n the morning)—Well, sister, how many ueaths are there?
Sister in Charge—Three, doctor.
Doctor—But I gave up four of them last night!
Sister in Charge—Tes; but one of them wouldn't take his medicine.

Privileges.
"Has wealth any special privilegee in this country?" asked the tourist. "Certainly," answered the Americas citizen. "Wealth entitles a man 10 wear a slik hat every day in the week, and also gives him a license for the use of light-colored gairers and side whiskers."—Washington Star.

On the Run.
She ran into town for the day,
But, isn't it funny?
An hour was all she could stay;
She ran out of money.
-Philadelphia Press.

LET THE BILLS SLIDE.

"Why are you pouring water all over your doorstep? When it freezes eyery caller will break his neck." "That's all right. About ten bill col-lectors and all my creditors are going to call tomorrow."—Chicago Journal.

Finds It Now.

Bacon—I see Goldrov has bought as expensive searchlight and put it up in his room.

Egbert—What for?

"Said he coulant afrond to lose so cauch time hunting in dark corners for his collar buttons."—Yonkers Statesman.

Towne—His great contention is that all men are born equal.

Brawns—That's all right.

Towne—By the seems to think he's better than most men.

Browne—Well, message all men are boru equal, but that some are equal to a hundred others—Philadelphia Press.

Praises Cuticura Remedies.

"Our baby had that dreafful complaint, Infantils Ezema, which afficed him for several months, commencing at the top of body. He sufferings were untoil and constabt misery, in fact, there was nothing we would not have done to have given him ratio. We would not have done to have given him ratio. We would not have done to have given him ratio and the second with the second have been a second to have a highter spirit and really laughed, for the first time in a pear. In about insicty days he was fully reconseed. Firste for the greatest pleasures, and there is nothing too good that we could say in their favor, for they certainly award our baby's life, for they certainly award our baby's life, for they certainly award our baby's life, to they certainly award our bakeble Lova, 183 Appleton Ave., Parsons, Kan., July 18, 1936.

Another's.

Elderly Man (greeting former acquainttance)—I remember your face perfectly,
nies, but your name has escaped me.
The Young Woman—I don't wonder. It
scaped me three years ago. I am martied now —Chicago Tribune.

"If it took a man as long to git into debt," said Uncle Eben, "as it does to git out, dar wouldn' be nigh so much finan-cial worriment."—Washington Star.

Garfield Tea, which is made wholly of herbs, cleanses the system, clears the com-plexion and insures a natural action of liver, ridneys, stomach and bowels. It is the best blood-purifier known.

INDIAN PROVERBS

The coward shoots with shut eyes. Small things talk loud to the Indian's

word.
A squaw's tongue runs faster than the
wind's legs.
There is nothing so eloquent as a rattleanake's tail.
The Indian scalps his enemy; the paleface skins his friends.
There will be hungry palefaces so long
as there is any Indian land to swallow.
When a man praws one day and steels.

as there is any Indian land to swallow.
When a man prays one day and steals
six, the Great Spirit thunders and the
evil one laughs.
There are three things it takes a
strong man to hold: A young warrior,
a wild horse and a handsome squaw.

HIGH CLASS DRUGGISTS

AND - OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or officinal names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of deily toil. They all know that Syrup of Figs is an excellent lazative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of coils and headaches attended by biliousness and constitution and of weakness or torpidity lof the liver and bowels, arising from irregular habits, indigection, over-eating, that there is no offset femely so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense-demand for it, 'mitations have been made, tried and condemned, but there are individual druggists to be found, hereand there, who do not maintain the dignity and principle

We hear firing off on our right. This is possibly a feint, conducted by General Bazil Duke—a ruse of Gen. Morgan's, having for its object the misleading of Gen. Hobson, and concealing his (Morgan's) real purpose. With the bad element quieted by the presence of soldiers, we do not apprehend any serious trouble until the bad element quieted by the presence of soldiers, we do not apprehend any serious trouble until the bad element quieted by the presence of soldiers, we do not apprehend any serious trouble until the bad element quieted by the presence of soldiers, we will be kept quite busy, trying to keep soul and body beneath the same hat.

We have arrived at Mr. Crother's, (on Crother's creek,) like wise the battle ground mentioned in a previous chapter. Scotting parties of the respective commands had met here and had mixed matters quite lively for a few minutes, resulting in Scasualties, with nine wounded. Honors were about equal. One party had been trespassing, without our permission, and had taken possession of our little schoolhouse, which was ricdled with bullets. Were it not we are outlawed by limitation we might bring action for trespass and damage yet, for certainly it is with reluctance that we relinquish our claim upon that little home of refuge, the only place that we could seclude ourselves from observation, to talk over and arrange privately our plans for future procedure during our entir trip through the mountains and wilds of Kentucky, where every tree was supposed to have any eye and every stone an ear. Of the wounded four were federals and 5 confederates, four were too severely, wounted-to-to admit of their removal to camp. Two of these had since died, leaving two—one federal and one confederate in the care of that God like woman. Mrs. Crother, of whom having failed in a previous chapter (after exhausting the aocabulary of the English language) to find words to express my appreciation of the mobileness of her character and estimation of her worth, I will not attempt it now; but I hope that a fe

This is the month in which to

Plant your potatoes at the first opportunity.

All hands are busy at the court house this week.

Mrs. Noah Craven has been ill for several days.

Hogan received considerable to-bacco last Friday.

Canvassed tobacco beds are begin ning to dot the hill sides.

The racket of the tack hammer will be heard in the home now for several days.

There were several small land-slides in Constance neighborhood during the month of March.

C. W. Robinson, one of the hust ling business men of Constance was in town last Thursday.

Judge W. M. Fenley, of Coving-ton, was looking to business over at the court house, last Thursday.

E. L. Grant, of Bellevue precinct was among those transacting busi-ness in the hub, last Thursday.

Dudley Rouse is remodeling the residence he purchased of O. P. Conner's estate in the northeast part of town.

For three weeks previous to last Friday the demand for horseographs and jackotypes at this office was all it could handie.

Circuit court convened Monday morning, but there has been noth-ing in the last several weeks that indicated its approach.

County Clerk Adams attended the Board meeting of the North Bend Association of Baptist, held at Belleview, last Friday.

Marce Riddell's Belgian hares are increasing so rapidly that he will have to move to the country shortly to have room for them.

Wilhoit, the insurance man, represents a company that did more business than anyother company in the United States, last year.

April's debut was just to the far-mer's liking but it could not con-tinue its good behavior until the ground was in condition to plow.

It takes April showers to make May flowers, but this is a year when the farmers are willing to take on-ly a moderate number of each of these.

W. J. Rice is local agent for the International Harvester Company, and sells the McCormic harvest ma-chinery, I. H. C. gasoline engines, &c., &c.

The 1906 crop of tobacco raised around the store stoves during the last winter will prove considerably larger than the crop, that will actually be cultivated.

Wormless and suckerless tobacco—what an easy crop it will be to cultivate. Can't someone introduce a tobacco the stripping of which will be unnecessary?

The Limaburg and Constance people and those intervening ought to complete the pike to Limaburg. It would be one of the cheapest roads in the county to build.

About the worst road reported to this office this spring is a portion of the old North Bend road near Dr. Jacob Tanner's. It is said to have been in a dangerous condition.

A pound of poultry can be produced at less than a pound of best or pork and it will bring five cents. The cost to produce a dozen eggs is not half so much as to produce a pound of pork or best and the eggs and Justices Solon Early M. will bring twice as much in open market. Which are you raising?

These Berry A. At a regular term of the Boone County Fiscal Court held at Burmore ingoing and Justices Solon Early M. pound of port or best and the eggs and Justices Solon Early M. Walton, Moses Scott and J. H. Watton, Moses Scott and J. H. Walton.

S. H. Marshall was allowed \$167-

Thos. Barnes, a prominent Grant county farmer, was killed last Friday evening near Dry Ridge by a train on the Q. & C. R. H. His son was in the buggy with him and was hurled 20 feet and hadly bruised, while the father was terribly mutilated, the horse killed and the buggy reduced to kindling wood.

Rheumatism Makee Life Miserable.

A happy home is the most valuable possession that is within the reach of mankind, but you cannot enjoy its comforts it you are suffering from rheumatism. You throw aside business cares when you enter your home and you can be relieved from those rheumatic pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continued use for a short time will bring about a permanent cure. For sale by every reliable dealer in state of Kentucky.

Capt. Henry Kottmyer made, a crossing last Friday morning with his ferry boat in four minutes by the watch. The river was 44 feet and the steam guage indicated 60 pounds. He thought he made good time until in the afternoon, when his father made the same trip in three minutes with forty pounds of steam and a considerable larger load on the boat. The Kottmyers are all splendid ferrymen but the old man is at the head of the class and can show the boys a few things yet when he is at the wheel.

In last week's Williamstown Courier "A Taxpayer" addresses a letter to the Fiscal court, in which he has this to say in regard to roads: "One of your most important duties is the maintenance of our turnpikes and bridges. It is very plainly evident that the present system of maintaining our turnpikes is not a good one. The pikes are going down steadily, ditches filling up and culverts breaking in. The longer they gounder the present system, the worse they will be, and then it is only a question of a short time till our pikes are gone, and the immense sums we have spent on them wasted. We do not want to get in the same fix as Owen county. Now it seems to the writer, that it is good business sense to change to some other plan when it is so very evident that the existing one is so poor."

About the worst road reported to this office this spring is a portion of the old North Bend road near Dr. Jacob Tanner's. It is issaid to have been in a dangerous condition.

John Crisler, of Gunpowder neighborhood, was in town last Saturday. He was very much crippled up with rheumatism, which attacked him in one of his knees the day before.

Jesse Kirkpatrick went to Walton, Sunday, where he expects to work at his trade this season with Mr. Nicholson. Jesse is a good carpenter and will make his employer a valuable man.

There has been great inducements to wild ducks to sojourn along the creeks and on the river that the number has been unusually large.

Roy Kirkpatrick, after anabsence of nearly two years, appeared on the secures of his childhood again last Wedneeds, verning. He had been in Illinois the greater part of the time, where he developed into a man of great statue.

At the meeting of the North Kentucky Agricultural Association, last Staturday, all the necessary committees were appointed, and the work for the 1906 fair is now on in earnest and will be kept up until the last ribbon is tied on the last day of the exhibition.

C. Norman, Uniton Games, J. n. Watson, Moses Scott and J. H. Walton.
S. H. Marshall was allowed \$167-50; Omer Adams, \$332; G. A. Ryle, \$35 45; W. S. White, \$49, by commissioners in county court, for reading made necessary by opening new road in Hathaway neighborhood.

train on the Q. & C. R. R. His son was in the buggy with him and was hurled 20 feet and badly bruised, while the father was terribly mutilated, the horse killed and the buggy reduced to kindling wood.

Thos. Rouse, of, Crittenden, Grant county, many years ago a citizen of this county, died at his home in Crittenden, last Sunday morning. Mr. Rouse was a leading Democrat in this county, which he had served as representative, state senator and sheriff. He was an uncle of Dudley Rouse, president of the Boone Gounty Deposit Bank.

Following are the subjects that will be discussed by the Odd-Fellows at their meeting at Hebron on the night of the 26th hinst:

"Would a School in Odd-Fellowship be an Advantage to a Dull Evening?"

"The Church and the Lodge."

"Is the Lodge Benefitted by the Members, or the Members by the Lodge?"

"Should Stringent Means be used with a Wayward Member?"

Levy for road purposes for year
1906 was fixed at 10 cents on each
\$100, to be designated as road and
bridge fund.
County levy for general expense
tund was fixed at 5 cents on each
\$100, and a poll tax of \$1.50 on
each male citizen over 21 years of
age.

age.

The sum of \$60 was appropriated to repair county road from Petersburg to the cemetery below said

burg to the cemetery below said town.

Came the Boone and Gallatin county turnpike Co. and makes formal application that Boone county subscribe \$500 per mile in stock to the building of a pike about 24 miles, leading from Verona to the Gallatin county line, and to designate two of its members to be elected as directors in said company. This application is made in accordance with the resolution this day adopted by the Boone Fiscal Court. Said company is ready and has subscribed sufficient stock to build a good pike with the county aid aforesaid.

Wm. McArthur allowed \$26 for repairing bridge across Dry creek.
Clutterbuck Bros. allowed \$40 58 for merchandise.
C. H. Acra allowed \$3 for conveying pauper to county infirmary. Oscar Gaines allowed \$1 for election room.

The Superintendent's report

Oscar Gaines allowed \$2 tot from the Superintendent's report shows that expense of county infirmary for first quarter of 1906 was \$270.04, and he was allowed \$300 for current expenses.

O. P. Phipps allowed \$22.50 for buying and hauling 15 loads of manure for county farm.

P. E. Cason was appointed to

nure for county farm.

P. E. Cason was appointed to have roof on county infirmary repaired.

A. B. Renaker visited his parents and friends at Dry Ridge, Grant county, last Sunday.

Attorney I. G. Hamilton, of Ceorgetown, is attending the Boone circuit court this week.

Mrs. Ossman, of Beaver, and Miss Lou Allan, of Petersburg, plant millinery advertisements this week.

Mr. James D. Cloud had a tele-phone put in his residence, a few days since. He is on the B. C. T. C. line.

Considerable plowing will be done this week. In ten days favorable weather a great deal of work can be disposed of.

The drill was moved from near Normanaville to Big Bone Springs, last Saturday, where an oil well is now being sunk.

While grafting fruit trees, one day last week, J. M. Eddins let his knife slip and cut three of his fingers very badly.

For Sale—White Wyandott eggs

The Chinese always paint an eye on ther side of their junks' bows, so that e boats can see their way,

French winegrowers are more than rer convinced that hallstorms can be certed by the timely firing of cannon

Cripple Creek has produced in its 15 years of life ore worth \$150,000,000, and is good for many more years. There is money in mining if you hit the right spot.

A great strike was made recently in Virginia Canyon, idaho Springs, Col., where a vein of gold ore five feet thick was laid bare. One-half the vein goes \$100, while the remainder is worth \$20

Edward Crossman, of Ely, Minn, owns one of the oddest teams in America. He has succeeded in the unusual task of breaking a pair of moose to drive in harness. In his sleigh Mr. Crossman spins about as rapidly behind these animals as if drawn by a prancing span of horses.

taking from infancy, the Finley twins have been, and although to-day beyond the allotted span of life, being more than four score years of age, they are as inseparable as they were when they were playing with the paponese in Southwestern Michigan. They are William and Archibald Finley, of Schoolcraft, Mich, and they were S1 years old November last.

were SI years.old Aovenmer last.

The only really perfect diamonds which are to be found on this globe are those which fall from the sky in meteorites: all diamonds which are mined in the diamond fields of the world are only fragments of gems. That is a startling statement, but a still more startling one is that all the diamonds to be found on our planet have fallen on our earth from the skies and have not, as most of us thought, been produced here like coal and other mineral products.

When the steamship Philadelphia arrived at Boston, the other day, she brought among the other things in her cargo a consignment of elephant tusks, or teeth, as they are called in the ship's manifest. There are about 300 tusks in the consignment, and in weight they run from about 75 pounds to the weight of an ordinary man. Few of them are less than a yard in length, and one is fully eight feet long, having evidently been the property at some time of an elephant that would rival the famed Jimboo In size.

rival the famed Jimbo In size.

Emperor William receives £000,000
a year—the biggest allowance made to
any constitutional monarch. King Edward receives £470,000 a year, although a separate grant of £20,000 is
made to the Prince of Wales, one of
£10,000 to the Princess of Wales and
another of £1,800 per annum to each
of the king's three daughters. The
king of Austria-Hungary figures high
on the list of handsomely paid rulers,
receiving £328,202 a year. King Alfonso, boy though he is, disposes of
£338,000 annually, and even Belgium
spares £132,000 a year for the glory
of being a monarchy.

Perhaps the most remarkable (es-

Derhaps the most remarkable fea-ture of commercial progress in the United States is the wealth which its copper mines are yielding. Last year the ontput of American copper mines was nearly one billion pounds. This was worth \$150,000,000. The output of the copper mines of the country slone, to say nothing of the gold and silver mines, was nearly four times as great as the dividends of the Stand-ard Oil Co., which controls 70 per cent. of the oil industry of the United States. Just 21 copper mines paid in actual profits to stockholders the huge sum of \$30,000,000.

Our lide rich, who have taken up the fad of scorching autos to furnish a novelty in lives otherwise doomed to enaul, have recently-made snough excitement for themselves to satisfy the most exacting. What with a jail sentence in France, the experience of a scion of the noted house of Sheppard, and the attacks of an Italian mobo on W. K. Vanderbilt, fr., it would seem that Europe is a good place to be shunned by speeding autoista. Here the laws are more elastic, and five-dollar fines are only an incident hardly worth noting in the speeder's diary.

In his 23 years at the bar, Lincoln had go less than 169 cases before the highest court of Illinois, a record unsurpassed by his contemporaries; he spreared before the United States circuit court and district courts with great frequency; he was the most indefatigable attendant on the Bighth circuit, and tried more cases than any other member of that bar; he was attorney for the Illinois Central railroad; he was also counsel for the Rock laland railroad and other corporations and individuals with important logal los areats at stake.

News From the Coal Fields

Proposal of the state board of arbi-ration of Illinois to ad at the pres-ent coal miners' strike by arbitration net with the disapproval of the mi-

met with the disapproval of the miners.

Arbitration is proposed by the antractic miners whose general scale committee held another session with the representatives of the operators in New York. The idle miners ask that the conciliation board created by the strike commission act as arbitrators with Judge George Gray, of Delaware, or any person he may appoint, as chairman or umpire.

At a largely attended meeting of coal mine operators of the Springheld (III). district it was unanimously decided not to sign the 1903 wage scale.

Congressions! Items.

The urgent dendency bill was amended so as to provide for more delegates to the next Panama congress and as amended was passed by the senate.

senate.

Th. 'we committee on Indian affairs authorized a favorable report on the Burke bill providing for the allotment and distribution of Indian tribal funds. These funds aggregate \$50,000.000

uno,000.

In the senate McCumber introduced several amendments to the railroad rate bill. One provides a penalty three times as great as the rebate allowed in each case.

Miscellaneous Items.

General Overseer Voliva, of Zion City, Ill., announces that John Alexander Dowie, deposed head of the Zion church, will be accused of the following: Extravagance of the most shameful kind, misrepresentation, exaggeration, 'mismanagement, polygamous teachings in private, tyranny, injustice and indiscretion. Mr. Dowie, before the ecclesiastical court which will try him, will be given every opportunity to meet every charge and to make reply.

nity to meet every charge and to make reply.

Attorneys acting for Wilbur Glenn Vollva, the acting general overseer of the Christian Catholic Apostolic church, at Zion City, Ill., filed for record in Cook county a bill of sale transferring to Alexander Granger the property of the church, its institutions and industries, together with all of the personal property of John Alexander Dowle, wherever situated.

John Alexander Dowle, the first apostic of the Christian Catholic church of Zion City, Ill., left Mexico City with his party for Chicago, where will confront the Zion leaders who attempted to revolt against him. Dr. Dowle was in good health and spirits and indignant at the conduct of the men who, according to letters in his possession, were professing loyalty to him.

him.

Vast Crowd Gathered at the Tabernacle in Zion City Sundsy.

Zion City, Ill.—The people of Zion
City heard the heir former leader,
John Alexander Dowle, denounced
from the pulpit in Sbiloh tabernacie
Sunday and they approved of it, or at
least as many of them as could crowd
into that vast meeting house signified their willingness to follow General Overseer Vollva. Zion's new leader told of Dr. Dowle's alleged misdeeds, and the more bitter and seath
ing his words of denunciation, the
more general swd enthusiastic was the
approval of his listeners.

When, after denouncing Dowle as a
"spendthrift," "illar" and "a traitor
be in the state of the season of
the audience as to who should be
their future leader, the six thousand
eople in the tabernacie ayos as ono
person and signified their willingness
to follow Vollva to the end.

Overseer Vollva told how money had
been spent for Dowle's own comfort
while the creditors and the people of
Zion were demanding money. Vollva
vited as his own experience that he
flad been compelled to keep himself
and a family of five on \$60 a month,
and that of this he had been compelled
to turn over a tenth in tithes to the
church.

San Antonlo, Tex.—Dr. Dowle

to turn over a tenth in tithes to the church.

San Antonio, Tex.—Dr. Dowie and his party left. Sunday night shortly before 8, o'lock for St. Louis. The train was delayed at San Antonio and this was taken advantage of by the local Zionites, who arranged for a meeting, at which Dr. Dowie was-to-speak. The meeting was secret in its great that the general public became aware that, the general public became aware that, the great public was to delayer and the secretary of the zionists feared if the great public was to dear him. As it was, every seat in the local temple was filled fully an hour before the was filled fully an hour before the venerable leader was to make his appearance.

DECAYED STARCH.

DECAYED STARCH.

A Rood Froblem.
An Asheville man tells how right good did that which medicines had failed to accompilate:
"For more than 15 years," he says, "I was affileted with stomach trouble and intestinal indigestion, rass forming in stomach and bewels and of the starchy food and the stomach that will be stomach and stomach and bewels and giving me great distress. These conditions were undostretly due to the test of the starchy food and attention of the starchy food and the will be starchy food the worse to the starchy food and the will be starchy food and the will be starchy food of the starchy food and the starchy food food agonies. The last attack was about 3 months ago, and I endured untold agonies. "The last attack was about 3 months ago, and I endured untold agonies. "The last attack was about 3 months ago, and I endured untold have to eat less starchy stuff, so I began the use of grape. Nuts food, for I knew it to be pra-digested, sand have continued same with most gratifying results. It has built me up wonderfully. I gained 10 pounds in the first 5 weeks that I used Grape. Nuts, my general health is better than ever up-to-disting the start of the sta

EASY LESSONS IN By FREDERICK RICHARDSON

and in Charge of Ill

All teachers of drawing have the problem of keeping the ambition of the pupil reliend in to the drudgine pace of his generical advancement. The degree of facility in drawing is always for behind a power adequate to attempt the pretentious subjects to which he supires. No matter how far technical difficulties may be obviated or avoided, the pupil is imparient for achievements beyond the progressive step that leads to their production.

While the present system has the one object of subjecting teacher and pupil to as little of the drudgery of the drawing school as possible, it has not the famous hope that some of the reasonably slower steps in advancement will not prove unreasonably incisate to some children.

Stories to Interest Children.

The teacher has been through the fall, and known how slow it is to grind into or even to grade et all, and it is not for him that this consideration is given, but for the child. There is a period after the adveity of the introduction of a new element has worn

FEEDING THE DUCKS

is a good idea, but not it compression.

"The Seesaw" is a direct, if somewhat obvious arrangement: The child could not be expected to foreshorten the seesaw so as to give better lines of composition. The teacher must not make, an unjust or unreasonable criticism. The background is interesting and well used.

Presse the Good Work.

cism. The background is interesting and well used.

Praise the Good Work.

The four pictures in the group are to be praised for their general excellence. Without pointing out that they are admirable is composition, which well as a composition, which well as a consideration for all such qualities as proportion, placement and intent of picture purpose, they may be praised as satisfactory evidence that these pupils have comprehended the foregoing instruction. Praise of particular excellence means more than just tribute to the pupil's achievement; it means the setting up for the other pupils of a standard for mulation. They have not the hope of approaching the teacher's excellence, but what another pupil can do seems more. Which their possibilities. The "Visit of Aunt Mary" was an ambitious effort that fully taxed the resources of the child's lack and their compositions of the child's lack of ability to moster them. Courage is laudable if accompanied by any idea of the formidable character of the obstacles to be overcome.

The boy catching the big turtie is an example of the child's lack of the little same cample of the child's lack of the little same cample of the child's lack of the little same cample of the child's lack of the little same cample of the child's lack of the little same cample of the child's lack of the little same cample of the child's lack of the little same cample of the child's lack of the little same cample of the child's lack of the little same cample.

midable character of the obstacles to be overcome.

The boy catching the big turtl's is an example of the child's sense of humor. Like the "Hornets" Nest." the expression is direct, and there has been no thought given to clothing the idea in any, beauty of line or form. Humor under such subtle treatment could not be expected an a young humorist. The teacher can find other subjects that will equally interest and call upon the memory, thagination and observation of the child. As they show how much the child's a ble to put its story-telling powers into actual use they are

of Writers Who Carry Cheer and Comfort to Many Bur-dened Souls.

Not long ago a certain minister, impressed by experiences in his own work, particularly by the great results that often followed from a single letter, suggested the forming of a league for writing letters. There were to be no officers, no dues, no by-law, anyone could become a member who would promise to write a single letter-a month to one who was sick or lonely or in trouble; and the name of the band was to be the League of the Golden Pen.

The idea took at once, says Youth's Companion. In a few months there were hundreds of names enrolled in the League of the Golden Pen, and the atmeter is steadily incressing. The simple suggestion of the name has been the means of carrying cheer and comfort to hundreds of burdened souls. Now and then, among the laments for the old days and ways—which doubtiess began with Adam's grand-children—we hear regrests for the vanished nrt of letter-writing. If by feters are meant the voluminous perpetrations of a century or more ago, miled with disquisitions upon philosophy and long rhapsodles upon—love and friendship, it is true that thelrage has passed.

But the real letter, whether the contains chattly pages full—of—homely every-day scenes and events or merely a few lines of love and encouragement, will never pass so long as human hearts endure, and never were so many sich letters written as to-day. Christmas letter- missions, prison let-

ALLEGED CORRUPT WORK.

tions of Gertain Lobbyists.

Frankfort, Ky, April 7.—Acting under orders given by Circuit Judge Stout, the grand Jury of Frankfin county began an investigation of remore current here during the last week of the regular season of the general assembly, of corrupting work of lobbyists against the measure proposing to place a tax upon rectified whisky. The members of the staff of a local paper were questioned by the jury and gave informations which will result in a number of persons from out in the state being summoned to come here and tell what they may know.

Will Fight New Lav Will Fight New Law.
Louisville, Ky., April 7.—It is now believed that instead of leaving the state, because of the rectifiers' tax of 1½ cents on each gallon of whisky made or brought into the state for branding, the distillers of Kentucky will fight the constitutionality of the law. Those familiar with the law, however, declare that it is constitutional in every degree.

al in every degree.

Lyne Going East.

Lexington, Ky., April 7.—Jockey Lucien Lyne, who has spent the winter at his home in this county, left for New York, where he will ride the coming season. Lyne will-likely have his first mount in the east this year ion. Roseben, in the Carter handicap, on the opening day of the Acqueduct meeting.

Has No Opposition.

Bowling Green, Ky., April 6.—Chairman Roark, of the Third congressional district, has called a meeting of the committee here for Saturday, April 14, to nominate a democratic candidate for congress. Hon. James M. Richardson, of Glasgow, the Incumbent, with have no opposition.

Young Widow Sua

Young Widow Sues.

Louisville, Ky., April 5.—Mrs. Annie
Liming, a young widow of this county,
allegos in a suit fited that she has
been victimized out of. \$2,300 by J. E.
Dixon under promise of marriage. She
sues to recover the piece of real existe
which she says the defendant purchased with her savings.

Revenue Collections.

Lawrenceburg, Ky., April 7.—At the office of, Stamp Deputy Thomas W Bell for the mothh of March the revenue collections amounted to \$198, 528.86. For the corresponding month of 1905 the receipts were \$129.210.95, an increase of \$60,417.96.

For Franchise Taxation.
Frankfort, Ky., April 7.—The Keninterpretation and
assessment fixed the valuation upon
all public service corporations for the purpose of franchise t year 1906. Only slig made from last year.

Paris, Ky., April 6.—At a meeting of the county republican committee reseabilitions were adopted expelling Jadge D. McClinicok from the republican party and forbidding him in the future to attend meetings or conferences of the republicans. He is accused of having secretly worked for the success of the democrats. Mr. McClinicok for over 20 years has been an active republican. He was a member of the county judge in the republican primary. He was by appointment acting postmaster, and was a leading candidate for the same office at the time of the appointment of the incumbent, Louis Earlywine. He is also prominently identified with the business insterests of the city, being a director of the Agricultural bank, the Bourboa County Agricultural society and representative, of several large insurance companies.

THE NORMAL SCHOOLS.

ernor Appoints Commission With Authority To Locate Them.

Authority To Locate Them.

Frankfort, Ky., April 6.—Gev. Beckham appointed seven commissionees, as follows, with authority to locate the two normal schools provided for by act of the general assembly at the recent session: Prof. Geo. Payne, of Paducah; Attorney G. B. Edwards, of Russeliville; Attorney Basil H. Richardson, of Glasgow; Superintendent F. A. Mevg. of Louisville schools; R. M. Arnett, banker, of Nicholasville; Prof. John Morris, of Covington, and Senator Moriton Watson, of Louisa, The commissioners will assemble here April 14 next, and adfertise for preposals for location of Sechools. Richmond and Bowling Green are leading in the competition for location. mond and Bowling Green are in the competition for location has offered valuable proper school site.

FARMER KILLED BY ENGINE

y Containing Thompson Bar and Son Struck on Crossing.

and Son Struck on Crossing.

Williamstown, K.y., April 7.—Thompson Barnes, a prominent Grant country farmer, was instantly killed at Mann's crossing near here. He had been in Cincinnati on business and his some thim here with a buggy. They were in the act of crossing the railroad track about a mile below town when Engine 672 crashed into them, horribly mutilating Barnes and huringh his son 25 feet. The latter way bruised, the horse killed and the buggy demolished.

demoished.

After a Sepáration of 40 Years.
Fulton. Ky., April 5.—After being separated for more than 40 years, C. M. Rutter, of Fulton country, and Deputy Sheriff Charles Thompson, of Union City, Fenn., who fought is a same company during the cit came face to face on the crowded streets here and a very emotional scene followed.

Colored Children Cremated.

Bonnieville, Ky., April 6.—During the absence of Jim Dixon, a colored section laborer, and his wife, his dwelling took fire and was destroyed, cremating two boys, aged three and six years. A third child, aged ten, attempted to rescue his brothers and sustained serious injuries, which may cause death.

Minister Was Arrested.
Glasgow, Ky., April 6.—Rev. J. T.
Pursley, a Baptist minister, has been
arrested on a charge of tarceny. Johnson-Terry, colored, claims that Pursley did not turn-over to him all the
money coming on an accident insurance policy. He denies the charge.
He is an insurance agent.

Will Erect a New Church.
Williamsburg, Ky., April 5.—The
Baptlat church congregation will build
a new 315,000 church this spring.
Nearly all of the money is aiready aubsortbed. A New York millionaire has
promised \$40,000 for a new recitation
building for Williamsburg institute if
the people will build the new church.

Overdose of Morphine.
Hopkinswille, Ky., April 6.—John N. Pepper, a prominent citizen of Kirkmansville, died from the effects of an overdose of morphine taken, supposed by, for the purpose of relieving neuralista, from which he had been suffering for several days.

Died At the Age of 95.
Covington, Ky., April 7.—Noah Wayman, 95, is dead. He was born-and
reared on the Independence pike, at a
place now called Scott's Post Office,
about unite miles from Covington.
Wayman often related storles about
the indians in this county.

Suddenly Disappeared.
Louisville, Ky., April 7.—Walt
Hoffman, claiming to be the son
wealthy New York-parents, has d
appeared from his boarding hou
here, and fears are entertained for I
safety, It is said that he was engag
to Miss Eisie Marshall.

FISHING BY THE RIVER

THE SEE-SAW "THE SEE-SAW" while other qualities such as humor, character, and even caricature—If obeying that requirement—were permitted.

A number of the pictures brought in are reproduced as showing the range of subjects attempted and the effect of the previous training upon the expression. Some of the more grossly humorogis ones have not been represented, be-

cause they disvegarded the restrictions above stated. Some are left out for their factors of faculty to see things by a mental eye, so as to represent them by drawing. Such an example of "The Plenic" shows this inhelity to express itself. The impossible positions with the absence of proportions are not intentional, but show that the child cannot see as well in this respect as its more talented schoolmates. It is funny without intent to be so. Compare the boy fishing in the pole with the boy fishing in the river or the boys going fishing, and note the uncertainty of placemen, the disprace

man hearts endure, and never-were so many such letters written as to-day. Christmas letter missions, prison letter translations, bands and societies for sending letters to invalids and hospital patients, and lonely men and women in far-away places, are constantly increasing.

"She learned a little about books." a

stantly increasing.

"She learned a little about books," a wealthy woman said of a lonely little school-teacher whom she had discovered and helped from her own splendld resources, "but I learned- a great deal about a very lovely soul." It is an exchange that is becoming more than more common; for to-day, as a every before in all the centuries, the whole world, rich and poor, sorrowid, and rejoicing, is being bound together by the Leaving of the Golden Pan.

A hugshead of tobacco raised on the Learn of Sidney G. Clay, on the Learn of Sidney G. Clay, on the Jeakstown pike, near Paris, has been sold for fifty four cents per pound, the highest price recorded in any tobacco market this year. The tobacco was of the finest quality of lugs and was purchased by Ashby Leer, of Millersburg. who represents the Louisville Tobacco Warehouse Co.—Georgetown News.

PLUTARCH No. 3183.

Season 1906

The great GERMAN COACH STALLION, PLUTARCH No. 3183, imported from Germany by J. Croach & Son, of LaFayette, Indiana, now owned by the Burlington Horse Company, will make the season of 1906, from the 1st of April until the first of July, in the town of Burlington, Boone Co., Kentucky; the remainder of the time at L. A. Conner's stable, four miles south of Burlington, on the East Bend road.

PEDIGREE AND DESCRIPTION.

Plutarch No. 3183, was foaled June 8th, 1901; bred by H. Stukenberg, Hammelwardermoon,

Sire- Ailrat No. 1193, by Magnat No. 860, Agamemnon No. 560, &c., &c.

Dam-Pavone No. 6423, by Tello No. 1190, by Young Othello No. 923, by Othello No. 755, &c. 2nd Dam—Pfalz No. 3087, by Claro No. 890, by Kimme No. 568, by Young Duke of Cleveland No. 200, registered it. "The German, Kanezer and Oldenburg Coach Horse Stud Bork."

This Stallion is a Mahogany bay 16½ hands high, weight 1300 lbs., has the size, color, and style combined with extreme knee action, lifting his feet high which gives elegance to his pace and action. His points are strong with clean bone under the knee and feet sound, open and tough. He carries his head well with neck very rangy, long and well cut up at throttle, having a fine ear, well set broad forehead with large intelligent eyes and has a fine gentle disposition.

In order to produce good colts it is not necessar to have fine as high bad and the carries have fine as high the day.

In order to produce good colts it is not necessary to have fine or high bred mares as the German Coachers being so long and strong bred will produce high class colts from all classes of mares.

The colts are fine and large and develop quickly. No other breed of stallions will produce as many good colts from all classes of mares.

W. W. DICKERSON B. T. CLAYTON OF CLASSING COLORS IN THE CLAYTON OF COLORS IN THE CL

It must be remembered that this class of horses always demands high prices and to-day they are the highest price horse on the market.

TREMS:—\$20.00 to insure a colt to stand up and suck, money due when colt is foaled or mare parted with. Parties breeding must follow up the season. Care taken to prevent accidents, but not responsible should any occur. Positively no service on Sunday. Pasture furnished and mares taken care of at \$4.00 per month.

We will give a premium of \$50 for the three best colts the get of this stallion of 1906, to be shown regardless of sex at the Florence Fair in the fall of 1907, the premiums will be awarded \$25, \$15, \$10, For further particulars call on or address

Telephones are being much used in arge coal mines. In some cases there the galleries penetrate far from he shaft or mouth of the mine the elephone systems are quite elaborate and the shaft of the shaft or mouth of the mine the elephone systems are quite elaborate and the shaft of the shaft

The Germans spend on drink in a ser about \$700,000,0000, which is here times the cost of the army and any combined, or seven times the cost of primary education to the country, and almost equals the national left.

the British government stands to tite naval reserve unless it changes in regulations, which require 28 secutive days service at eas n a fleship each year. As most of the are engaged in liners and other going vessels, this gives them the ce of leaving the reserve or losing r ships.

Hon. Frederick Holbrook, of Vermont, who recently passed his 93d birthday, is the only one of the famous "war governors" now surviving. He stood with Govs. Curtin, of Pensylvania, and Andrew, of Massachusetts, as one of the stanchest supporters of the Lincoln administration when it most needed such support as they could give. dd give

A simple game of cards, played recently in Budapest by a Hungarian and
an Armenian merchant, resulted in
\$600,000 changing hands For 48
hours the two players sat at a small
table in Cafe New York, and, though
hundreds of people passed in and out
if the place, but for my sayara that,
a great fortune was slowly but surely
being passed-across a small marbletop table.

American newspaper men rejoiced in the good fortune which lately beful Sir Alfred Harmsworth, the enterprising English editor and assuspaper proprietor, who made a tour of this country last year. The good fortune consists in the peerage bestowed upon him by King Edward as a mark of recognition for the distinguished service the former has rendered to English journalism.

local and resolved to buggist journalism.

Icelanders have a strange but effective plan for preventing horses from straying saws. They the the head of one horse to the tall of another, and the head of this to the tall of the former. In this state it is impossible for the horses to move on, either backward or forward. If disposed to move at all, it will be only in a circle, and even then there must be mutual agreement to turn their heads the same way.

One of the remarkable things about baseball is the scarcity of accidents to players. In the two major leagues alone there are 300 ball players playing 170 days a year at least, and yet if even one is hurt it is heralded all over the country. There are perhaps 1,000,000 people in the United States who play ball of some form every day from April to the middle of Cotber, and at the least estimate there are 4,000 games of ball played every day is summer, and the serious accidents do not average 25 to the season.

In the last fiscal year Great Britain bought goods from the United States worth \$550,000,000 and sold to us \$191,000,000 - worth. Notwithstanding the large volume of imports from this country into the United Kingdom, large volume of imports from this country into the United Kingdom, there was a decline compared with the preceding years, the decline being principally in food-stuffs. What we received from Great Britain were mainly manufactured articles. The imports from and the exports to the British colonies vary less than \$4,000,000, the imports to the colonies aggregating \$584,000,000 and the exports \$587,793,000.

An event of large and happy sig-mificance in the sphere of religious life and progress occurred at Dayton, O., a few days ago. It war nothing less than the practical consolidation of three denominations, the Congrega-tionalists, the Methodist Protestants, and the United Brethren, the three representing a total membership of over 1,085,005. This merger had been under consideration for a number of years, and was finally brought about by a conference at Dayton, at which over two hundred delegates from the three denominations were present.

Exciting Events in the United States and Foreign Countries Condensed For the Busy Reader—Crimes and Casualties.

The Eruption of Mt. Vesuvius.

Weakened by the weight of sand and enders from Mt. Vesuvius, the Mt. Ollveto market, which covered a plot of ground 600 feet square, fell upon 260 or more persons, of which 12 were killed, two mortally injured, 24 dangerously and 100 less seriously lajured. Several of the dead were crushed and mangled beyond recognition. Porre del Greco has been practically deserted. Communication by rail or tramway with Torre del Greco and Torre Annunziata is impossible. Travel to and from Naples is much hampered and a collision resulted in the injury of about 12 passengers. The Eruption of Mt. Vesuviu

is much hampered and a collision resulted in the injury of about 12 passengers.

Gaunt hunger, following in the wake of the terrible outburst of Vésuvius, threatens Naples and Southern Italy. Trains can not run, tracks being burled several feel under the cinders. The food supply, which can not be replenished, is rapidly failing. Thousands of the refugees who flocked into Naples have to be fed. While the news from Mt. Vesuvius is seasuring, the conditions -ti-Naples are such as make it difficult to realize that conditions are actually better. It is estimated that 5,000 houses have been partly destroyed.

The period of danger has passed and only-desolation and slowly-decilning paint remain. Mt. Vesuvius has ceased to give any sign of life The -voleano-seems to-have spent. It self in one enormous convulsion. Director Matteucoi, who heroically holds the post in the observatory, believes that the eruption has ended, and every outward indication confirms this view. No more rumblings come from the bowels of the earth, giving terrifying a vast circle in semi-darkness. Naples is just beyond this circle, and the city was bathed in sunshine while the utyl black pail hung to the westward over a belf midway between Home and Naples.

Congressional Rems.

a belf midway between Rome and Naples.

Three Negroes Hanged and Cre-mated at Springfield, Mo.

rs of Mob Were Not Dis Worked in Full Glare Electric Lights—Militia on the Scene.

Springfield, Mo.—A mob of 3,000 men on Saturday night took two negroes, Horace Dunean and Jim Copeland. from the county isli, hanged them to the statue of the Goddess of Liberty on the courtbouse and built a fire under them.

The men were characteristics.

a fire under them.

The men were charged with attacking Mable Edmondson, but it is said

ing Mable Edmondson, but it is sald they were probably innocent.

At 2:15 o'clock Sunday morning William Allen, a young negro, was taken from the county jall and lynched in the public square by the same mob that two hours earlier had hanged drorace Duncan and James Copeland. The body of Allen later was burned to sakes as had been those of the other negroes, beneath the spot where they had been lynched.

Following the dispatch of Duncan and Copeland some one suggested that Allen and Bus Cain, two other negroes, snown to be in the jaid, should also be lynched. The mob, now bloodthirsty and wrought up to the highest pitch of excitement, readily took up the cry and soon the charred bones of a third victim lay beneath the statue of the Goddess of Liberty. Cain escaped.

Allen and Cain were being held upon supplicion of having murdered O. P. Ruark, while Duncan and Copeland were accused of assaulting Mabel Edmondson.

Their work finally accomplished, the price of the control of the contr

EXPLOSION ON KEARSARGE

Seven Men Were Killed By Catas trophe in Caribbean Sea.

trophe in Caribban Sea.

Washington.—Just two years to a day later than the disaster on the Missouri, and as every sailor immediately recalled, on a Friday and the 12th of the month, six men met-death in the forward turret of the battleship the head of the forward turret of the battleship the acquire additional terror for sailors because of their obscure origin and almost impossible of prevention. The Atlantic fleet, the strongest squadron America has ever—owned, had been for weeks engaged in drill in the Caribbean-sea, culminating in the quarterly target practice. This practice was just about concluding with most satisfactory results up to Saturday, and it was confidently expected at he department that all records would be broken in the matter of rapidity of fire and efficiency of the gunners. But are cablegram came from Rr. Adin. Evans telling of a dreadful accident on the Kearsarge. The news came from Caimanera, a little cable station at the mouth of Guantanamo bay.

Produces Batch of Documentary Evi-dence Against Dowle.

dence Against Dowle.

Chicago.—General Overseer Wilbur Glin Vollya produced the first of his batch of documentary evidence by which he hopes to confound John Alexander Dowle and his followers, who are endeavoring to regan control of Zion City. The instrument was a letter written under date of April 13, 1904, and addressed to "Dr." Dowle, who had been in Zurich, Switzerland, The letter was signed by Overseers John of, Specher, Charles J. Bernard and Judge V.-V. Barnes.—In the document they where Dowle that unless the changed his ways in the management of your City a clash was inevitable. Dr. Jowie emphatically denies the story that he intends to pescefully settle all disputes by accepting 5 per cent. as his share of Zion property. Colored Clergy Protests To Rossewit

cent. as his share of Zion properly.
Colored Clergy Protests To Roosevelt Chicago.—The colored clergy of Chicago will appeal to President. Roosevelt for an official investigation of, the lynching of three members of their race at Springfield, Mo. A resolution was prepared asking the president to take action.

John F. Wallace Third Arbitrator,
New York.—John F. Wallace, formerly chief engineer of the Panman canal, has been selected as
the third arbitrator in the dispute recarding wages between the Grand
Trunk reliway and its engineers

FOR NERVOUS PEOPLE

When the blood is impoverished the mervesstarve and neuralistor something more sorious swiftly follows. Nervons people are generally pale people. By supplying through the blood those vitation of the people have been supplying through the blood those vitations in the performed those remarkable curse that sinke it impossible for any nervous sufferer to megle the substantials of the performed those remarkable curse that sinke it impossible for any nervous sufferer to megle the substantials of the performed those remarkable curse that sinke it impossible for any nervous sufferer to megle the substantial to the performed those the substantial to the performed those the substantial to the substantial to the performed those the substantial to the substa

NOTES ON NATIONALITIES.

Thank are no paupers in Servia. Even the poorest people succeed in extabilishing homes, and most own them.

A Chinese often presents his inteaded bride with a pair of geese, and they pregarded as amblems of conjugal indelity.

The head of an Eskimo family gives his doctor a fee as soon as he comes. If the patient recovers, it is kept; if not, it it returned.

The Korean is, as a rule, an improved in the patient individual in a chronic state of impeciniosity. He is always ready to receive a loan on almost any terms.

In Bolivia the natives of the interior wear hats and shirts made of the bark of a tree, which is first scaked in water and then beaten until pliable.

The Japanese have a chorus on the stage called Joruri. The Joruri sing what the actor is supposed to be thisting, and he shows his emiglions by his gestures and the expression of his face.

Ladles seldom rise in Spain to, receive a mple visitor, and they raiely

gestures and the expression of his face.
Ladies seldom rise is a "Spain to, receive a mple visitor, and they rarely
accompany him to the door. For a
Spaniard to give a lady-even his wife
—his arm when out walking, is regarded as, a decided violation of propriety.
Conspicuous among the adoptiments
of the bridal feast in Brittany is an
artiatic and elaborate butter structure,
as fanciful and elegant as the most
beautiful bridal cake, and into this
structure the guesta stick split sticks
bearing coins of gold or silver.

MEN AND MATRIMONY,

When a man strikes had luck he in-dulges in the most glowing of good resolutions.

resolutions.

The engaged girl takes delight in telling how long she will be away on her bridal tour.

Men are extravagant to the verge of recklessness for at least three months after the marriage ceremony.

From Sumatra, the Rhenish Missionary society reports a year of harvest such as it has never before seen. The number of pagans baptized juring the year was 4,712, festides 138 Mohammedans. The total of Christians is new 61,764. In 301 schools, 41,515 boys and girls are under instruction.

A WOMAN DOCTOR

Was Quick to See That Coffee Poison Was Doing the Mischleef.

Was Quick to See That Coffee Poison
Was Doing the Mischleef.

A lady tells of a bad case of coffee
poisoning and tells it in a way so simple and straightforward that literary
skill could not improve it.

"I had neuralgic! headaches for
12 years," she says, "had have suffered
untoid agony. When I first began to
have them I weighed 140 pounds, but
they brought me down to 110,
then to trany doctors and they gave
me only temporary relief. So I suffered on, till one day ip 1904; a woman
doctor told me to drink Postum Food
Coffee. She said I looked like I was
coffee poisoned.

"So I began to drink Postum and
I gained 16- pounds in the first I-wa
weeks and am still gaining, but not
so fast as at first. My headache began
to leave me after I had used Postum
about two weeks—long enough I expect to get-the coffee poison out of my
system.

"Now that a few months have
passed since I began to use Postum
food Coffee, I can gladly say that I
never know what a neuralgic headach
is like any more, and It was noth
ing but Postum that cured me. Before I used Postum I never went out
alone; I would get bewildered and
would not know which way to turn.
Now I go alone and my head is as
tiear as a bell. By brain and neveter stronger than they have been forpears." Name given by Postum Co.

There's a reason. Read the little
book. "The Road to Wetters." in

years." Name given by Postum Co., Battle Creek, Mich. There's a reason. Read the little book, "The Road to Well'ship," in pkgs.

SAD FEELING EXISTS.

An Illegal Expenditure of the County's Funds is Alleged.

Punds is Alleged.

Owingsville, Ky., April 12.—When the new fiscal court here came into being on January, I. T. S. Peters, excounty cierk, and H. Sherman Goodpaster, county attorney, were appointed a committee to investigate the fignicial condition of the county. They made their report Tuesday night, staining they had found that \$7,000 had been illegaliy expended by the old fiscal court. This amount was drawn over and above the salaries of the members on their personal check. At the same meeting Horace L. Lane was defeated for the office of county treanner by James Shankiand. It feeling growing out of Lane's defeat and that of John McKinnivan for poor house commissioner caused an encounter on the street here between Lane and McKinnivan. Knives were drawn but before they could be used the men were separated. Feeling is at fever heat between them and further trouble may result. They were formerly close friends and are related by merriage.

WERE BOUND OVER.

Bowling Green, Richmond, Faducah, Frankfort and Glasgow are in the competition.

Candidates For Congress.
Winchester, Ky., April 12.—Finley logg, chalrman of the democratic excutive committee of the Tenth congressional district gressional district, has called a convention for April 19 at Psintsville. Frank Hopkins, of Prestonburg, Ky.; Judge John E. Cooper, of Mt. Sterling, and Amos Davis, of West Liberty, are candidates for congress.

J. Rowan Barclay Dead.
Milton, Ky., April 14.—Mr. J. Rowan
Barclay, one of 'Trimble county's oldest and best men, is dead at his home
here. He was born in Louisville, January 26, 1822, and for 26 years had
been deputy county clerk.

Succumbs To Pneumonia. Franklin, Ky., April 14.—Mrs. Price Smith died of pneumonia after two days' lliness. She was 82 years old and had been a member of the Metho-dist church 68 years. Six children sur-

Double Army Romance.

Double Army Romance.

Pineville, Ky., April 12.—James L.
Bagley and Charles Hillion, recently
paroled from the United States army
at Washington, were married here to
Bessie Brown and Bethel Roberts respectively, both from Washington city.
It is said the couples eloped.

Appointed To a Lieutenancy.
Lexington, Ky., April 12.—Brnest
Helm, managing editor of the Lexington Herald, has been appointed to a
livutenancy in the Phillippine constabulary by Gen. Henry T. Allen, chief
of the constabulary.

Fire Destroys Three Stables and Fly Cottages at Lexington Race Track,

Cettages at Lexington Race Track.

Lexington, Ky., April 14.—Three stables at the Lexington track and five cottages, just outside, on Breckinridge street, were destroyed by fire late Friday, together with 10 horses belonging to George W. Bissell, of Pittsour, Pa, and James Baker, of Lexington. The loss is about \$50,000. The fire for a time looked serious and only a fortunate shift of the wind saved the entire plant of the racing association. The stables destroyed in addition to those of the same of the sa

A POISONER IS SUSPECTED.

Two Children Are Dead and Two Dving in the Same Family

in the Same Family.

Owensbore, Ky., April 14.—Two children of Hr. A. Miller, or this county, are dead and two others are ill from some mysterious cause. All the children were affected in the same way. A boy 15 years of age became ill lant Thursday and died in a few hours. A few days later his younger brother became ill mand despite the efforts of four physiciams died in agony. The other two yieltims are girls and they are dangerously ill. There is suspicion that some person, who cherishes enmity toward the family has intentionally administered the poison. A bottle of water from the well has been sent to a chemist to randysis. The physicians say they have no grounds to believe that poison was intentionally administered.
